**AMERICANS WITH DISABILITIES ACT (ADA) INFORMATION:** The City of Spokane is committed to providing equal access to its facilities, programs and services for persons with disabilities. The Spokane City Council Chamber in the lower level of Spokane City Hall, 808 W. Spokane Falls Blvd., is wheelchair accessible and also is equipped with an infrared assistive listening system for persons with hearing loss. Headsets may be checked out (upon presentation of picture I.D.) at the City Cable 5 Production Booth located on the First Floor of the Municipal Building, directly above the Chase Gallery or through the meeting organizer. Individuals requesting reasonable accommodations or further information may call, write, or email Human Resources at 509.625.6363, 808 W. Spokane Falls Blvd, Spokane, WA, 99201; or jjackson@spokanecity.org. Persons who are deaf or hard of hearing may contact Human Resources through the Washington Relay Service at 7-1-1. Please contact us forty-eight (48) hours before the meeting date.
The Northeast Youth Center has been busy these past few months. We had a wonderful 5 weeks up on Mt. Spokane with 10 kids learning how to snowboard. We held our 5th Annual Building Dreams for Bright Futures Fundraiser & our 19th Annual Beyond Pink Barbie Party in the month of April. We are getting ready for a busy summer!
Youth at West Central participated in a Celebration of Youth Talent Showcase this quarter that included performance skills development.

In April we hosted our 5th annual Building Dreams Fundraiser in partnership with the NEYC and had the best year ever! We are looking forward to summer activities and trips to the pool at A.M. Cannon Park!
Corbin’s elevator is finally complete! For the past month, seniors who have previously felt the center inaccessible due to the stairs have been coming back and staying involved at Corbin.

Recreation activities are picking up pace from yoga, to dance, to a mean game of pinochle. We are currently gearing up for our annual Golf Tournament Fundraiser at Indian Canyon and look forward to continued partnerships with the Parks and Rec Department.
Project Joy ‘keeps on singing’

This past year Project Joy’s “Minstrels” have entertained 16 times and “L & M” has entertained 24 times.

Minstrels is a mixed chorus of 25 musicians who perform a variety show that includes song, dance, stories and musical instruments. Songs of the 1920’s to the 1960’s are familiar to seniors.

If you like country western music you will enjoy L & M (Larry and Marge). Their vocals feature guitar and bass accompaniment to classic and contemporary songs.
Hillyard Seniors are always planning the next Theme Party in their monthly celebrations! In January, we hosted a **Pirate Theme Party**, and February brought us the Valentine’s Day Social with our **“Famous” 25 foot Banana Split!** In March we celebrated **St. Patrick’s Day**!

Hillyard Senior Center also offered its largest fundraiser of the year. **The Annual Dinner Benefit Auction** at Northern Quest Resort & Casino in March! The event had 350 people in attendance with over 325 Silent and Live Auction Items which raised a record total of nearly $38,000 this year in its efforts to help support our program and operations!
Boomer Fit members gather each month to encourage each other toward their fitness goals. This program is just beginning but we hope it can expand beyond our center and into the senior community at large.

Sinto Center had another great Murder Mystery Dinner event with lots of colorful characters. The event gathered about 120 seniors and raised $1400 for our general fund.
Our members continue to be active travelers.

In March we went to Cuba for a second time to get another taste of this quickly changing culture.

The $49er Club toured NOAA, had a hosted dinner at the Satellite Diner then completed their day with a planetarium show at SFCC.

WEST CENTRAL
DIAL-A-STORY

A COLLABORATIVE PROJECT OF:
Spokane Arts
Spark Central
Laboratory
Spokane Civic Theatre

INSTALLATION SITES
Batch Bakeshop  |  Mika Maloney
West Central Community Center  |  Kim Ferraro
Indaba Coffee on Broadway  |  Bobby Enslow

SYNOPSIS
Three “Dial-A-Story” booths will be installed at three sites in the West Central neighborhood in May 2017 through September 15, 2017. The sponsor for the three booth installations is STCU. These booths are an interactive way for community members to connect with the history, culture, and experiences of the West Central neighborhood and bring community members closer together. This interactive public art is a dynamic intersection of arts disciplines.

Pedestrians can hit a key on the rotary phone and then use the attached headset to play back stories by real West Central residents lasting no more than 3 minutes each. Stories were written by adults and teens living and working in West Central. Anonymous submissions were encouraged, and a website and QR code on each booth encourages listeners to share their own West Central experiences via Spokane Arts website in the hopes that we can add new stories to the booths throughout the summer.

On May 23rd, Spark Central hosted a performance night where actors from the Spokane Civic Theatre dramatically performed the stories for the community. We hoped to have the booths installed by May 23rd, but are now hoping for as soon as possible.

Thanks for your time and support!
NETTLETON’S ADDITION FINAL SCULPTURE WHITE PAPER

PURPOSE

To install and accession into the City of Spokane’s Public Art Collection an existing fourth Nettleton’s Addition Historic District marker, which was delayed due to Centennial Trail construction.

BACKGROUND

Nettleton’s Addition Historic District was listed on the National Register of Historic Places in 2006. By 2008, the West Central Neighborhood had marked the district’s three major arterial entrances with towering reclaimed-metal sculptures, fabricated by artist and Nettleton’s resident Steffan Wachholtz. These sculptures were accessioned into Spokane’s Public Art Collection through agreements with the City’s Park Department, Street Department and a private property owner. Wachholtz also began fabrication of a fourth sign for installation at the southwest corner of the district, at Bridge Avenue along the Centennial Trail, which at that time was still in the planning phase. With that section of the trail now complete, the neighborhood has initiating installation of this final sign.

Installation of the final sign will be funded jointly by the West Central Neighborhood Council and Jim Frank and mark the point where Nettleton’s Addition and Kendall Yards meet. Cut aluminum plate will read “NETTLETON 1887” when viewed from the south and “KENDALL YARDS” when viewed from the north. The marker will be 15 ½ feet tall and 3 ¾ feet in diameter at the base, encircled by a bench 6 ¾ feet in diameter. The concrete plinth will be 9 ¾ feet in diameter at ground level.

D.C. Concrete, Inc., the licensed and bonded contractor involved with the two most recent Nettleton’s Addition marker projects, will handle the installation. Payment will be made directly from the sponsors to the artist and contractor after the installation is complete.

ACTION

The Nettleton’s Addition project is supported by the West Central Neighborhood Council, Jim Frank and the Spokane Arts Commission. The project supports the City’s goals of cultivating public and private partnerships, establishing Spokane’s identity, creative placemaking and dovetailing the arts and civic planning. It’s hoped the Spokane Park Board also supports installation and accession of this final piece alongside its companion pieces.

ACCESS AND RECIPROCAL PARKING EASEMENTS

This Access and Reciprocal Parking Easement ("Easement and Agreement") is made and executed this __ day of __________________, 2017 ("Effective Date") by and between the City of Spokane, Parks Department ("Park Board"), as "Grantor" and QueenB Radio, Inc., d/b/a KXLY, a Washington Corporation which term includes successors and assigns ("KXLY") as "Grantee", hereinafter jointly referred to as "Parties".

Recitals

A. The Park Board owns certain real property located in the City of Spokane, Spokane County, Washington, consisting of approximately 16.5 acres, as more particularly described on the attached Exhibit A ("Park Property"). The Park Property is developed as a youth sporting complex, which includes soccer fields, baseball diamonds, surface parking, and a storage area.

B. The Parties acknowledge and understand as follows: (1) The Park Property is commonly referred to as the Southeast Sports Complex and was previously improved with a grant (the "Grant") awarded by the State of Washington Interagency Committee for Outdoor Recreation (the "Agency"); (2) the exchange of easements under this Easement and Agreement is considered a "conversion" under guidelines administered the Agency (the "Conversion"); (3) Grantee is in the process of asking the Agency to approve the Conversion; and (4) obtaining Agency approval will require joint and mutual cooperation of the Parties, and will require appraisals prepared according to guidelines approved by the Agency demonstrating that the property interests received by the Park Board hereunder have a fair market value at least equivalent to that of the property interests being converted (the "Appraisals").
BC. South and west of the Park Property, KXLY owns real property consisting of approximately 14 acres, as more particularly described on the attached Exhibit B ("KXLY Property"). The KXLY Property contains two existing broadcast towers, a generator building, improvements and open space.

GD. Directly south of the Park Property, KXLY owns approximately fifteen (15) acres of property which is presently zoned CC2-DC, subject to a Development Agreement with the City of Spokane ("Adjacent KXLY Property"). See Exhibit B-1.

DE. The City of Spokane owns land in between and adjacent to both the Park Property and the Adjacent KXLY Property which is the subject of a Purchase and Sale Agreement (Clerk's File OPR 2015-0920) between the City of Spokane and KXLY ("City Property").

EF. A signalized intersection was recently installed at Regal Street and Palouse Highway (the "Signalized Intersection"). The Signalized Intersection improves traffic movements for north and south bound traffic on Regal Street and east bound traffic on Palouse Highway.

FG. At present, pedestrians and vehicles access the Park Property through a driveway and parking lot located south of the Signalized Intersection.

GH. The Parties believe that the development of the west leg of the Signalized Intersection will enhance the use and enjoyment of the Park Property, the Adjacent KXLY Property and the City Property ("Benefitted Properties") and wish to enter into an agreement providing for conveyance of easements with construction and maintenance of improvements that will provide pedestrian, vehicular access ("Joint Access"), and vehicle parking for the Benefitted Properties. See Exhibit C.

HI. Simultaneous with the Parties' execution of this Easement and Agreement, the Parties have also entered into a (i) Ground Lease with City of Spokane Park Board ("Ground Lease"), and (ii) a License and Development Agreement ("License and Development Agreement"), of even date herewith. The Ground Lease provides for a lease of certain property by KXLY to the Park Board, and the License and Development Agreement provides for construction of the Joint Access as well as other improvements including, without limitation, a soccer field on the property covered by the ground lease.

NOW, THEREFORE, in consideration of the terms, covenants, and conditions herein and of the benefits derived by Grantor, the Parties covenant and agree as follows:

1. **ACCESS AND PARKING EASEMENT.** Grantor does hereby grant, convey and deliver to Grantee, its successors and assigns a non-exclusive easement in, under, through and over the following described property:
hereinafter referred to as "Easement Area" upon the terms, covenants and conditions herein. This easement shall apply to all interests now owned or hereafter acquired in the Easement Area. Grantor further agrees that Grantee shall have a right of entry upon reasonable areas of the Park Property that is adjacent to the Easement Area to install, inspect, repair or maintain the Easement Area and perform any other related functions or duties provided following such entry the adjacent area is returned to the condition it was found, reasonable wear and tear excepted.

2. PURPOSE. This easement is conveyed to the Grantee for purpose of locating, constructing, maintaining and repairing a public pedestrian and vehicle access to the Benefitted Properties, plus outdoor surface vehicle parking and related landscaping with stormwater control together with the right to install, use and maintain underground sewer and water lines, electrical service lines and other public utilities to serve adjacent property in a manner that does not unreasonably interfere with the purpose of the easement ("Access and Parking Easement"). The improvements on the Easement Area will provide public access to the Benefitted Properties from Regal Street and Palouse Highway through the Signalized Intersection.

3. CONSIDERATION. The consideration for the easements is set forth in this Easement and Agreement and the License and Development Agreement between the Parties.

4. COVENANTS. Grantor and Grantee agree to the following.

A. Duration. The Access and Parking Easement and rights granted herein, shall run with the land to which the Easement Area is appurtenant (the "Burdened Property") and shall be perpetual in duration, and shall be binding upon and inure to the benefit of the Parties, their heirs, successors and assigns. This Easement and Agreement may be terminated by: (1) KXLY if it does not acquire the City Property or (2) the Park Board if KXLY does not commence development of the Joint Access as well as the Improvements described in the License and Development Agreement within four (4) years from the Effective Date and thereafter complete said improvements with reasonable diligence.

B. Interference. Grantor, without the consent of Grantee, may not grant other interests, rights or easements that allow the use of the Easement Area or areas adjacent thereto that unreasonably interfere with the use permitted through this Easement or the covenants set forth in this Section 4.
C. Development of Joint Access. KXLY, through its agents and contractor, shall, at its cost and expense, design, construct, warrant and otherwise develop the Joint Access as a local access commercial street. The Joint Access shall be open and available for use by the public in the same manner as other public streets in the City of Spokane, subject to the terms of this Easement and Agreement.

D. Maintenance. KXLY at its cost and expense will maintain and repair the street and related improvements on the Joint Access to a condition, at least, in reasonable conformance with the condition of curb, sidewalk and pavement adjacent to the Signalized Intersection. Maintenance and repair includes cleaning, removing litter, sweeping, snowplowing, repairing surface and structural damage and cracks which result from reasonable wear and tear.

In an emergency, Grantee shall have the right, but not the obligation, to enter the Easement Area and the Burdened Property for the purpose of installation, maintenance, repair, removal and replacement of the improvements or utilities in the Easement Area.

E. Conforming Easement to "As Built" Construction. Following construction of the Joint Access, KXLY shall provide a current survey that depicts (1) the Joint Access and (2) the boundary between the Park Property and the City Property consistent with the installed improvements.

F. Displacement of Park Department Surface Parking. Prior to construction of the Joint Access, KXLY and the Parks Department shall meet and confer to identify the number of and relocation of vehicle parking spaces on the Easement Area that will be displaced as a result of installing the Joint Access. It is intended that KXLY shall replace each displaced parking stall (estimated to be eight foot wide parking stalls) with at least one similar space prior to the full improvement and occupancy of the Adjacent KXLY Property pursuant to the then-existing City land use entitlements.

G. Development of Joint Use Parking. Following completion of the Joint Access, KXLY shall within a reasonable period develop vehicle parking in conformance with City of Spokane development standards on the Easement Area and KXLY Property, hereinafter the "Joint Use Parking" as depicted on Exhibit C. The parking shall be non-exclusive and be available on a "first come, first-serve basis" to persons who are using or otherwise occupying the Park Property, KXLY Property and Adjacent KXLY Property for its intended purpose. The number of available parking spaces for joint use is estimated to be 149.

5. RECIPROCAL PARKING AND ACCESS EASEMENT ON KXLY PROPERTY. In consideration for the Access and Parking Easement, KXLY hereby grants and conveys a
perpetual non-exclusive easement to the Park Board, its employees, officers, agents, guests, licensees and invitees who are using or occupying the Park Property (collectively, the "Permitted Users") to park motor vehicles on the KXLY Property with related vehicle and pedestrian ingress and egress on the areas depicted and legally described on Exhibit E, which areas include a driveway no less than 20 feet in width running between the southwest corner of easement area “B and the eastern edge of easement area “C”, as depicted in said Exhibit E ("Reciprocal Easement"). In the event the Appraisals indicate that the fair market value of the easement interests received by KXLY hereunder exceed the fair market value of the Easement interests received by the Park Board, KXLY agrees to adjust the boundaries to increase the size of the easements conveyed to the Park Board hereunder such that the fair market value of the easements received by the Park Board are at least equal to the fair market value of the easement interests received by KXLY, determined according to Agency appraisal guidelines.

A. **Duration.** The Reciprocal Easement and rights granted herein shall run with the land to which the Reciprocal Easement is appurtenant, shall be perpetual in duration and binding upon and inure to the benefit of the Parties, their heirs, successors and assigns. The Reciprocal Easement shall automatically terminate if and when the Access and Parking Easement is terminated.

B. **Use and Occupancy.** The Joint Use Parking shall be free and open to the public during regular park hours for the Park Property, and may be used and occupied by persons and vehicles for reasonable periods consistent with the customary permitted use and occupancy of vehicle parking on the adjacent commercially developed property and the use of the public Park Property as open space and/or public sports complex fields for outdoor recreation. In the event KXLY, its successors and assigns finds that any person is using the Joint Use Parking in a manner which violates any term of this Easement and Agreement or any reasonable rule related to the Joint Use Parking, causes harm or creates a nuisance, KXLY may require the vehicle or person(s) to be removed therefrom. Prior to the removal of a vehicle KXLY may give notice by 1) contacting the person and/or 2) posting a notice on the vehicle to be removed. Twenty-four (24) hours after notice KXLY is authorized to remove the vehicle and take such other action as is reasonably necessary including storage or impoundment. KXLY shall defend, indemnify, and hold the Park Board harmless against any claims resulting from KXLY’s removal of vehicles from the Easement Area.

C. **Maintenance.** KXLY shall be responsible to improve, maintain, repair, resurface, stripe, sweep, and remove snow and litter from the Joint Use Parking, at no cost to the Park Board. Appropriate signage for such available parking shall be placed on both the Park Property, City Property and KXLY Property in mutually agreed locations.
C.D. Assignment of Rights. KXLY understands that the Park Board will record an assignment of rights in the records of Spokane County that: (1) describes the Reciprocal Easement; (2) commits the Park Board to enforcing the terms of this Easement and Agreement; (3) gives the Agency certain rights, which are co-held with the Park Board, for access to the Reciprocal Easement; (4) indemnifies the Agency with respect to the acts or omissions of KXLY and the Park Board on the Easement Area; and (5) requires the Park Board to consult with the Agency for any amendment of the Easement and Agreement, or conversion of the easement to another use.

6. INSURANCE.

A. KXLY shall, at its sole expense, obtain and keep in force throughout the term of this Easement and Agreement commercial general liability insurance on an occurrence basis with a combined single limit of no less than $1.5 million per occurrence and $2 million General Aggregate, naming the City of Spokane and Park Board, its officers, employees, contractors, agents, and other such persons or entities as the Park Board may designate as additional insureds. The policy shall contain cross liability endorsements, and shall provide coverage for liability arising out of or relating to KXLY’s use and occupancy of the Easement Area, including non-owned automobile liability.

The policy shall contain cross liability endorsements, and shall provide coverage for liability arising out of or relating to the Park Board’s use and occupancy of the Reciprocal Easement, including non-owned automobile liability.

7. INDEMNIFICATION.

A. KXLY shall indemnify, defend, and hold the City of Spokane and Park Board harmless from all claims arising from the KXLY’s use, occupancy, management, and maintenance of the Easement Area or from any activity, work or thing done, permitted or suffered by KXLY in or about the Easement Area, except to the extent such claim resulted from the act or omission of the City of Spokane or Park Board’s employees, agents or contractors in which case this indemnity provision shall be valid and enforceable only to the extent such claim arose from the act or omission of KXLY’s employees, agents, or contractors.

WHEREAS, the Master Plan contemplated that the U.S. Pavilion structure would be re-covered; and

WHEREAS, the Park Board engaged Garco Construction and its design-build team to develop plans for the U.S. Pavilion and surrounding grounds, and the design team and project team members have recommended not recovering the U.S. Pavilion as part of its plans for a dramatic interior experience in the U.S. Pavilion and to apply strategic shading and/or weather protection to the interior; and

WHEREAS, the Park Board feels that a decision to not cover the Pavilion should be done only after open debate and formal amendment to the Master Plan; and

WHEREAS, the Park Board agrees with the recommendations of design team and project staff with respect to a cover on the Pavilion,

NOW therefore,

BE IT RESOLVED that the Riverfront Park Master Plan 2014 is amended to clarify the desire to partially cover or apply strategic shading to the Pavilion in lieu of full cover of cable
structure, and that staff of the Parks and Recreation Division are authorized to make changes to the Master Plan consistent with this resolution, and

BE IT FURTHER RESOLVED that staff of the Parks and Recreation Division and the design team for the Pavilion and surrounding grounds are directed to proceed with plans for partial and/or strategic covering within the Pavilion.

Overview of Pavilion Design Process

- The design-build team of Garco Construction, NAC Architecture, the Berger Partnership and THEVERYMAY Studio was selected by the Design Steering Committee (community volunteers) and a selection committee comprised of Park Board (community volunteers) and staff.
- The team is in a 120-day program validation and schematic design phase.
- They are creating design concepts to show the all-volunteer Park Board, Design Steering Committee, Mayor’s office and City staff.
- Their designs will provide recommendations for best uses of space and structure.
- Initial designs will be ready for review and feedback by mid-July.

Pavilion Design, Cover & Lighting

Master Plan

- The Master Plan calls for the Pavilion to be a multi-purpose event space, able to host everything from a summer concert series, to outdoor movies, art exhibitions and Hoopfest Center Court.
- It will also be an interesting, artistic, and interpretive space to visit during non-event times.
- The Master Plan recommends a re-covered and re-lit structure. Conceptual images showed a variety of ideas from small sections to a full cover.

Design Team Vision

- The winning team proposed a concept of elevating visitors high into the Pavilion along the center support structure or mast, to access the incredible views of downtown and the river gorge.
- The team also envisions a provocative and interesting amphitheater and landscaped bowl that allows visitors to climb or walk up to the eastern rim of the pavilion concrete ring and serve as a seating area for shows and events that will happen on a stage located below.

Design Team Recommendations

- When visitors reach the upper platforms of the mast, a full cover over the Pavilion would obscure the intended views.
• A 30-year warrantied full cover plus structural retrofits to support the forces of wind and snow is estimated at $4.5 million (30% of the construction budget). This is within the budget of the Pavilion, but is not a recommended design choice.
• The design-build team recommends leaving the Pavilion primarily uncovered because it does not meet the design and programming vision.
• The team emphasizes the importance of lighting or projecting on to the cable structure or other features within the Pavilion – those concepts are being refined.
• The design-build team is researching partial shade/rain cover designs that will provide shelter for varied activities and programing.

IMAX Building

Master Plan

• The Master Plan also calls for the IMAX Theater be demolished.

Design Team Vision

• Removing the building would create open space for a green Central Plaza and open views.

Design Team Recommendations

• After considering the opportunities and constraints of incorporating the IMAX building into the new Pavilion, the design-build team recommends removal of the IMAX.

Budget & Next Steps

• At the conclusion of the validation and schematic design phase, if the design is approved by the Park Board, the design–build team will enter an agreement to complete the design and construct the Pavilion project.
• The Master Plan budget for the Pavilion was 37% ($24 million) of the overall Riverfront Park Redevelopment budget. The current budget for the Pavilion is 33% ($21.5 million).
• The Park Board moved some money from the Pavillion budget to the Recreation Rink, South Howard Street Bridge, and the Carrousel projects to have a greater impact on the South Bank.

We continue to welcome feedback about redevelopment plans, designs, and activities.

RIVERFRONT PARK REDEVELOPMENT PROJECT
Design of Public Spaces and Park Grounds – Berger Partnership
January 2017 – Contract Amendment: Task 2

Task 2.D – Looff Drainage Re-Design

SCOPE OF WORK OVERVIEW

This is an addendum scope of work that has already been completed for the redesign of the Looff Site and Building drainage systems requested by the City of Spokane.

All Consultant costs and expenses shall not exceed the total lump sum hourly allowance amount of EIGHT THOUSAND FIVE HUNDRED EIGHTY DOLLARS AND 0/100 ($8,580.00).

DETAILED SCOPE OF WORK

Summary of revised drainage approach compared to the original design approach.
- Constructing a piped network and connecting to grandfathered outfall should require less in water work, versus over excavating behind the retaining wall to construct the dispersion zone material per original design.
- A smaller volume of contaminated soil material will have to be removed and disposed of.
- Constructing piped network is more typical construction, and reduces the amount of liner work that has to be done by a specialty contractor.

Riverfront Park Wayfinding & Kit of Parts Proposal

We are excited to help develop the wayfinding kit of parts for the new Riverfront Park! Following is our estimate for assisting the City and Berger with this exciting project.

Template development
DH will develop up to 5 templates for signage and wayfinding. These will be based on specifications provided by Berger to fit the physical carriers Berger designs. These templates will include an organizational grid for a range of applications such as monolith signs, ground inlays, posts, etc.—as identified by Berger.

DH will work with Berger and the City to develop the font and typography for text descriptions and indicative content that accompanies the icons. DH will also work with Berger and City on PMS color palette. Berger will include these elements and templates in their wayfinding guide and kit of parts. DH will NOT develop the wayfinding guide and kit of parts document. This scope includes up to 2 rounds of revisions from Berger and/or the City.

Icon development
DH will develop up to 25 scalable vector icons that we will be provided to Berger and the City in Adobe InDesign format, along with a PMS color swatch. Berger will include the icon templates in their wayfinding guide and kit of parts. Berger will also apply the icon templates to applications, such as ground inlays and posts. DH will NOT develop the wayfinding guide and kit of parts document. This scope includes up to 2 rounds of revisions from Berger and/or the City.

Following are the initial icons the City would like developed. This may change as Berger and the City identify new or different icon needs.

1. Restrooms
2. Directional Arrows
3. ATM
4. Food/Beverage
5. Parking
6. Visitor Information
7. Wifi
8. Art (text descriptions will specify Butterflies, Veteran’s memorial, etc.)
9. Picnic Area (text descriptions will specify Forestry Shelter, etc.)
10. U.S. Pavilion
11. Falls (text descriptions will specify Suspension Bridge, Upper Falls, etc.)
12. Viewpoint (may remove from list if deemed too similar to Falls)
13. Playground (text descriptions will specify Regional Playground, Power Playground, etc.)
14. Garbage Eating Goat
15. Red Wagon
16. Clock Tower
17. Looff Carrousel
18. SkyRide over the Falls
19. Skate Ribbon
20. Promenade
21. Dog Park
22. Rotary Fountain

**Timeline**

In order to ensure wayfinding design is cohesive with the new Riverfront Park brand, we will begin building out templates and icons after City of Spokane Parks & Recreation decision makers sign off on the final approved logo.

Once we get final approval, development of these wayfinding and kit of parts pieces will proceed down the following timeline:

- 2-week design period – DH develops initial template and icons.
- City review period for Round 1 Revisions – Decision-makers at City and Parks & Recreation review and provide feedback.
- 3-week design period – Once DH has feedback from City and Parks & Recreation decision-makers, DH will build out the remaining templates and kit of parts pieces incorporating said feedback.
• City review period for Round 2 Revisions – Decision-makers at City and Parks & Recreation review and provide feedback and/or approvals.
• 1 week to finalize (if edits are needed)

Please recover the Pavilion. We voted and this is one of the major things I wanted to see when voting. It looks unfinished – like we just threw up a cyclone fence. It needs to be the central focus of downtown again – loved the Lantern Idea. Our little city had an EXPO and this structure needs to be preserved like the Space Needle, The St. Louis Arch etc.

I heard the park board is voting whether or not to change the plan for the Pavilion in Riverfront Park to not cover it. I am against this change! I voted to support the much needed update to the park based in big part on the renderings you circulated showing a converted and covered Pavilion that would be used as a large multi-purpose gathering space. You asked for my support and I gave it with my vote, I even defended the plan to friends and relatives that were unsure of the price tag. Now I'm asking that the Park Board and Parks Department stay true to their word. This Pavilion is the centerpiece of the crown jewel of Spokane's park system, do not reverse course on the original plan.

There are many examples of large covered buildings and structures that have endured for years, the Denver International Airport comes to mind. This is a problem that can be solved and a feature that needs to be included.

Thank you,
Ted Teske
Greetings,

We must create a top notch event space in Riverfront Park. In alignment with the concept proposed to voters, the covering of the Pavilion should be prioritized to make this a reality. It honors Expo 1974's heritage and allows for an enduring, multi-use function in the park.

It pains me to know that as a city we have once over committed through poor management to such an amazing opportunity to update our park. This project should have come in under-budget and on-time but instead we have expensive unplanned amenities planned and a deprioritization of the objectives set forth to voters. I am truly curious and skeptical, to see how the ice ribbon is received.

Please don't change the name of Canada Island. Please honor Expo 1974 by covering the pavilion. Please follow-through on commitments to the public by replacing under the freeway with a world class skate park. Please find a reasonable long-term solution to the rotary fountain debacle.

Thank You,

Travis Nichols

“Please do not cover the Pavillon. It is an iconic and beautiful structure that is full of intrigue and curiosity. That is what makes it unique and special. I mean just look at the picture above 🧐. To cover it would be a mistake, cost millions not only to construct but also to maintain. Put that money into an amphitheater or entertainment venue within the park perhaps. I don’t know if the ice ribbon will have a cover but it would be nice if it did. When you look at spokane’s skyline it is a beautiful piece. I’ve heard the arguments that visitors who drive through town question what it is. Well I see that as a great thing. The chances of someone checking something out that looks cool and interesting are much greater than a big white canopy that looks like a used car dealership. Please consider my humble opinion and I’m really excited for what’s happening in the park. If you would, please forward my opinion on to the park board. Thank you!” – Russell Reser

• “It is obvious there are no children on the Spokane Park Board! Also no parents of young children! While we would be the first to admit that rides can be somewhat tacky (but not as tacky as blue tarps over our beautiful pavilion), they draw young families to the park and are the basis for families buying park passes every year. For some, they ARE the park, and it is only after riding them that they grow to love the rest of it. Our granddaughters are heartbroken and very worried that their favorite rides and/or the ferris wheel will disappear. Surely there is an area that could be devoted to rides in the summer season without diminishing your desire to hold events in the park. Please, rethink that one! - Christie and Mike”

• “Get rid of all carny rides, not classy for downtown. Get rid of tent...all visitors coming into Spokane wonder what that skeleton framework is......ugly. Carny rides belong at the Fair only.” – Pat Forster

Please direct this to Chris Wright and those on the Riverfront Park Committee:

Regarding the recent Park Board decision to save two of the park rides, it is my opinion that these rides cheapened the park experience and mimicked a county fair with trashy amusement park fare. A better environment for children's activities is evident at the Maggie Daley Park in Chicago, which I recently visited. It is there that the idea of the skating ribbon came to us, but they also have an amazing free playground that has innovative features that stimulate a child's curiosity rather than giving them a cheap thrill. If we want Riverfront Park to be representative of the values of our community, let's stick with quality and leave the rides to the carnys.
