There are currently problems with accessing the passes since the students are required to call customer service first before registering online.

The meetings are open to the public. He noted the CoC will send two representatives. He and Shannon were selected by the Board to attend.

Youth - Alex Jordan provided an overview of the Youth and Young Adult (YYA) Coordinated Entry system and the Policies and Procedures that will be voted on later today. Some discussion followed.

MOTION by Gage Spicer, seconded by Arne Woodard, **to approve the Youth and Young Adult Coordinated Entry Policies and Procedures; approved unanimously.**

CA update – Kimberly Babb provided an update on the PIT. The dates for 2024 are Monday, January 22nd is the sheltered count date with January 23rd through January 27th as the unsheltered count/outreach dates. The PIT information and volunteer sign-up link is on the CHHS Department website <https://my.spokanecity.org/endinghomelessness/point-in-time-count/>. Kimberly is hoping that Ted Colley with CMIS can review the new app that will be used with the CoC Board at the next meeting. Volunteer Headquarters will be at the philanthropy center downtown. There is a youth-specific plan in the works. Other details like connecting with Homeless Connect and the questions are being looked at but are not finalized yet.

Kimberly then provided an update on the Governance Charter updates for the Committees, recruitment schedule, and lived experience stipends. She also called for any other suggestions from anyone else who sees something in the Charter that should be changed/updated.

Kimberly also provided information from the Unified Funding Agencies (UFA) quarterly meeting HUD. A topic during that meeting was UFA's feeling frustrated with this year's NOFO process because the detailed instructions and e-snaps wasn't opened early enough for people to get a good start. HUD accepted the criticism and will be looking at updating their policies and procedures for the future. There was also discussion around shared housing and Kimberly would like to have a discussion for our area to provide insight from our experience in a future UFA meeting. Some discussion followed. Kimberly would like to review performance measures and improvements at the next meeting.

Spokane Regional Authority: Shannon Boniface provided a brief update on the Regional Authority. There is still much discussion around governance and funding breakdowns. Nothing is really agreed upon at this time. Shannon reminded the board members of a meeting with Gavin Cooley about the CoC in relation to the Regional Authority.

Diversion: Jasmine Bower provided a brief update focusing on a training at the Resource Center in November on the 13th and 14th.

Families: Heather Eddy provided a brief update that at their last meeting they had Alex join to provide info on the Youth Coordinated Entry and how that would work with the Family system. She also mentioned that the Heart Program has some vouchers for gas for adults driving kids to school. Some discussion followed.

Singles – Eric Robison provided an update on the Built for Zero Coordinator position with United Way. Kaiser Permanente wants to see a finalized MOU before funding the position. There will be

a small presentation next month on Built for Zero. For now, it's just in a hold. Kimberly confirmed that a new MOU draft has been sent and the City is just waiting for it to be accepted or to receive a request for changes.

Veterans: Jennifer Wilcox provided an update that the Veterans Stand Down was held on October 7th with about 60 vendors and 150 participants. It is similar to Homeless Connect but for all veterans and their families. Jennifer also let the Board know that the Patient Access Care Team (PACT) will be holding monthly meetings at the Carlyle and there will be a shelter selected for these meetings with veterans as well.

Young Adult: Gage Spicer provided a small update about Rose being on leave so LaKedia is going to fill in for her.

Coordinated Entry: Shannon Boniface provided an update on developing a universal tool to replace the SPDAT and the tool could be used for all populations in our community. A workgroup is scheduled for tomorrow as there is still some work to be done before finalizing it including having a vetting process for it among providers.

Youth Advisory Board: Pink reminded that YAB wants to move organizations and is developing an RFP for applicants. There is a meeting with Better Health Together regarding the process to keep YAB running during this change. A brief discussion followed.

Equity Workgroup: Jennifer Wilcox provided a brief update on the name change from the Racial Equity Workgroup to just the Equity Workgroup and Reese McMullin is the Chair. The first meeting was held October 10th. They would like to expand from BIPOC to all equity needs. They will meet on the second Tuesday of the month at 4:00pm.

CMIS: Matt Anderson provided an update about the CMIS Committee wanting to move from CMIS back to HMIS. The HMIS system has improved over the years and so the base system may be all that is needed for accurate, quality data. CMIS is more cumbersome and may be unnecessary. There is more to look at before committing to ask for a board vote, but it is being looked at. Arielle suggested bringing David Lewis in for some of this conversation. Kimberly asked for a chart to help show the differences between CMIS and HMIS. Arielle wants this to be an hour-long standalone item to be discussed at the next CMIS meeting.

CAPER/APR Updates: Adam provided a brief update that extensions have been requested but HUD has not given a time yet.

Eviction Prevention and Coordinated Entry: Chris McKinney provided some additional information on the award and how it differs from other funds within CHG. Eviction Prevention is basically a more restrictive fund. Discussion followed around Coordinated Entry being used for Eviction Prevention and that increasing the load on our system without having additional staff in

place. There is going to be a conversation about this at the coordinated entry workgroup meeting tomorrow.

YHDP Referrals: Shannon asked if there was an issue with YHDP Referrals. Adam responded that it was the City's understanding that VOA did not want to take referrals from the current system. More clarification will be done offline.

Meeting Adjourned at 5:05 PM.

The next COC Board Meeting is scheduled for **November 22, 2023 from 3:00-5:00 pm.**

In this endeavor, the Board will review the coordinated entry policies and procedures to ensure the following goals are able to be achieved as coordinated assessment is a key step to assessing need and providing services (Appendix Item 1):

- 1) Easier access to appropriate housing and service interventions for persons experiencing homelessness or a housing crisis;
- 2) Prioritization of persons with the longest histories of homelessness and the most extensive needs;
- 3) Lower barriers to program entrance or receipt of assistance; and

Board members shall be familiar with the 5-Year Plan, as all the work of the CoC is based on the 5-Year Plan.

To the extent that CoC Board Members represent an entity or constituency, they are responsible for relaying information back to that constituency about what is discussed at Board meetings (unless that would violate someone's confidentiality), and should serve as conduits to relay the concerns and opinions of Members of their constituency back to the Board.

Members are required to attend no less than 75% of meetings (e.g., at least 9 of 12 monthly meetings) within a calendar year. Committee members must notify the Chair of the CoC of their excused absence and if they are sending a proxy from their organization. The Spokane City/County Continuum of Care (CoC) has adopted these policies to ensure that all individuals and families experiencing homelessness have equal access, without discrimination, to all necessary housing and supportive services. The Spokane City/County CoC's Anti-Discrimination Policies apply to staff, volunteers, and contractors at all partner agencies. The Spokane City/County CoC's Anti-Discrimination Policies adhere to the Department of Housing and Urban Development HUD Equal Access Rule.

Providers of housing and services in the Spokane City/County CoC shall not discriminate on the basis of race, ethnicity, color, national origin, immigration status, language, ancestry, religion, sex, familial status, veteran status, age, gender identity or expression, sexual orientation, marital status, experiences of violence (including but not limited to domestic/interpersonal, dating, sexual, or hate violence), source of income, justice system involvement, disability (including sensory, mental, or physical disabilities), or any other discrimination prohibited by law, regulation, executive or court order.

The Spokane City/County Continuum of Care shall act in accordance with 24 CFR Part 5, which ensures equal access for individuals in accordance with their gender identity in programs and shelters funded by HUD's Office of Community Planning and Development. All eligible individuals and families (regardless of sexual orientation, gender identity or marital status) should be accommodated in temporary, emergency shelters and other facilities used for housing, in accordance with the gender identity in which the individual identifies (24 CFR 5.100).

More information about HUD rules pertaining to Equal access in accordance with individual's gender identity and sexual orientation can be found here: <https://files.hudexchange.info/resources/documents/Equal-Access-Final-Rule-2016.pdf>.

Housing for specific subpopulations. Recipients and subrecipient may exclusively serve a particular homeless subpopulation in transitional or permanent housing if the housing addresses a need identified by the Continuum of Care for the geographic area and meets one of the following:

- (1) The housing may be limited to one sex where such housing consists of a single structure with shared bedrooms or bathing facilities such that the considerations of personal privacy and the physical limitations of the configuration of the housing make it appropriate for the housing to be limited to one sex;
- (2) The housing may be limited to a specific subpopulation, so long as admission does not discriminate against any protected class under federal nondiscrimination laws in 24 CFR 5.105 (e.g., the housing may be limited to homeless veterans, victims of domestic violence and their children, or chronically homeless persons and families).
- (3) The housing may be limited to families with children.
- (4) If the housing has in residence at least one family with a child under the age of 18, the housing may exclude registered sex offenders and persons with a criminal record that includes a violent crime from the project so long as the child resides in the housing.

(5) Sober housing may exclude persons who refuse to sign an occupancy agreement or lease that prohibits program participants from possessing, using, or being under the influence of illegal substances and/or alcohol on the premises.

(6) If the housing is assisted with funds under a federal program that is limited by federal statute or Executive Order to a specific subpopulation, the housing may be limited to that subpopulation (e.g., housing also assisted with funding from the Housing Opportunities for Persons with AIDS program under 24 CFR part 574 may be limited to persons with acquired immunodeficiency syndrome or related diseases).

(7) Recipients may limit admission to or provide a preference for the housing to subpopulations of homeless persons and families who need the specialized supportive services that are provided in the housing (e.g., substance abuse addiction treatment, domestic violence services, or a high intensity package designed to meet the needs of hard-to-reach homeless persons). While the housing may offer services for a particular type of disability, no otherwise eligible individuals with disabilities or families including an individual with a disability, who may benefit from the services provided may be excluded on the grounds that they do not have a particular disability.

Involuntary Family Separation Policy

Involuntary separation is prohibited in CoC and ESG funded projects. The Spokane City/County CoC will work with providers to ensure shelter placement efforts are coordinated to avoid involuntary family separation. CoC and ESG funded projects may not deny admission to any household on the basis of:

- Describe your current participation in the homeless crisis response system and/or how it impacts your daily life or work.

I am currently not participating in the homeless crisis response system, but I am interested in learning more about it and how I can support these efforts at the strategic level. I have been a part of several community conversations with several cross-sector organizations regarding how to positively impact systemic change at the policy level to increase access for individuals who face housing insecurity. In my current role at Innovia Foundation, I have been connected to initiatives and collaborative philanthropic projects to address both the immediate and long terms issues of homelessness in Spokane. Also, I serve as the Vice Chair of the Board of Director for the non-profit Priority Spokane which is currently considering research regarding how to address similar issues. I have participated in volunteering at a organization's such as Crosswalk, Union Gospel Mission, and have advocated for policies that will help to prevent homelessness. I have seen firsthand the impact of an individual who can call a safe place a home and want to contribute to these efforts.

2. Describe how you currently partner to address community needs.

Within my role at Innovia Foundation I work alongside organizations that pool together donations from individuals, families, and businesses to support local causes. They are a vital part of the philanthropic landscape, and they play a significant role in addressing community needs. Some specific ways that I contribute to address community needs are through making grants to nonprofit organizations who are working to address specific community needs such as Homelessness. Our organization supports community collaboration that address homelessness by providing physical space and opportunities for key stakeholders to develop initiatives such as the Spokane Regional Authority for Homelessness, Housing, Health and Safety. This group has been charged with leading to the development of a government identity committee to address the homelessness issue. Their goal once the regional authority is established is to reduce homelessness by 40% in Spokane over the next two years. These are just a few examples of the many ways I can address community needs.

3. Describe how the mission of the CoC fits with your personal and/or professional goals.

The mission statement of the Spokane City/County CoC aligns with my professional and personal goals in the following ways: Professionally as a philanthropic professional, I am passionate about working to prevent and end homelessness. The CoC's mission statement aligns with my professional goals because it focuses on making homelessness rare, brief, and non-recurring. I believe this is the best way to address the issue of homelessness, and I am committed to working towards this goal. Likewise, I care about making a difference in my community. I believe that everyone deserves a safe and stable place to live, and I want to do my part to help those who are experiencing homelessness. The CoC's mission statement aligns with my personal goals because it is focused on helping people who are experiencing homelessness.

4. Please share any affiliations you have and your participation with that group or organization (e.g. as a volunteer, board member, or staff).

Vice Chair, Board of Directors of Priority Spokane
Board Member At-Large, Greater Spokane Valley Rotary

5. Describe your interest in and/or experience with preventing and ending homelessness in Spokane City/County

I am interested in preventing and ending homelessness in Spokane City/County because I believe that everyone deserves a safe and stable place to live. I am also concerned about the impact of homelessness on our community. Homelessness can lead to health problems, mental health problems, and substance abuse problems. It can also make it difficult for people to find jobs and get back on their feet. I am willing to learn and get involved. I am confident that I can use my skills and knowledge to make a difference at the strategic board level. If selected as a member of this board of directors I would represent the philanthropic sector in our area and would be responsible for relaying information back to that philanthropic partners about what is discussed at Board meetings. I would also be a conduit to relay the concerns and opinions of Members of their constituency back to the Board. Also, I would ensure to effectively share progress and updates regarding the CoC 5-year plan with my professional colleagues to inform and develop opportunities of engagement and collaboration.

6. How would you define equity?

I define equity as the fair and just distribution of opportunities and resources. This means everyone has the same chance to succeed, regardless of their background or circumstances. Additionally, I believe equity is different from equality. Equality focuses on the main concept that everyone is treated the same, regardless of their differences. On the other hand, equity recognizes that people have different needs and experiences, and it seeks to address those differences to create a level playing field. I have utilized implementing equitable practices professionally with the goal of removing barriers that prevent people from succeeding and creating a more inclusive and welcoming environment for everyone.

7. Give us an example of when a situation brought racial equity concerns to you and then explain what you did as a result?

I was working as a volunteer at a teen homeless shelter in Portland, Oregon. I was talking to one of the residents, a young woman named Maria, who was originally from Mexico. She told me that she had been living in the shelter for several months, and she was struggling to find a job. She said that she had been discriminated against by employers because of her accent and her immigration status. I was really concerned about Maria's situation. I knew that she was facing many challenges, and I wanted to help her. I talked to the other volunteers at the shelter, and we decided to start a mentoring program for homeless people who were facing discrimination. We matched Maria with a volunteer who could help her with her job search and her immigration paperwork. I am glad that I was able to help Maria. I learned a lot from her about the challenges that people of color face in our society. I am committed to working for racial equity, and I will continue to do whatever I can to help people who are facing discrimination.

8. What do you believe are the causes of homelessness?

I believe homelessness is a complex issue, and there is no single cause. It is often the result of a combination of factors such as individuals who are living in poverty are more likely to experience homelessness. This is because they may not be able to afford rent, food, or other essentials. Individuals who are unemployed are also more likely to experience homelessness. This is because they may not have the income to afford housing. Additionally, people with mental illness are also more likely to experience homelessness because they may have difficulty finding and keeping a job, or they may not be able to afford housing due to their medical expenses. All these factors contribute to individuals becoming challenged with housing insecurity.

9. Describe how you will share your expertise and your requested seat/position/sector's role in the homeless crisis response system with the rest of the CoC Board and its stakeholders.

I believe that my expertise as a philanthropic professional can make a valuable contribution to the CoC Board and its stakeholders. I am committed to sharing my knowledge and experience, providing insights and recommendations, building relationships, and advocating for change. I am confident that I can help the CoC achieve its mission of making homelessness rare, brief, and non-recurring in our area. Here are some specific examples of how I would share my expertise as a philanthropic professional in the homeless crisis response system:

- I would share my knowledge of the different funding streams that are available to support homelessness prevention and intervention programs.
- I would provide insights into the challenges that organizations face in fundraising and resource allocation.
- I would recommend best practices for developing and implementing effective homelessness prevention and intervention programs.
- I would build relationships with key stakeholders, such as government officials, business leaders, and community members.
- I would advocate for policies and programs that will help to end homelessness.

I believe that my expertise and experience can be an asset to the CoC Board and its stakeholders. I am committed to working with them to achieve our shared goal of ending homelessness in our community.

10. What else would you like us to know about you?

Here are few additional items I believe would be helpful to know about me. I am a hard worker, and I am dedicated to my work. I am confident that I can commit the time and effort necessary to be an effective board member. I am a creative thinker, and I am always looking for new solutions. Finally, I can work to raise awareness about the issue of homelessness and to promote policies and programs that will help to end homelessness. I believe that my skills, experience, and dedication make me an ideal candidate for this board position. I am confident that I can make a valuable contribution to the CoC Board and its stakeholders.

Spokane Continuum of Care Sub Committee Monthly Report June 2023

- Jenn Snow, (Goodwill) HEN – Changed walk-in hours/process for Workforce & Family Services Department at Goodwill, now includes Eligibility Specialists to help people navigate service options when they first come through the door. Walk-in hours: 8am -11:30am, M-F.
- Sabrina StClair, CHAS outreach – Just posted for another Community Health worker position.
- Melissa Morrison, BHT – For those that are justice-involved: resource fair next week in Colville; Training on Nov 3rd on creating equity through affirming gender identities (flyer at end of these notes).
- Arielle Anderson, CoC & SHA – PSH referrals – ongoing work to help make sure this is effective. MUST have documentation of Chronic Homelessness BEFORE referrals can be sent out to housing providers (this is now required by HUD, and not the same as we are used to with CE). This includes: 1) proof of disability, and 2) proof of chronic homelessness. This is a traditional, static wait list (not a priority pool like for standard CE referrals) - easier to tell people what place they are in, *about* how long it might take to get them in a unit.
- Kimberly Babb, CHHS – Working on Annual Work Plan now that the NOFA is done. Looking to incorporating BFZ activities in the work plan. Annual reporting gearing up for the year as well. CoC approved the PIT plan for 2024.
- Keri Cederquist, CHHS – CMIS team working on project data cleanup for end of year reporting (thanks for your patience!). HUD released new cohort for HMIS data on-demand data analysis course (<https://www.hudexchange.info/trainings/hmis-data-analytics-on-demand-course/>). Beginning reviews of applications for most recent funding round.
- Gerriann Armstrong, TSA, The Way Out – Placed 12 in program last week (!), 18 from TRAC in September. 3 placed in housing last week as well. Working with partners (VA, courts, Housing Authority, street outreach meeting, etc) to get people housed. More clients ready for move-ins when units identified. Still taking apps for a few openings. Needing a foster home for a dog (medium size, very nice:).

Not able to spend that money, do not send folks are way since we cant help them on that front. HAve \$1.5 total granted from the city. Working with teh city and CC to get that rolled out and when people can access it. This will all be through Coordinated entry.</p> <p>Zoe: Eviction prevention contracts they are trying to get started. The county has reached out to get so eviction prevention contracts started in CMS.</p> <p>Chris: Legislation talking about the Eviction prevention is in House bill 1277 Successful to have discussion points every month after Alex to plan the discussion points for the next six months</p> <p>Alex: Background- Original a singles and family system, used to work together now there is singles, youth amd young adult and Family system. Youth is 13-24. Kust had a vote at the youth subcommittee that got passed, will be at the COC executive meeting to get the youth coordinated entry system voted on. Will be voted on at the COC Board meeting next Wednesday. Centralized at</p>

		<p>the young adult shelter and spread outward to Odessey Karls Maxy center ect. Start centralized and foundation set. Beginning stages of assessment three different assessment tools taySPDAT for 18-24, Family SPDAT and Washington Balance of state for 13-17. Huge steps in the creation of a universal assessment toll, overall goal to quickly take the three assessments and create a streamlined and trauma informed universal assessment.</p> <p>Questions Does that mean that heads of household or families with a head of household older than 18 will they need to take both assessments? Family assessment should go between both assessments. Only have to do the one assessment.</p> <p>Confusion that the YHDP projects would be the only projects through the young adult coordinated entry? That is correct. If you want the RRH through the youth coordinated entry system? You would have to go through the youth coordinated entry program? You can still do youth assessments through other programs to get to the full spread of services. Once it is set up Most people will have to get two assessments if they are youth and family however. Recommendations will be made to consider this situation more closely. See what projects are available and how to get them, working backwards to see how to get into those programs. A very confusing process with multiple coordinated entries and assessments for people who do not understand the systems and projects. Sarah is willing to write a statement on this. The idea of a single assessment or tool for coordinated entry is something that would be really great and Chris would be willing to be a stakeholder in that.</p>
--	--	--

		<p>Why three separate systems instead of one? Harder to filter people out in one stream rather than three. Having singles and family separated makes it easier. Idaho had it in one and it was a mess. Different resources for families and singles so easier to keep it separated. Easier to work with one speciality, singles or families. You cant be an expert on every single thing. VOA is youth and SNap has always done singles. Might be the logical answer as why. Separating in the services perspective makes sense but doesn't seem inclusive when someone is looking for help. No conversation on the different projects when someone is looking for help. Assessors should know what project the client could be placed in. Most permanent supportive housing has been taken out of coordinated entry. It is more kind to explain the different projects that someone is eligible for. Would love to see this process incorporated in the singles system. Someone taking the assessment might not know all the projects available that they can be "sorted" into should filter down based on age, housed, family or not and filter down into what projects they would qualify for so that the client will not get false information or projects that they are not eligible for. ONLY be told about projects they can get placed into.</p> <p>Chris: Next month lets have an ongoing conversation about this and what we would like to see in an assessment and coordinate entry assessment. Having a strong voice in this conversation and invite someone from the COC board.</p> <p>Everyone is in favor of this being a topic in the November meeting, Tuesday the 21st.</p> <p>Sarah: That is the last day of school before the Thanksgiving break.</p>
--	--	---

		<p>Chris: Okay so that is November what should we discuss in December on the 19th-5ht this year</p> <p>Sarah: That break is the 25th through the</p> <p>Chris: Any ideas for December? Maybe Holiday resources? All right January? The 16th.</p> <p>Sarah: I was wondering if we could bring in resolution disputation folks to explain that</p> <p>Chris: I will reach out to the eviction unit at NJP and resolution court, Northwest mediators to see if they are able for that meeting.</p> <p>Chris: Okay so that brings us into spring time, March and April</p> <p>Sarah: We can talk about school registration and graduation. We won't have information about food resources but that will be an email once it is decided. -C.E. Policies and procedures

- Lakedia Davis: Coordinated entry policies and procedures were voted on and approved at the last COC meeting. Working on a date to go live, hopefully by next month and will be able to enroll YYA into the new CE system.

-Active referrals moving forward

- LaKedia Davis: As of now, Snap and Catholic Charities will be going down their own lists - within the next 90 days both agencies will work down these lists and collaborate with VOA so when they begin pulling, they will start off with those lists as well as the new enrollments. Referrals are being placed and pulled; people are getting housed.
- Jolie' Knight: Will that also include the host homes getting referrals through that process?

- Lakedia Davis: the host homes project will be getting pulled from the YYA coordinated entry system.
- Arielle Anderson: can we confirm the date for the official rollout for YYA CE?
 - LaKedia Davis: Potentially the beginning of December. Training should begin next week, that will provide some time to start playing around with it and collaborate with both Snap and Catholic Charities to make sure their lists are still being worked through.
- Bridget Cannon: is there a process for young folks that are still showing up at Snap or contacting Snap or Catholic Charities – are they going to refer over to YAS or will they continue to function as a satellite site.
 - It was discussed to go down their lists for 90 days and going down the list, and moving forward all the YYA will be coming through the YYA CE
 - As far as satellites for YYA CE, it was talked about getting MHA Speak up Speak out, Family Promise, Alex House, Crosswalk since majority of the youth go since it is the only youth teen shelter, getting all agencies on board and potentially trained with the assessment to provide services to the young people coming through those doors.
- Arielle Anderson: Follow up on that to make sure SNAP front line staff is aware of the possible changes – in terms of the walk-in hours for SNAP and Crosswalk. Its kind of the opposite of what is happening now that VOA is empowered to get these strategies down, and so we make sure that we are not ping ponging people back and forth and the communication is put out to organizations but particularly SNAP since they are lost of folks that walk in.
- Zoe Hjelm: These projects are listed in the city of Spokane website, there is a COC portion, and there is information about coordinated entry and how to access that information as well as a list of all the places someone can go to, satellite sites, walk in hours and how to access
 - [Spokane Regional Continuum of Care - City of Spokane, Washington \(spokanecity.org\)](https://www.spokanecity.org/Regional-Continuum-of-Care)

-Housed for the holidays

- Last year AWHWA assisted with hosting “housed by the holidays”, what impact it had for the community and the YYA.
- LaKedia Davis: Last year there was a big push by the ACI – is this something we are interested in doing again. We have been having a lot of young people getting housed though diversion and with the new RRH and TH a lot of people will be getting housed. Does the community want to strive for this?
- Bridget Cannon: Flor is there a way to get the numbers from last year, rather than compete with the state compete with what we did last year, create a little competition and maybe an incentive. Not necessarily win an award aside from the fact that we know we are housing more young people.
 - Flor Castaneda to reach out to AWHWA and see if they have those numbers and have them potentially by the next core meeting. AWHWA does not have the capacity to help host this event as they are still in the inflection and planning period.
 - [Housed by the Holidays | Tableau Public](https://public.tableau.com/app/viz/Housed-by-the-Holidays)

- Lakedia Davis: we housed about 32 young people last year in just one month, we can do it. Focus as a community and come together to get more young people housed.
- Jolie Knight: We can get together as a community and raise our own bar by housing more young people.

-AWHWA Data clean-up

- FC: Alex and FC have been working on and understanding the complexity of the data behind the dashboard. The active number of YYA experiencing homelessness is 390. The last conversation we had with the AWHWA data coach was that there might be some duplicates, so doing our due diligence and having conversations with agencies about data clean up and are vigilant on dual enrollments and making sure we are having the exit interviews and know where the YYA are going. The data is not updated due to not receiving new data from the city since June, we have access to January to June, now we need June to present. Alex has already developed a relationship with Dan in the city and we are on our way to understanding those numbers.
 - the resource hub password is yestoyes2022 [Spokane Data — ACI Resource Hub \(awayhomewa.org\)](#)
 - [Spokane May 2022 Yes to Yes Plan - Google Sheets](#)
- Adam Schooley: we are just trying to make sure we are pulling good data out at this point with the data standards clean up and some of the errors running into, we have been reaching out individually to service providers. There should be an update shortly, Adam to touch base with Dan to see if there's additional information to present to the group.
- Zoe Hjelm: Which projects are being utilized to gather the data, since there isn't an ACI or AWHWA specific project.
 - LaKedia Davis: it is an unrestricted data that we are trying to pull, before it was pulling too much data – Daniel Ramos was able to fix this because it was giving us way too much information over 100 points, where we only need about 30 points. We don't know where that tool is, but now we are back to pulling the 100 points. Tammy Myers at AWHWA may have reached out to Dan Parker to get the information that we need so we can have up to date data. Dan has all the information at hand that we need to be able to pull. The data that we have was able to match with the data tool that was utilized by AWHWA.
 - Zoe Hjelm: which report is it?
 - LD: a CMIS v6 report of some sort that is unrestricted – so we can send that info to AWHWA so they can receive it via tableau so we can be up to date on the dashboard.
 - Zoe Hjelm: if were pulling project specific data for YYA projects the data is not correct at this time, want to be specific if we need to focus on certain projects to get that clean data and what reports are being used to get this data so we can make sure its as accurate as possible. Will reach out to Dan: What is the name of the report and what do we do to fix it? Dan has the list of the 32 points that we need for the dashboard.

-HPDF/YDIP training coming up

- LaKedia Davis: Two-day training on flexible funds to utilize towards housing our YYA via Diversion
 - [A Way Home WA Diversion Projects Certification Training \(YDIP and HPDF\) Tickets, Tue, Dec 5, 2023 at 10:00 AM | Eventbrite](#)
- Gage: Do we know where we are with these funds?
 - Bridget Cannon: We still have plenty of money to get us through the end of June.

-ACI youth and young adult survey

- Pink couldn't make it today to talk about this.
- FC: Melissa and BHT have been taking the lead on this survey
- Melissa Morrison: The survey should hopefully be ready to go out next week, budgeting for about 200 gift cards, as soon as the link is ready to go live it will be sent out to everyone to push out to every network working with YYA.
 - Gage Spicer: what type of gift card?
 - Melissa Morrison: there will be a choice between virtual or physical gift cards.
 - Lakedia Davis: is this the health survey that they are doing.
 - Melissa Morrison: This survey is the one being done through YHDP dollars to understand people's experience in the system.
 - Gage Spicer: On the back end, will BHT put together a report to share with the YHDP programs.
 - Melissa Morrison: Yes, it is being done with SRHD, it went through the IRB process, the SRHD will be analyzing the data and putting together a report at their data system.

-Upcoming holiday events

- FC: United Way worked with The Fig Tree to create a list of resources for folks to access as needed.
 - [2023 Holiday Resources | Spokane County United Way \(unitedwayspokane.org\)](#)
- LaKedia Davis: Crosswalk has their thanksgiving luncheon and cup of cool water potentially hosts something like this as well. We were thinking about putting something out for the young people to access in the community.

- Bridget Cannon: Crosswalk groundbreaking and YAS grand opening, LaKedia did a great job with her speech. Expecting 15 people and had over 50 people show up. VOA will be moving out of downtown and transitioning into crosswalk 2.0 new building, potentially next month.

Admin and the shelter will all be moving to the new building, there will be a second floor that will have a 16-20 shelter license, but it will be a TH model, who are engaged in education and or employment activity and they will have their own bedroom, almost like dorm rooms with communal spaces and it wont be a *come and go shelter* as there are expectations and accountability that comes with it. It was driven by the realization from state and nationally that a lot of young people under the age of 18 especially 16 and 17 year olds are not going into foster care, they can't go home and they cant sign a lease, so it doesn't give them very good options of where they will be living and growing up in a night by night shelter is not the best scenario for them and so that was the motivations for the second floor. 18 bedrooms total, single, their own room and closet.

- Arielle Anderson: Update on SHA continues to see an uptick in FUP referrals coming from DCYF and other pipelines. New legislation has since passed that has opened up pipelines, want to make clear that there is no requirement that somebody must go through coordinated entry through HFCA In order to obtain a FUP referral, this can be done directly through the case managers at DCYF, one less thing that families and young people have to do. EHV is done, ended September 30th – except for those folks that are out on the street that are looking for housing, they're still good and the vouchers will be honored. Referral voucher partner programs are going well, a couple of agencies have reached out asking for an increase in vouchers, definitely not going to happen right now because of the software conversion. Maybe at the first of the year, quarter one SHA will potentially look into increasing vouchers for organizations.
- Gage Spicer: How is the Host Homes Program going?
 - Jolie' Knight: it's doing amazing, will be pulling some data to present at one of the meetings. Just enrolled in the fourth individual as of yesterday. Working on getting additional homes and adults. Have some scheduled for the month of November, those are potential screenings that will most likely qualify. Creating community connections and getting the word out
