| B2118029BLDR Issued | 11/16/2021 35302.1503 | FIGUEIRA, MARLA J 1027 W 16TH | New Accessory Structure - detached (Garages/Carports/Sheds)-Owner Builder Adding a second terrace to a 3ftx3ftx70ish feet of Gabion cage retaining wall to support an existing dry stack Basalt rock retaining wall. Attached is the PDF that I had drawn up by a structural engineer. I have a massive amount of Basalt rock from the other projects that I plan to recycle as much as possible into this terrace. there is a gravel base under the first terrace of Gabions. I was advised by an Engineer to back fill with self compacting gravel behind the portion of this wall that parallels my next door neighbor's home which I have done. I am overwhelmed with Basalt rock, and the elevation of my neighbor's yard are motivating me to add this second terrace. I plan to set it back about 2 feet to create a terrace effect both to increase the structural support as well as providing me a deck to place potted plants. | | 1 0 |
