Narrative regarding the Catholic Charities Grant Reports for Reporting Period: July 1, 2024 - September 30, 2024

Grant OPR-2024-0696 and 2024-0753 (Emergency Shelter (Night-by-Night)):

"As of July 1, 2024, our system offers a total of 75 beds, in contrast to the 135 beds currently reflected in the records. Of these 75 beds, only 17 are funded through our ESG and HSG contracts, creating substantial financial constraints that limit our ability to provide the enhanced support services required to meet HUD guidelines as outlined in the five-year plan. This funding gap poses significant challenges in delivering the level of care necessary for our clients. Additionally, as a shelter, we have limited influence on the rates of returns to homelessness. Due to current funding structures, we are unable to extend ongoing support for individuals once they have been housed, which we recognize as a critical element for maintaining long-term stability."

Narrative regarding the Family Promise of Spokane Grant Reports for Reporting Period: July 1, 2024 - September 30, 2024

Emergency Shelter Grant 2024-0757 (HSG Emergency Shelter Grant):

"Most metrics presented are accurate, though the number of individuals reported as served is overcounted by approximately 45. The actual total served should be 128 minus 45 individuals. This discrepancy occurred because Family Promise of Spokane was operating an additional 22 beds intended to be contracted by the county. However, the county emergency shelter grant was not executed until August 13, and the project was not created in CMIS until sometime afterward. During this period, Family Promise still needed to meet requirements for entering service data into CMIS, so these individuals were temporarily entered under the only available project, the HSG grant. Family Promise is pleased to report that family information and service details remain accurate in CMIS; only grant assignments are being adjusted. The correction process has been delayed as two primary staff members responsible for entry and corrections experienced family emergencies toward the end of the reporting period. Corrections are now underway, and we expect all data to be fully aligned with the correct grants by the end of the first week of November."

-- Chris Harbert-Erceg, Director of Research and Development
