Dataset Description

The Profile of Selected Housing Characteristics Summary table is an attempt to best replicate the Demographic Profiles released by the US Census Bureau. The Demographic Profiles consist of the most commonly used data at the block group level. The Census 2000 Summary File 3 Profiles contain sample data sets as opposed to 100% data available in SF1 data. Refer to the website located at <http://censtats.census.gov/pub/Profiles.shtml> for further information regarding the Demographic Profiles released by the US Census Bureau. This document describes each field value in the Housing Demographic Summary Profile and depicts how each field table was derived from the raw Census data. For additional information regarding the raw Census data refer to the SF3 Technical Documentation located at <http://www.census.gov/prod/cen2000/doc/sf3.pdf>. This high level document is for convenience only. The tables were compiled by City of Spokane Planning Services.
