MOU extension with Hoopfest Association for special event cost recovery regarding 2016 Hoopfest Tournament.

Summary (Background)

The MOU with Hoopfest will allow the City to recover 60% of the overtime costs (~\$66,000) for Police and Fire associated with holding the tournament and required to host a safe event for all participants. This is a one-year extension of the 2014-2015 MOU; due to the impacts of the Riverfront Park remodel (which will impact the event) Hoopfest has requested a renegotiation for the 2017-2019 MOU. This extension maintains status quo for 2016.

**Hoopfest MOU
BRIEFING PAPER
City of Spokane
My Spokane
Monday, April 18, 2016**

Subject

Hoopfest MOU

Background

Per SMC 10.39, the City of Spokane shall charge special events for costs associated with traffic control and fire department response provided by the City unless waived by Mayor or City Council. In recognition of the economic impact the Hoopfest Tournament brings to Spokane, the City will only charge Hoopfest for 60% of expected costs for Fire and Police. The estimated overall costs for the event are approximately \$110,000 for 2016.

Because Hoopfest largely utilizes Riverfront Park for their event, the remodel will impact their footprint and operations starting in 2017. As such, they have requested revisiting the MOU cost recovery structure for the 2017-2019 timeframe. Therefore, we are requesting a one-year extension of the existing MOU for 2016.

Impact

The MOU with Hoopfest will allow the City to recover 60% of the overtime costs (~\$66,000 in 2016) for Police and Fire required to host a safe event for all participants.

MEMORANDUM OF UNDERSTANDING

THIS MEMORANDUM OF UNDERSTANDING is between the CITY OF SPOKANE, a Washington State municipal corporation, as "City", and the SPOKANE HOOPFEST ASSOCIATION, a non-profit corporation, whose address is P.O. Box 599, Spokane, Washington 99210, as "Association".

The Parties agree as follows:

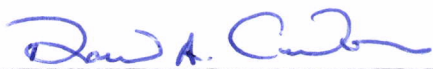

1. HISTORY. The Association and the City of Spokane have enjoyed a long relationship of collaboration in support of fitness, health and sportsmanship in the Spokane region. Beginning in 2002, the City found that it could not financially support a full array of community events without some recovery of costs expended on behalf of those events. In early 2003, the Office of the City Administrator under the authority of the Office of the Mayor and chapter 10.39 of the Spokane Municipal Code, formulated an unwritten policy of cost recovery for all special events, like Hoopfest, that credit up to a maximum of forty percent (40%) of expended funds for police and fire services. The City recognizes that Hoopfest creates a significant annual economic impact to the community.
2. CURRENT STATUS. This Memorandum is for the 2014-2015 Hoopfest. Figures for years beyond the period of this Memorandum may be higher depending on the then wages granted to employees of the City.
3. SCOPE OF AGREEMENT.
 - A. The City shall continue to provide all services that have been a part of the City's participation with Hoopfest. It is desirable to convene the customary meeting of Hoopfest officials and City division / department employees to identify those tasks and come to agreement as to what tasks will be performed and to ensure that no tasks are overlooked. This meeting traditionally takes place in mid-March of each event year. The City shall provide coordination services of the special events offices of both the Spokane Fire Department and Spokane Police Department at no cost to the promoter.
 - B. Unless extraordinary circumstances arise, cost recovery will be limited to personnel costs and will not include equipment or supply purchases without prior notice to the Association.
 - C. The City will provide an invoice for fire and police personnel costs to the Association within sixty (60) days of the date of the event listing full cost recovery of expended dollars. The City agrees to invoice sixty percent (60%) of the personnel costs in consideration of Hoopfest's annual economic impact to the Spokane region.

- D. The Association shall notify the City of any expected changes in the course or changes to the operation of the event that might impact the expected costs to the City or that might impact the comfort, convenience or access of the citizens of Spokane.
- E. The Association is free to work through the Offices of Special Events for both or either of the Fire / Police Departments to identify cost reduction strategies that would reduce the resulting invoice amounts.
- F. The Department's Projected Costs for 2014 and 2015 are:

Year	Department	Expected Costs	Estimated Bill	Hoopfest – Not To Exceed
2014	Police	\$87,500.00	\$52,500.00	60% of Actual Costs
	Fire	\$19,000.00	\$9,000.00	\$ 9,000.00
2015	Police	\$89,500	\$53,700.00	60% of Actual Costs
	Fire	\$19,000.00	\$9,000.00	\$ 9,000.00

BRIEFING PAPER
Public Works Committee
Engineering Services
March 28, 2016

Subject:

37th Avenue Reconstruction – Regal Street to Custer Street (2006167)

Background:

This project includes full width reconstruction of approx. 1.3 miles of 37th Avenue, installation of a new 36" water main, bike lanes, a substantial amount of sidewalk gap infill, ADA curb ramps and miscellaneous minor storm water system upgrades. This project is adjacent to the Hazel's Creek Downstream Stormwater project which will also be under construction this summer – see attached exhibit.

The project bid opening is scheduled for April 11, 2016 with construction planned to begin in spring and extending to fall 2016. Because of the large scope of the project and the need to accommodate significant traffic associated with the three adjacent schools (see exhibit), the project is planned to cover two construction seasons, 2016 and 2017.

The approximate cost of the project is \$5.4M.

Public Impact:

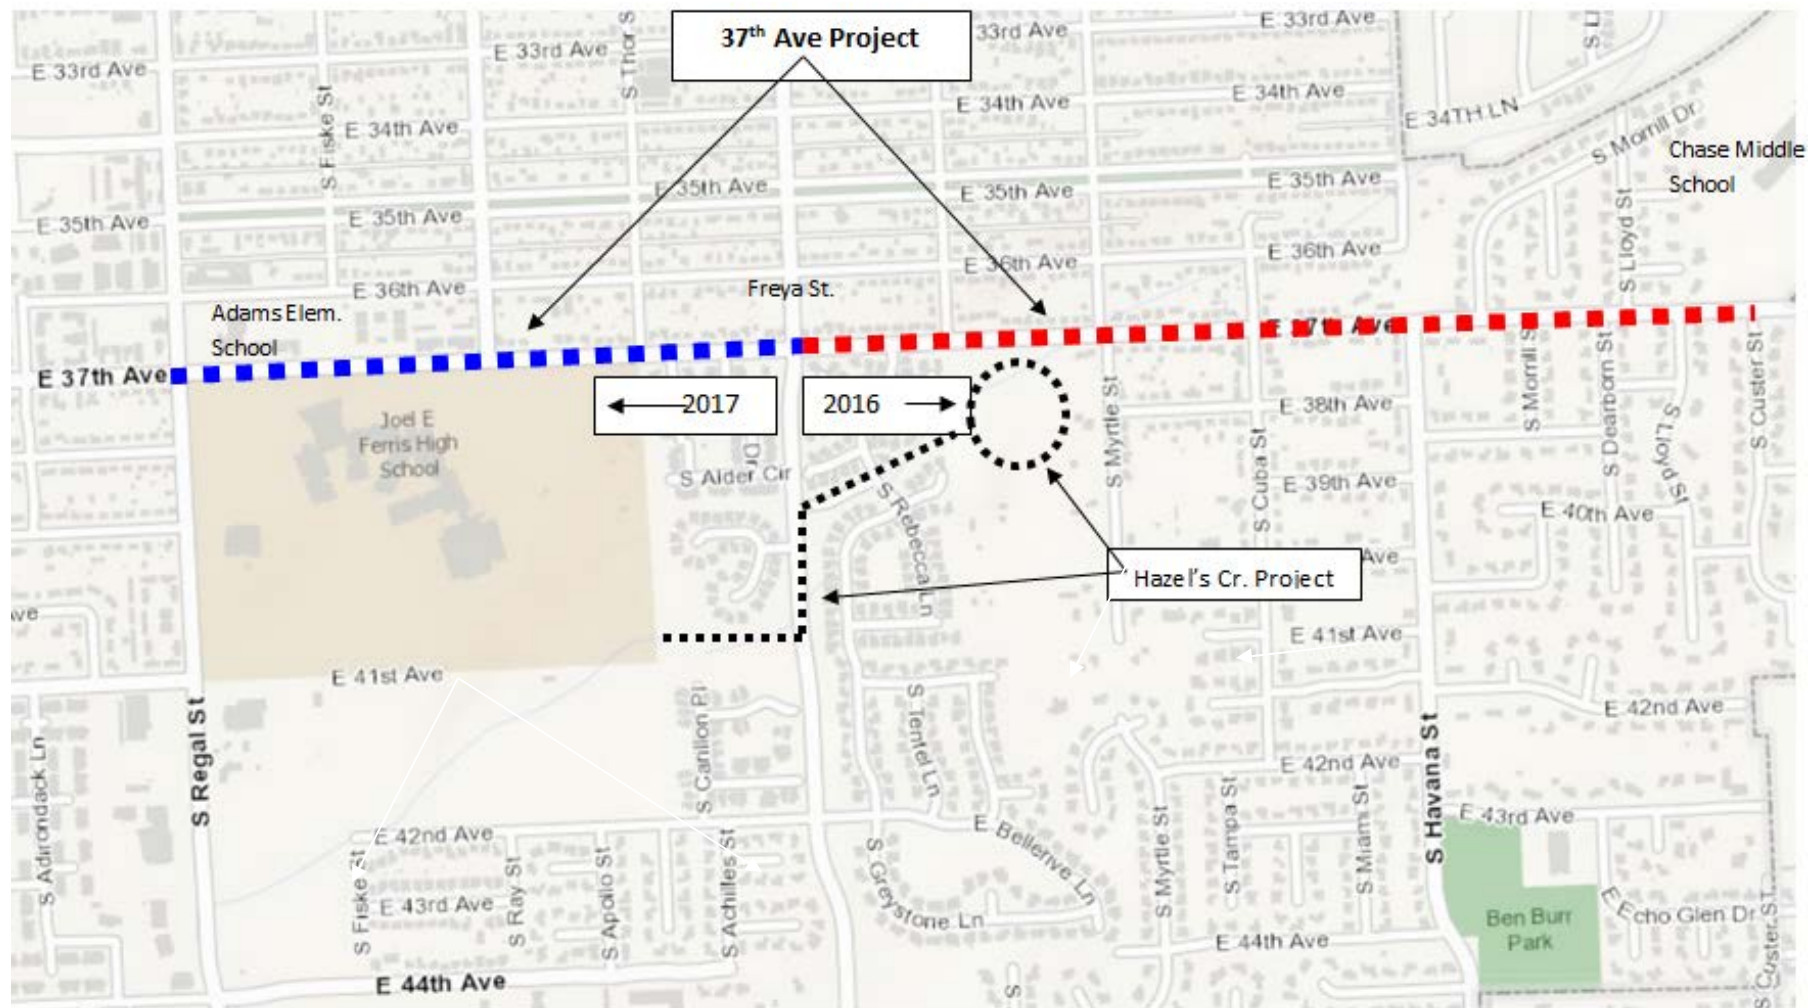

37th Avenue will be closed in phases to permit school access and keep north-south arterials (Freya Street & Havana Street open as long as possible. The portion of 37th Avenue on which work is occurring will be closed to all but local access during construction of that phase.

Action:

Information is provided for Council consideration. A recommendation for award will be forwarded to Council after bids have opened.

Funding

This project is being paid for with primarily federal funds.

Agenda Wording

Contract Amendment/Extension to add design oversight to the project description of work, additional funding and additional time to complete the contract.

Summary (Background)

The amendment/extension of the original minor contract in the amount of \$12,500.00 added an additional \$45,000.00 to the contract price. The total contract price of \$57,500.00 exceeded the minor contract limitations, therefore this additional amount (\$45,000.00) needs to go to council for approval.

Proposal dated February 23, 2016

February 23, 2016

Mr. Kyle Twohig
Department of Engineering Services
808 W. Spokane Falls Blvd
Spokane WA 99201-3343

Kyle,

Please consider the following proposal for Project Management Services in the development of the Spokane Falls Combined Sewer Overflow (CSO 26) Control Facility, specifically to provide design oversight services. This project will be designed anticipating a General Contractor/Construction Manager (GC/CM) delivery process.

Assumptions:

- AECOM is currently under a master contract to provide design services for CSO facilities. It is anticipated that a Task 26 contract (under the master contract) will be successfully negotiated to provide design services for CSO 26.
- The City has contracted with OAC to provide support for managing within the GC/CM delivery process. That process has been approved by the State Project Review Committee (PRC).
- The GC/CM will be chosen through the RFQ process that is currently in progress.
- Kyle Twohig will be the primary contact with COS staff
- The Design will begin in April once the City has chosen the GC/CM and has them under contract. Expectations are that the design will be complete in late 2016/early 2017. The goal is to have the GC/CM start construction in the first part of January 2017.

Services:

- Complete contract negotiations with the consultant and subconsultants.
- Complete contribution to establish a GC/CM.
- Work with COS stakeholders to establish and outline design criteria.
- Work closely with the lead design team to insure that the best interest of the COS is the basis for design decisions.
- Support the effort of OAC to follow GC/CM criteria.
- Attend all internal and external meetings required to help develop the project and support the public process. Role may be either primary or secondary.
- Coordinate the review process with both City staff and AECOM to insure that all stakeholders have had opportunities to comment and the project stays on schedule.

Engineering and Construction Services

- Coordinate any and all permits and environmental documentation to insure that they are complete and have been implemented by COS staff.
- Attend monthly or semi-monthly design group meetings.
- Communicate on a regular basis with the City project lead, Kyle Twohig, by e-mail or otherwise, to keep the COS aware of progress. The City (through Kyle Twohig) will make the final call on all major project decisions.
- Services shall be continuous through the bid/negotiation process.

These services for design oversight will be completed for a cost not to exceed \$45,000, based on an estimated 600 hours, at an hourly rate of \$75. This contract concludes December 31, 2016, unless extended by both parties.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steve Hansen", written over a light blue horizontal line.

Agenda Wording

An interdepartmental agreement between the Parks & Recreation Department and the Utilities Division related to reimbursement of lost parking revenue at Parks' Bosch Lot during the construction of two Utilities construction projects.

Two construction projects are planned that will result in the loss of use of the Bosch Lot at Summit Parkway and Lincoln Street by Parks for paid public parking. The projects include a 1 million-gallon underground CSO tank built at the site and then the replacement of the Post Street Bridge, which will require the use of the site for construction staging. In return for these uses, the Utilities Division has agreed to make up for lost parking revenues at the site up to the annual average revenue

INTERDEPARTMENTAL AGREEMENT
BETWEEN THE CITY OF SPOKANE UTILITIES DIVISION AND PARKS &
RECREATION DEPARTMENT REGARDING BOSCH LOT PROPERTY

THIS INTERDEPARTMENTAL AGREEMENT AMENDMENT is between the City of Spokane, Utilities Division, on behalf of the Water-Wastewater Management Department, whose address is Second Floor City Hall, 808 West Spokane Falls Boulevard, Spokane, Washington 99201, hereafter referred to as "Water-Wastewater Department" and the City of Spokane, Parks and Recreation Department, whose address is Fifth Floor City Hall, 808 West Spokane Falls Boulevard, Spokane, Washington 99201, herein after referred to as "Parks Department," hereinafter jointly referred to as the "Parties".

WHEREAS, on November 30, 2011, and May 4, 2015, the Parties entered into Interdepartmental Agreements for CSO Control Facilities and Stormwater Surface and Infiltration Facilities to be sited on Parks Property; and

WHEREAS, the Parties recorded permanent easements for CSO and stormwater projects installed on Parks-owned properties, including the Bosch Lot Property, which is located at the northwest corner of Summit Boulevard and Lincoln Street; and

WHEREAS, Utilities will commence construction of two (2) separate projects during the next four (4) years: (1) a 1 million gallon combined sewer overflow (CSO) facility scheduled from April 1, 2016, to early 2017 and (2) Reconstruction of the Post Street Bridge, scheduled to begin in early 2019 and continuing through 2020; and

WHEREAS, the Bosch Lot Property is currently used by Parks as public parking and generates annual average revenues to Parks in the amount of approximately \$104,460 based on the last three years of revenue; and

WHEREAS, as a result of the two projects listed above, the Bosch Lot Property will be out of commission for the two (2) separate time periods over the next four (4) years and will result in lost revenues to Parks; and

WHEREAS, Utilities has agreed in exchange for use of the Bosch Lot Property to make up the lost parking revenues due to the Project to be calculated as the difference

between actual parking revenues and the average annual revenues of approximately \$104,460; and

WHEREAS, the Parties wish to memorialize their understandings and agreements for use of the Property and calculation of the lost revenues into this Agreement;

-- Now, Therefore, The Parties hereby agree as follows:

1. PARTIES: The parties are the City of Spokane Parks & Recreation Department and the City of Spokane Water-Wastewater Management Department. The parties understand they are both part of the same municipal corporation, and, through they operate as independent agencies of the City of Spokane and are subject to separate budgetary and legal requirements and procedures, they desire to reflect their relationship most efficiently through this Interdepartmental Agreement. For this purpose, the Water-Wastewater Management Department is represented by the Division Director of Utilities. Parks is represented by the Parks Board acting through the Parks Director.
2. PURPOSE: The purpose of this Agreement is to establish the terms and conditions for use of the Bosch Lot Property and to define the calculation of the lost revenues to Parks for parking services during the construction of the two (2) projects affecting the Property.
3. CONSIDERATION: The parties agree as follows:
 - a. Parks will perform an accounting of all parking revenues received for parking services on the Bosch Lot in years 2013 through 2015 to this Agreement and provide to Utilities a copy of the accounting to establish the baseline revenues.
 - b. During the term of this Agreement, Utilities will pay to Parks the difference between the actual parking revenues received by Parks for parking services on the Bosch Lot and average annual parking revenues received by Parks for parking services on the Bosch Lot in years 2013 through 2015.
 - c. The average annual parking revenues for the Bosch Lot will be summed and averaged to a quarterly figure.
 - d. Utilities will pay Parks no later than the last month of each quarter twenty six thousand one hundred fifteen dollars (\$26,115) less any actual parking revenue received by Parks from the Bosch Lot within the same quarter for the term of this Agreement.

- e. Compensation from Utilities to Parks will occur only during the time periods where Parks collects less than the average quarterly revenues from the Bosch Lot Property.
 - f. The first and last months of construction will be prorated for actual days the parking lot is out of service.
 - g. The Parties agree that all monies may be audited upon request of either party during the term of this Agreement.
 - h. In the time periods between project construction, the Bosch Lot will be retained as a gravel parking area, similar to the current condition, and will be marketed for parking uses by citizens and City employees.
4. DURATION: This Agreement shall be effective April 1, 2016 and shall remain in effect until the earlier of completion of the two (2) construction projects or 2021.
5. INDEMNIFICATION:
- a. Utilities shall indemnify and hold harmless Parks, its employees and agents for any loss, claim or action to which they may be put by reason of this Agreement, except to the extent Parks, its employees and agents are determined to have acted negligently.
 - b. Parks shall indemnify and hold harmless Utilities, its employees and agents for any loss, claim or action to which they may be put by reason of this Agreement except to the extent Utilities, its employees and agents are determined to have acted negligently.
6. ENTIRE AGREEMENT: This Agreement contains the entire agreement of the Parties, and there are no other promises or conditions in any other agreement whether oral or written concerning the subject matter of this Agreement. This Agreement supersedes any prior written or oral Agreement or arrangement between the parties.
7. PERMITS: The Parks Department will not unreasonably withhold its consent to requests by the Wastewater Department for the Parks Department to execute documents allowing the Wastewater Department to apply for zoning changes, use applications, variance, utility hook-ups, building permits, and other such applications as may be required by the Wastewater Department in order to develop, construct, and install any Stormwater and/or CSO Control Facilities on Parks Property. All costs for such applications will be borne by the Wastewater Department. The Parks Department consents to such applications shall not constitute a waiver of any statutory or regulatory procedures, notices, or hearings, which apply to such applications.

8. AMENDMENT: This Agreement may only be modified or amended in writing, if the writing is signed by both parties, as approved by the City Council and Mayor.
9. SEVERABILITY: If any provision of this Agreement will be held to be invalid or unenforceable for any reason, the remaining provisions will continue to be valid and enforceable. If a court finds that any provision of this Agreement is invalid or unenforceable, but that by limiting such provision it would become valid and enforceable, then such provision will be deemed to be written, construed, and enforced as so limited.
10. WAIVER OF CONTRACTUAL RIGHT: The failure of either party to enforce any provision of this Agreement shall not be construed as a waiver or limitation of that party's right to subsequently enforce and compel strict compliance with every provision of this Agreement.

Prior to the award of contract, the apparent successful bidder shall be required to submit evidence of sufficient facilities, equipment, roofing manufacturer certified or trained worker with project experience and financial ability to insure completion of the work, and ability to provide a full service roof warranty, unless waived by the City.

8. BID SECURITY.

The bid shall be accompanied by cash, a bid bond, certified or cashier's check payable to the order of the City of Spokane, in an amount of not less than five percent (5%) of the total bid amount. Bid bonds must be by a surety company authorized to do business as a surety in Washington State. As soon as the bid prices have been compared, the City will release the bid security of all except the three (3) lowest responsible bidders. When the construction agreement is signed and returned with executed payment and performance bonds, the other bid security will be released.

9. AWARD OF CONTRACT.

Award of contract, when made by the City, will be to the lowest responsive responsible bidder. Unsuccessful bidders will not automatically be notified of results.

10. RECIPROCAL PREFERENCE FOR RESIDENT CONTRACTORS.

- A. In accordance with RCW 39.04.380 effective *March 30, 2012* the City of Spokane is enforcing a Reciprocal Preference for Resident Contractors. Any public works bid received from a nonresident contractor from a state that provides an in-state percentage bidding preference, a comparable percentage disadvantage must be applied to the bid of that nonresident contractor. A nonresident contractor from a state that provides a percentage bid preference means a contractor that: a) is

from a state that provides a percentage bid preference to its resident contractors bidding on public works contracts; and b) at the time of bidding on a public works project, does not have a physical office located in Washington.

- B. The state of residence for a nonresident contractor is the state in which the contractor was incorporated or, if not a corporation, the state where the contractor's business entity was formed. All nonresident contractors will be evaluated for out of state bidder preference. If the state of the nonresident contractor provides an in-state contractor preference, a comparable percentage disadvantage will be applied to their bid prior to contract award.
- C. This section does not apply to public works procured pursuant to RCW 39.04.155, 39.04.280, or any other procurement exempt from competitive bidding.

11. **BIDDER RESPONSIBILITY CRITERIA (MANDATORY).**

Before award, the bidder must meet the following mandatory bidder responsibility criteria to be considered a responsible bidder. The bidder may be required by the Owner to submit documentation demonstrating compliance with the criteria. The bidder must:

- B. Have a current Washington Unified Business Identifier (UBI) number;
- C. If applicable:
 - 1) Have Industrial Insurance (workers' compensation) coverage for the bidder's employees working in Washington, as required in title 51 RCW;
 - 2) Have a Washington Employment Security Department number, as required in title 50 RCW;
 - 3) Have a Washington Department of Revenue state excise tax registration number, as required in title 82 RCW.
- D. Not be disqualified from bidding on any public works contract under RCW 39.06.010 or 39.12.065(3).

12. **BIDDER RESPONSIBILITY CRITERIA (SUPPLEMENTAL).**

A bidder will be deemed not responsible if:

- A. the bidder does not meet the mandatory bidder responsibility criteria in SMC 7.06.500 and RCW 39.04.350(1), as amended; or
- B. the bidder does not meet the supplemental bidder responsibility criteria as shown in these bid specifications. The bidder may be required by the City to submit documentation demonstrating compliance with the criteria.

If a potential bidder believes that the supplemental bidder responsibility criteria will exclude it from bidding, it may request the City to consider modifying the criteria. Any request shall be submitted to the Purchasing Section of the Accounting Department no

later than five (5) days before the bid opening. The City shall evaluate any such request, and if a decision is made by the City to modify the criteria, the modification shall be communicated to all bidders and plan holders via the issuance of an addendum to the bidding documents. Likewise, in the event the City decides not to modify the criteria, it will endeavor to notify the requesting bidder of its decision.

As evidence that the Bidder meets the supplemental bidder responsibility criteria, the apparent lowest Bidder shall submit to the City within twenty four (24) hours of the notification time the completed supplementary bidder responsibility form with any required documentation. The City reserves the right to request this documentation from other bidders as well, and to request further documentation as needed to assess the bidder's responsibility.

The basis for evaluation of bidder compliance with the supplemental criteria shall be any documents or facts obtained by the City (whether from the bidder or third parties) which any reasonable owner would rely on for determining compliance. Determinations of responsibility or non-responsibility of a bidder due to the supplemental criteria shall be based on a review of all the supplemental criteria factors as a whole with no single item being determinative.

If the City determines the low bidder does not meet either the mandatory bidder criteria or the supplemental bidder criteria and is therefore not a responsible bidder, the Contracting Agency shall notify the bidder in writing with reasons for the determination. If the bidder disagrees with this determination, it will have a minimum of three (3) business days from receiving the determination to submit additional written information to the City. The City will consider any timely submitted additional information received from the bidder before issuing its subsequent determination. If the bidder disagrees with the City's subsequent determination it may appeal the determination to the Mayor or designee in writing within two (2) business days of receiving the City's determination. If the final appeal affirms that the bidder is not responsible, the City will not execute a contract with any other bidder until at least two (2) business days after the bidder determined to be not responsible has received the final determination.

13. REJECTION OF BIDS.

The City reserves the right to reject any or all bids, to waive minor deviations from the specifications, to waive minor informalities in bidding, whenever it is in the City's best interest, and to accept or reject all or part of this Request for Bids, at the prices shown.

14. CONTRACTOR REGISTRATION.

The City is prohibited from executing a contract with a contractor who is not registered or licensed as required by state law.

AIA DOCUMENT A201
"GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION"

By reference, the printed document "General Conditions of the Contract for Construction, AIA Document A201, 2007 edition, is hereby included and shall be part of the Contract Documents. Copies of AIA Document A201 are available for review at the offices of the Owner. Copies may also be purchased from the American Institute of Architects or its local distributor.

SUPPLEMENTARY GENERAL CONDITIONS OF THE CONTRACT

The following supplements modify the "General Conditions of the Contract for Construction," AIA Document A201, 2007. Where a portion of the General Conditions is modified or deleted by these Supplementary Conditions, the unaltered portions of the General Conditions shall remain in effect.

ARTICLE 1 - GENERAL PROVISIONS

1.1 BASIC DEFINITIONS

1.1.1 Change the last sentence in paragraph 1.1.1 to read:

The Contract Documents include Request for Bids, Instructions to Bidders, Bid Proposal Forms, Bid Bond, Performance Bond, Payment Bond and Contractor's Bid.

1.1.1 Add the following to paragraph 1.1.1:

It shall be the responsibility of the Contractor and each subcontractor to appraise themselves of all conditions, limitations and requirements of these documents which are considered a part of each section of each division of this specification as if printed therein.

1.1.1.2 Add a subparagraph 1.1.1.2 to read:

Should conflict occur in or between drawings and specifications, Contractor is deemed to have estimated the more expensive way of doing work unless he asked for and obtained written decision by addenda as to which method or materials will be required.

1.1.1.3 Add a subparagraph 1.1.1.3 to read:

Where the word "similar" occurs on drawings, it shall be used in its general sense and not as meaning identical, and all details shall be worked out in relationship to their location and their connection to other parts of the work.

1.1.1.4 Add a subparagraph 1.1.1.4 to read:

Where used in conjunction with the Architect's response to submittals, requests, applications, inquiries, reports and claims by the Contractor, the meaning of the term "approved" will be held to the limitations of the Architect's responsibilities and duties as specified in the Conditions of the Contract. In no case will "approval" by the Architect be interpreted as an assurance to the Contractor that the requirements of the contract documents have been fulfilled.

1.1.5 Add the following to paragraph 1.1.5

Where on any drawings a portion of work is drawn out and remainder is indicated in outline, the drawn out parts shall apply also to other like portions of the work. Where detail is indicated by starting only, such details shall be continued throughout the courses or parts in which it occurs and shall also apply to all other similar parts in the work unless otherwise indicated.

Drawings are in general diagrammatic and do not necessarily show complete details of the work, or materials, and do not necessarily show the construction sequence that may affect the Contractor means and methods. The Contractor shall coordinate to sequence the parts to a completed whole.

1.1.6 Add the following to paragraph 1.1.6:

These specifications are of the abbreviated or "streamlined" type and frequently include incomplete sentences. The word "product" includes materials, systems and equipment. The word "selected" means "selected by the Architect". The word "coordinate" means "satisfactorily combine the work of all trades for a complete and operating installation." Words such as "shall", "the Contractor shall", "shall be", and similar mandatory phrases shall be supplied by inference in the same manner as they are in a note on the drawings. The Contractor shall provide all items, articles, materials, and operations listed, including all labor, materials, equipment and incidentals required for their completion.

1.2 CORRELATION AND INTENT OF THE CONTRACT DOCUMENTS

1.2.1 Add a subparagraph 1.2.1 to read:

Conflicts in the documents shall be brought to the Architect's attention. In the event of conflicts or discrepancies among the contract documents, interpretations will be made by the Architect in accordance with this principle of complementary relationship among documents, with reference to the following priorities if necessary to reach a conclusion:

- a. Modifications.
- b. Agreement.
- c. National, State and Local Codes and Ordinances.
- d. Supplementary Conditions.
- e. General Conditions of the Contract for Construction.
- f. Project Manual and any Addenda. Addenda of later date take precedence over those of earlier date.
- g. Drawings. Drawings of larger scale and greater detail take precedence over drawings of smaller scale and less detail.

1.2.2 Add the following to Paragraph 1.2.2:

Such organization shall not operate to make the Architect an arbiter to establish subcontract limits between Contractor and Subcontractor.

1.2.4 Add a subparagraph 1.2.4 to read:

Conditions of the Contract shall be read by all prime contractors and by each subcontractor or sub-subcontractor and shall be considered a part of each section of the Technical Specifications. Provisions of Contract Documents are binding on the contractors, subcontractor and sub-subcontractors for all work shown or indicated on the original Contract Documents plus any additional work authorized by change order, interpretation or field orders.

1.2.5 Add a subparagraph 1.2.5 to read:

The Contractor shall notify the Architect of any condition he finds where, in his judgment, it will be desirable to modify the requirements to produce the best results. If the Contractor fails to make such request, it is deemed to have accepted the specified and/or detailed method of installation as being adequate to produce first class, satisfactory work. Should conflict occur in or between drawings and specifications, the Contractor is deemed to have estimated on the more expensive way of doing the work unless it shall have asked for, and obtained a written decision seven (7) calendar days before submission of proposal as to which method or materials will be required. Manufacturer's equipment specifications are based on models and/or construction and installation methods prevailing at the date of invitation and/or advertisement to submit to manufacturer's model and/or construction changes and other variations from the items specified shall be furnished and installed at no additional cost to Owner.

1.2.6 Add a subparagraph 1.2.6 to read:

Requests by the Contractor for written interpretations and/or detail drawings shall be made to the Architect in a timely manner such as will allow ample time for their preparation and delivery without causing delays in the work. Failure of the Contractor to request needed clarifications and/or its proceeding with affected work prior to receiving same shall indicate its acceptance of any and all costs and/or delays required on account of necessary corrections.

ARTICLE 2 - OWNER

2.1 GENERAL

2.1.1 Add a new sentence to read:

The Owner is the City of Spokane, Washington.

2.2 INFORMATION AND SERVICES REQUIRED OF THE OWNER

2.2.5 Delete subparagraph 2.2.5 and replace with:

The Contractor will be furnished free of charge three (3) copies of drawings and project manuals. Unless otherwise agreed, additional sets will be furnished at the cost of reproduction, postage and handling.

ARTICLE 3 - CONTRACTOR

3.2 REVIEW OF CONTRACT DOCUMENTS AND FIELD CONDITIONS BY CONTRACTOR

3.2.1 Add the following to subparagraph 3.2.1:

If the Contractor observes any errors, discrepancies or omissions in the Contract Documents, it shall promptly notify the Architect, requesting clarification. If the Contractor proceeds with Work affected by such errors, discrepancies or omissions without receiving such clarification, it does so at its own risk. Any adjustments involving such circumstances made by the Contractor, prior to approval by the Architect, shall be at the Contractor's risk and the settlement of any complications or disputes arising therefrom shall be at the Contractor's sole expense.

3.3 SUPERVISION AND CONSTRUCTION PROCEDURES

3.3.4 Add a subparagraph 3.3.4 to read:

The Contractor shall be solely responsible for any claims for wages or compensations by the Contractor's employee, agents, representatives, including subcontractors.

3.3.5 Add a subparagraph 3.3.5 to read:

All grades, levels, bench marks, locations and corners shall be correctly verified by the Contractor.

3.3.6 Add a subparagraph 3.3.6 to read:

In accordance with RCW 39.06.020, the Contractor must verify responsibility criteria for each first tier subcontractor, and a subcontractor of any tier that hires other subcontractors must verify responsibility criteria for each of its subcontractors. Verification shall include that each subcontractor, at the time of subcontract execution, meets the responsibility criteria listed in RCW 39.04.350(1) and possesses an electrical contractor license, if required by chapter 19.28 RCW, or an elevator contractor license, if required by chapter 70.87 RCW. This verification requirement, as well as the responsibility criteria, must be included in every public works contract and subcontract of every tier.

3.4 LABOR AND MATERIALS

3.4.1 Add the following to subparagraph 3.4.1:

The Contractor shall be solely responsible for all materials and equipment until the completed project is delivered and accepted by the Owner. The Contractor shall, at its own expense, secure and maintain a storage area for his materials and equipment."

3.4.2 Add the following to subparagraph 3.4.2:

After the Contract has been executed the Owner and the Architect will consider a formal request for the substitution of products in place of those specified only under the following conditions set forth in the General Requirements (Division 1 of the Specifications).

- a. Required product cannot be supplied in time for compliance with Contract time requirements.
- b. Required product is not acceptable to governing authority, or determined to be non-compatible, or cannot be properly coordinated, warranted, or insured, or has other recognized disability as certified by Contractor.
- c. Substantial advantage is offered Owner after deducting offsetting disadvantages including delays, additional compensation to Architect for redesign, investigation, evaluation, and other necessary services, and similar considerations.

By making requests for substitutions based on the above paragraph, the Contractor:

- a. represents that it has personally investigated the proposed substitute product and determined that it is equal or superior in all respects to that specified;
- b. represents that it will provide the same warranty for the substitutions as it would have for the product specified;
- c. certifies that the cost data presented is complete and includes all related costs for the substituted product and for Work that must be changed as a result of the substitution, except for the Architect's redesign costs, and waives all claims for additional costs related to the substitution which subsequently become apparent; and
- d. will coordinate the installation of the accepted substitute, making such changes as may be required for the work to be complete in all respects.

3.5 WARRANTY

3.5 Revise the third sentence to read:

Work not conforming to these requirements, including substitutions not properly approved and authorized, shall be considered defective.

Revise the last sentence to read;

The Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

3.5.1 Add a subparagraph 3.5.1 to read:

The Contractor guarantees all work, labor and materials for one (1) year following final acceptance of the Work. If any unsatisfactory condition or defect develops within that time, the Contractor shall immediately place the Work in a satisfactory condition and repair all damage caused by the condition or defects at its sole expense. This guarantee does not apply to Work which has been abused or neglected by the Owner. This guarantee shall be separate from and in addition to any more extensive warranty requirements specified for certain elements and products used in the Work.

3.6 TAXES:

3.6.1 Add a subparagraph 3.6.1 to read:

The Washington Department of Revenue has issued special rules designed to assist the Contractor in accurately reporting to the Department of Revenue the Contractor's tax liability. Although the Owner may furnish information in the specification regarding the application of state taxes to a particular contract or bid item, it shall be the Contractor's responsibility as to the correct interpretation of the laws and regulations relating to such taxes. Adjustments will not be made in the amount to be paid by the Owner under the contract because of any misunderstanding by the Contractor as to the Contractor's liability for, or the amount of, any taxes. If the Contractor is in doubt as to the tax procedures in any particular case, the Contractor shall consult with the Washington State Department of Revenue.

3.6.2 Add a subparagraph 3.6.2 to read:

The contract sum and any agreed variations thereof shall include all taxes imposed by law, and properly chargeable to the project except Sales Tax. Sales Tax applicable to the contract sum will be collected from the Owner and shall be paid to the State Department of Revenue by the Contractor in conformance with the law. State of Washington Sales Tax shall not be included in the bid price, except that the retail sales tax upon sales and rentals to prime contractors and subcontractors of tools, machinery and equipment, and consumable supplies, such as hand and machine tools, cranes, air compressors, bulldozers, lubricating oil, sandpaper and form lumber which are primarily for use by the Contractor rather than for resale as a component part of the finished structure, shall be included in the bid price. The subcontractor should notify the Contractor, in writing, with copy to the Architect, of any unsuitable or improperly prepared surfaces or conditions. ARTICLE 7 - CHANGES IN THE WORK

7.1 GENERAL

7.1.4 Add a new subparagraph 7.1.4 to read:

The combined overhead and profit included in the total cost to the Owner for a change in the Work shall be based on the following schedule:

- a. For Contractor, for any work actually performed by Contractor's own forces, fifteen percent (15%) of the direct cost of material and labor up to \$50,000 or ten percent (10%) of direct costs of changes exceeding \$50,000.
- b. For Contractor, for any work performed by its subcontractor(s), eight percent (8%) of the amount due each subcontractor up to \$50,000 or six percent (6%) of the costs due each subcontractor for costs exceeding \$50,000.

- c. For each subcontractor (including lower tier subcontractors), for any work actually performed by its own forces, fifteen percent (15%) of the direct cost of materials and labor up to \$50,000 or ten percent (10%) of direct costs of changes exceeding \$50,000.
- d. For each subcontractor, for any work performed by its subcontractor(s) of any lower tier, eight percent (8%) of the amount due the sub-subcontractor up to \$50,000, or six percent (6%) of the costs due each subcontractor for costs exceeding \$50,000.

7.2 CHANGE ORDERS

Any Change Order prepared, shall constitute a final and full settlement of all matters relating to or affected by the change in the Work, including, but not limited to, all direct, indirect, and consequential costs associated with the change and any and all adjustments to the Contract Sum and Contract Time. In the event a Change Order increases the Contract Sum, the Contractor shall include the work covered by such Change Order in the Application for Payment as if such work were originally part of the Project and Contract Documents.

7.2.3 Add a subparagraph 7.2.3 to read:

Contractor shall promptly respond to Change Order request for proposal within fifteen (15) days or such longer period as may be mutually acceptable for complex changes.

Such agreement shall be effective immediately and shall be incorporated into a future Change Order.

7.3.11 Add a subparagraph 7.3.11 to read:

Overhead is defined as costs for all noncraft labor, temporary construction facilities, field engineering, schedule updating, as-built drawings, home office cost, B&O taxes, office engineering, estimating costs, small tools, safety, insurance and any other cost incidental to the change in the Work.

ARTICLE 8 - TIME

8.3 DELAYS AND EXTENSIONS OF TIME:

8.3.1 Delete paragraph 8.3.1 and replace with:

If the Contractor is delayed at any time in the commencement or progress of the Work by an act or neglect of the Owner or Architect, or of an employee of either, or of a separate contractor employed by the Owner, or by changes ordered in the Work, or by labor disputes, fire, unavoidable casualties or other causes beyond the contractor's control, or by delay authorized by the Owner pending mediation and arbitration or by other causes which may justify delay as determined both by the Architect and Owner, then the Contract Time shall be extended by Change Order for such reasonable time.

8.3.4 Add a subparagraph 8.3.4 to read:

The Contract time shall be adjusted only for changes in the work pursuant to Article 7, and excusable delay pursuant to this Paragraph 8.3 as determined by the Architect. In the event the Contractor requests an extension of the contract time, it shall furnish the justification and supporting evidence as the Architect may deem necessary for a determination as to whether the Contractor is entitled to an extension of time under this Contract. After receipt of such documentation, the Architect shall make its findings of fact and so advise the Contractor in writing. The determination shall be based upon the approved Contractor's schedule current at the time of the delay.

8.4 Add a new section to read:

8.4 LIQUIDATED DAMAGES

8.4.1 Time is of the essence of the contract. Delays inconvenience the traveling public, obstructing traffic, interfere with daily commerce, and increase risk to the traveling public. Delays also cost taxpayers undue sums of money, adding time needed for administration, engineering, inspections and supervision.

8.4.2 Because the Owner finds it impractical and extremely difficult to calculate the actual damages which will be suffered by the Owner as a result of the Contractor's failure to complete the work on time, the Owner has adopted liquidated damages for this Work as set forth in the bid proposal.

ARTICLE 9 - PAYMENTS AND COMPLETION

9.1 CONTRACT SUM

9.1 Delete paragraph 9.1 and replace with:

9.3 APPLICATIONS FOR PAYMENT

9.3.4 Add a subparagraph 9.3.4 to read:

The Owner will pay ninety-five percent (95%) of the amount due the Contractor on

account of progress payments. Five percent (5%) will be held as retainage pursuant to chapter 60.28 RCW.

9.4 CERTIFICATES FOR PAYMENT

9.4.2 Add the following to subparagraph 9.4.2:

Payment will not constitute a waiver of any claims by the Owner that the Work fails to comply with the Contract Documents.

9.6 PROGRESS PAYMENTS

9.6.8 Add a subparagraph 9.6.8 to read:

Pursuant to chapter 60.28 RCW there will be reserved and retained from monies earned by the Contractor on estimates during the progress of the Work a sum not to exceed five percent (5%) of the monies earned by the Contractor. The retainage shall be used as a trust fund for the protection and payment: (1) to the State with respect to taxes imposed pursuant to Title 82, RCW which may be due from such Contractor, and (2) of any person or persons, mechanic, subcontractor or material supplier who shall perform any labor upon the contract or the doing of the work, and all persons who shall supply such person or persons or subcontractor with provisions or supplies for carrying on the work. Release of retainage will be made forty five (45) days following final acceptance of the work provided the following conditions are met:

- a. The City has received from the Contractor and each subcontractor a copy of a "Statement of Intent to Pay Prevailing Wages" and an "Affidavit of Wages Paid", approved by the State Department of Labor and Industries.
- b. On contracts greater than \$35,000, the City has received a release of liability from the State Department of Employment Security.
- c. On contracts greater than \$35,000, the City has received a release of liability from the State Department of Labor and Industries.
- d. On contracts greater than \$35,000, the City has received a release from the State Department of Revenue.
- e. No claims, as provided by law, have been filed against the retainage.

In the event a claim is filed, the Contractor shall be paid a portion of the retainage which is less an amount sufficient to pay the claim and potential legal costs.

9.6.9 Add a subparagraph 9.6.9 to read:

Before payment is made, the Owner shall require the Contractor and each subcontractor to submit a Statement of Intent to Pay Prevailing Wages to the Owner's Accounting Department which has been approved by the State Department of Labor and Industries before submittal. Unless otherwise authorized by the Department of Labor and Industries, each voucher claim (invoice) submitted by a Contractor for payment on a project estimate shall have a certification which states that the prevailing wages have been paid in accordance with the prefilled Statement(s) of Intent to Pay Prevailing Wages. Below is an example of the certification which is to appear on each voucher claim (invoice) submitted by the Contractor for payment.

CERTIFICATE

I certify that wages have been paid in accordance with the Statement (s) of Intent to Pay Prevailing Wages previously certified and filed pursuant to this contract.

By: _____ Date: _____

The fee for the approval of Statements of Intent to Pay Prevailing Wages and Affidavits of Wages is forty dollars (\$40.00) for each form. The Contractor is responsible for payment of these fees and shall make all application directly to the Department of Labor and Industries. Reimbursement for the fees paid by the Contractor will be added to the amounts due the Contractor. In order to receive this reimbursement the Contractor will be required to submit to the Owner prior to final acceptance of the Work a list of its subcontractors at all tiers and have their Statements of Intent to Pay Prevailing Wages on file with the Owner.

- b. General Liability Insurance on an occurrence basis, with a combined single limit of not less than one million five hundred thousand (\$1,500,000) each occurrence for bodily injury and property damage. It shall include premises and operations, independent contractors, products and completed operations, personal injury liability and contractual liability coverage for the indemnity provided under the contract. It shall provide that the City, its officers, and

employees and the Architect are additional insureds but only with respect to the Contractor's services to be provided under the contract;

BRIEFING PAPER
Asset Management Group
Tuesday, April 19, 2016

Subject:

Quit claim deed and authorization to complete the acquisition of property at Cheney Spokane Road & Highway 195 for development as permanent Fire Station #5.

Background:

After an extensive site search over the last 7 years, the City of Spokane has identified this property as the preferred site for the placement of the permanent fire station #5.

This WSDOT owned property provides outstanding access to highway 195 and sufficient response times to meet the needs of the area for the foreseeable future. The property included (roughly 2.46 acres) provides sufficient space for the needs of the Fire Department and is a clean slate for development.

WSDOT has agreed to sell for the appraised value of \$202,000 and associated recording fees. The acquisition will be completed and deeds recorded as soon as possible once required approvals are received.

Impact:

The closing of this transaction completes the acquisition process for the property needed for the permanent fire station allowing the City to begin the design and development phase.

Action:

Approval of acquisition and proceeding to recording

Resolution No. 2016-0042

A Resolution concerning the City's 2017 state legislative agenda.

WHEREAS, Washington is the only state in the nation that does not provide supervision for those convicted of property crimes; and

WHEREAS, according to the FBI's 2014 report, Washington state has an estimated 1 officer for every 682 citizens, and the next highest ratio is the state of Oregon with 1 officer for every 606 citizens; and

WHEREAS, Washington has the highest property crime rate in the nation, last cited by the FBI at 3,706 crimes per 100,000 people in 2014; and

WHEREAS, those property crime offenders who don't qualify for state supervision are the most likely to reoffend; and

WHEREAS, the clearance rate (the rate at which someone is arrested, charged, and turned over to the court for prosecution) for property crime in Spokane, as determined by the FBI, is only 13.5%; and

WHEREAS, according to the Spokane Regional Law and Justice Commission, the average length of detention in the Spokane County Jail, for offenders of all races, is 16 days; and

WHEREAS, due to previous lack of responsiveness and limited holding time, citizens may be apprehensive to report crimes, which may lead to an undercount of the actual amount of property crime in Spokane; and

WHEREAS, while the incidents of property crimes shows a diminishing trend, there were nearly 15,000 reported instances in Spokane in 2015; and

WHEREAS, both chambers of the Washington legislature proposed legislation which would have sought measures to mitigate property crimes in Washington and none of that legislation was passed in the most recent legislative session.

NOW THEREFORE, BE IT RESOLVED, by the Spokane City Council that the City's 2017 legislative agenda should include advocacy for (1) efforts to supervise property crime offenders; (2) prioritization of property crime reporting by police departments; (3) legislation which mirrors the best practices of those states with the lowest property crime rates.

WHEREAS, 13.3% of Spokane County's combined renter and homeowner households are cost-burdened, with those earning 0-30% of MFI being severely cost-burdened; and

WHEREAS, the city of Spokane, who's population accounts for 43.8% of Spokane County's population, has the largest concentration of subsidized housing units; and

WHEREAS, the subsidies for large numbers of those subsidized housing units are set to expire by 2017; and

LOCATION: A portion of Front Ave

PROPONENT: City of Spokane

PURPOSE: Vacating right-of-way in order to exchange property for the new Martin Luther King Jr. Way Project.

HEARING: April 27, 2015

REPORTS:

AVISTA UTILITIES – It appears that we have both electric and gas in the proposed vacation area. Please reserve a general utility easement for Avista in the ordinance. If it turns out later we need to move and or release, we can do what we did under the new hotel downtown.

COMCAST – Comcast has reviewed the vacation request. Enclosed is a map showing our plant. I know that MLK is going through this way and all Utilities are being moved. If an easement is granted, then we have no problem with the vacation.

CENTURYLINK – No comments.

ASSET MANAGEMENT - CAPITAL PROGRAMS – No comments.

FIRE DEPARTMENT – No objection.

NEIGHBORHOOD SERVICES - No comments.

PARKS DEPARTMENT - No comments.

PLANNING & DEVELOPMENT – DEVELOPER SERVICES – 8" & 10" CI water mains in the vacation area. At a minimum a 10' or 20' no build easement will be required centered on the pipes or remove and replace mains.

PLANNING & DEVELOPMENT – TRAFFIC DESIGN – No objection.

PLANNING & DEVELOPMENT – PLANNING – Maintain frontage on all parcels.

POLICE DEPARTMENT – No concerns

SOLID WASTE MANAGEMENT - No comments.

STREET DEPARTMENT – Traffic Operations, Streets, and Signal Operations see no issues.

WASTEWATER MANAGEMENT – There exists three storm inlets in this area of proposed vacation. If this area is vacated, these existing catch basins must be disconnected from the City's system at the right-of-way line and the downstream pipes property plugged. Also, as private property, all on-site runoff must be maintained and treated on site in accordance with State and City requirements.

There are also a number of old abandoned-in-place sanitary sewer pipelines in the proposed vacation area, which connect to an old abandoned City CSO outfall pipe to the river. These pipes within the proposed vacation area must be disconnected from the City's system and the remaining abandoned City pipelines property plugged.

The Wastewater Department must be contacted if and when existing facilities currently connected to the City system are to be plugged, removed, or otherwise abandoned.

WATER DEPARTMENT - We want it noted for the record, that as Martin Luther King Way Project Design advances, serious consideration be given to water main design in MLK Way and in the specific area of this road vacation, maintain water system integrity.

BICYCLE ADVISORY BOARD – No comments

RECOMMENDATION: That the petition be granted and a vacating ordinance be prepared subject to the following conditions:

1. An easement as requested by Avista Utilities, Comcast, and the City of Spokane shall be retained to protect existing and future utilities.
2. Existing stormwater catch basins must be disconnected from the city system and the downstream pipes must be plugged, under the supervision of the City of Spokane Wastewater Department.
3. Any old abandoned in place sanitary sewer pipelines in the vacation area must be disconnected from the City's sanitary system and property plugged under the supervision of the City of Spokane Wastewater Department.

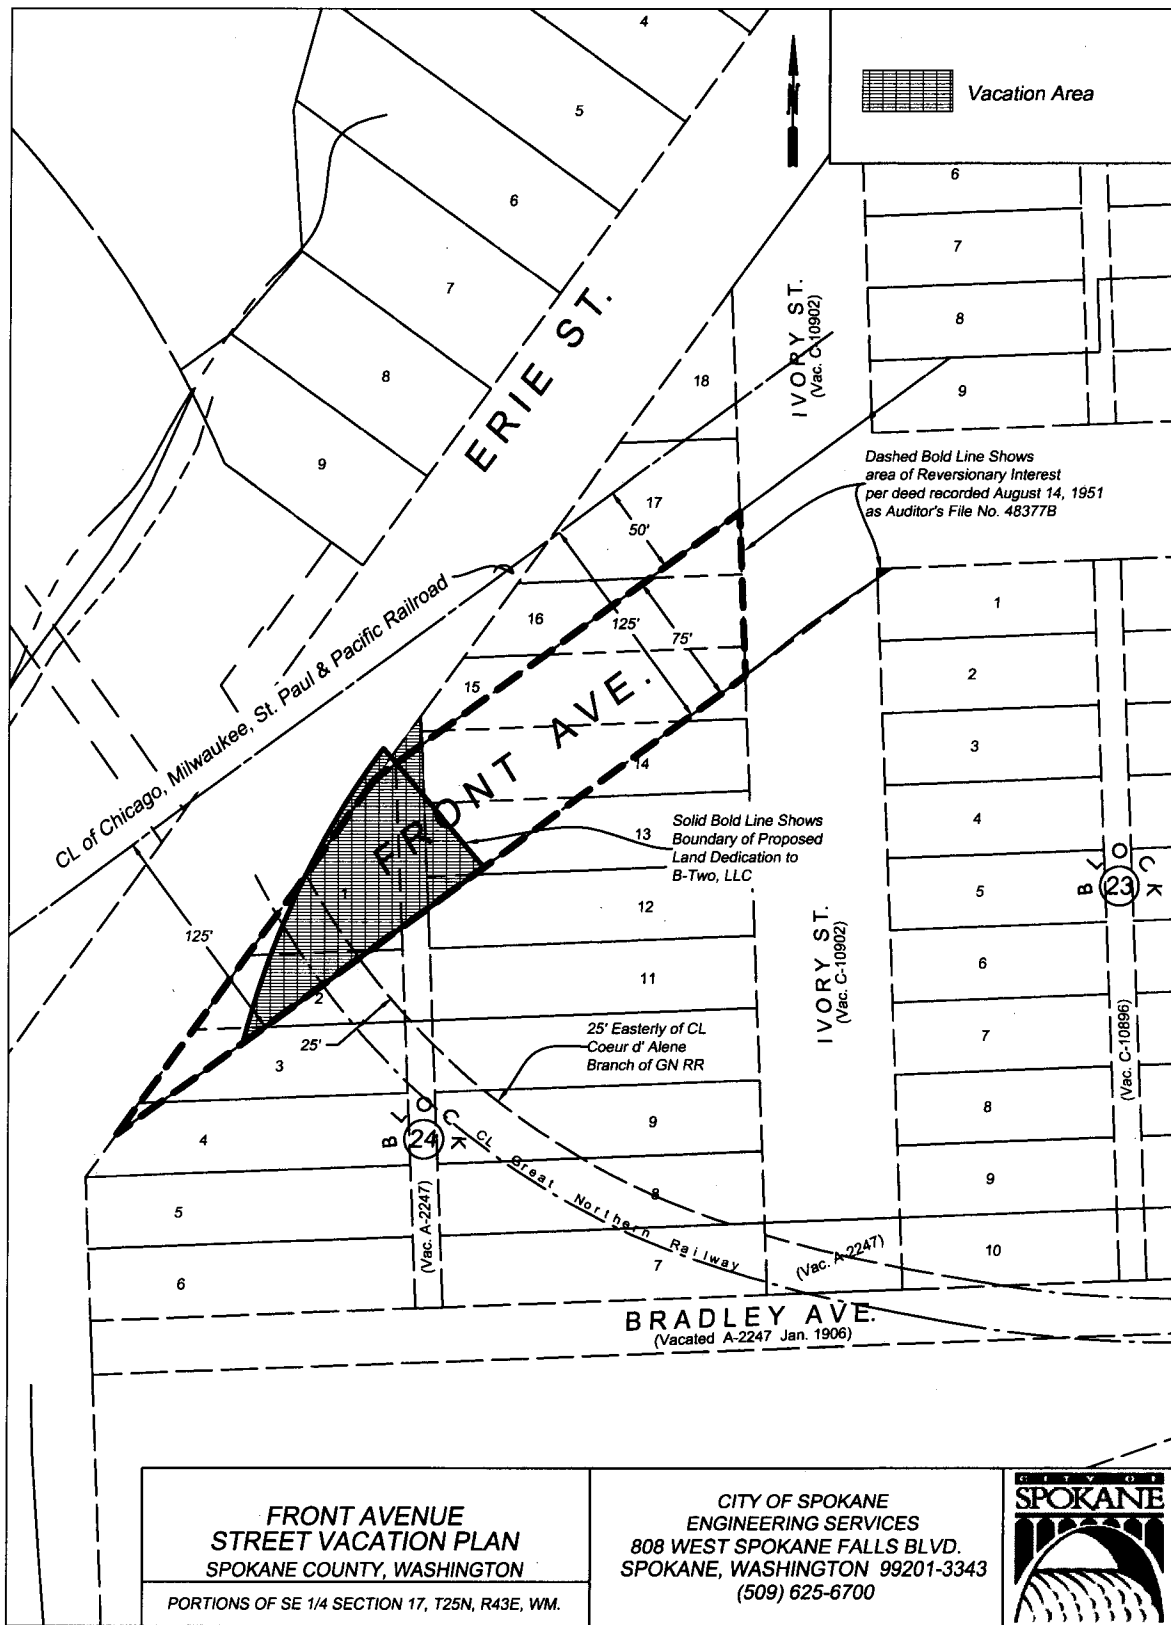

4. On-site stormwater runoff must be collected and treated on-site.
5. That the final reading of the vacation be held in abeyance until all of the above conditions are met and that the above conditions are met by **December 1, 2016**.

ORDINANCE C35379

An ordinance relating to sustainable public building standards for Capital Improvement Projects; amending section 07.17.020 of the Spokane Municipal Code and enacting new sections 12.05.005 and 12.05.030 to the Spokane Municipal Code.

WHEREAS, enormous quantities of resources are used during building construction, renovation, and operation, the production of which has substantial environmental impacts; and

WHEREAS, reducing the environmental impact of the construction, operation, and maintenance of publicly-funded facilities will save taxpayer dollars each year because green buildings operate more efficiently by using less energy, water, and fossil fuels; and

WHEREAS, the City of Spokane, through the “greening” of facilities, can support the local market for green building products and services, and raise the bar for the construction and operation of sustainable buildings; and

WHEREAS, the adoption of a Sustainable Public Buildings Standard for Capital Projects is consistent with and implements the City’s Sustainability Action Plan and Comprehensive Plan; and

WHEREAS, the United States Green Building Council has created and administers a rating system which is used to assess multiple areas of construction, such as existing buildings and commercial interiors, referred to as Leadership in Energy & Environmental Design (“LEED”); and

WHEREAS, the state of Washington requires that many new public buildings meet LEED standards, as do the cities of Bellingham, Everett, and Seattle, King County, and the federal government.

NOW, THEREFORE, the City of Spokane does ordain:

Section 1. That section 07.17.020 of the Spokane Municipal Code is amended to read as follows:

Section 07.17.020 Scope of City-Wide Six Year Capital Improvement Program

- A. The City-wide Six-Year Capital Improvement Program shall coordinate the planning, financing and construction of the City’s capital facilities consistent with the following guidelines.

1. The City-wide Six-Year Capital Improvement Program shall encompass all City capital facilities projects regardless of the revenue source.
2. Elements of the City-wide Six-Year Capital Improvement Program shall include the Six-Year Comprehensive Street Program, the Six-Year Comprehensive Wastewater Program and the Six-Year Comprehensive Water Program, as well as Six-Year Capital Improvement Programs submitted by each City department projecting the department's respective capital facilities needs, including estimated costs and proposed methods of financing, for at least the subsequent six years.
3. The City-wide Six-Year Capital Improvement Program shall include the necessary maintenance, rehabilitation, and renovation of existing capital facilities.
4. The City-wide Six-Year Capital Improvement Program shall prioritize consistency with the City's Comprehensive Plan and Sustainability Action Plan, including, but not limited to the adaptive reuse of suitable existing buildings. When adaptively reusing existing buildings, these facilities shall be renovated to the ~~((highest defined energy conservation standard justified by a net present value analysis of capital and forecast energy costs over a thirty year period or the forecast life of the building, whichever is less.))~~ Sustainable Public Building Requirements specified in SMC 12.05.030.
5. Should it be necessary to build new public facilities, these facilities shall be constructed to the ~~((highest defined energy conservation standard justified by a net present value analysis of capital and forecast energy costs over a thirty year period.))~~ Sustainable Public Building Requirements outlined in SMC 12.05.030.
6. The City-Wide Six-Year Capital Improvement Program is intended to be an evolving document reflecting the current status of financing, planning and implementation of the City's Capital Facilities Plan with the intent that the programs be revised as the City completes certain projects and adds new projects.

Section 2. That there is adopted a new section 12.05.005 of the Spokane Municipal Code to read as follows:

Section 12.05.005 Definitions

- A. "Conditioned Space" means an enclosed space within a building where there is intentional control of the space thermal conditions within defined limits using natural, electrical, or mechanical means. Spaces that do not have heating or cooling systems but rely on natural or mechanical flow of thermal energy from adjacent spaces to maintain thermal conditions within defined limits are considered conditioned spaces.

- B. "LEED" is a green building rating and certification system developed by the U.S. Green Building Council to evaluate environmental performance from a whole building perspective, including sites, water efficiency, energy & atmosphere, materials & resources, indoor environmental quality, locations & linkages, awareness & education, innovation in design, and regional priority.
- C. "U.S. Green Building Council" is an organization serving as the nation's foremost leaders from across the building industry working to promote buildings that are environmentally responsible, profitable, and healthy places to work and live.

Section 3. That there is adopted a new section 12.05.030 of the Spokane Municipal Code to read as follows:

Section 12.05.030 Sustainable Public Buildings Requirements

- A. It is the intent of the City of Spokane to plan, design, construct, manage, renovate, operate, maintain, and decommission its buildings in an environmentally sustainable and economically efficient manner.
- B. All Capital Improvement projects constituting new construction, an addition, or renovations that involve substantial modification to all three of the major systems – mechanical, electrical, and plumbing - of a City-owned building and impacting 5,000 or greater gross square feet of conditioned space shall meet a minimum LEED Silver rating through the U.S. Green Building Council or comparable scoring system unless the City Council, by resolution, determines it not practicable due to available resources, construction costs, and life-cycle costs.
- C. If the City Council determines it not practicable to pursue LEED Silver rating, the Capital Improvement project shall continue to pursue the maximum number of LEED credits or comparable scoring system, reasonably achievable for the covered project.
- D. All Capital Improvement projects qualifying for LEED certification shall be registered through the U.S. Green Building Council or comparable scoring system, unless the City Council, by resolution, determines it not practicable due to overall project costs.
- E. All City departments shall seek opportunities to maximize the energy and water efficiency of existing City-owned buildings, consistent with the City's Sustainability Action Plan.

BRIEFING PAPER
Public Works Committee
Spokane City Council
April 11, 2016

Subject

Adopting an ordinance to require the City to seek and obtain LEED Silver Certification from the United States Green Building Council, or equivalent scoring system, on new public building construction projects impacting 5,000 square feet or more of conditioned space and on major renovations which include improvements to mechanical, plumbing, and electrical systems in a building 5,000 square feet or more of conditioned space.

Background

The City of Spokane has multiple planning documents and policies that outline the desire for public buildings to be operationally efficient and effective. These documents include:

Chapter 5 Capital Facilities and Utilities of the City of Spokane's Comprehensive Plan

Policy 1.2 Operational Efficiency

"Require the development of capital improvement projects that either improve the city's operational efficiency or reduce costs by increasing capacity, use, and/or life expectancy of existing facilities."

City of Spokane Sustainability Action Plan

Strategy 5: Conserve Water Everywhere

5-C: *Develop innovative projects for water reuse and conservation on and in City properties and buildings.*

5-F: *Review and revise City policies, codes, ordinances and programs to allow for and incentivize best practices and innovation in water conservation.*

Strategy 6: Maximize Energy Efficiency

6-A: *Model leading practices by developing and implementing specific plans for reducing and managing energy use in all City operations.*

6-B: *Move toward carbon-neutral operations in all new and retrofit construction involving City facilities.*

LEED/U.S. Green Building Council: By utilizing LEED/U.S. Green Building Council, an independent national third-party would be responsible for verification of performance. Some jurisdictions rely on other third-party systems, such as Energy Star or Green Communities.

Costs: Costs associated with pursuing LEED Silver certified buildings include: LEED certification fees, consultation costs, and possible increased construction costs specific to meeting LEED standards.

A study for California's Sustainable Building Task Force found that a minimal up-front investment of about 2% of construction costs typically yields life cycle savings of over ten times the initial investment. Source: The Costs and Financial Benefits of Green Buildings – Report to California's Sustainable Building Task Force (2003)

BRIEFING PAPER
Public Works Committee
Spokane City Council
April 11, 2016

“There is no significant difference in average costs for green buildings as compared to non-green buildings”. In a study of 57 libraries, 25 seeking LEED certification and 32 not seeking certification, there was no significant difference between the costs of projects seeking LEED certification versus the projects not seeking certification. In fact, the LEED buildings tended to fall on the lower cost/SF end of the 57 libraries as seen by the graph below.

Source: “Cost of Green Revisited” – Davis Langdon (2006)

The cost premium for LEED certified buildings are often found in periods or areas of high construction demand and limited competition. This can lead to a shortage of bids including bids by inexperienced contractors who may view these onerous and bid high to account for the perceived risk (Langdon).

Savings/Benefits: Savings come from annual utility savings from reduced water and energy use.

Other jurisdictions

The City of Spokane would join Pacific Northwest jurisdictions of Seattle, Everett, Bellingham, Eugene, Portland, West Linn, King County, and Whatcom County.

BRIEFING PAPER
Public Works Committee
Spokane City Council
April 11, 2016

The City of Spokane Valley is building their new City Hall building to LEED Standards but have chosen not to pursue the certification.

The State of Washington was the first US state to adopt a LEED Silver Standard for all public facilities greater than 5,000 square feet.

Understanding LEED

Projects can receive Sustainable Site ‘credits’ for a number of factors including: density, brownfield redevelopment, public transportation access, erosion control plans, bicycle storage, changing rooms, providing preferred parking for electric/alternative-fueled vehicles (or provides a fleet of alternatively fueled vehicles), reduced site disturbance, strategies to maximize open space, stormwater management, reducing the heat island effect, light pollution reduction

Projects can receive Water Efficiency ‘credits’ for water efficient landscaping, low-flow and waterless flush fixtures/innovative wastewater technologies, and water use reduction techniques.

Source: Water-efficient fixtures around City Hall

Projects can receive Energy and Atmosphere ‘credits’ for the commission of the building energy systems, refrigerant management, energy performance optimization (energy load reduction/improved equipment efficiency), and utilizing renewable energy and green power strategies onsite.

Projects can receive Materials and Resources ‘credits’ by incorporating recycled materials, reuse of a building, diversion of waste from landfills through construction waste management, reuse of materials, use of recycled content, use of local materials, and use of certified wood.

BRIEFING PAPER
Public Works Committee
Spokane City Council
April 11, 2016

Projects can receive Indoor Environmental Quality ‘credits’ by prohibiting smoking in the building, outdoor air delivery monitoring, increasing ventilation, use of low-emitting materials, lighting control, thermal comfort control, and maximizing daylight penetration to the building

‘Credits’ can also be earned for Innovation and Design Process.

Impact

This ordinance takes a step forward in implementing and codifying Sustainability Action Plan and Comprehensive Plan strategies.

By incorporating these energy and resource-efficient practices into our capital facilities projects, we are reducing the environmental impact of construction-related activities while providing savings to our taxpayers.

The construction of capital facilities is also an investment in our City employees. Utilizing these building principles will provide our employees with healthy places to work, which reduces absenteeism, turnover, and improves worker performance.

Action

Requesting City Council approval.

Local Firms & Labor Organizations with LEED project experience:

- Vandervert Construction – *“Based on our experience, seeking LEED Silver or higher on new capital construction projects (over 5,000 SF) could provide long term benefits for the City of Spokane. The sustainable design and improved energy efficiency would be the biggest benefits. In terms of potential obstacles, there will be some additional time, administration support, and increased construction costs associated with the pursuit of LEED Silver certified projects. A key component for any project that seeks a level of LEED certification is to engage in a LEED consultant as early as possible to help navigate the design and LEED process right from the start.”* – Klint Kimball, Chief Estimator
- TestComm – *“LEED has brought beneficial change to the construction industry. And certain aspects are now business as usual. But the administrative cost has restricted its usefulness for all projects all the time.”* – Jerry Ensminger, Manager
- IRS Environmental – *“Our main scope of work on renovation/demolition jobs is to provide asbestos/lead/hazardous waste abatement. We have participated in many LEED projects over the years and have not had any major issues at all. LEED requires that GOOD Accurate records are kept for the disposal or recycling of waste from the projects, this is something we do on a regular basis so from our standpoint it’s just another layer of paperwork that we need to provide to the client. Not much of a problem in the long run at all.”* – Carl Burnham, Vice President

Other jurisdictional experiences with sustainable public buildings policies:

Everett Washington

The City of Everett has built one project since their sustainable buildings ordinance was adopted in 2007. That building (Municipal Court) achieved LEED Silver.

* Source: Chris Lark, City of Everett

Seattle Washington (passed in 2002)

The City of Seattle had 18 City of Seattle LEED Certified Projects from 2003-2010.

Environmental Benefits Include:

- 47,100 tons of construction waste diverted
- 1,062,180 gallons of stormwater reduced per year
- 4,368,100 gallons of potable water saved per year
- 765,455 kilowatt hours of electricity saved per year
- 12,876,500 CO2 emissions reduced per year

The City of Seattle found while measuring 7 LEED projects that the soft costs (certification/consultation fees) ranged 0.47% to 1.31% of overall project cost.

Source: Mayor's Recommendations: Sustainable Buildings and Sites Policy – City of Seattle (2011)

“Looking back at the reports that I have received for projects in the last 2-3 years, construction premiums reported for LEED related costs have ranged from 0.05% to .56%, with projected annual utility savings (energy & water) of \$2,000 to \$6,000/yr. These are all LEED Gold Fire Station projects ranging from 8,000 to 20,000 sq.ft. A LEED Gold Transfer Station had a 0% construction premium and projected utility savings of \$56,000/yr. We have a recently completed 10,000 sq.ft. Platinum Fire Station that had a 5% premium, with savings projected at \$9,700/yr”
– Sandra Mallory, Sustainable Building Program Manager for City of Seattle

Eugene Oregon

The City of Eugene has pursued and obtained over \$2 million in energy efficiency incentives to support efficiency upgrades in their city buildings. Over 100 separate incentives, ranging in size from \$50 to \$150,000, have been applied for and received by the City of Eugene since 1995.

Source: City of Eugene Oregon Website – Energy Management Program

Portland Oregon

The City of Portland adopted their “Green Building Policy” in 2001. They subsequently updated their policy in 2005, 2009, and 2015 – making it stronger each year. From 2005-2009, the City of Portland built three new buildings which would fall under their Green Building Policy. One project received LEED Platinum, one project received LEED Gold, and the other project was LEED Certified – despite being financed prior to adoption of the Portland’s 2005 standards.

BRIEFING PAPER

Adopted an initial LEED Certified policy in 2008 with the minimum level increasing to LEED Silver in 2012. Their ordinance allows an appeal to the Building Board of Appeals in cases where not economically feasible. “new public buildings may experience higher design and construction costs which will be more than offset by permit fee reductions and lower operating costs over the life of the building, resulting in a net economic gain for public buildings.” Source: Municipality of Anchorage Summary of Economic Effects – General Government (Fiscal Note) Anchorage repealed their ordinance in 2011 after inserting their sustainability requirements into their building code. Source: Ross Noffsinger, City of Anchorage

Asheville North Carolina

Adopted their LEED Standards policy in 2007 which requires buildings over 5,000 square feet to achieve LEED Gold but strive for LEED Platinum (the highest standard). The City of Asheville’s newest public building, the Dr. Wesley Grant Sr. Southside Center, achieved LEED Platinum. The Center is most easily recognized by its roof, the shape of which channels rainwater into sediment reducing ponds and cisterns as well as the roof gardens. It employs energy-efficient windows, geothermal temperature regulation and energy conserving insulation. Source: City of Asheville Website/Asheville City Source

State of Washington

The biennial legislative report by the Department of Enterprise Services had the following findings on the state’s High Performance Green Buildings Law (RCW 39.35D):

- Achieving LEED certification does not always cost more; the range is -.7 percent to + 3.0 percent of the total project first cost. This can be offset with facilities operating savings and user comfort with improved employee productivity results.
- Estimated energy savings range from 19 to 50 percent. The payback for LEED related costs is estimated between 0 and 33 years with the average being 15 years for 75 percent of the projects where complete data is available.
- Construction waste recycling practices used on 10 projects diverted more than 7,500 tons (94 percent) of construction debris from landfills.

“ Buildings are typically designed for people. If a building fails to provide a healthy work or learning environment, then it has failed its primary purpose. Yet many buildings can cause “sick building syndrome” where occupants are made sick by the building’s products or systems. Symptoms include headaches, dizziness, forgetfulness, nausea and drowsiness. The syndrome can affect productivity and, in extreme cases, result in lawsuits against the State” – Washington Department of Enterprise Services .

~~((5))~~3. Neither ((The)) the ballot title ((and)) nor the summary of the measure ((shall not be)) may contain language or graphic elements which are argumentative or are reasonably likely to create prejudice for or against the measure.

- E. In addition to preparing the ballot title and summary of the measure, the city attorney shall review the proposed measure for such matters as form and style. The city attorney shall edit the measure as necessary to correct obvious typographical errors, conform the language to Spokane Municipal Code format and style, or eliminate ambiguity. Any such editorial revisions are made on a separate sheet from the measure as submitted and clearly identified. All editorial revisions shall be provided to the sponsor and the city clerk at the same time the city attorney files the ballot title and summary of the measure with the city clerk.
- F. Upon receipt of the ballot title and summary of the measure from the city attorney, the city clerk assigns ((a)) an initiative number by which the measure is identified. The city clerk affixes the ballot title and summary to the original of the proposed measure or the measure as revised pursuant to this section, inscribes the identifying number upon it and retains it in the official file.
- G. The city clerk must immediately furnish a copy of the proposed measure with its ballot title and summary to the sponsor, along with the form of the petition sheet ~~((and prepare a report to the city council for the next agenda))~~.

- H. When the proposed measure, ballot title, summary, petition form, and number by which the measure is identified are all in final form such that they comply with this chapter, the city clerk shall prepare a report to the city council for the next agenda.

Section 3. That section 2.02.040 of the Spokane Municipal Code is amended to read as follows:

2.02.040 Council Action on Initiative Measure

- A. Upon receiving the report regarding an initiative from the city clerk, the city council may pass the measure as proposed, reject the initiative measure and propose another one dealing with the same subject to be considered as council legislation, or submit the initiative measure to the voters on its own motion.
- B. If the city council does not ~~((take either action set for in subsection (A)))~~ pass the measure as proposed or submit the initiative measure to the voters, the initiative and the ballot title and summary of the measure shall be forwarded by the city clerk to the city hearing examiner who shall issue a formal written opinion as to the legal validity and effect of the proposed measure to the city council, city clerk, and initiative measure sponsor ((- Within)) within fourteen days of receiving the initiative measure from the city clerk ~~((, the hearing examiner shall file his written opinion with the city council and the city clerk with a copy provided to the initiative measure sponsor))~~.
- C. Within seven days of receipt of the hearing examiner's written opinion, the initiative measure sponsor shall notify the city clerk in writing of the sponsor's decision to proceed with collecting signatures for the initiative measure or to revise the initiative measure based upon the hearing examiner's written opinion. If the sponsor elects to proceed with gathering signatures, the time period to collect and file petition signatures set forth in SMC 2.02.055 shall begin to run from the date the sponsor's written decision is filed with the city clerk. The sponsor shall provide the city clerk with a copy of the petition sheet the sponsor shall use for the collection of signatures. If the sponsor elects to revise the initiative measure based on the opinion of the hearing examiner, the city council shall discontinue processing the originally filed initiative measure. The initiative sponsors may file a revised initiative measure, which shall be submitted to the city clerk's office pursuant to SMC 2.02.030.

Section 4. That section 2.02.055 of the Spokane Municipal Code is amended to read as follows:

2.02.055 Petition Signatures

- A. Prior to circulation for signatures, an initiative petition shall have received an assigned initiative number from the city clerk's office and a written opinion from the hearing examiner regarding the legal validity and effect of the proposed measure; and the petition sponsor shall have informed the city clerk of the sponsor's decision to proceed with collecting signatures and provided the city clerk with a copy of the petition sheet, both pursuant to SMC 2.02.040.
- B. Signed petitions must be filed with the city clerk in a single batch by the petition sponsor or a representative designated as such in writing by the petition sponsor ((with the city clerk)) within three hundred sixty-five days from the date the sponsor files a written decision to proceed with the signature gathering pursuant to SMC 2.02.040. If the three hundred sixty-fifth day lands on a Saturday, Sunday, or a legal holiday, the petitions may be filed on the next succeeding day which is not a Saturday, Sunday, or a legal holiday. Petition signatures submitted after the three hundred sixty-fifth day will not be accepted by the city clerk's office.
- C. ~~The sponsor of the initiative may submit additional petition signatures at any time during the three hundred sixty-five day period until a sufficient number of signatures have been validated to place the measure on a ballot; however, if the additional))~~ Additional petition signatures ~~((are submitted later than one hundred twenty calendar days prior to the next election, the measure, if otherwise valid, will be placed on the ballot at the next appropriate election pursuant to section 82 of the City Charter))~~ shall not be accepted and shall be immediately returned to the initiative sponsor.
- ~~((D. —Petition signatures collected after the three hundred sixty-five day period will not be counted towards a previously filed initiative.))~~
- ~~((E))~~ D. A person who has signed an initiative petition may withdraw his or her signature from a petition by submitting to the city clerk a written request for the withdrawal of the signature up to the time the clerk is directed by the city council to validate the signatures.

Section 5. That section 2.02.060 of the Spokane Municipal Code is amended to read as follows:

2.02.060 Form of Initiative Petition

- A. It is the obligation of the sponsor of the measure to print petitions for circulation of the proposed initiative measure. The sponsor is responsible to conform the petition to the requirements of this chapter as to form and content, to determine the number of signatures required, and to print enough petition sheets to accommodate sufficient signatures.

- B. The paper used for the petition sheets must be of sufficient weight and quality to accommodate printing and writing on both sides. Paper size should be between eight and twelve inches wide and between eleven and eighteen inches long. Printing should be no smaller than ten-point face, except that the full text of the measure may be in smaller type if necessary to allow the entire petition to be on a single sheet of paper. For reasons of length of text or other practical necessity, the specifications of this section may be adjusted as the sponsor and city clerk may agree.
- C. The measure must be typed or printed and be in the form of an ordinance, with a title and the entire text of the section(s) proposed to be added, amended or repealed. When the proposed measure would amend existing law, the text shall be in the following format:
1. Language to be deleted is set forth in full and enclosed in double parentheses or brackets and may be lined out by hyphens.
 2. New language to be added is underlined, unless an entire new section or subsection is being added; and
 3. Deletions of existing language precede additions of new language.
- D. The mandatory and exclusive elements of the petition sheet are:
1. a warning to potential signers regarding possible election law violations;
 2. a heading;
 3. horizontal lines numbered 1- 20 for the entry of data under ~~((four))~~ vertical columns (or ~~((four))~~ boxes);
 4. the full text of the measure;
 5. the name and street address of the sponsor (political committee representative or individual legal resident);
 6. the number of the measure; ~~((and))~~
 7. a ballot title and summary of the measure; and
 8. the signed declaration of the signature gatherer in the form provided in paragraph E below.
- E. Every petition sheet must include the printed name and signed declaration of the signature gatherer. All petition signatures on a petition sheet that does not include the declaration statement signed by the signature gatherer shall be disregarded and not included in the tabulation for validation. The signature gatherer declaration shall be printed as follows:

I, (print name legibly), swear or affirm under penalty of law that I circulated this sheet of the foregoing petition, and that, to the best of my knowledge, every person who signed this sheet of the foregoing petition knowingly and without any compensation or promise of compensation willingly signed his or her true name and that the information provided therewith is true and correct. I further acknowledge that under chapter 29A.84 RCW, forgery of signatures on this petition constitutes a class C felony, and that offering any consideration or gratuity to any person to induce them to sign a petition is a gross misdemeanor, such violations being punishable by fine or imprisonment or both.

(Signature) (Date)

~~((E))~~F. The warning, heading, initiative number, body of the petition containing the ballot title, ~~((and summary of the measure, and))~~ numbered signature lines, summary of the measure and declaration of the signature gatherer must appear in that order on the front of each petition sheet. The ~~((other elements))~~ full text of the measure may be located on the front or the back of the petition sheet as the sponsor determines.

G. An initiative petition shall only include language and provisions set forth in Chapter 2.02 SMC and may not be altered after being assigned an initiative number by the city clerk pursuant to SMC 2.02.030. The sponsor may only modify the format of the petition sheet to accommodate the size of the petition sheet and the font of the print consistent with SMC 2.02.060 and may not alter the substance of the text or include additional information. Any petition sheet that includes additional information beyond what was included on the initiative petition sheet submitted to the city clerk pursuant to SMC 2.02.030(D) and (E) and which had been assigned an initiative number shall be disregarded, and the petition signatures on that sheet shall not be included in the tabulation for validation.

~~((F))~~H. Each sheet of the petition must be in substantially the following form:

WARNING

~~((Under Washington State law every))~~ Every person who signs ~~((an initiative or referendum))~~ this petition with any other than his or her true name, knowingly signs more than ~~((once))~~ one of these petitions, ~~((or))~~ signs this petition when he or she is not a legal voter ~~((; or signs a petition when he or she is otherwise not qualified to sign))~~, or ~~((who))~~ makes any false statement on ~~((such))~~ this petition may be ~~((guilty of a misdemeanor))~~ punished by fine or imprisonment.

- B. The city clerk must immediately file a copy of the proposed measure with the city attorney.

The city clerk also files with the council members a sample sheet of the petition.
- E. An initiative may not be withdrawn or discontinued once the signature petitions have been submitted to the city clerk.

Section 7. That section 2.02.090 of the Spokane Municipal Code is amended to read as follows:

2.02.090 Validation of Signatures

- A. If directed by the city council, the city clerk without delay makes arrangements with the county auditor, as ex-officio supervisor of elections, to ~~((gain access to the voter registration rolls))~~ validate the petition signatures to determine if the petition bears the minimum number of valid signatures of registered voters of the City of Spokane as required by City Charter.

Section 8. That section 2.02.110 of the Spokane Municipal Code is amended to read as follows:

2.02.110 Publicity

- A. - B. In case the measure would amend the charter or adopt a new or revised charter, then, in addition, the measure is published in the newspaper having the largest general circulation within the city once each week for four weeks next preceding the day of the election.

- C. In addition to the summary of the proceedings of the city council, which appears weekly in the *Official Gazette*, Washington law requires that notices of municipal elections be given by the county auditor.
- D. Pursuant to section 86 of the City Charter, the city clerk shall publish every proposed or referred ordinance in each number of the *Official Gazette* issued within fifteen days before the date of the election; and shall give such other notices and do such other things relative to such election, as may be required by law.

BRIEFING PAPER
Spokane City Council
Initiative and Referendum process amendments
March 28, 2016

Subject

This briefing paper summarizes the changes contained in the proposed amendments to the City's initiative and referendum processes.

Summary

The proposed ordinance makes the following changes to the initiative and referendum process:

- Requires verification by the measure's sponsor of compliance with the ordinance's requirements regarding qualifications to file a petition, at the time the measure is filed.
- Requires submission of contact information for signature-gathering firms used for the measure.
- Prohibits language or graphic elements on the ballot title or summary of the measure which are argumentative or are reasonably likely to create prejudice for or against the measure.
- Requires that the City Clerk provide a copy of the form of the petition sheet to the sponsor and requires that the sponsor then send to the City Clerk the petition sheet to be used in signature gathering.
- Under the proposed changes, Council can reject a proposed initiative and proposed another on the same subject for Council legislation. The Council would still process the proposed petition unless the sponsor decides to discontinue the petition based on the Council's alternative legislation.
- Signatures must be turned in in one single batch; this eliminates the option for proponents to submit multiple batches over a period of months.
- Petition signatures can only be turned in by the sponsor or the sponsor's designated representative.
- Proponents have 365 days to turn in their signatures. Signatures turned in after that deadline are not accepted and are returned to the sponsor

immediately. Sponsor must turn in signatures no later than 150 days (increased from 120 days in the prior version) before the election date.

- Provides that the elements of the petition sheet listed in the ordinance are the mandatory and exclusive elements – no other elements allowed. Any additional information or alteration of the petition signature sheets will lead to that sheet (and the signatures on it) being disregarded.
- Petition sheet also must have a signed declaration of the signature gatherer. Petition sheets without the signed declaration are disregarded. Removes phone number of signer, but adds requirement that signature be in dark ink and that the printed name be printed legibly.
- Clarifies that an initiative may not be withdrawn once the signature petitions are submitted to the City Clerk.
- Clarifies that the County Auditor merely validates signatures – that number then goes back to City Clerk for determination of whether the correct number of signatures has been provided.
- Strikes obsolete language concerning City Council determination of legal invalidity and publication thereof.
- Clarifies that a legal challenge to an initiative or referendum measure can be initiated either by the City Council or the City administration only after the City Council has adopted a resolution directing the County Auditor to place the measure on the ballot.

Section1. That SMC section 17C.130.310 is amended to read as follows:

Section 17C.130.310 Fences

A. Purpose

The fence standards promote the positive benefits of fences without adversely impacting the community or endangering public or vehicle safety. Fences near streets are kept low in order to allow visibility into and out of the site and to ensure visibility for motorists. Fences in any required side or rear setback are limited in height so as to not conflict with the purpose for the setback.

B. Type of Fences

The standards apply to walls, fences, and screens of all types whether open, solid, wood, metal, wire, masonry, or other material.

C. Location, Height, and Design

1. Street Setbacks.

No fence or other structure is allowed within twelve feet from the back of the curb, consistent with the required sidewalk width of SMC 17C.130.230.

a. Measured from Front Lot Line.

Fences up to three and one-half feet high are allowed in a required street setback that is measured from a front lot line.

b. Measured from a Side Lot Line.

Fences up to six feet high are allowed in required setback that is measured from a side lot line.

c. Fences shall not reduce the required setback width of SMC 17C.130.210.

2. Side or Rear Structure Setbacks.

Fences up to six feet high are allowed in required side or rear setbacks except when the side or rear setback abuts a pedestrian connection. When the side or rear setback abuts a pedestrian connection, fences are limited to three and one-half feet in height.

3. Not in Setbacks.

The height for fences that are not in required setbacks is the same as the regular height limits of the zone.

4. Sight-obscuring Fences and Walls.

Any required or non-required sight-obscuring fences, walls, and other structures over three and one-half feet high, and within fifteen feet of a street lot line shall be placed on the interior side of a L2 see-through buffer landscaping area at least five feet in depth (See chapter 17C.200 SMC, Landscaping and Screening).

D. Prohibited Fences

1. No person may erect or maintain a fence or barrier consisting of or containing barbed, razor, concertina, or similar wire except that up to three strands of barbed wire may be placed atop a lawful fence exceeding six feet in height above grade.

~~((2. — No person may maintain a fence or barrier charged with electricity.))~~

~~((3.))~~ 2. A fence, wall or other structure shall not be placed within a public right-of-way without an approved covenant as provided in SMC

17G.010.160 and any such structure is subject to the height requirement for the adjoining setback.

((4-)) 3. No fence may be closer than twelve feet to the curb.

E. Electric Fences.

The construction and use of electric fences shall be allowed in the Light Industrial (LI) and Heavy Industrial (HI) zones only as provided in this section, subject to the following standards:

1. Permit.

BRIEFING PAPER
Asset Management Group
Monday April 18, 2016

Subject:

Update of SMC, Rules of the Road, 16A to reflect divisional reorganization of parking services and to provide clarification on several violation headings.

Background:

The parking services group was formerly under the Streets Department. It is now part of the Neighborhood and Business Services Division. Many areas of the parking ordinance section of the Municipal Code refer to approval by the Streets Director, which should be updated to the Parking Services Manager. Staff has performed a review of the Section 16A.61 in its entirety to address several areas of ambiguity. The following suggestions have been made:

Add Section 16A.61.567C. Previously, violations for expired registration tabs and improper display of tabs were written under the same heading, 16A.61.567B. The addition of 16A.61.567C creates a separate heading for improper display that is not clearly indicated in 16A.61.567B.

Add Section 16A.61.570A1(j). Based on requests for better tracking of citations issued to vehicles parked in the bicycle lanes by the Bicycle Advisory Board, this section provides a heading specific to bicycle lanes that was not previously available.

Add Section 16A.61.590(D) to reflect new violation provided by 2015 updates to RCW 46.19.050 for improper display of disabled placard.

Modify Section 16A.61.5705B. Upon City Council approving ORD C35279 in September, 2015, a new penalty for was established for violation of taxi zones, affecting the fines for Section 16A.61.5706B, which currently includes both bus stop and taxi zones. In order to appropriately fine each violation, the heading needs to be split into 16A.61.5706B(1) for bus stops and 16A.61.5706B(2) for taxi zones.

Modify Section 16A.61.5904. Update to Multi-space parking meter payment options to include verbiage for both pay by space and pay by plate.

Modify Section 08.02.083E(2). Clarification of the verbiage to indicate that an additional penalty for failure to respond to a notice of both traffic and parking violations is twenty-five dollars. This penalty has been routinely assessed to both traffic and parking violations, but the present verbiage only indicates traffic violations.

Impacts:

The requested changes are not substantive and do not change the intent of the specific parking sections but provide clarification and remove ambiguity.

Action:

Approval of the ordinance revisions.
