Narrative regarding the **Revive Emergency Shelter Housing Navigation Center** HMIS QPR Report for **Q2** Reporting Period: **July 1, 2024 - December 31, 2024**

Grant OPR-2023-0882 (Emergency Shelter - Night-by-Night):

"This project may need to be re-evaluated. The clients that are added to this project by our team are, for the most part, added to the waitlist for the ES (Emergency Shelter), and attempts are made to find other options in the interim. However, we have come to find that a majority percentage of these folks are not heard from again, and unable to be contacted even if there is an opening in ES. Lost phones, and other contact problems are common with this population. But based upon our protocols, we should almost never have someone exited to permanent housing directly from the SO (Street Outreach), as they would be entered into the ES first. Perhaps we could talk about how to best account for this. or strategies for avoiding having this impact our data in a negative way.

    -- Joshua Leach, Revive Program Director - ROW Homeless Services
