

## **CITY OF SPOKANE PARK BOARD RIVERFRONT PARK COMMITTEE**

MEETING OF MONDAY, MARCH 6, 2017, 8:05 A.M.  
City Council Briefing Center, lower level City Hall  
808 W. Spokane Falls Blvd., Spokane WA 99201  
Riverfront Park Director Jon Moog

### **Committee Members:**

Ted McGregor – Chair  
Susan Traver  
Ross Kelley  
Greta Gilman  
Rick Chase

### **Also Present:**

#### **Park Board:**

Chris Wright  
Steve Salvatori  
Leroy Eadie

#### **Parks Staff:**

Garrett Jones  
Jon Moog  
Fianna Dickson  
Diana Whaley  
Berry Ellison  
Jo-Lynn Brown

### **Guests:**

Danielle Arnold  
Matt Walker  
Hal McGlathery

## **Summary**

- The committee approved a [resolution to rename Canada Island](#) to the Salish word meaning salmon people, snx<sup>w</sup> mene?.
- The committee accepted the soil stockpile management amendment with Contractors Northwest Inc., not to exceed \$178,000.
- The committee accepted the South Bank East improvements, not to exceed \$70,000.
- The committee received a preliminary report on standards for lighting fixtures, waste receptacles, benches, etc. throughout Riverfront Park. A Park-Wide standards recommendation will be brought before the committee and the Park Board next month.
- An update was provided on the progress of the [Pavilion plan](#) and design team selection.
- The 2017 [Riverfront Park event schedule](#) was presented.
- The Riverfront Park work plan was presented.
- The Riverfront Park redevelopment [budget-to-actual update](#) was provided.

The next regularly scheduled Riverfront Park Committee meeting will be 8:05 a.m. April 10, 2017, City Council Briefing Center, lower level City Hall.

## **Minutes**

The meeting was called to order at 8:05 a.m. by Committee Chair Ted McGregor.

### **Action Items:**

1. [Renaming Canada Island resolution](#) – *Garrett Jones* reviewed the process of working with the Spokane Tribe of Indians in crafting a resolution renaming Canada Island the Salish word meaning salmon people, snx<sup>w</sup> mene?. This name was one of two names presented to the Park Board by the Tribal Council and their first choice for the renaming of the island. Snx<sup>w</sup> mene? also received the majority of votes from a recent public survey conducted by Parks. Mr. Jones explained the resolution declares the Park Board will work with the tribe concerning the determination of appropriate land uses, activities, signage and public displays on snx<sup>w</sup> mene? and throughout Riverfront Park. Committee and staff discussed options of signage and an audio component which offers park visitors the meaning and pronunciation of the Salish name.

**Motion #1:** Ted McGregor moved to recommend the Park Board adopt a resolution declaring the Spokane Tribe Indian place name snx<sup>w</sup> mene?, as the rename of Canada Island.

Rick Chase seconded.

The motion passed unanimously.

2. [Soil stockpile management amendment/Contractors Northwest Inc. \(\\$178,000\)](#) – *Berry Ellison* provided details regarding a proposed contract amendment with CNI which involves the removal of 400 cubic yards of oil-contaminated soil from South Bank construction projects. Some of the contaminated soil will be used on the North Bank redevelopment project. Mr. Ellison explained highly contaminated soils will be contained and taken to Graham Road Landfill. Only the soils which meet Department of Ecology safe standards will be utilized on the North Bank project.

**Motion #2:** Ted McGregor moved to recommend the Park Board accept the soil stockpile management amendment and budget allocation with Contractors Northwest Inc., not to exceed \$178,000, plus tax.

Ross Kelley seconded.

The motion passed unanimously.

3. [South Bank East improvements \(\\$70,000\)](#) – *Berry Ellison* reviewed a proposed contract involving pedestrian access to the park from Spokane Falls Boulevard and Washington Street. Construction includes an ADA-compliant asphalt path with grading and landscaping, and a bid alternate for concrete path and ADA ramps at the crosswalks. Mr. Ellison explained the ADA access is particularly important while the rest of the South Bank is under construction. Work is scheduled to be completed by April 19 to accommodate Park programmed events. While the current South Bank East entry signage will remain in place short term, committee members and staff shared a desire to remodel/improve the sign in the future. Hal McGlathery voiced concerns regarding some areas of street and sidewalk not being available during the summer months, particularly during Hoopfest. Staff explained Spokane Falls Boulevard will be available for basketball courts and there will be room for spectators on the south side of the street.

**Motion #3:** Ted McGregor moved to recommend the Park Board accept the South Bank East improvement and reallocation of park project budget contingencies, not to exceed \$70,000.

Susan Traver seconded.

The motion passed unanimously.

**Discussion Items:**

1. Park-Wide Standards – *Berry Ellison* reviewed options for standards on receptacles, benches, lighting fixtures, etc., in Riverfront Park. Staff was directed to come back to the committee next month with an outline detailing the proposed Park-Wide standards for committee action. The committee plans to have a recommendation to the Park Board in April.

**Information Items:**

1. [Pavilion update](#) – *Matt Walker* presented an update on the Pavilion. The Pavilion and Central Green draft program was reviewed which outlined the vision of the Pavilion as a year-round area blending passive and active zones. Its design will accommodate a variety of community-oriented events, and illuminate the Pavilion as a “lantern in the night.” The Pavilion area is expected to include event/stage area, event plaza, meeting/party rooms, food services, restrooms and office space. The design team selection process is underway. There are three teams in the running for the project. Proposals must be submitted by these candidates by March 20. Once the proposals are scored, a recommendation for the Pavilion design team will come before the Park Board at the April 13 board meeting. The Pavilion and Central Green project is schedule to be completed February 2019.
2. [2017 Riverfront Park Events Schedule](#) – *Jon Moog* introduced *Diana Whaley* as the new Riverfront Park events manager. Ms. Whaley reviewed the year’s event schedule.

**Standing Report Items:**

1. Work Plan update – *Jon Moog* presented a Riverfront Park work plan which involves prioritizing events for the coming years and partnering with Downtown Spokane Partnership in creating events. Discussions are underway with Visit Spokane on repurposing the Fountain Café as a visitor information center. Repairs to the Clock Tower are anticipated to begin soon and expected to be completed by the end of the month. Staff is in the beginning stage of developing a new logo and branding for the park. Research is underway on the new Looff Carrousel gift shop, including how it may be managed and product mix.
2. [Riverfront Park redevelopment budget-to-actual update](#) – *Danielle Arnold* presented the bond budget utilization chart, and a comparison of budget-to-actual/committed expenditures.

**Adjournment:** The meeting was adjourned at 10:13 a.m.

Next meeting will be at 8:05 a.m. April 10, 2017, City Hall Council Briefing Center, lower level, 808 W. Spokane Falls Blvd., Spokane, Washington.

**CITY OF SPOKANE PARK BOARD  
RESOLUTION**

A Resolution regarding Naming and Redevelopment of Canada Island in Riverfront Park.

**WHEREAS**, the Spokane Tribal Business Council (“Tribal Council”) is the duly constituted governing body of the Spokane Tribe of Indians (“Tribe”) by authority of the Constitution of the Spokane Tribe (“Constitution”); and

**WHEREAS**, under the Constitution of the Tribe, the Spokane Tribal Business Council is authorized to negotiate with and represent the Tribe before federal, state and local governments and their departments and agencies; and

**WHEREAS**, Spokane Falls was the location of an abundant salmon fishery and, in years of abundance, the Spokane Tribe would invite friendly neighboring tribes to partake in the salmon harvest; and

**WHEREAS**, the Tribe maintains strong connections to its aboriginal homelands, including the great Spokane Falls; and

**WHEREAS**, within the Spokane Falls area lies an Island known to non-Indians as “Canada Island” or “Cannon Island”; and

**WHEREAS**, Canada Island remains an important Cultural Resource for the Tribe; and

**WHEREAS**, the Spokane Park Board is empowered by the City Charter to lay out, establish, purchase, procure, accept, and have the care, management control and improvement of, all parks and grounds used for park purposes, all boulevards, connecting parks and structures thereon, and all parkways; and

**WHEREAS**, in 1974, the City of Spokane changed the name of Cannon Island to Canada Island as part of the 1974 International Environmental Exposition held in Riverfront Park (“Expo ‘74”); and

**WHEREAS**, after Expo ‘74, Canada Island and the rest of the exposition grounds were dedicated as a city park and thus under the exclusive control of the Spokane Park Board, which includes the power to rename the island; and

**WHEREAS**, in 2014, the citizens of Spokane approved a \$64.3 million bond to revitalize and redevelop Riverfront Park (the “Riverfront Redevelopment Project”); and

**WHEREAS**, as part of the Riverfront Redevelopment Project, the City of Spokane and the Spokane Park Board wish to promote awareness of its first inhabitants, the Spokane Tribe, and

**WHEREAS**, as part of the Riverfront Redevelopment Project, the City of Spokane and the Spokane Park Board wish to rename Canada Island to a name chosen by the Spokane Tribe and approved by the Spokane Park Board, and wish further that the Spokane Tribal place name (and its English translation) to serve as a dedication to the Spokane Tribe by the residents of the City of Spokane; and

**WHEREAS**, the Spokane Park Board in cooperation with the Canadian Government, Consul General of Canada James K. Hill recognizes “Small acts like renaming Canada Island to honor the original inhabitants of the Spokane area are symbolically important to the ongoing process in both Canada and the U.S.”; and

**WHEREAS**, two names were presented to the Park Board for consideration in order of preference the first and preferred name is *snx<sup>w</sup> mene?* (pronounced Sin-hoo-men-huh meaning Salmon People); and

**WHEREAS**, a public survey was conducted to discover the public preference for the name, almost 60% of the responses favored *snx<sup>w</sup> mene?* (pronounced Sin-hoo-men-huh meaning Salmon People); and

**WHEREAS**, Spokane Tribe, public input and Park Board all favor *snx<sup>w</sup> mene?* (pronounced Sin-hoo-men-huh meaning Salmon People), for the new name of Canada Island; and

**NOW, THEREFORE, BE IT RESOLVED** that the Spokane Park Board, hereby agrees to the new name for Canada Island as *snx<sup>w</sup> mene?* (pronounced Sin-hoo-men-huh meaning Salmon People) selected by the Spokane Tribe, acting by and through its Spokane Business Council and in consultation with tribal elders and cultural resources staff; and

**BE IT FURTHER RESOLVED** as part of the Riverfront Redevelopment Project, all staff, designers, and contractors associated with the Project will work with the Tribe to identify and

preserve Tribal cultural resources located on *snx<sup>w</sup> meneʔ*, and recommend to the Spokane Park Board methods for preserving cultural resources; and

**BE IT FINALLY RESOLVED** that the Spokane Park Board agrees to work with the Tribe concerning the determination of appropriate land uses, activities, signage and public art displays on *snx<sup>w</sup> meneʔ* and throughout Riverfront Park, and to include the Tribe's designated representatives in all major design deliberations concerning Canada Island.

Adopted by the Spokane Park Board this \_\_\_\_ day of March 2017.

---

President, Spokane Park Board

On behalf of Spokane Tribe of Indians ("Tribe",) and by authority of the Constitution of the Spokane Tribe ("Constitution), I hereby acknowledge the foregoing resolution of the Spokane Park Board and agree to commit the resources of the Spokane Tribe to fulfill its stated intentions.

---

Carol Evans                      Date  
Chairwoman  
Spokane Business Council

**RIVERFRONT PARK MODERNIZATION  
SPOKANE PARKS AND RECREATION DIVISION  
PAVILION & CENTRAL GREEN DRAFT PROGRAM  
03/01/2017**

**VISION**

The United States Pavilion (Pavilion) was the centerpiece of Expo '74, the World's Fair that came to Spokane and led to the reclamation of the city's center into what we now enjoy as Riverfront Park. The Pavilion is an instantly recognizable icon of Spokane. The vision of this project is to reestablish the Pavilion, stronger than ever, as the central gathering place, both geographically and culturally. In our visioning process, we called this the "Wow! Factor" of Riverfront Park. As it functioned during Expo '74, the Pavilion structure will again be our anchor — this time for one of the great urban parks in 21<sup>st</sup> century America.

**OVERALL GOALS**

1. The Pavilion is intended to be a year-round visual delight. Planting, topography, views, sound, art, video projection, cultural/historical elements.
2. The Pavilion is to blend passive and activate zones.
3. The Pavilion must have enough "wow" and interest to draw visitors both during events and when no events are scheduled.
4. It must attract and satisfy visitors who want to observe and explore the beauty of the natural setting while supporting visitors who enjoy art festivals and music events.
5. The Pavilion must accommodate a variety of community-oriented events, both large and small, while supporting future needs and desires.
6. The Pavilion is imagined to be a lantern at night, illuminated with state-of-the-art lighting and projection technology, attracting local citizens and tourists alike.

**PROGRAM AND EVENTS**

The Pavilion, adjacent spaces and Central Green will host a variety of events and be the central gathering space of Riverfront Park. Large and small programmed events will be hosted at the venue including:

- Community Fairs & Festivals
- Sporting Exhibitions
- Cultural, Music, & Art centered events
- Culinary (Food and Drink) Festivals
- Performing Arts
- Mobile / Traveling Attractions or Exhibits
- Portable Amusement Rides
- Video Projection

The Program includes flexible space(s) with permanent and temporary infrastructure including:

- Event Plaza space for standing and/or seated events (no fixed seating).
- Flexible space for stage / performance area (no fixed stage).
- Adjacent interior support space (green room/changing rooms/etc.).
- Interior leasable space (meeting rooms, party rooms, etc.).
- Exterior leasable space provided with water, power, and sewer facilities.
- Restroom facilities with additional space for temporary restroom.
- Truck access for deliveries, staging, and waste management.

**RIVERFRONT PARK MODERNIZATION  
SPOKANE PARKS AND RECREATION DIVISION  
PAVILION & CENTRAL GREEN DRAFT PROGRAM  
03/01/2017**

- Park staff support facilities (office space, meeting room, break room, etc.).
- Catering kitchen to support park vendors and events.

**PAVILION COMPLEX**

It is anticipated that many of the existing site improvements within the Pavilion complex will be demolished to make way for the new Pavilion design. The existing Administration Building on the west side of the Pavilion is intended to be renovated to accommodate building program elements.

**Cable Net Structure**

The Design-Builder will review the Pavilion Facilities Conditions Assessment Report (see Appendix X) regarding the condition of the cable net structure and appurtenances and will field inspect and validate the report's findings. Design-Builder scope of work to include evaluating the structural integrity of the existing pavilion cable net structure and appurtenances and performing deferred maintenance work to restore the cable net structure and appurtenances as described in the Conditions Assessment Report.

**Shading/Weather Protection**

Design-Builder to provide areas of relief from sun and rain within the Pavilion footprint that compliments and the overall Pavilion design.

**Satellite Maintenance Facility**

The Design-Builder shall incorporate a Satellite Maintenance Facility adjacent to the Pavilion footprint. This fenced area to include space for waste and recycling bins, equipment storage, truck access, etc.

**Pavilion Fence Enclosure**

Provide a fencing system that secured the Pavilion footprint at night, during the off-season and for ticketed events.

**LIGHTING**

The Design-Builder will provide design solutions for light emitting diode (LED) lighting to illuminate the cable net structure. This lighting shall include interactive/programmable logic as possible within the approved budget. Elements to be lit may include the cable net, the mast, the crown ring and the arch trusses at the entrances. Integrated traditional lighting design shall enhance the venue and increase safety and security. Lighting improvement shall withstand local climate and exposure and incorporate adequate surge protection and grounding.

**VISUAL PROJECTION**

The Pavilion has a long tradition of incorporating giant moving pictures. During the World's Fair, one of the very first IMAX projectors in the world was included as a demonstration of extra-large-format movies, featuring the film *To Fly*. After the World's Fair, the new Riverfront Park featured a separate giant-screen theater that was in operation for more than three decades. The community has an affinity for that history and the presence of video in the park (see Hal McGlathery report Attachment Y). The Design-Builder shall include, as possible within the approved budget, the ability to project video imagery, whether movies played on a large wall for events or art projects beamed onto a new Pavilion covering.

**AUDIO**

Provide enough sound to accommodate daily needs and small events. Concerts or large events are expected to provide their own audio equipment. (See Appendix B, Section X for light video, and audio suggestions).

**RIVERFRONT PARK MODERNIZATION  
SPOKANE PARKS AND RECREATION DIVISION  
PAVILION & CENTRAL GREEN DRAFT PROGRAM  
03/01/2017**

**INTERCONNECTION**

Connect the Pavilion and Central Green to the Howard St Promenade through clever design, creating an integrated whole rather than designing the Pavilion as an island. Additionally connect the Central Green to the Central (North) Plaza and the Pavilion to the North Overlook.

**ENHANCEMENTS**

As possible within the approved budget, include interactive attractions (i.e. pavilion tensile canopies, catwalk, slides, swings, climbing wall, zip line, etc.) to support the success of the project.

**BUILDING STANDARDS**

The materials and finishes provided for the Pavilion project shall be consistent with other Riverfront Park development standards both in like and kind and shall be maintainable to park operations in the future.

**PROGRAM COORDINATION**

The Design-Builder shall coordinate with the Major Public Spaces Team and Lead Artist for input on elements of design and art envisioned for the Pavilion and the Central Green. The park's separately funded signature art piece may reside just outside the Pavilion in the Central Green.

**EVENT/VENUE CONSULTANT**

The Design-Builder after contract award, with input from Owner, will add to its team an event/venue consultant who will collaborate with the DB Team and owner during the programming and design phase and provide recommendations regarding interactive attractions that will support revenue generation and create an attractive destination. Interactive attraction such as a catwalk, zipline, slides, giant swings, playground, or climbing wall may support the successful design.

**CENTRAL GREEN**

The Central Green is intended to function as an active and passive programmable space that provides a venue for events and activities and also draws visitors from the Howard Street and Havermale Island Promenades into the Pavilion area. The Green will act as a Pavilion support facility and provide strong pedestrian connections, accommodate events, performances and small attractions that appeal to a variety interests and users. Smaller frequent activities could include weekly farmers markets, arts and craft fairs and lunchtime food truck rallies.

**Flexible Space:** The Central Green space will primarily be flat with hardscape and softscape elements and also include architectural and landscape features that draw visitors into the park's interior, such as art pieces or landforms. The space will be designed to easily adapt or change during the course of the day, week and year to respond to the variety events, attractions and seasonal changes.

**Amenities:** The Central Green should feature flexible and fixed amenities that provide a safe and comfortable setting. The site should include appropriate furnishings benches, wayfinding elements and other support amenities. Lighting will be used to highlight amenities, strengthen connections/entrances and provide a safe and inviting atmosphere.
