Notes and Definitions

- Data pulled from the Spokane Homeless Management Information System. HMIS data is subject to revision.
- Statewide data not tracked for: Permanent Supportive Housing, Other Permanent Housing, Prevention, income for household's exiting Emergency Shelter, or anonymous household rates.
- "Households Served" Definitions:
 - Rapid Re-Housing: Household was actively enrolled and received financial assistance during the report date range.
 - Emergency Shelter: Household was actively enrolled and received a shelter night service during the report date range.
 - Transitional Housing: Household was actively enrolled during the date range.
 - Permanent Supportive Housing: Household was actively enrolled during the date range.
 - Other Permanent Supportive Housing: Household was actively enrolled during the date range.
 - Prevention: Household was actively enrolled and received financial assistance during the report date range.
- "Exits with Earned Income" includes households that exited during the date range and had at least one person receiving earned income at exit.
- HFCA Services included those provided to households during the report date range.
- The 6 month recurrence rates represent clients who exited from Rapid Re-housing, Emergency Shelter, or Transitional Housing to permanent destinations during the first quarter of this report date, and returned to homelessness in the following six months as indicated by a subsequent enrollment into Rapid Re-housing, Emergency Shelter, or Transitional Housing.
- Anonymous clients are excluded from recurrence analysis.
- Data includes only projects covered in the Spokane HMIS.
