

2018 EVERYBODY COUNTS CAMPAIGN

HELLO!

We are Tija and David!

We are here to share some data with you from this year's Everybody Counts campaign.

**KEEP
CALM
AND
LOVE
DATA**

TODAY'S DISCUSSION

- Changes in 2018
- Snapshot of the data
- Deeper dive into sub-population data
- Trends in the data

CHANGES MADE IN 2018

Mobile Data Collection

Simtech Solutions developed a mobile data collection tool that can be installed on any tablet or smart phone. Spokane was the first community in the region to use it.

Increased Capacity

The City of Spokane had two MSW interns this year who worked full-time on activities related to the Everybody Counts campaign.

Questions Revised

Community questions were revised and re-written to make them more clear for survey-takers and to get better quality responses.

Volunteer Support

We trained nearly 100 volunteers and had participation from three-quarters of them on campaign activities, including the count and donation drive efforts.

Expanded Outreach

We coordinated with all outreach teams, worked with County rural outreach teams, and expanded our known locations. This year, we counted in 173 places.

Youth-Focused Count

This year, we held youth-focused events to meet youth and young adults in places they already go and incentivize their participation.

THE COUNT

- The count date was January 25th this year
- The count of unsheltered homeless lasted for seven days from January 25th, however the surveys reflected where people stayed on the night of the count date
- There are two main categories for persons experiencing homelessness:
 - Sheltered during the night of the count (ES, TH)
 - Unsheltered or out-of-doors during the night of the count

THE SNAPSHOT

High level look at the data

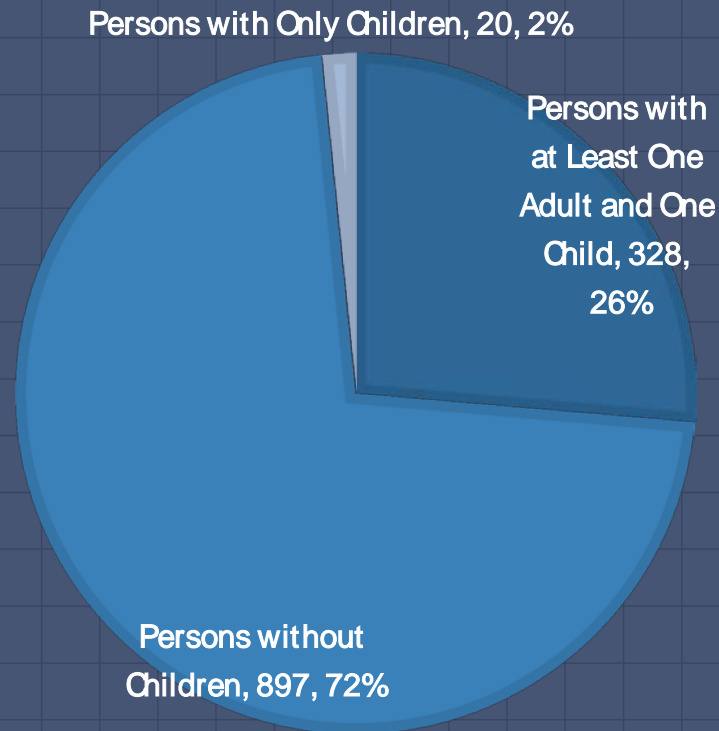

1,245 people

1,012 households

86% Households without children
12% Households with children AND adults
2% Households with ONLY children

WHO WAS COUNTED

38%

62%

GENDER and AGE

TYPES OF SHELTER

REASONS FOR HOMELESSNESS

310

Unsheltered individuals

SUB- POPULATIONS

A quick look at the numbers by sub-population.

96

Number of veterans counted

5%

95%

VETERANS

249 Chronically homeless individuals who were either unsheltered or staying in emergency shelter during the count

16 Persons in chronically homeless families (households with adults AND children) who were either unsheltered or staying in emergency shelter during the count

265 Total Persons Chronically Homeless

CHRONICALLY HOMELESS

307 Adults counted experiencing serious mental illness

184 Adults counted who have a substance abuse condition

121 People counted who are survivors of domestic violence

OTHER SUB- POPULATIONS

THE TRENDS

Key trends from 2009 to 2018

THE HIGHLIGHTS

A quick look at some big picture trends from 2017 to 2018.

TRENDS – TOTAL

	TOTAL PEOPLE COUNTED	VETERANS COUNTED	CHRONICALLY HOMELESS INDIVIDUALS	UNACCOMPANIED YOUTH
2017	1,090	118	292	21
2018	1,245	96	247	20

14%↑

21%↓

17%↓

5%↓

TRENDS – YOUTH AND YOUNG ADULTS

	Unaccompanied Youth (18 and under)	Young Adults (18 to 24)
2017	21	73
2018	20	99

5%↓

36%↑

SHELTER

A quick look at trends in shelter from 2009 to 2018.
