

Traffic Calming Workshops

The Office of Neighborhood Services is offering Traffic Calming Workshops for each City Council District. The workshops will provide a one on one opportunity for neighborhoods to speak with an engineer and to go over example project applications. If you are unable to attend on your districts night you may attend one of the other workshops dates.

Bring your ideas, or just come to learn what traffic calming is and what opportunities your neighborhood has for these projects. For more information on the Traffic Calming Program, please visit our website at www.spokaneneighborhoods.org/programs.
