**Subject:** Re: ARPA Information for Building and Energy Workgroup Meeting

Thank you, Mike.

For clarification, the "demands" Larry is referring to were sent to the entire group and it outlined the commitments/expectations of participating in the workgroup going forward. I was not singling out any members of the group rather setting the rules of engagement for all.

Happy to discuss further if needed.

I did hear back from Mr. Andrews, but do not think that engaging him further on this subject will be productive for any of us. If you disagree, please let me know. Otherwise, onward and upward. Have a good afternoon.

**Subject:** FW: ARPA Information for Building and Energy Workgroup Meeting

Mr. Andrews:

Thank you for your recent e-mail regarding the operation of the Building and Energy Workgroup, specifically your inquiry regarding the application of the Open Public Meetings Act "OPMA"). I wanted to wait to respond until I knew more about the operation of the workgroup. The City does comply with the OPMA, which does not require workgroups like this to notice their meetings and/or have them open to the public. I understand and appreciate your interest in the topics being worked on within the workgroup and hope this covers the specific question you raised. Thank you for your involvement in this process.

Mike Ormsby
