**Action Item No. 5: Approval of Letter of Intent**

Executive Director Todd Coleman presented the Letter of Intent (LOI) with Mullen Technologies Inc. (Mullen) who has an interest in leasing approximately 500,000 sf Phase 1 and 800,000 sf Phase 2 build to suit buildings from the PDA on Airport land for the general assembly of electric automobiles and battery research & development. The purpose of the LOI is to signal the interest of the PDA and Mullen to negotiate in good faith a lease agreement by September 18, 2019. By this LOI, the PDA is agreeing to create a conceptual site layout and conceptual cost estimate. The two parties will agree upon an estimated cost of the facility, upon which Mullen will pay the PDA a 4% non-refundable development fee. The intent of this fee is to cover the cost risk of the PDA for its efforts beyond the development of a conceptual layout and cost estimate. If the parties reach an agreement on a lease, the PDA is anticipated to issue revenue bonds to cover the costs of permitting, engineering, construction and construction management of the facility. Mullen will provide a surety bond equal to the PDA bond issuance prior to the PDA issuing bonds or expending funds beyond the 4% non-refundable development fee. The parties will negotiate the lease rate and terms in the Lease Agreement. Additionally, Mullen expressed interest in working with Spokane County to use the Spokane Raceway. Board Chair Larry Krauter stated 30 days was needed to obtain an appraisal of the airport property. Although $10,000 was mentioned as a reasonable dollar figure to spend for upfront costs, Board Chair Krauter stated that quality matters and that Mr. Coleman has the full support of the Board to go forward with his best judgement to expend additional funds as required to make the project a success. Motion was made by Board Vice Chair Al French to approve the LOI. Motion was seconded by Board Treasurer Ben Stuckart. Motion passed unanimously.

After approval, extensive conversation ensued regarding the presentation to public. A draft press release was reviewed and quotes from Spokane City Representative (Ben Stuckart) and Mullen were added. Mr. Coleman suggested that partners of the WP-AA PDA be notified first followed by the Spokane Business Journal, then the Spokesman Review. Additional, notifications should be sent to car publications and site-selector publications. Board Vice Chair Al French along with Board Chair Larry Krauter would notify legislators and Mr. Coleman suggested that Mullen write letters to each legislator requesting support for the transload facility funding. The Board discussed the importance of giving credit to those parties involved in attracting Mullen to the Spokane region.
