*The goal of the Diversion program is to help individuals stabilize their current housing situations. We want to be pro-active so notices are not required. While we **DO NOT** have financial assistance for direct housing costs such as rental arrears or security deposits, we can assist by providing case management services in a variety of ways:*

- a. Connection to community resources**
- b. Job search assistance**
- c. Education on life and tenancy skills**
- d. Landlord/tenant mediation**
- e. Tenant rights and responsibilities classes**
