*The City of Spokane budgets annual figures. In order to prepare periodic variance reporting, the annual budget is amortized using either the previous year's spend, the twelve-month calendar, or the payroll calendar.

SUMMARY

Through September 2024, General Fund revenues are 2.3 percent above City budget projections (because of the \$3.1M transfer back to GF at the beginning of the year for police vehicles) with approximately \$150.6 million collected year-todate (YTD) and \$10.4 million more than through September 2023. On the expenditure side, actuals are 1.6 percent below budget, or \$2.8 million below YTD budget projections.

1- ORD C36573 created a \$32,200 operating transfer-in from the Cannabis Use Tax fund to fund a US Assistant Attorney in the Legal dept for serious narcotics prosecution. ORD C36568 created a \$1,224,513 operating transfer-in from the ARPA fund to transfer interest earnings to the Police dept to fund SSP termination pay. The same ordinance created a \$550,000 operating transfer-in from the ARPA fund to transfer funding to the Community Justice Services dept to fund positions.

2- ORD C36573 and C36568 created expense authority for the items referenced above.

Note: Encumbrance Carry Forward budgets are for contracted goods or services, grants, or capital projects from the prior fiscal year which continue into the current fiscal year; funds to pay for these expenses are set aside in reserve. City Council passed ORD C36488 on February 5, 2024 to carry budget capacity forward from 2023 into 2024.

Revenue is received under various schedules and will always lag the calendar. Second half property taxes (~\$18M) will be received in November while sales tax is always recorded two months in arrears (~\$10M).

Non-departmental: 88% of General Fund revenue is budgeted in this budgetary department because it receives most of the City's sales tax, property tax and utility tax. The majority of property taxes are received in May and November.

REVENUE OVERVIEW

Sales tax revenue (July 2024 activity) is falling just short of the budget while property tax revenue is tracking above budget projections by about \$861 thousand. Taxes on Private Utilities are 0.7 percent above budget while Interfund Taxes, City utilities, are slightly below YTD budget projections. Charges for Services is beating budget projections because of charges for engineering services and zoning/subdivision fees. Interest Earnings has fallen because of the Fed's 50 basis point reduction to the Fed Funds rate and Traffic & Parking Violations are below budget because SPD has not resurrected the traffic unit.

The aforementioned \$3.1M operating transfer-in that was done during Q1 to return unused unappropriated fund balance, makes it appear that revenues are doing very well. When manually excluded, revenues are only trending 0.2% above budget.

EXPENSE OVERVIEW

Through September, overall General Fund spending appears to be under budget *projections*. As mentioned before in this report, the City operates under cash accounting throughout the year, meaning accruals are not made, and the City budgets annual figures, meaning monthly budgets are calculated. Due to these circumstances, variance reporting is very sensitive to actuals. For this report, several General Fund departments appear to be trending over budget, however, annualization analysis indicates only Police and Fire are legitimate concerns.

Police's large unfavorable variance is stemming from terminated leave payouts. Unfortunately, when all outstanding variables are taken into account, it is estimated that the Police department will end the year almost \$1.5 million dollars over budget. SSP salary savings have been overshadowed by not only the terminated payouts & HRA payments, but the necessary transfer of PD personnel from the Public Safety Personnel Levy fund to the Police department. Additionally,

the recent MOU that allows for additional comp time to be paid out is estimated to significantly negatively impact the department's budget. Finally, the joint-use agreement with the County is expected to be more than budgeted.

Fire's unfavorable variance, (\$780,000), is driven by uniform overtime overshadowing salary savings because of the canceled recruit school and likely because of the FLSA change. Furthermore, the Fire Trust did not participate in the budgeted medical premium holiday and their aged fleet is causing more and more repair & maintenance.

80100 OPERATING TRANSFERS OUT	93,486,188	70,139,760	69,984,048	155,713

Although, at the end of September, the expense categories look favorable to budget, salaries & wages are expected to go over budget because of Police.

CONCLUSION

General Fund revenues are beating the budget primarily due to property taxes, but revenues won't significantly contribute to a positive year-end fund balance. The General Fund expense variance is favorable right now; however, it is anticipated to grow unfavorable as the year comes to a close due to Police and Fire. Year-end SBOs have been submitted to the Public Safety committee to right-size these departments' funding needs.

KEY ECONOMIC INDICATORS

Unemployment Rate - Spokane-Spokane Valley, WA (MSA)

*Preliminary data

Source: U.S. Bureau of Labor Statistics (BLS). On April 19, 2024 BLS issued major revisions to all prior months, may not match previous reports.

The unemployment rate in the Spokane-Spokane Valley metropolitan statistical area (MSA) was 4.7 percent in August 2024. This is 0.2 percent greater than the unemployment rate in August 2023, due to an increase in labor force participation that was slightly larger than the increased employment.

We expect to see a sharp spike in labor force participation in October 2024 as parents seek employment after their children have returned to school in the fall. The increased labor force participation contributes to the increased unemployment rate and is compounded with a reduction of available jobs due to the impact of inclement winter weather on business operations.

September 2024 - Quarterly Financial Report IV. Economic Briefing City of Spokane

Taxable Sales

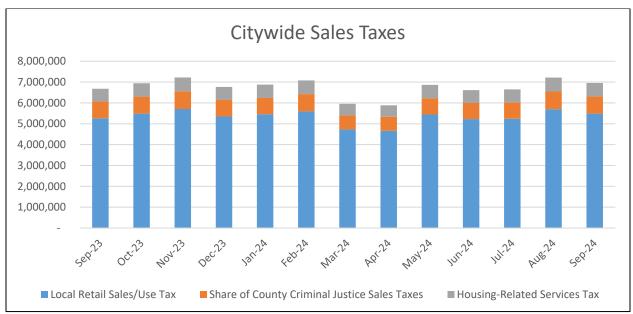

NAICS: North American Industry Classification System Source: Washington State Department of Revenue

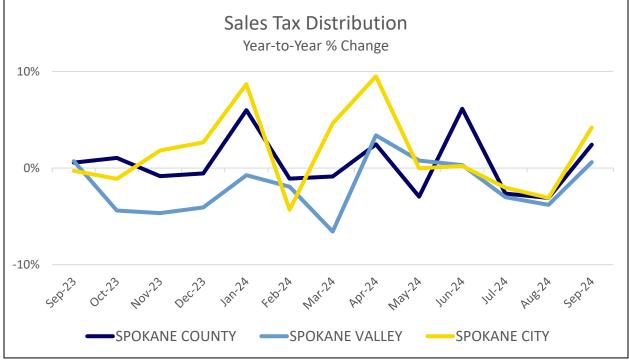

Monthly total taxable sales in the month of July 2024 were 4.19 percent greater than taxable sales in July 2023. YTD taxable sales in 2024 are only 0.95 percent greater than YTD taxable sales in 2023 due to particularly weak taxable sales in April 2024 – June 2024.

Retail Trade continues to be the largest category of taxable sales but has experienced a 3.9 percent decline of YTD taxable sales. Discretionary spending continues to be hindered by the increased cost of necessities. August 2024 recorded the 42nd consecutive month with U.S. inflation greater than the Federal Reserve's targeted inflation rate of 2.0 percent. To combat increased unemployment, the Federal Reserve reduced the federal funds rate by 0.50 percent during their September 2024 meeting. This decision could result in another spike in the rate of inflation as an unintended consequence.

September 2024 - Quarterly Financial Report IV. Economic Briefing City of Spokane

The City receives revenue from three portions of sales tax: local option retail sales/use tax (1%), portions of Spokane County criminal justice sales taxes, and housing-related services tax (0.1%). Sales tax revenue is received approximately two months following the taxable sale activity. For example, the chart above shows the typical seasonality of sales tax with December holiday sales appearing in February 2024, and March 2024 showing the dip of January sales following the holiday season.

A view of Eastern Washington's economy can be seen in the year-to-year percent change in sales tax revenue distributions. The City of Spokane has experienced a total of 1.6 percent growth throughout 2024. The City of Spokane Valley and Spokane County have experienced weaker growth during the same period with a 1.3 percent contraction and 0.6 percent growth, respectively. This continues the reversal of the prior year's trend where Spokane Valley and Spokane County were significantly outperforming the City of Spokane's 2023 sales tax growth.
