

1% for Public Art Program Update

PIES – June 8th

Activation of Public Spaces Recap

- Spokane Play Streets and Neighborhood Block Party Program
- Sidewalk Café & Parklet updates
- Outdoor dining set pilot program
- Mobile food vending updates
- Expanded Outdoor Alcohol Service

1% for Arts Program Overview

- The original program was created in 1982, and the last substantive update was in 2004
- The existing program is limited and lacks clarity on what projects qualify
- Process for selecting public art is out of date

Policy Intent

Revive and strengthen the 1% for Public Art program by:

- integrating it into the Citywide Capital Improvement Program;
- providing flexibility for new public art projects and the maintenance of the City's existing public art inventory; and
- clarifying eligible/ineligible projects.

Thank you
