

PROGRAM YEAR 2017 ANNUAL ACTION PLAN

Community, Housing and Human Services Department

March 2017

DRAFT for Public Review and Comment

Annual Action Plan
2017

Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

This Action Plan represents a DRAFT for public review and comment. At the time of this writing, the City of Spokane has not received notice from the United States Department of Housing and Urban Development (HUD) as to our Program Year (PY) 2017 Allocations. The Community, Housing and Human Services Department (CHHS) has developed a contingency plan to address any significant changes to our allocation. Below is a summary of how CHHS will adjust current funding awards to align with PY 2017 allocation once they are announced...

- CHHS has built in a 3% budget reduction for the 2017 Program Year allocation
- CHHS will reduce recommended funding amounts to offset any allocation reductions beyond the 3% already factored in the 2017 Program Year budget
- CHHS will increase recommended funding amounts in the event that our 2017 Program Year allocation exceeds the current budgeted amount.

Individuals seeking further understanding of the 2017 Program Year allocation process and timing are encouraged to review HUD Notice: CPD-16-18. Print or electronic copies of this notice are available by request to CHHS.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

Within the Program Year 2017 Action Plan citizens will note that all projects meet one, or multiple needs and goals from the 2015-2020 Consolidated Plan. CHHS will continue seeking projects and community partnerships that further enhance service delivery to homeless and low/moderate income individuals. The needs and goals of our 2015-2020 Consolidated Plan are as follows:

1. Need for safe affordable housing choice
 - Preserve and expand quality, safe, affordable housing choices
2. Need to provide for basic and special needs and reduce homelessness
 - Prevent and reduce homelessness

- Provide opportunities to improve quality of life

3. Need for community development, infrastructure and economic opportunities

- Support Vibrant neighborhoods
- Expand economic opportunities

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Members of the CHHS Board review all eligible project applications prior to making funding recommendations to Spokane City Council. A major component of this evaluation process is prior performance. CHHS has relied on quarterly performance reports and a competitive request for proposals process to determine which projects will be funded. Additionally, applications must be able to describe how their proposal aligns with the needs and goals of our 2015-2020 Consolidated Plan. CHHS also uses data from the Consolidated Annual Performance Evaluation Report (CAPER) to evaluate progress toward meeting community needs.

Many of the programs supported by CHHS serve very low-income and homeless populations. As a result, CHHS is constantly evaluating community need and partnerships to provide service deliveries that align with needs and goals of the Consolidated Plan.

4. Summary of Citizen Participation Process and consultation process

CHHS works closely with partner agencies and community stakeholders to ensure that everyone has an opportunity to provide public comment on the Program Year 2017 Action Plan. CHHS will post a draft copy of the Action Plan on the CHHS website (<https://my.spokanecity.org/chhs/>) for all interested parties to review. Additionally, CHHS will publish in the Spokesman Review information relating to the Public Hearing (Wednesday, March 1, 2017) and how citizens may submit their public comment. Further public comment will be sought through email distribution to partner agencies and community stakeholders. CHHS will work in partnership with the Office of Neighborhood Services to ensure neighborhood organizations understand the process for reviewing the Action Plan and submitting public comment.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

Summary of Public Comment will be provided following the end of our 30 day Public Comment period. The final draft of this Program Year 2017 Action Plan will contain a summary of Public Comment received.

6. Summary of comments or views not accepted and the reasons for not accepting them

CHHS will provide a summary response to all comments or views not accepted and the reasons for not accepting them in the final draft of this Action Plan.

7. Summary

CHHS works closely with partner agencies and community stakeholders to ensure we continue working toward achieving the needs and goals outlined in the 2015-2020 Consolidated Plan. Public engagement and comment is an essential part of this process. We invite all interested citizens and agencies to become familiar with these planning documents.

Narrative (optional)

The Community, Housing and Human Services Department (CHHS) is the lead agency for the City of Spokane to administer the Community Development Block Grant, HOME Investment Partnership and the Emergency Solutions Grant Programs. As such, CHHS staff works with partner agencies and stakeholders to develop and implement community needs and goals outlined in the Consolidated Plan. This Program Year 2017 Action Plan is a representation of projects and activities that will help the Spokane community work toward achieving those needs and goals.

Consolidated Plan Public Contact Information

Individuals may contact the City of Spokane Community, Housing and Human Services Department (CHHS) for any questions or comments relating to the Consolidated Planning Process as outlined in 24 CFR Part 91.

The Community, Housing and Human Services Department is located at Spokane City Hall (808 W. Spokane Falls Blvd., Spokane, WA 99201). The Department may also be reached via email at spokanechhs@spokanecity.org, or via phone at (509)625-6325. Individuals may request a copy of

the planning documents either in print or electronic version. Please contact CHHS for any assistance needed with translation or language barriers.

DRAFT

AP-10 Consultation – 91.100, 91.200(b), 91.215(I)

1. Introduction

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I))

The Continuum of Care and CHHS Boards and their committees review the needs and priorities in consultation with community organizations through a series of meetings, hearings, workshops, focus groups and interviews of key leaders and representatives of organizations conducting planning, operating programs, providing services or advocating for the interests of specific groups or populations in the City. Meetings take place at both the neighborhood level and citywide. Key to the success of this process has been the continued strong relationship the City has maintained with local agencies, nonprofit organizations, developers, and other entities providing human services, community development, economic development, affordable housing and homeless housing and services.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The Community, Housing and Human Services (CHHS) department of the City of Spokane plays a critical role in the Spokane Continuum of Care by providing staff support to the CoC board and its committees. In monthly meetings of the Continuum, CHHS staff provides assistance in agenda-setting, planning activities, developing funding criteria and decisions, and providing performance and evaluation reports on CoC and ESG project performance, as well as progress in meeting Continuum goals. In addition, CHHS staff provide continuity between meetings and coordinates activities with members working on specific action steps of the Homeless Plan. Together, CHHS and the CoC have worked to develop the 2015-2020 Spokane Strategic Plan to End Homelessness; a Plan which is fully coordinated with the goals of the City of Spokane 2015-2020 Consolidated Plan. The Homeless Plan encompasses an aggressive approach to retool the housing and services delivery system toward the ultimate goal of ending veteran homelessness, chronic homelessness and family homeless all within the next four years. The CoC is currently working to strategically utilize all homeless funding resources to increase the community's inventory of PSH and RRH units. We are continuously working to maintain a housing first philosophy within our programs as well as consistently reevaluate low barrier shelters and housing. In order to ensure every homeless individual has a place to go, we are retooling our shelter system to effectively implement a 24/7 shelter for singles and families respectively. In coordination with our continuum's goals, collaboration is occurring between the CoC, CoC Homeless Youth Committee, and our Youth Advisory Board which is comprised of youth with lived homeless experience. We are coordinating with

the Office of Homeless Youth to expand RRH for youth and are partnering with Invest Health to effectively serve youth exiting institutions.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The CHHS staff responsible for providing staff assistance to the Continuum of Care is also responsible for management of the ESG Program. City staff has drafted policies and procedures for annual allocations of ESG funds. These were adopted by the Continuum of Care.

CHHS staff also prepared proposed performance standards for evaluating ESG project outcomes for Continuum review and adoption. Coordinating with the Washington State Department of Commerce in utilizing statewide evaluation standards, the Continuum adopted a Dashboard data base and reporting process for use in the Spokane CoC for review of performance outcomes. Reports on outcomes are prepared by City staff at the system-level quarterly and on a project-level annually. These reports are used by the Continuum to evaluate performance and identify issues with specific projects and program areas. Procedures for use of HMIS data have also been adopted in the policies and procedures of the Continuum.

CHHS works closely with partner agencies and community stakeholders to ensure funding strategies are consistent with and respond to community needs. The following list of meetings demonstrates the efforts of CHHS to engage with the public through the development of this 2017 Action Plan.

During calendar year 2016, CHHS conducted 4 separate public hearings with opportunity for public comment and discussion with members of the CHHS Board. Public Hearings were held on the following dates:

1. **Wednesday, March 2, 2016**: Public Hearing for the Program Year 2016 Action Plan
2. **Wednesday, April 6, 2016**: Public Hearing to conclude public comment of the Program Year 2016 Action Plan
3. **Wednesday, September 7, 2016**: Public Hearing to review and make public comment on the Program Year 2015 Consolidated Annual Performance Evaluation Report (CAPER)
4. **Tuesday, October 11, 2016**: Public Hearing to conclude public comment of the Program Year 2015 Consolidated Annual Performance Evaluation Report (CAPER)

In addition to the formal Public Hearings hosted by the CHHS Board, there are multiple opportunities for citizen engagement in the consolidated planning process. CHHS and Board members staff monthly meetings (open to the public) with community stakeholders to develop and refine programming to assist homeless and low/moderate income individuals. Below is a list of the committees and their frequency of meetings:

Expected Resources

AP-15 Expected Resources – 91.220(c) (1, 2)

Introduction

The following expected resources represent a forecasted budget from the Community, Housing and Human Services Department (CHHS). At the time of this writing (February 2017), CHHS has not received notice from HUD regarding the Program Year (PY) 2017 allocations. CHHS anticipates receiving formal notice from HUD during late spring or early summer of 2017. Once notice has been given, CHHS will post the PY 2017 allocations for the Community Development Block Grant Program, HOME Program and Emergency Solution Grant Program.

The CHHS Board will provide an opportunity to make public comment at their standing monthly meeting immediately following notice of PY 2017 Allocations. CHHS does not intend to host another public hearing and comment period unless the PY 2017 allocations are less than the

forecasted 5% reduction. If the reduction is greater than the forecasted 5% reduction, CHHS will host another public hearing and public comment period.

Should the PY 2017 allocation come in equal to or greater than the allocation received for PY 2016, CHHS will allocate funds toward economic development activities. Public notice will be given once CHHS has identified economic development activities that will be supported with CDBG funds.

The following table provides a comparison between the PY 2016 allocations and the forecasted PY 2017 allocations:

Priority Table

The ESG Program does not generate any program income from grants made to homeless service providers.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

The City will use Consolidated Homeless Grant Funds obtained through the Washington State Department of Commerce and City of Spokane Homeless Housing Assistance Act grant funds to match the ESG allocation. HOME leverage is created when funds are allocated to affordable housing projects that also apply for Washington State Housing Trust Funds, bonds, and Low-Income Housing Tax Credits. HOME match is required at a program level for tenant-based rental assistance, single family rehabilitation and down payment assistance, and development of

affordable rental units. Match is generated when affordable rental unit development is financed with permanent investments of non-federal, non-owner funds. Some sources of leverage and match have declined recently, such as the value of the interest on below-market-rate bank loans, State Housing Trust Fund allocations, and grants. Local real estate tax reductions are available to affordable housing projects and some fee waivers are available in targeted areas, adding to match amounts.

The City is analyzing the potential for use of the Section 108 Loan Program to stimulate economic development and/or assisted affordable housing for low and moderate income households. If the analysis determines the need, the City will use the 108 loan proceeds for specific activities to be identified in the Annual Action Plans. The City is also working with developers to support affordable housing and economic development projects with income from the closed Rental Rehabilitation and Urban Development Action Grant programs.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The City of Spokane is working on a disposition plan approved by the HUD field office for properties acquired using CDBG funds. Interested individuals are encouraged to contact the Community, Housing and Human Services Department (625-6325) for additional details.

AP-35 Projects – 91.220(d)

Introduction

The Community, Housing and Human Services Department issued a funding notice to the Spokane Community seeking proposals that meet the identified needs and goals of the 2015-2020 Consolidated Plan. The following projects were selected through a competitive application process where each proposal was evaluated for risk, eligibility, past performance and alignment with community needs and goals. Proposals recommended for funding were evaluated by members of the Evaluation and Review Committee, Community, Housing and Human Services Board and approved by the Spokane City Council.

At the time of this draft Program Year (PY) 2017 Action Plan, the City of Spokane has not received a formal allocation notice from the Department of Housing and Urban Development (HUD). The City anticipates receiving the allocation notice during late spring. In an effort to proceed with this PY 2017 Action Plan, the Community, Housing and Human Services Department has applied a forecasted reduction of 5% (less than PY 2016 allocations) for the CDBG, HOME and ESG programs.

To maintain transparency with the public, the City will provide a summary of the allocations once the City receives notice from HUD. The allocation summary will be included on the Community, Housing and Human Services website and reviewed during the CHHS Board meeting (first Wednesday of each month) following notice of the allocations. The public is invited to attend the Board meeting and provide additional comment/feedback on the PY 2017 allocations.

The Community, Housing and Human Services Department will not hold another separate public comment period once the PY 2017 allocations are released as long as the allocation is within 5% of the PY 2016 Allocation. If cuts to the PY 2017 allocation exceed 5%, the Community, Housing and Human Services Department will hold an additional public hearing and comment period to discuss projects listed in AP-35 of this document.

Table 8 – Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

The following projects address existing programs serving low and moderate income households. Additional work is needed with partner agencies to further expand new capacity to serve target populations identified in the 2015-2020 Consolidated Plan. Affordable housing remains a significant investment by the Community, Housing and Human Services Department (CHHS). CHHS will continue

working with the Spokane community to identify targeted programs for housing rehabilitation in northeast Spokane.

Table 9 – Project Summary

1	Project Name	2017 Public Service - Senior Meals
	Target Area	
	Goals Supported	Provide opportunities to improve quality of life
	Needs Addressed	Basic and special needs and reduce homelessness
	Funding	CDBG: \$50,400
	Description	Meal program for home bound seniors: 05A - Senior Services (LMC)
	Target Date	6/30/2018
	Estimate the number and type of families that will benefit from the proposed activities	Applicant proposes to serve 1,200 unduplicated low/mod income individuals throughout the course of this funding award.
	Location Description	Services will be provided throughout the City of Spokane to senior citizens in need of meal assistance.
	Planned Activities	Senior Meals, both home delivered and served at Silver Cafes, improve the quality of life maintaining the social safety net by meeting the most basic essential need of food for our most vulnerable citizens. For our home delivered program, the clients that we serve are essentially homebound.
2	Project Name	2017 Public Service - Services to City Outlets and Agencies
	Target Area	

	Goals Supported	Provide opportunities to improve quality of life
	Needs Addressed	Basic and special needs and reduce homelessness
	Funding	CDBG: \$87,074
	Description	A human services grant will help fund 15 full-time and five part-time staff positions that lead, coordinate and deliver these food assistance and nutrition education services. 05W - Food Banks (LMC)
	Target Date	6/30/2018
	Estimate the number and type of families that will benefit from the proposed activities	Second Harvest will be a significant source of donated food for its city network during the grant year. Second Harvest projects distributing 545,000 pounds of food each month in the city. Close to half of that food will be nutritious fresh produce. At least 62,000 unduplicated clients will be served during the year, receiving food that helps preserve their assets to sustain other basic needs.
	Location Description	Food will be distributed to various food outlets serving low/mod income individuals throughout the City of Spokane
	Planned Activities	Food distribution and cooking classes for low/mod income individuals
3	Project Name	2017 Public Service - Homeownership Program
	Target Area	
	Goals Supported	Expand safe affordable housing choices
	Needs Addressed	Safe affordable housing choice
	Funding	CDBG: \$70,000

	Description	<p>1. 10 months a year will hold two free classes each month which educate and enable new home buyers to make informed choices, assess their readiness to buy, understand the home purchase process and determine which first time home buyer loan program is best for them. Participants receive a certificate from the WA State Housing Finance Commission that meets industry standards for participation in a variety of affordable housing programs. Outcome: We expect that 250 new people will complete the classes during the fiscal year at multiple City wide locations.</p> <p>2. Free pre-purchase individual counseling sessions guide families through the purchase of their first home, including the process of buying a home, confirming financial readiness, how to choose a realtor and mortgage lender and how to select a loan product that is best suited for them. Counselors work with families one-on-one to help them establish goals, assess their readiness to buy, identify and overcome barriers and provide referrals to assist in overcoming housing challenges. Outcome: We anticipate that 60 low to moderate income city clients will also receive pre-purchase counseling and that 15 will purchase homes within the project period.</p> <p>3. Down payment Assistance Program (DAP): DAP provides deferred payment, second mortgages in amounts up to \$10,0000 for first time home buyers. Payments are deferred until sale, refinance, or until 30 years to reduce the buyers' monthly payments to an affordable level. City funds would be used to provide education, counseling and loan compliance to applicants at 80% or less AMI for those receiving down payment assistance. Outcome: Creation of responsible homeownership, with this service being offered throughout the project period.</p> <p>4. Foreclosure Prevention Counseling: Our counselors identify the immediate crisis, review mortgage documents, determine degree of default, complete budget/credit analysis and explain options and time frames. They educate the client on the foreclosure process, the bank's perspective and options available for home retention. The client's situation is assessed and together they prepare a joint action plan. Counselors prepare substantial modification application packages and help negotiate agreements with lenders, make referrals to needed resources and conduct follow-up until the case is resolved. Outcome: We anticipate 125 low to moderate income city homeowners in default will save their home from foreclosure during the project period.</p> <p>5. Foreclosure Prevention Loans: default clients who do not qualify for a mortgage modification, or for whom tax or sewer liens are the cause of the default, we can refinance the debt and adjust the interest rate and term. Credit, budget and mortgage counseling are offered with this refinance to ensure continued affordability. Outcome: Preservation of homeownership, this service being offered throughout the project period.</p> <p>05R - Homeownership Assistance (not direct): (LMH)</p>
--	--------------------	--

	Target Date	6/30/2018
	Estimate the number and type of families that will benefit from the proposed activities	<p>NEED: Safe Affordable Housing, GOAL: Preserve and expand quality, safe, affordable housing choices STRATEGY: Expand permanent stable housing options and access to opportunities and services</p> <p>Education of first-time home buyers is the best way to increase access to the home buying opportunities and services. Due to our non-profit's mission to create opportunities to those of low-income our program is perfectly aligned. In addition to education (both classes and counseling) we provide mortgage modification and various financing services which make homeownership (both new purchasing and retaining existing homes) affordable.</p> <p>NEED: Safe Affordable Housing, GOAL: Preserve and expand quality, safe, affordable housing choices STRATEGY: Ensure housing stability</p> <p>The foreclosure counseling and foreclosure prevention activities specifically lend themselves to creating housing stability (keeping homeowner's in their houses by creating options). While we do not use city dollars to lend we must use the operational funds to support this housing stability activity.</p>

DRAFT

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City of Spokane has identified six (6) geographic areas within the City of Spokane to promote and facilitate expanded economic development. Each Target Investment Area (TIA) is located in a predominantly low/moderate income geographic area of Spokane. The goal of investing capital and public services in these areas is to generate opportunities for affordable housing, job creation/growth and infrastructure improvements that benefit low and moderate households.

The six (6) identified Target Investment Areas include:

- The Yard – Northeast Spokane
- West Plains – Spokane International Airport
- Downtown Spokane – Downtown Business District
- North Bank – Kendal Yards
- University District – Riverpoint and Gonzaga Campus area
- East Sprague

For more information about the City of Spokane Target Investment Areas, please visit the following website... <https://my.spokanecity.org/business/incentives/>

Geographic Distribution

Target Area	Percentage of Funds

Table 10 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

The City of Spokane has adopted an Economic Development Strategy to implement the City's Comprehensive Plan and growth strategies to encourage private investments in targeted areas where public investments are and will be made in the near future.

The Targeted Area Development strategy brings alignment with capital infrastructure plans, community development, neighborhood planning and incentives policies, brownfield redevelopment and it clarifies the City's role in economic development.

It is recognized that a fundamental objective of the City's economic development policy is to align public investments in neighborhood planning, community development and infrastructure development with private sector investments, resulting in increased opportunities for business growth and to provide its

citizens with safe, affordable and quality residential living environments. The new and expanded business activity within the City of Spokane will spur additional economic growth, provide living wage jobs, improve neighborhoods, increase property values, increase tax collections, raise wages and median income and enhance the standard of living of all citizens in the City.

Discussion

The Target Investment Areas are given priority where applicable and in compliance with CDBG National Objectives. Investment in these geographic areas will be primarily related to economic development opportunities that promote new jobs and/or income growth for low and moderate income individuals.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

The City of Spokane's strategy to address safe, affordable housing choices is based on the goal of preserving and expanding quality, safe, affordable housing choices. The following populations will be targeted to achieve this goal:

- Income: extremely low, very low, low, and moderate
- Family types: large families, families with children, and the elderly
- Homeless: chronic homelessness, individuals, families with children, mentally ill, veterans, victims of domestic violence and unaccompanied youth
- Non-homeless special needs: persons with mental disabilities, persons with physical disabilities, persons with developmental disabilities and victims of domestic violence

Discussion

HOME Multifamily funds are committed to new construction and rehabilitation of rental housing supporting 13 special needs and 14 non-homeless households. CDBG rehabilitation revolving loan funds are expected to support 280 non-homeless households with home essential repairs and rehabilitation. CDBG rehabilitation revolving loan funds are also expected to support 10 acquisition and/or rehabilitation projects to support non-homeless homebuyers.

AP-60 Public Housing – 91.220(h)

Introduction

Spokane Housing Authority (SHA) began in 1972 as the Housing Authority of the City of Spokane is now a multi-jurisdictional agency serving many cities and five counties in Eastern Washington. The partnership between SHA and the City of Spokane continues to provide affordable housing for thousands of households. SHA is governed by a six-member Board of Commissioners to include a resident commissioner appointed by the Mayor of the city of Spokane, the City Council of the City of Spokane Valley, and the Spokane County Commissioners. Each member serves a five-year term of office, with terms rotating in such a manner that one appointment is made each year. The Board has full authority in the establishment of SHA policies, long-term direction, and oversight of programs that accomplish the Agency's mission.

Actions planned during the next year to address the needs to public housing

Spokane Housing Authority has always had an extremely small public housing program. Initially, just 125 total public housing units were in SHA's inventory. In 2015, SHA was given permission to move forward with a Rental Assistance Demonstration (RAD) Program portfolio project to divest its public housing inventory. Phase I was the conversion of the Parsons, a 50-unit elderly/disabled property. Utilizing 4% Low-Income Housing Tax Credits and Tax Exempt Bonds, the Parsons was transferred to a Limited Liability Partnership ownership structure in 2015, awarded project-based housing choice vouchers, and in 2016 completed \$1.8 million of rehabilitation. Also in 2016, one single family home (part of SHA's scattered site public housing inventory), was sold to the Washington State Department of Transportation through eminent domain to facilitate the north/south freeway extension.

Phase II of SHA's RAD participation is the disposition (sale) of the remaining 74 scattered site units. Proceeds received from the sale of all scattered site units will be used as gap financing in the acquisition and rehabilitation or new construction of additional affordable housing units using tax credit and/or bond financing structures. It is anticipated that this could create as many as 300 affordable housing units over a period years. The 74 Project-Based Section 8 Housing Choice Vouchers received as a part of this transaction will be attached to units to be determined at a later date.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

To encourage the residents to become more involved with management, the PHA Annual Plan is available for review at the Public Housing leasing office during its public review time period. SHA recently updated its Administrative Plan to provide an avenue for the 74-scattered site public housing residents to participate in the Housing Choice Voucher Homeownership program if they meet the qualifications. All 74 will get first right of refusal to purchase either the home in which they reside or another available from the inventory.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

Spokane's Regional Continuum of Care in its revised Strategic Plan to End Homelessness will focus on action steps aimed at obtaining the following Objectives: increase Leadership, collaboration and civic engagement; increase access to stable and affordable housing; support effective pathways toward self-sufficiency and reduced financial vulnerability; transform homeless services to crisis response systems leading to improved health and safety; and advance health and housing stability for youth experiencing homelessness, including unaccompanied homeless youth and youth aging out of systems such as foster care.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

In an effort to reach out to the unsheltered population, the community has implemented a number of street outreach initiatives. The City of Spokane's CHHS Department and Code Enforcement Department work in conjunction with the Homeless Street Outreach Team, a collaboration between City agencies, homeless housing providers, coordinated assessment, and mental health providers to identify and outreach to individuals occupying homeless encampments. This interagency collaboration includes both a City-funded street outreach team and a PATH-fund outreach team for homeless individuals with mental illness and provides a pipeline for housing and support services to the chronically homeless unsheltered population in our community. Additionally, the CoC funds a local initiative which provides outreach activities at hospitals to identify homeless individuals who are high utilizers of emergency rooms and connect them with housing and health care. These efforts are part of the goal to transform homeless services into a crisis response system.

Addressing the emergency shelter and transitional housing needs of homeless persons

The CoC identifies the need to provide emergency response to families and individuals who are homeless and recognizes the continued need for shelter beds that are available when a person is unsheltered. Although the CoC is moving towards providing permanent housing options rather than temporary options, there are some special populations, such as youth, domestic violence victims, clients exiting institutions, and families with children involved with the child welfare system, who continue to benefit from a supportive transitional housing program.

The City of Spokane made a large investment in the past year to expand the capacity of the emergency shelter system in our community to a 24/7 model whereby households of any type or composition have a safe space to stay during and to sleep at night. Currently the 24/7 shelter system includes programs to

serve the specific needs of homeless adult men, adult women, unaccompanied youth, and households with children, however youth who are in transition (18-24) do not have a dedicated shelter program. The CoC will be exploring opportunities to fill this gap in service.

The efforts connect directly to the goals of transforming homeless services to a crisis response system and the system goal of reducing the length of time an individual or family is homeless.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

ESG is funding rapid re-housing and emergency shelter operations. An intentional shift to focus on permanent housing exits when an individual or household enters the homeless system has been transforming the City's homeless system over the past few years. Over 90% of families presenting as homeless at coordinated assessment only need a short term intervention to end their homelessness. As a result, much of the CoC efforts to serve homeless families are focused on rapid re-housing. Families who present as chronically homeless with very high barriers are placed directly into available PSH units or available bridge housing. These efforts shorten the time families are homeless and increase stability.

The infusion of the Supportive Services for Veteran Families program into the community has provided an essential resource for Veterans and their families who are homeless or at risk. This program provides intensive outreach, housing search and placement and continued case management for this population. For Veterans who need more intensive housing services The Spokane Housing Authority, (SHA), has a successful partnership with the Veterans Administration to provide VASH vouchers to homeless veterans. All referrals are made through the VA, who also provides complete wrap-around supportive services.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

City of Spokane Community, Housing and Human Services Department is working with the following housing and health care partners on the implementation of an integrated care program: Empire Health Foundation, Providence Health Care, Community Health Association of Spokane, and Volunteers of

America. The program strives to ensure eligible homeless clients are not discharged from in-patient hospital care or emergency room visit into homelessness. The Roads to Community Living Program coordinates with group homes, assisted living program and private landlords to ensure that long term Medicare eligible clients discharging from hospitals, nursing homes and mental health facilities are not being discharged into homelessness.

The Eastern Washington Regional Support Network (RSN) is responsible for all community-based mental health services for inpatient and outpatient care services. Eastern State Hospital works in conjunction with Frontier Behavioral Health Outreach Team, Spokane County Supportive Living Program and Behavioral Health Options. These programs work with the clients and the outpatient mental health provider to create a plan for housing and continued services.

The CoC has ensured that its members have written procedures to address discharge planning of youth exiting foster care. The Division of Children and Family Services procedures provide for Independent Living Services and require an Independent Living Plan to assist the youth toward a successful transition to adulthood. Local DCFS Social Workers and other community stakeholders work with youth as they near 18 to establish an ILP to guide the services and housing assistance until they are 21.

Spokane County has taken the lead in housing individuals as they exit from correctional institutions. Through their partnership with SNAP, they provide permanent housing through a short term rental assistance program to persons exiting correctional institutions. Airway Heights Corrections facility and the local jail works with Pioneer Human Services who operates a 55 bed work release facility for women and a 80 bed work release facility for men. A formalized discharge plan, in which housing is a requirement, is created for each client as they discharge from these facilities. In addition Spokane County funds and operates the Re-Entry Initiative (REI) Program, community re-entry program dedicated to transitioning people who were homeless and in institutional settings into productive citizens, working and living in homes with limited to no subsidy.

Discussion

One year goals for the number of households to be provided housing through the use of HOPWA for:
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family
Tenant-based rental assistance
Units provided in housing facilities (transitional or permanent) that are being developed, leased, or operated
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds

AP-75 Barriers to affordable housing – 91.220(j)

Introduction

The City is working to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

- Continue to develop Development Services Center (DSC) policies and public information resources through coordinated departmental action. The Permit Center allows the consolidation of all permit functions in one location to better coordinate the permit activities of Planning, Building, Fire and Engineering. These efforts expedite permitting processing and reduce permitting times providing cost savings for affordable housing development.
- Continue to encourage developers to use a pre-application process (aka “Predevelopment Conference” to provide project applicants and their architects with an opportunity to discuss and understand the various codes and regulations that apply. The ability to review projects early expedites project design, thereby shortening the permitting process and potentially offering cost savings alternatives.
- Continue with the work that began in 2013 to review and update the City's Comprehensive Plan, including the Land Use and Housing Chapters. This may include reviewing population growth forecasts, land supply information and affordable housing needs, resources, goals and policies. In 2016, CHHS staff was involved in the initial work of committees on in-fill housing and housing quality and will continue to track and comment as the committees’ recommendations are reviewed and implemented.
- Continue to improve the City's zoning rules and development standards through the code maintenance process. This may assist in reducing barriers to affordable housing.
- Continue to implement the Centers and Corridors land use strategy as proposed in the Comprehensive Plan. The Comprehensive Plan proposes establishing a number of centers and corridors throughout the community as part of an overall strategy to accommodate growth through infill development. Ultimately, these centers and corridors will accommodate mixed uses with residential development at higher densities, including affordable housing developments.
- The Planning Department and CHHS are working with Impact Capital, a CDFI, to identify areas for assisting developers and property owners. These could relate to City processes and requirements, identifying funding sources and economic development incentives, or other areas. This will include surveys and workshops in 2017.

Discussion

The City will continue to fund fair housing educational, and other, activities that support fair housing in a positive, solution-oriented manner. Potential activities include sponsoring a regional Fair Housing Conference, assisting the Spokane Association of Realtors (and the real estate industry in general, including the mortgage lending industry) with training related to fair housing. If the City becomes aware of clear violations of the Fair Housing Act, it will work with its community partners to identify potential resolutions.

AP-85 Other Actions – 91.220(k)

Introduction

The following actions are intended to align with the needs and goals identified in the 2015 – 2020 Consolidated Plan. The Community, Housing and Human Services Department will remain adaptive and ready to serve as needs arise and the response system must be tailored to meet community needs. One such example is the 24/7 Emergency Shelter Homeless Response Program. This program was developed in response to a rising number of homeless individuals without shelter during the day. City leaders and community stakeholders came together in 2016 to develop a strategy that would address community needs.

Actions planned to address obstacles to meeting underserved needs

The City of Spokane is working with local partner agencies and neighborhood councils to strategically target projects that will preserve and expand quality, safe and affordable housing choices; prevent and end homelessness; provide opportunities to improve quality of life; support vibrant neighborhoods and expand economic opportunities.

Actions planned to foster and maintain affordable housing

Given the high demand for affordable housing, the City recognizes the importance of fostering affordable housing development and maintaining existing affordable housing stock. The City also provides Tenant Based Rental Assistance to extremely low-income/homeless families to create affordable housing options at market rate rental housing located across the City. The City fosters relationships with both for-profit and nonprofit (including CHDO) housing developers when soliciting HOME Multifamily Housing Program funding proposals. The City offers developers the opportunity to leverage limited City HOME funding with Low-Income Housing Tax Credits, housing bonds, Washington State Housing Trust Fund dollars, and Federal Home Loan Bank grants. Typically, City HOME funds account for only a fraction of the total cost but deliver large projects providing a large number of long-term affordable rental housing units.

The City maintains its HOME investment in affordable housing by monitoring rental housing occupancy and physical condition over HUD's minimum compliance periods required by 24 CFR 92.254. The City imposes an additional 10-year local compliance period to retain these rental units as affordable housing available to low-income households. The City also grants and loans CDBG funds to repair low-income owner-occupied homes enabling existing homeowners to enjoy a safe and healthy home that they can afford to operate and maintain. The City plans to address foreclosed, abandoned and derelict properties by acquisition and/or renovation to create affordable homeownership opportunities.

Actions planned to reduce lead-based paint hazards

Spokane's Single Family Rehabilitation and Multifamily Housing programs are active in identifying and repairing lead-based paint hazards in eligible owner and renter housing. HUD Title X and EPA Renovator (RRP) requirements are integrated into CDBG and HOME funded programs that rehabilitate housing units constructed prior to 1978. Typical lead hazard control begins with an XRF lead inspection to guide the scope of work. Certified workers complete lead hazard control work in compliance with HUD's Title X and EPA RRP regulations. These projects typically include wet scraping, painting, eliminating friction/impact surfaces, mulching bare soil, and cleaning to Clearance. Each rehabilitated housing unit will achieve Clearance as part of project completion, as proscribed by HUD's Title X regulation.

Actions planned to reduce the number of poverty-level families

The City's anti-poverty strategies are implemented through the following established goals of the Consolidated Plan: preserving and expanding quality, safe, affordable housing choices; providing opportunities to improve the quality of life; and, expanding economic opportunities. The CDBG and HOME program are the principle funding sources targeted at reducing the number of poverty-level families but the ESG program also seeks to stabilize families and individuals so they are able to return to self-sufficiency, which Homeless Housing Assistance Act fund provide prevention assistance. Importantly, the resource management responsibilities of these programs provide staff of the Department of Community, Housing and Human Services an opportunity to facilitate coordination among a range of social and housing programs, operated by other City departments, governmental agencies and the nonprofit community, that together enhance the opportunities to reduce poverty for families.

CDBG program resources are targeted to meet the community development, infrastructure and economic opportunities needs in the community. The City allocates CDBG funding for several economic development activities providing opportunities for both low and moderate income family members to receive living wage employment and low and moderate income business owners to improve and expand their businesses, increasing their profitability and income. Public services activities also include programs for stabilizing families, while the housing rehabilitation program reduces and stabilizes low and moderate income homeowner's housing expenses. CDBG public services activities, such as the housing counseling program and the rental assistance case management program, assist low and moderate income families on the edge of poverty to help them to economic security.

HOME program resources are allocated to address the needs for safe, affordable housing. Program activities that are designed to reduce housing expenses and offer the opportunity to help move families out of poverty are tenant-based-rental assistance and the multifamily development program, which maintains and expands affordable housing. These rental support programs help provide economic stability to the households assisted and are key to the goal of reducing the number of families facing poverty.

Actions planned to develop institutional structure

The City of Spokane works closely with partner agencies and community stakeholders to develop social response programs based on community need. Examples include the Homeless Coordinated Assessment, 24/7 Homeless Shelter Response, Affordable Housing Committee, Economic Development, Continuum of Care Committee and Neighborhood CDBG Programs. Each program provides a response by the City to respond to the institutional needs of community partners and the individuals they serve.

Actions planned to enhance coordination between public and private housing and social service agencies

The City has established a number of cooperative partnerships and collaborations with public and supportive housing providers, private and government health, local government, mental health and social service agencies to address its priority needs and will continue to do so.

Examples include:

- Multi-family Housing: the City works closely with Spokane County, the WA State Department of Commerce, and the WA State Housing Finance Commission to coordinate the funding, development and monitoring of multi-family housing units funded through the HOME program.
- Tenant-Based Rental Assistance: the City partners with the local housing authority to manage the HOME tenant-based rental assistance program. The TBRA program has been prioritized for high needs households and individuals. Referrals to the TBRA program via the community Coordinated Assessment program. Support Services are provided for all TBRA households through CoC Program and local Homeless Housing Assistance Act funded programs.
- Fair Housing: the City partners with the local HUD office, Spokane County and the NW Fair Housing Alliance to fund, plan and host a regional Fair Housing Conference during the month of April (fair housing month).
- Homeless/Housing/Health, i.e. H3: a City-lead partnership between the City, the two largest local hospital emergency departments, local funders and non-profit housing and services providers to improve the health and housing stability of the most vulnerable homeless individuals touching these systems on a frequent basis.
- Strong Families Initiative: a City-led partnership between the City, the Spokane Housing Authority, Child Protective Services and non-profit housing and services providers to improve the lives and housing stability of families engaged with child welfare.
- The City is the convener and the Collaborative Applicant for the City/County Continuum of Care. The City coordinates a number of homelessness reduction system-wide strategies involving both public and private agencies such as Coordinated Assessment, Housing First and Rapid Re-housing through the Continuum of Care.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

Introduction

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	0
3. The amount of surplus funds from urban renewal settlements	0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5. The amount of income from float-funded activities	0
Total Program Income:	0

Other CDBG Requirements

1. The amount of urgent need activities	0
2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan.	100.00%

HOME Investment Partnership Program (HOME)
Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

Spokane does not plan to directly use other forms of investment beyond those listed in 92.205.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

HOME regulation 92.254 describes qualifications of homeownership activities as affordable housing. City of Spokane has not budgeted HOME funds for homeownership activities. The City retains written agreements used in a previous homeownership program. These agreements include a recapture provision triggered if a borrower sells, transfers, refinances, or changes the use of the property during the HOME period of affordability. This loan provision limits recaptured funds to net proceeds available from the sale rather than the entire HOME investment. The City's Single Family Rehabilitation program uses this same loan recapture provision which limits recaptured funds to net proceeds of a sale. Consequently, the City is not required to repay HUD should any sale, short sale, foreclosure, involuntary sale, etc. of a program-assisted home provide insufficient funds to fully repay the amount of loaned HUD funding.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

HOME regulation 92.254(a)(4) describes the minimum HOME period of affordability based upon the amount of HOME homeownership assistance. The City of Spokane has not budgeted HOME funds for homeownership activities. The City previously established maximum HOME assistance for each homebuyer transaction and that HOME assistance required a 10-year period of affordability. Earlier homeownership assistance loan documents provided some debt forgiveness over the 10-year HOME affordability period. All City homeownership assistance written agreements included a recapture provision that triggered repayment if a borrower sells, transfers, refinances, or changes the use of the property during the HOME period of affordability. This recapture provision limits recaptured funds to any net proceeds available from the sale rather than the entire HOME investment.

Similarly, HOME-funded affordable rental housing projects include acquisition, new construction, and/or renovation trigger minimum periods of affordability per 24 CFR 92.252(e). New construction projects are always subject to the regulation's 20-year affordability period but acquisition and/or rehab projects commonly trigger a 5, 10, or 15-year HOME affordability period. The City-imposed chooses to independently extend the periods of affordability is ten years longer than the minimum HOME affordability period and initially runs concurrently with the HOME affordability period. .

These City-imposed affordability periods are described further in the HOME Multifamily Housing Program Description and agreements.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

HOME funds will not be used to refinance existing debt secured by housing that is being rehabilitated with HOME funds under 24 CFR 92.206(b). However, HOME funds may be used to pay off principal and interest of a construction loan, bridge financing loan, or guaranteed loan as provided under 24 CFR 92.206(g).

Emergency Solutions Grant (ESG) Reference 91.220(l)(4)

1. Include written standards for providing ESG assistance (may include as attachment)

The Emergency Solutions Grant funds, in conjunction with additional funding sources, are currently funding Coordinated Assessment Initiatives through rapid re-housing, and shelter activities. The following program standards have been developed with community feedback, based on the feedback from CoC programs administering these funded activities. The standards continue to take into account the smaller resources and even greater targeting needed for ESG. These standards are included in program specific guidelines for all ESG funded programs.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

In 2012, the CoC developed and funded a Coordinated Assessment Program for homeless and at-risk families. All CoC funded family homeless programs including emergency shelter, transitional housing, rapid re-housing, and permanent supportive housing are required to participate with the Homeless Families Coordinated Assessment (HFCA) program and accept all housing placements through the system. Families can access the HFCA program via phone, walk in, or through targeted outreach by a partnering services provider. All families are screened and assessed with a tool that determines client eligibility, prioritizes clients by need for services, and identifies the appropriate housing intervention. The HFCA program also provides diversion services, such as case management, housing search assistance, or landlord advocacy, to families who may not qualify for financial assistance in order to prevent their homelessness.

In 2014 a system specific to single homeless individuals was implemented. The Singles Homeless Coordinated Assessment (SHCA) is a decentralized assessment system where individuals can be

assessed for housing at five different locations and through homeless outreach teams throughout Spokane County. SNAP serves as the lead agency, completing a majority of the assessments and overseeing training of SHCA assessors. Individuals are initially assessed using the Vulnerability Index Service Prioritization Decision Assistance Tool (VI-SPDAT) and prioritized for a specific housing intervention based on his or her VI-SPDAT score.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

Locally, the City of Spokane and Spokane County receive and administer ESG funds. As the CoC lead the City of Spokane works, through the Continuum of Care Governance Board and Community Housing and Human Services Board (CHHS), to determine priorities for homeless funding. Spokane County staff sits on both the Continuum of Care Governance Board and CHHS Board and is an integral part in determining how all homeless funds, including ESG funds, are allocated in the community. During the application process for homeless funding the RFP and Evaluation Committee of CoC reviews applications and makes funding recommendations to CoC Governance Board. A representative from both ESG jurisdictions participates in this process.

Applicants eligible to apply for ESG funds include:

- City or County governments
 - Public and private nonprofit organizations (501(c)(3))
 - Private for profit organizations or individuals may implement certain economic development, low income housing rehabilitation and microenterprise activities.
 - Faith based organizations
4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

The City currently meets the homeless participation requirement detailed in 24 CFR 576.405(1) through formerly homeless individuals' membership on the Community, Housing and Human Services Board subcommittees, Continuum of Care Governance Board, and the CoC RFP and Evaluation Committee. These committees are responsible for recommending policies and making funding decisions.

5. Describe performance standards for evaluating ESG.

All programs funded through ESG are evaluated for performance quarterly. Data for these evaluations is pulled from the Homeless Management Information System. In addition, all ESG funded programs are required to ensure HMIS data quality by the 5th of each month.

Programs funded for rapid re-housing are measured by the percentage of households exiting to permanent housing, the number of households with increased income at exit, and the average length of time from identified eligibility to being housed.

Programs funded for emergency shelter operations are required to enter universal data into the HMIS system and record entry and exit dates. In addition, these programs are measured by the percentage of households who exit from the emergency shelter into permanent housing, the average length of time individuals are homeless in emergency shelter, the number of households exiting with increased income and connection to mainstream resources.

Discussion

The City has four monitoring tools to ensure compliance with statutory and regulatory requirements. These are (a) policies and procedures, (b) contract requirements, (c) desk-top monitoring, and (d) on-site monitoring. The City's Community, Housing and Human Services Board establishes policies that guide the application and allocation process for entitlement funded programs and activities.

All applications are evaluated to determine if they are (1) program eligible (2) consistent with local, state and federal regulations and (3) viable as submitted.

Projects funded through CDBG, HOME or ESG will be managed directly, through another City Department, by a developer selected by an HOME RFP process (i.e., Multifamily Housing Program rental housing procurement), or by a subrecipient under contract with the City. In addition to the scope of work, duration and projected accomplishments, each contract contains federal, state and local program requirements, deliverables and/or performance measurements.

When subrecipients request reimbursement, they are required to submit a voucher reimbursement request with backup documentation. Project managers and accounting staff review both. Reimbursement requests are reviewed for eligibility and appropriateness under contracted provisions. If an inappropriate or ineligible cost is incurred, or if performance falls below projections, the City will not reimburse the subrecipient and will work towards rectifying the deficiency.
