Transportation Commission Annual Report - 2025

Nicole White
Program Coordinator, Division of Transportation and Sustainability

Section 04.40.080 Duties and Responsibilities

Annual Report – The Transportation Commission shall issue an annual report on the state of transportation in the city of Spokane.

This report shall include the

- Status of transportation projects,
- Progress of Complete Streets Implementation,
- Transportation improvement expenditures, revenues, construction schedules,
- Any newly acquired data and predictive analytics, and
- The status and outcome of any transportation studies.
- Report shall satisfy the reporting requirements of the Transportation Benefit District (TBD).

Complete Streets

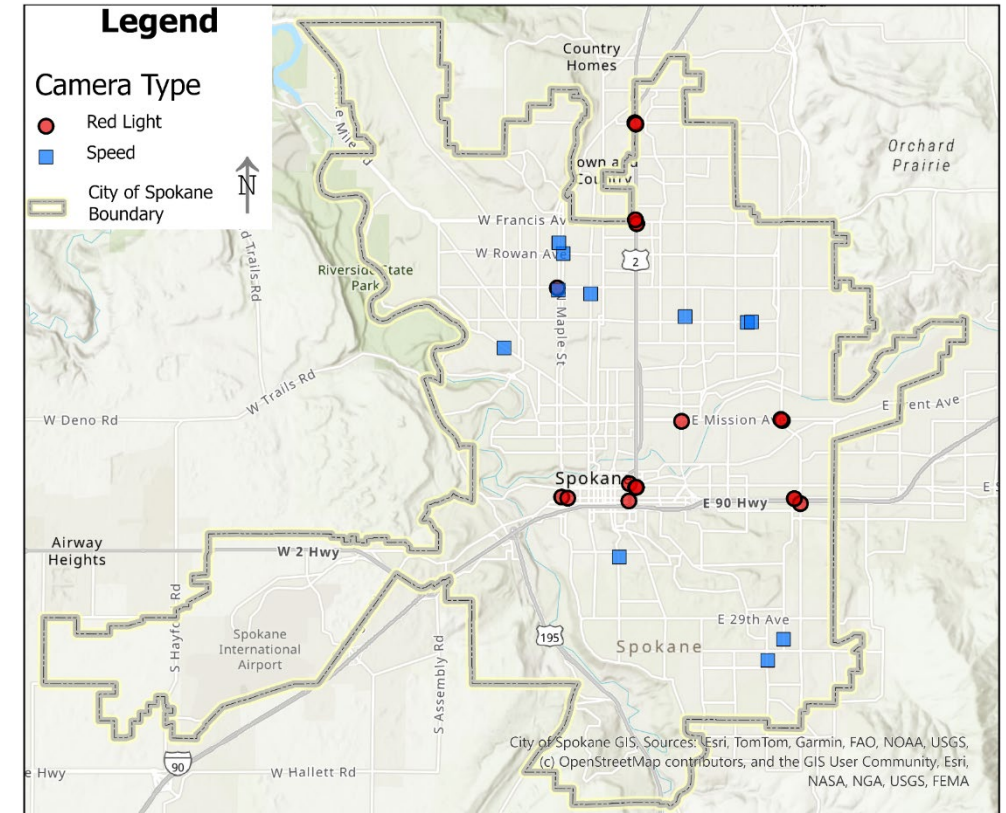

Section 17H.020.060 Performance Measures

1. Performance measures monitoring the progress of Complete Streets implementation will be included with the Transportation Commission's annual report to the City Council.
2. Performance measures established through the Complete Streets program shall utilize existing reporting done for concurrency certification and state and federal grant programs.
3. Performance measures shall include but are not limited to annual fatalities and serious injuries of all modes of travel, measurements of vehicle miles travelled in the city of Spokane, transit boardings in the city of Spokane, annual micromobility trips with a provider under contract with the City of Spokane, and new transit and active transportation facilities built in the city of Spokane.

Automated Traffic Enforcement Cameras

RCW 46.63.220

(b)(i) Cities and counties using automated traffic safety cameras must post an annual report on the city's or county's website of the number of traffic crashes that occurred at each location where an automated traffic safety camera is located, as well as the number of notices of infraction issued for each camera. Beginning January 1, 2026, the annual report must include the percentage of revenues received from fines issued from automated traffic safety camera infractions that were used to pay for the costs of the automated traffic safety camera program and must describe the uses of revenues that exceeded the costs of operation and administration of the automated traffic safety camera program by the city or county.

Next Steps

- Finalize information and draft report
- Design and clean up
- Presentation to Transportation Commission
- Presentation to City Council
