

## Important details about the Disposal Pass Program

It is **important** that all disposal pass guidelines are reviewed before going to the Waste to Energy Facility. There are restrictions on what can be brought to the tipping floor and fees associated with unsecured loads. View the [complete Waste Disposal Guide](#) (contains what is allowed and what is not allowed).

- Electronics (computers, monitors, TVs, DVD Players, e-readers) are not allowed. Please visit the [Washington Recycles page](#) to learn where your closest electronics recyclers are.
- Disposal passes are only valid at the [Waste to Energy Facility](#) (2900 S. Geiger Blvd). Their hours are 7:30 a.m. - 5:00 p.m., 7 days a week (except for New Year's, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas). All services (garbage, recycling, clean/green and household hazardous waste disposal) are available at all hours.
- Disposal Passes cover up to \$25 in tipping fees. Residents are responsible for any fees in excess of \$25 disposal pass. Disposal passes have no cash value and cannot be carried over to additional vehicles/trips. The pass is surrendered at time of redemption. Payment of fees in excess of \$25 is due at time of transaction (cash, debit/credit & check are accepted; fees cannot be added to utility bill)
- They are for residents in the City of Spokane limits only (businesses, organizations, and schools are not eligible).
- Passes are only to be used by the City of Spokane resident that it was issued to or the identified alternate (name is input at time of request and included at the top of the disposal pass). Passes may not be transferred, sold, etc. Violating this policy may prevent the customer from utilizing the disposal pass program in the future.
- Combined loads cannot be separated by type in regard to fees. If you bring a combination of yard waste/ recycling/ garbage in one vehicle load, it will all be charged as general garbage.
- Loads being delivered to disposal sites must be covered with a tarp or secured with a rope or other means to prevent spillage. If your load is not secured/covered, a fee will be charged.
- Recycling (blue cart items) and Household Hazardous Waste (paint thinners, pesticides, oven cleaners, batteries, etc.) are accepted free of fees. They must be hauled separately from garbage and clean/green to receive free disposal.
- Clothing items can be recycled free of charge at the Waste to Energy Recycling Center. Look for the yellow drop box.
- Please anticipate long lines at the Waste to Energy Facility and be patient with staff.
