

BRIEFING PAPER
Plan Commission Transportation Subcommittee
Integrated Capital Management
March 29, 2016

Subject

2017 - 2022 Six-year Comprehensive Street Program Proposed Arterial Additions

Background

In support of the State Growth Management Act and the City of Spokane's Comprehensive Plan, the City must maintain 6-year capital financing plans for certain providers of public facilities and services. Accordingly, the City must maintain a 6-year capital financing plan for its capital street program. Pursuant to RCW 35.77.010 the capital street program must be adopted before July 1 of each year, and filed with the Secretary of Transportation not later than 30 days after adoption. To determine the plan's consistency with the Comprehensive Plan, it is scrutinized by the City Plan Commission. The Commission then makes a recommendation to the City Council as to the plan's consistency with the Comprehensive Plan, and the City Council then accepts or modifies the plan accordingly.

Each new project to the 6-Year Program is assessed for compliance with the Comprehensive Plan by verifying fulfillment of the Transportation goals and policies (TR's). Staff have prepared a draft assessment, and seek input on this assessment from the PCTS.

Impact

Provide input regarding the new projects coming into the 6-Year Program to assure compliance with the Comprehensive Plan.

Action

Upon review of the new 6-Year Program elements, staff seeks a recommendation from the PCTS to the Plan Commission regarding 6-Year Program compliance with the Comprehensive Plan.
