Subject: Re: Rescheduled Ethics Commission Hearing

Hi Mike -

I am submitting an objection to a potential conflict of interest between Commissioner McFarland and the complainant Neil Muller. Commissioner McFarland is the chair of the legislative committee of BOMA and Mr. Muller is a committee member. The stated objective of the committee to communicate to the BOMA Board and general membership any legislative issues "affecting the commercial real estate industry at the Federal, State, and local levels." And to recommend course of action. Legislative Committee — BOMA Spokane. The two have a history of working together, which gives a perception of a conflict of interest, whether there is one or not.

Best,
Zack
