BRIEFING PAPER
Integrated Capital Management
November 9, 2015

Subject:
Setting hearing date of December 7, 2015 for an ordinance adopting a six-year Citywide Capital Improvement Program for the years 2016-2021, and amending Section 5.5 Capital Facilities Program of the City’s Comprehensive Plan.

Background:
GMA provides that proposed amendments to a comprehensive plan may be considered by the governing body of a city no more frequently than once per year, but further provides that amendments to the capital facilities element of a comprehensive plan may be considered outside of this annual process where the amendment is considered concurrently with the adoption or amendment of a city budget.

City of Spokane’s Spokane Municipal Code (SMC) chapter 7.17 indicates the City’s must adopt and annually update a Citywide Six-Year Capital Improvement Program. The Program must be updated annually as part of the budget process. With the approval of the 2016 Budget, the first year of the Program reflects the 2016 budget.

SMC Chapter 7 also indicates that to determine the Program’s consistency with the Comprehensive Plan it shall be reviewed by the City Plan Commission. Two Plan Commission workshops were held on October 14 and 28, 2015. A Plan Commission hearing was held on November 11th. The Citywide Improvement Program was found to be consistent with the Comprehensive Plan.

Council members were briefed on October 26, 2015 during the Public Works Committee meetings regarding the status of the Program and the next steps leading up to the Council hearing.

The 2016-2021 Citywide Six-Year Capital Improvement Program can be viewed on line at: http://www.myspokanebudget.org

Impact:
In order to comply with the provisions of the Growth Management Act, the City’s SMC’s and qualify for grant and low interest loan funds, it is required that the City maintain a Capital Improvement Program for the respective utilities and departments that have capital needs.

Action:
City Council will be requested to set a December 7, 2015 hearing for the adoption the 2016-2021 Citywide Capital Improvement Program.

For further information on this subject contact Katherine Miller, Director for Integrated Capital Management at 625-6338.

Total Eligible Cost: $1,680,000.00
Ecology Share: $1,260,000.00
Recipient Share: $420,000.00
The Effective Date of this Agreement is: 07/01/2015
The Expiration Date of this Agreement is no later than 12/31/2018
Project Type: Stormwater Facility

Project Short Description:
This project will improve water quality in the Spokane River through elimination of MS4 storm sewer systems on Sharp Avenue and installation of permeable pavement, bioretention swales, trees, and drywells for stormwater infiltration. This project will provide treatment for Total Suspended Solids, Dissolved Copper and Dissolved Zinc, and will also reduce flows to the Spokane River by increasing stormwater infiltration.

Project Long Description:
Sharp Avenue currently treats area stormwater by collection in an MS4 system that conveys stormwater directly to Lake Arthur, a man made water body. Lake Arthur is hydraulically connected to the Spokane River. Sharp Avenue is located at the north edge of Gonzaga University. Approximately half the stormwater runoff collected in the Sharp Avenue MS4 system comes from side streets that flow onto Sharp Avenue.

Permeable pavement and a center median with bioretention swales will be installed to manage the runoff from Sharp Avenue. Drywells will be installed to collected stormwater flow from the side streets.
Additional benefits of the project are traffic calming, pedestrian safety, and applied research in partnership with Gonzaga University.

The project is part of the RECIPIENT’s ongoing commitment to the City of Spokane Integrated Clean Water Plan to remove untreated stormwater discharge to the Spokane River.

Overall Goal:
This project will improve water quality in Washington by reducing stormwater impacts from existing infrastructure and development.

Current Fair Share Objective/Goal - The dollar amount of this assistance agreement is over $250,000; or the total dollar amount of all of the RECIPIENT’s non-TAG assistance agreements from EPA in the current fiscal year is over $250,000. The Washington State Department of Ecology has negotiated the following, applicable MBE/WBE fair share objectives/goals with EPA as follows:

MBE: SUPPLIES 8.00%; SERVICES 10.00%; EQUIPMENT 8.00%; CONSTRUCTION 10.00%

(d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.

Levy and Collection of Taxes (if used to secure the repayment of the loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of its electors on all of the taxable property within the boundaries of the RECIPIENT in an amount sufficient, together with other money legally available and to be used therefore, to pay when due the principal of and interest on the loan, and the full faith, credit and resources of the RECIPIENT are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Not an Excess Indebtedness: For loans secured with a general obligation pledge or a general obligation pledge on special assessments: The RECIPIENT agrees that this agreement and the loan to be made do not create an indebtedness of the RECIPIENT in excess of any constitutional or statutory limitations.

Pledge of Net Revenue and ULID Assessments in the ULID (if used to secure the repayment of this loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges the Net Revenue of the Utility, including applicable ULID Assessments in the ULID, to pay when due the principal of and interest on the loan.

The amount on deposit in the Reserve Account may be applied by the RECIPIENT (1) to make, in part or in full, the final repayment to ECOLOGY of the loan amount or, (2) if not so applied, for any other lawful purpose of the RECIPIENT once the Loan Amount, plus interest and any other amounts owing to ECOLOGY, have been paid in full.

Utility Local Improvement District (ULID) Assessment Collection (if used to secure the repayment of the loan): All ULID Assessments in the ULID shall be paid into the loan Fund and used to pay the principal of and interest on the loan. The ULID Assessments in the ULID may be deposited into the Reserve Account to satisfy a Reserve Requirement if a Reserve Requirement is applicable.

K. Maintenance and Operation of a Funded Utility: The RECIPIENT shall at all times maintain and keep a funded Utility in good repair, working order and condition and also shall at all times operate the Utility and the business in an efficient manner and at a reasonable cost.

This applies to the construction, alteration, and repair of treatment works carried out in whole or in part with assistance made available by the State Revolving Fund as authorized by Section 513, title VI of the Federal Water Pollution Control Act (33 U.S.C. 1372). Laborers and mechanics employed by contractors and subcontractors shall be paid wages not less often than once a week and at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor.

The RECIPIENT shall obtain the wage determination for the area in which the project is located prior to issuing requests for bids, proposals, quotes or other methods for soliciting contracts (solicitation). These wage determinations shall be incorporated into solicitations and any subsequent contracts. The RECIPIENT shall ensure that the required EPA contract language regarding Davis-Bacon Wages is in all contracts and sub contracts in excess of $2,000. The RECIPIENT shall maintain records sufficient to document compliance with the Davis-Bacon Act, and make such records available for review upon request.

The RECIPIENT also agrees, by signing this agreement, to comply with State Prevailing Wages on Public Works, Chapter 39.12 RCW, as applicable. Compliance may include the determination whether the project involves “public work” and inclusion of the applicable prevailing wage rates in the bid specifications and contracts. The RECIPIENT agrees to maintain records sufficient to evidence compliance with Chapter 39.12 RCW, and make such records available for review upon request.

N. Litigation; Authority: No litigation is now pending, or to the RECIPIENT’s knowledge, threatened, seeking to restrain, or enjoin:

(i) the execution of this agreement; or

(ii) the fixing or collection of the revenues, rates, and charges or the formation of the ULID and the levy and collection of ULID Assessments therein pledged to pay the principal of and interest on the loan (for revenue secured lien obligations); or

Neither the corporate existence or boundaries of the RECIPIENT nor the title of its present officers to their respective offices is being contested. No authority or proceeding for the execution of this agreement has been repealed, revoked, or rescinded.

O. Representations and Warranties: The RECIPIENT represents and warrants to ECOLOGY as follows:

Application: Material Information. All information and materials submitted by the RECIPIENT to ECOLOGY in connection with its loan application were, when made, and are, as of the date the RECIPIENT signs this agreement, true and correct. Existence; Authority. It is a duly formed and legally existing municipal corporation or political subdivision of the state of Washington or a federally recognized Indian Tribe. It has full corporate power and authority to execute, deliver, and perform all of its obligations under this agreement and to undertake the project identified herein.
Certification. Each payment request shall constitute a certification by the RECIPIENT to the effect that all representations and warranties made in this loan agreement remain true as of the date of the request and that no adverse developments, affecting the financial condition of the RECIPIENT or its ability to complete the project or to repay the principal of or interest on the loan, have occurred since the date of this loan agreement. Any changes in the RECIPIENT’s financial condition shall be disclosed in writing to ECOLOGY by the RECIPIENT in its request for payment.

P. Sale or Disposition of Utility: The RECIPIENT will not sell, transfer, or otherwise dispose of any of the works, plant, properties, facilities, or other part of the Utility or any real or personal property comprising a part of the Utility unless:

1. The facilities or property transferred are not material to the operation of the Utility, or have become unserviceable, inadequate, obsolete, or unfit to be used in the operation of the Utility or are no longer necessary, material, or useful to the operation of the Utility; or

2. The aggregate depreciated cost value of the facilities or property being transferred in any fiscal year comprises no more than three percent of the total assets of the Utility; or

3. The RECIPIENT receives from the transferee an amount equal to an amount which will be in the same proportion to the net amount of Senior Lien Obligations and this LOAN then outstanding (defined as the total amount outstanding less the amount of cash and investments in the bond and loan funds securing such debt) as the Gross Revenue of the Utility from the portion of the Utility sold or disposed of for the preceding year bears to the total Gross Revenue for that period.

4. Expressed written agreement by the DEPARTMENT.

The proceeds of any transfer under this paragraph must be used (1) to redeem promptly, or irrevocably set aside for the redemption of, Senior Lien Obligations and to redeem promptly the loan, and (2) to provide for part of the cost of additions to and betterments and extensions of the Utility.

R. Termination and Default:

Termination and Default Events

1. For Insufficient ECOLOGY or RECIPIENT Funds. ECOLOGY may terminate this loan agreement for insufficient
ECOLOGY or RECIPIENT funds.

2. For Failure to Commence Work. ECOLOGY may terminate this loan agreement for failure of the RECIPIENT to commence project work.

3. Past Due Payments. The RECIPIENT shall be in default of its obligations under this loan agreement when any loan repayment becomes 60 days past due.

4. Other Cause. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance in full by the RECIPIENT of all of its obligations under this loan agreement. The RECIPIENT shall be in default of its obligations under this loan agreement if, in the opinion of ECOLOGY, the RECIPIENT has unjustifiably failed to perform any obligation required of it by this loan agreement.

Procedures for Termination. If this loan agreement is terminated prior to project completion, ECOLOGY shall provide to the RECIPIENT a written notice of termination at least five working days prior to the effective date of termination (the “Termination Date”). The written notice of termination by the ECOLOGY shall specify the Termination Date and, when applicable, the date by which the RECIPIENT must repay any outstanding balance of the loan and all accrued interest (the “Termination Payment Date”).

Termination and Default Remedies

No Further Payments. On and after the Termination Date, or in the event of a default event, ECOLOGY may, at its sole discretion, withdraw the loan and make no further payments under this agreement.

Repayment Demand. In response to an ECOLOGY initiated termination event, or in response to a loan default event, ECOLOGY may at its sole discretion demand that the RECIPIENT repay the outstanding balance of the Loan Amount and all accrued interest.

Interest after Repayment Demand. From the time that ECOLOGY demands repayment of funds, amounts owed by the RECIPIENT to ECOLOGY shall accrue additional interest at the rate of one percent per month, or fraction thereof.

Accelerate Repayments. In the event of a default, ECOLOGY may, in its sole discretion, declare the principal of and interest on the loan immediately due and payable, subject to the prior lien and charge of any outstanding Senior Lien Obligation upon the Net Revenue. That is, the loan is not subject to acceleration so long as any Senior Lien Obligations are outstanding. Repayments not made immediately upon such acceleration will incur Late Charges.

Late Charges. All amounts due to ECOLOGY and not paid by the RECIPIENT by the Termination Payment Date or after acceleration following a default event, as applicable, shall incur late charges.

Intercept State Funds. In the event of a default event and in accordance with Chapter 90.50A.060 RCW, “Defaults,” any state funds otherwise due to the RECIPIENT may, at ECOLOGY’s sole discretion, be withheld and applied to the repayment of the loan.

Property to ECOLOGY. In the event of a default event and at the option of ECOLOGY, any personal property (equipment) acquired under this agreement may, in ECOLOGY’s sole discretion, become ECOLOGY’s property. In that circumstance, ECOLOGY shall reduce the RECIPIENT’s liability to repay money by an amount reflecting the fair value of such property.

Documents and Materials. If this agreement is terminated, all finished or unfinished documents, data studies, surveys,
drawings, maps, models, photographs, and reports or other materials prepared by the RECIPIENT shall, at the option of ECOLOGY, become ECOLOGY property. The RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Collection and Enforcement Actions. In the event of a default event, the state of Washington reserves the right to take any actions it deems necessary to collect the amounts due, or to become due, or to enforce the performance and observance of any obligation by the RECIPIENT, under this agreement.

Fees and Expenses. In any action to enforce the provisions of this agreement, reasonable fees and expenses of attorneys and other reasonable expenses (including, without limitation, the reasonably allocated costs of legal staff) shall be awarded to the prevailing party as that term is defined in Chapter 48.330 RCW.

Damages. Notwithstanding ECOLOGY’s exercise of any or all of the termination or default remedies provided in this agreement, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and/or the state of Washington because of any breach of this agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

S. User-Charge System: The RECIPIENT certifies that it has the legal authority to establish and implement a user-charge system and shall adopt a system of user-charges to assure that each user of the utility shall pay its proportionate share of the cost of operation and maintenance, including replacement during the design life of the project.

In addition, the RECIPIENT shall regularly evaluate the user-charge system, at least annually, to ensure the system provides adequate revenues necessary to operate and maintain the utility, to establish a reserve to pay for replacement, to establish the required Loan Reserve Account, and to repay the loan.

ECOLOGY reserves the right to audit, or have a designated third party audit, applicable records to ensure that the state has been properly invoiced. Repetitive instances of incorrect invoicing or inadequate records may be considered cause for termination.

All work performed under this Agreement and any property and equipment purchased shall be made available to ECOLOGY and to any authorized state, federal or local representative for inspection at any time during the course of this Agreement and for at least three (3) years following grant or loan termination or dispute resolution hereunder.

RECIPIENT shall provide right of access to ECOLOGY, or any other authorized representative, at all reasonable times, in order to monitor and evaluate performance, compliance, and any other conditions under this Agreement.

RECIPIENT shall refund to ECOLOGY the full amount of any erroneous payment or overpayment under this Agreement.

Any property acquired under this Agreement, at the option of ECOLOGY, may become ECOLOGY’s property and the RECIPIENT’s liability to repay monies will be reduced by an amount reflecting the fair value of such property.

23. SEVERABILITY
If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY’s ability to make payments is contingent on availability of funding. Agreement WQC-2016-Spokane-00028

WATER QUALITY COMBINED FINANCIAL ASSISTANCE AGREEMENT
BETWEEN THE STATE OF WASHINGTON DEPARTMENT OF ECOLOGY

AND

City of Spokane

This is a binding Agreement entered into by and between the State of Washington, Department of Ecology, hereinafter referred to as "ECOLOGY" and City of Spokane, hereinafter referred to as the "RECIPIENT" to carry out with the provided funds activities described herein.

GENERAL INFORMATION

Project Title: Monroe/Lincoln Stormwater Project

Total Cost: $999,000.00
Total Eligible Cost: $999,000.00
Ecology Share: $749,750.00
Recipient Share: $249,250.00
The Effective Date of this Agreement is: 07/01/2015
The Expiration Date of this Agreement is no later than 12/31/2018
Project Type: Stormwater Facility

Project Short Description:
This project will improve water quality in the Spokane River through installation of infiltration basins and drywells along Monroe and Lincoln Streets in the City of Spokane. This project will provide treatment for Total Suspended Solids, Dissolved Copper, and Dissolved Zinc, and will also reduce flows to the Spokane River by increasing stormwater infiltration and providing stormwater detention.

Project Long Description:
Monroe and Lincoln Streets are major arterials that connect downtown Spokane to the South Hill area of Spokane and are a part of the Combined Sewer Overflow (CSO) Basin 24. CSO Basin 24 collects stormwater that discharges to the RECIPIENT’s Riverside Park Water Reclamation Facility (RPWRF). During large or intense rain storms, or during rain on frozen ground events, the CSO Basin 24 overflows to the Spokane River from outfalls near Cedar Street and Water Street.

Green infrastructure will be used to manage stormwater by collecting stormwater runoff in a new pipe and conveying
it to a bioretention area located inside the Monroe Street eastbound on-ramp loop to Interstate 90. The bio-retention area will include an under drain system that will discharge treated stormwater to a series of drywells located downstream. The project will be constructed concurrently with a separate street project located in the area. This combined construction project will cause less disruption to the community.

Additional benefits of the project will be reduced maintenance of the existing on-ramp area with landscaping, increased visibility, and a more inviting entrance to the City.

The project is part of the RECIPIENT’s ongoing commitment to the City of Spokane Integrated Clean Water Plan to remove untreated stormwater discharge to the Spokane River.

**Overall Goal:**
This project will help protect and restore water quality in Washington by reducing stormwater impacts from existing infrastructure and development.

The amount on deposit in the Reserve Account may be applied by the RECIPIENT (1) to make, in part or in full, the final repayment to ECOLOGY of the loan amount or, (2) if not so applied, for any other lawful purpose of the RECIPIENT once the Loan Amount, plus interest and any other amounts owing to ECOLOGY, have been paid in full.

Utility Local Improvement District (ULID) Assessment Collection (if used to secure the repayment of the loan): All ULID Assessments in the ULID shall be paid into the loan Fund and used to pay the principal of and interest on the loan. The ULID Assessments in the ULID may be deposited into the Reserve Account to satisfy a Reserve Requirement if a Reserve Requirement is applicable.

K. Maintenance and Operation of a Funded Utility: The RECIPIENT shall at all times maintain and keep a funded Utility in good repair, working order and condition and also shall at all times operate the Utility and the business in an efficient manner and at a reasonable cost.

Any changes in the RECIPIENT’s financial condition shall be disclosed in writing to ECOLOGY by the RECIPIENT in its request for payment.

P. Sale or Disposition of Utility: The RECIPIENT will not sell, transfer, or otherwise dispose of any of the works, plant, properties, facilities, or other part of the Utility or any real or personal property comprising a part of the Utility unless:

2. The aggregate depreciated cost value of the facilities or property being transferred in any fiscal year comprises no more than three percent of the total assets of the Utility; or

3. The RECIPIENT receives from the transferee an amount equal to an amount which will be in the same proportion to the net amount of Senior Lien Obligations and this LOAN then outstanding (defined as the total amount outstanding less the amount of cash and investments in the bond and loan funds securing such debt) as the Gross Revenue of the Utility from the portion of the Utility sold or disposed of for the preceding year bears to the total Gross Revenue for that period.

4. Expressed written agreement by the DEPARTMENT.

The proceeds of any transfer under this paragraph must be used (1) to redeem promptly, or irrevocably set aside for the redemption of, Senior Lien Obligations and to redeem promptly the loan, and (2) to provide for part of the cost of additions to and betterments and extensions of the Utility.

3. Past Due Payments. The RECIPIENT shall be in default of its obligations under this loan agreement when any loan repayment becomes 60 days past due.

4. Other Cause. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance in full by the RECIPIENT of all of its obligations under this loan agreement. The RECIPIENT shall be in default of its obligations under this loan agreement if, in the opinion of ECOLOGY, the RECIPIENT has unjustifiably failed to perform any obligation required of it by this loan agreement.

Procedures for Termination. If this loan agreement is terminated prior to project completion, ECOLOGY shall provide to the RECIPIENT a written notice of termination at least five working days prior to the effective date of termination (the “Termination Date”). The written notice of termination by the ECOLOGY shall specify the Termination Date and, when applicable, the date by which the RECIPIENT must repay any outstanding balance of the loan and all accrued interest (the “Termination Payment Date”).

Termination and Default Remedies

No Further Payments. On and after the Termination Date, or in the event of a default event, ECOLOGY may, at its sole discretion, withdraw the loan and make no further payments under this agreement.

Repayment Demand. In response to an ECOLOGY initiated termination event, or in response to a loan default event, ECOLOGY may at its sole discretion demand that the RECIPIENT repay the outstanding balance of the Loan Amount and all accrued interest.

Interest after Repayment Demand. From the time that ECOLOGY demands repayment of funds, amounts owed by the RECIPIENT to ECOLOGY shall accrue additional interest at the rate of one percent per month, or fraction thereof.

Accelerate Repayments. In the event of a default, ECOLOGY may, in its sole discretion, declare the principal of and interest on the loan immediately due and payable, subject to the prior lien and charge of any outstanding Senior Lien Obligation upon the Net Revenue. That is, the loan is not subject to acceleration so long as any Senior Lien Obligations are outstanding. Repayments not made immediately upon such acceleration will incur Late Charges.

Late Charges. All amounts due to ECOLOGY and not paid by the RECIPIENT by the Termination Payment Date or after acceleration following a default event, as applicable, shall incur late charges.

Intercept State Funds. In the event of a default event and in accordance with Chapter 90.50A.060 RCW, “Defaults,” any state funds otherwise due to the RECIPIENT may, at ECOLOGY’s sole discretion, be withheld and applied to the repayment of the loan.

Property to ECOLOGY. In the event of a default event and at the option of ECOLOGY, any personal property (equipment) acquired under this agreement may, in ECOLOGY’s sole discretion, become ECOLOGY’s property. In that circumstance, ECOLOGY shall reduce the RECIPIENT’s liability to repay money by an amount reflecting the fair value of such property.

Documents and Materials. If this agreement is terminated, all finished or unfinished documents, data studies, surveys,
drawings, maps, models, photographs, and reports or other materials prepared by the RECIPIENT shall, at the option of ECOLOGY, become ECOLOGY property. The RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Collection and Enforcement Actions. In the event of a default event, the state of Washington reserves the right to take any actions it deems necessary to collect the amounts due, or to become due, or to enforce the performance and observance of any obligation by the RECIPIENT, under this agreement.

Fees and Expenses. In any action to enforce the provisions of this agreement, reasonable fees and expenses of attorneys and other reasonable expenses (including, without limitation, the reasonably allocated costs of legal staff) shall be awarded to the prevailing party as that term is defined in Chapter 4.84.330 RCW.

Notwithstanding ECOLOGY’s exercise of any or all of the termination or default remedies provided in this agreement, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and/or the state of Washington because of any breach of this agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

S. User-Charge System: The RECIPIENT certifies that it has the legal authority to establish and implement a user-charge system and shall adopt a system of user-charges to assure that each user of the utility shall pay its proportionate share of the cost of operation and maintenance, including replacement during the design life of the project.

In addition, the RECIPIENT shall regularly evaluate the user-charge system, at least annually, to ensure the system provides adequate revenues necessary to operate and maintain the utility, to establish a reserve to pay for replacement, to establish the required Loan Reserve Account, and to repay the loan.

If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

b) For Convenience

If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY’s ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this agreement, ECOLOGY, at its sole discretion, may elect to terminate the agreement, in whole or part, or renegotiate the agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions.
If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT’s obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT’s governing body.

GENERAL INFORMATION

Project Title: Trent Avenue Stormwater Retrofit

Total Cost: $253,000.00
Total Eligible Cost: $253,000.00
Ecology Share: $189,750.00
Recipient Share: $63,250.00
The Effective Date of this Agreement is: 07/01/2015
The Expiration Date of this Agreement is no later than 12/31/2018
Project Type: Stormwater Facility

Project Short Description:
This project will improve water quality in the Spokane River through elimination of MS4 storm sewer systems along Trent Avenue and addition of biofiltration swales to capture and treat stormwater. This project will provide treatment for Total Suspended Solids (TSS), Dissolved Copper and Dissolved Zinc, and will also reduce flows to the Spokane River by increasing stormwater infiltration.

Project Long Description:
Trent Avenue is a state highway that is maintained by the RECIPIENT. Currently there are very few, ineffective stormwater inlets, and stormwater either ponds and infiltrates in low points adjacent to the road, or drains to the existing MS4 system. Because Trent Avenue is an arterial road that produces a higher level of pollution, more treatment is required before subsurface or surface discharge.

There are approximately 3.3 acres of impervious surface along Trent Avenue and Langley Avenue. Biofiltration swales will be installed along Trent Avenue and Langley Avenue within the RECIPIENT's right-of-way to capture
and treat the stormwater.

**Overall Goal:**
This project will improve water quality in Washington by reducing stormwater impacts from existing infrastructure and development.

The RECIPIENT shall continue to make semiannual payments based on this agreement until the amendment is effective, at which time the RECIPIENT’s payments shall be made pursuant to the amended agreement.

2. Late Charges. If any amount of the Final Loan Amount or any other amount owed to ECOLOGY pursuant to this agreement remains unpaid after it becomes due and payable, ECOLOGY may assess a late charge. The late charge shall be one percent per month on the past due amount starting on the date the debt becomes past due and until it is paid in full.

3. Repayment Limitations. Repayment of the loan is subject to the following additional limitations, among others: those on defeasance, refinancing and advance refunding, termination, and default and recovery of payments.

4. Prepayment of Loan. So long as ECOLOGY shall hold this loan, the RECIPIENT may prepay the entire unpaid principal balance of and accrued interest on the loan or any portion of the remaining unpaid principal balance of the Loan Amount. Any prepayments on the loan shall be applied first to any accrued interest due and then to the outstanding principal balance of the Loan Amount. If the RECIPIENT elects to prepay the entire remaining unpaid
balance and accrued interest, the RECIPIENT shall first contact ECOLOGY’s Revenue/Receivable Manager of the Fiscal Office.

J. Loan Security

Due Regard: For loans secured with a Revenue Obligation: The RECIPIENT shall exercise due regard for Maintenance and Operation Expense and the debt service requirements of the Senior Lien Obligations and any other outstanding obligations pledging the Gross Revenue of the Utility, and it has not obligated itself to set aside and pay into the loan Fund a greater amount of the Gross Revenue of the Utility than, in its judgment, shall be available over and above such Maintenance and Operation Expense and those debt service requirements.

Levy and Collection of Taxes (if used to secure the repayment of the loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of its electors on all of the taxable property within the boundaries of the RECIPIENT in an amount sufficient, together with other money legally available and to be used therefore, to pay when due the principal of and interest on the loan, and the full faith, credit and resources of the RECIPIENT are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Not an Excess Indebtedness: For loans secured with a general obligation pledge or a general obligation pledge on special assessments: The RECIPIENT agrees that this agreement and the loan to be made do not create an indebtedness of the RECIPIENT in excess of any constitutional or statutory limitations.

Pledge of Net Revenue and ULID Assessments in the ULID (if used to secure the repayment of this loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges the Net Revenue of the Utility, including applicable ULID Assessments in the ULID, to pay when due the principal of and interest on the loan.

Reserve Requirement: For loans that are Revenue-Secured Debt with terms greater than five years, the RECIPIENT must accumulate a reserve for the loan equivalent to at least the Average Annual Debt Service on the loan during the first five years of the repayment period of the loan. This amount shall be deposited in a Reserve Account in the Loan Fund in approximately equal annual payments commencing within one year after the initiation of operation or the project completion date, whichever comes first.

"Reserve Account" means, for a loan that constitutes Revenue-Secured Debt, an account of that name created in the Loan Fund to secure the payment of the principal and interest on the loan. The amount on deposit in the Reserve Account may be applied by the RECIPIENT (1) to make, in part or in full, the final repayment to ECOLOGY of the loan amount or, (2) if not so applied, for any other lawful purpose of the RECIPIENT once the Loan Amount, plus interest and any other amounts owing to ECOLOGY, have been paid in full.

Utility Local Improvement District (ULID) Assessment Collection (if used to secure the repayment of the loan): All ULID Assessments in the ULID shall be paid into the loan Fund and used to pay the principal of and interest on the loan. The ULID Assessments in the ULID may be deposited into the Reserve Account to satisfy a Reserve Requirement if a Reserve Requirement is applicable.

K. Maintenance and Operation of a Funded Utility: The RECIPIENT shall at all times maintain and keep a funded Utility in good repair, working order and condition and also shall at all times operate the Utility and the business in an efficient manner and at a reasonable cost.

L. Opinion of RECIPIENT’s Legal Counsel: The RECIPIENT must submit an “Opinion of Legal Counsel to the RECIPIENT” to ECOLOGY before this agreement shall be signed. ECOLOGY will provide the form.
M. Prevailing Wage (Davis-Bacon Act): The RECIPIENT agrees, by signing this agreement, to comply with the Davis-Bacon Act prevailing wage requirements. This applies to the construction, alteration, and repair of treatment works carried out in whole or in part with assistance made available by the State Revolving Fund as authorized by Section 513, title VI of the Federal Water Pollution Control Act (33 U.S.C. 1372). Laborers and mechanics employed by contractors and subcontractors shall be paid wages not less often than once a week and at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor.

The RECIPIENT shall obtain the wage determination for the area in which the project is located prior to issuing requests for bids, proposals, quotes or other methods for soliciting contracts (solicitation). These wage determinations shall be incorporated into solicitations and any subsequent contracts. The RECIPIENT shall ensure that the required EPA contract language regarding Davis-Bacon Wages is in all contracts and sub contracts in excess of $2,000. The RECIPIENT shall maintain records sufficient to document compliance with the Davis-Bacon Act, and make such records available for review upon request.

The RECIPIENT also agrees, by signing this agreement, to comply with State Prevailing Wages on Public Works, Chapter 39.12 RCW, as applicable. Compliance may include the determination whether the project involves “public work” and inclusion of the applicable prevailing wage rates in the bid specifications and contracts. The RECIPIENT agrees to maintain records sufficient to evidence compliance with Chapter 39.12 RCW, and make such records available for review upon request.

N. Litigation; Authority: No litigation is now pending, or to the RECIPIENT’s knowledge, threatened, seeking to restrain, or enjoin:

(i) the execution of this agreement; or

(ii) the fixing or collection of the revenues, rates, and charges or the formation of the ULID and the levy and collection of ULID Assessments therein pledged to pay the principal of and interest on the loan (for revenue secured lien obligations); or

(iii) the levy and collection of the taxes pledged to pay the principal of and interest on the loan (for general obligation-secured loans and general obligation payable from special-assessment-secured loans); or

(iv) in any manner questioning the proceedings and authority under which the agreement, the loan, or the project are authorized. Neither the corporate existence or boundaries of the RECIPIENT nor the title of its present officers to their respective offices is being contested. No authority or proceeding for the execution of this agreement has been repealed, revoked, or rescinded.

O. Representations and Warranties: The RECIPIENT represents and warrants to ECOLOGY as follows:

Application: Material Information. All information and materials submitted by the RECIPIENT to ECOLOGY in connection with its loan application were, when made, and are, as of the date the RECIPIENT signs this agreement, true and correct. There is no material adverse information relating to the RECIPIENT, the project, the loan, or this agreement known to the RECIPIENT which has not been disclosed in writing to ECOLOGY.

Existence; Authority. It is a duly formed and legally existing municipal corporation or political subdivision of the state of Washington or a federally recognized Indian Tribe. It has full corporate power and authority to execute, deliver, and perform all of its obligations under this agreement and to undertake the project identified herein.
Certification. Each payment request shall constitute a certification by the RECIPIENT to the effect that all representations and warranties made in this loan agreement remain true as of the date of the request and that no adverse developments, affecting the financial condition of the RECIPIENT or its ability to complete the project or to repay the principal of or interest on the loan, have occurred since the date of this loan agreement. Any changes in the RECIPIENT's financial condition shall be disclosed in writing to ECOLOGY by the RECIPIENT in its request for payment.

P. Sale or Disposition of Utility: The RECIPIENT will not sell, transfer, or otherwise dispose of any of the works, plant, properties, facilities, or other part of the Utility or any real or personal property comprising a part of the Utility unless:

1. The facilities or property transferred are not material to the operation of the Utility, or have become unserviceable, inadequate, obsolete, or unfit to be used in the operation of the Utility or are no longer necessary, material, or useful to the operation of the Utility; or

2. The aggregate depreciated cost value of the facilities or property being transferred in any fiscal year comprises no more than three percent of the total assets of the Utility; or

3. The RECIPIENT receives from the transferee an amount equal to an amount which will be in the same proportion to the net amount of Senior Lien Obligations and this LOAN then outstanding (defined as the total amount outstanding less the amount of cash and investments in the bond and loan funds securing such debt) as the Gross Revenue of the Utility from the portion of the Utility sold or disposed of for the preceding year bears to the total Gross Revenue for that period.

4. Expressed written agreement by the DEPARTMENT.

The proceeds of any transfer under this paragraph must be used (1) to redeem promptly, or irrevocably set aside for the redemption of, Senior Lien Obligations and to redeem promptly the loan, and (2) to provide for part of the cost of additions to and betterments and extensions of the Utility.

Q. Sewer-Use Ordinance or Resolution: If not already in existence, the RECIPIENT shall adopt and shall enforce a sewer-use ordinance or resolution. Such ordinance or resolution shall be submitted to ECOLOGY upon request.

The sewer use ordinance must include provisions to:

3. Past Due Payments. The RECIPIENT shall be in default of its obligations under this loan agreement when any loan repayment becomes 60 days past due.

4. Other Cause. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance in full by the RECIPIENT of all of its obligations under this loan agreement. The RECIPIENT shall be in default of its obligations under this loan agreement if, in the opinion of ECOLOGY, the RECIPIENT has unjustifiably failed to perform any obligation required of it by this loan agreement.

Procedures for Termination. If this loan agreement is terminated prior to project completion, ECOLOGY shall provide to the RECIPIENT a written notice of termination at least five working days prior to the effective date of termination (the “Termination Date”). The written notice of termination by the ECOLOGY shall specify the Termination Date and, when applicable, the date by which the RECIPIENT must repay any outstanding balance of the loan and all accrued interest (the “Termination Payment Date”).

Termination and Default Remedies

No Further Payments. On and after the Termination Date, or in the event of a default event, ECOLOGY may, at its sole discretion, withdraw the loan and make no further payments under this agreement.

Repayment Demand. In response to an ECOLOGY initiated termination event, or in response to a loan default event, ECOLOGY may at its sole discretion demand that the RECIPIENT repay the outstanding balance of the Loan Amount and all accrued interest.

Interest after Repayment Demand. From the time that ECOLOGY demands repayment of funds, amounts owed by the RECIPIENT to ECOLOGY shall accrue additional interest at the rate of one percent per month, or fraction thereof.

Accelerate Repayments. In the event of a default, ECOLOGY may, in its sole discretion, declare the principal of and interest on the loan immediately due and payable, subject to the prior lien and charge of any outstanding Senior Lien Obligation upon the Net Revenue. That is, the loan is not subject to acceleration so long as any Senior Lien Obligations are outstanding. Repayments not made immediately upon such acceleration will incur Late Charges.

Late Charges. All amounts due to ECOLOGY and not paid by the RECIPIENT by the Termination Payment Date or after acceleration following a default event, as applicable, shall incur late charges.

Intercept State Funds. In the event of a default event and in accordance with Chapter 90.50A.060 RCW, “Defaults,” any state funds otherwise due to the RECIPIENT may, at ECOLOGY’s sole discretion, be withheld and applied to the repayment of the loan.

Property to ECOLOGY. In the event of a default event and at the option of ECOLOGY, any personal property (equipment) acquired under this agreement may, in ECOLOGY’s sole discretion, become ECOLOGY’s property. In that circumstance, ECOLOGY shall reduce the RECIPIENT’s liability to repay money by an amount reflecting the fair value of such property.

Documents and Materials. If this agreement is terminated, all finished or unfinished documents, data studies, surveys,
drawings, maps, models, photographs, and reports or other materials prepared by the RECIPIENT shall, at the option of ECOLOGY, become ECOLOGY property. The RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Collection and Enforcement Actions. In the event of a default event, the state of Washington reserves the right to take any actions it deems necessary to collect the amounts due, or to become due, or to enforce the performance and observance of any obligation by the RECIPIENT, under this agreement.

Fees and Expenses. In any action to enforce the provisions of this agreement, reasonable fees and expenses of attorneys and other reasonable expenses (including, without limitation, the reasonably allocated costs of legal staff) shall be awarded to the prevailing party as that term is defined in Chapter 4.84.330 RCW.

Damages. Notwithstanding ECOLOGY's exercise of any or all of the termination or default remedies provided in this agreement, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and/or the state of Washington because of any breach of this agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

S. User-Charge System: The RECIPIENT certifies that it has the legal authority to establish and implement a user-charge system and shall adopt a system of user-charges to assure that each user of the utility shall pay its proportionate share of the cost of operation and maintenance, including replacement during the design life of the project.

In addition, the RECIPIENT shall regularly evaluate the user-charge system, at least annually, to ensure the system provides adequate revenues necessary to operate and maintain the utility, to establish a reserve to pay for replacement, to establish the required Loan Reserve Account, and to repay the loan.

If said property is lost, stolen, or damaged while in the RECIPIENT's possession, then ECOLOGY shall be reimbursed in cash or by setoff to the RECIPIENT for the fair market value of such property.

f) Acquisition Projects. The following provisions shall apply if the project covered by this Agreement includes funds for the acquisition of land or facilities:

a. RECIPIENT shall establish that the cost is fair value and reasonable prior to disbursement of funds provided for in this Agreement.

b. RECIPIENT shall provide satisfactory evidence of title or ability to acquire title for each parcel prior to disbursement of funds provided by this Agreement. Such evidence may include title insurance policies, Torrens certificates, or abstracts, and attorney's opinions establishing that the land is free from any impediment, lien, or claim which would impair the uses intended by this Agreement.

g) Conversions. Regardless of the agreement expiration date, the RECIPIENT shall not at any time convert any equipment, property, or facility acquired or developed under this Agreement to uses other than those for which assistance was originally approved without prior written approval of ECOLOGY. Such approval may be conditioned upon payment to ECOLOGY of that portion of the proceeds of the sale, lease, or other conversion or encumbrance which monies granted pursuant to this Agreement bear to the total acquisition, purchase, or construction costs of such property.

21. RECORDS, AUDITS, AND INSPECTIONS

RECIPIENT shall maintain complete program and financial records relating to this Agreement, including any engineering documentation and field inspection reports of all construction work accomplished.

All records shall:

a) Be kept in a manner which provides an audit trail for all expenditures.
b) Be kept in a common file to facilitate audits and inspections.

c) Clearly indicate total receipts and expenditures related to this Agreement.

d) Be open for audit or inspection by ECOLOGY, or by any duly authorized audit representative of the State of Washington, for a period of at least three (3) years after the final grant payment or loan repayment, or any dispute resolution hereunder.

RECIPIENT shall provide clarification and make necessary adjustments if any audits or inspections identify discrepancies in the records.

ECOLOGY reserves the right to audit, or have a designated third party audit, applicable records to ensure that the state has been properly invoiced. Any remedies and penalties allowed by law to recover monies determined owed will be enforced. Repetitive instances of incorrect invoicing or inadequate records may be considered cause for termination.

All work performed under this Agreement and any property and equipment purchased shall be made available to ECOLOGY and to any authorized state, federal or local representative for inspection at any time during the course of this Agreement and for at least three (3) years following grant or loan termination or dispute resolution hereunder.

RECIPIENT shall provide right of access to ECOLOGY, or any other authorized representative, at all reasonable times, in order to monitor and evaluate performance, compliance, and any other conditions under this Agreement.

22. RECOVERY OF FUNDS

The right of the RECIPIENT to retain monies received as reimbursement payments is contingent upon satisfactory performance of this Agreement and completion of the work described in the Scope of Work.

All payments to the RECIPIENT are subject to approval and audit by ECOLOGY, and any unauthorized expenditure(s) or unallowable cost charged to this agreement shall be refunded to ECOLOGY by the RECIPIENT.

RECIPIENT shall refund to ECOLOGY the full amount of any erroneous payment or overpayment under this Agreement.

RECIPIENT shall refund by check payable to ECOLOGY the amount of any such reduction of payments or repayments within thirty (30) days of a written notice. Interest will accrue at the rate of twelve percent (12%) per year from the time ECOLOGY demands repayment of funds.

Any property acquired under this Agreement, at the option of ECOLOGY, may become ECOLOGY’s property and the RECIPIENT’s liability to repay monies will be reduced by an amount reflecting the fair value of such property.

23. SEVERABILITY

If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

24. STATE ENVIRONMENTAL POLICY ACT (SEPA)

RECIPIENT must demonstrate to ECOLOGY’s satisfaction that compliance with the requirements of the State Environmental Policy Act (Chapter 43.21C RCW and Chapter 197-11 WAC) have been or will be met. Any reimbursements are subject to this provision.

25. SUSPENSION

When in the best interest of ECOLOGY, ECOLOGY may at any time, and without cause, suspend this Agreement or
any portion thereof for a temporary period by written notice from ECOLOGY to the RECIPIENT. RECIPIENT shall resume performance on the next business day following the suspension period unless another day is specified by ECOLOGY.

26. SUSTAINABLE PRACTICES
In order to sustain Washington’s natural resources and ecosystems, the RECIPIENT is fully encouraged to implement sustainable practices and to purchase environmentally preferable products under this Agreement.

a) Sustainable practices may include such activities as: use of clean energy, use of double-sided printing, hosting low impact meetings, and setting up recycling and composting programs.

b) Purchasing may include such items as: sustainably produced products and services, EPEAT registered computers and imaging equipment, independently certified green cleaning products, remanufactured toner cartridges, products with reduced packaging, office products that are refillable, rechargeable, and recyclable, and 100% post-consumer recycled paper.

27. TERMINATION
a) For Cause
ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

b) For Convenience
ECOLOGY may terminate for convenience this Agreement, in whole or in part, for any reason when it is the best interest of ECOLOGY, with a thirty (30) calendar days prior written notification to the RECIPIENT. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY’s ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this agreement, ECOLOGY, at its sole discretion, may elect to terminate the agreement, in whole or part, or renegotiate the agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions.

WQC-2016-Spokan-00030
If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT’s obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT’s governing body.

c) By Mutual Agreement
ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

d) In Event of Termination
All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.
Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

28. THIRD PARTY BENEFICIARY
RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such.

29. WAIVER
Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.

Project Short Description:
This project will improve water quality in the Spokane River through installation of bioretention facilities and pervious pavement parking areas in the East Sprague stormwater basin in the City of Spokane. This project will provide treatment for Total Suspended Solids (TSS), Dissolved Copper, and Dissolved Zinc and will also reduce stormwater flow to the Spokane River by increasing stormwater infiltration.

Project Long Description:
East Sprague Avenue in the City of Spokane is one of the largest commercial areas outside of downtown. The development of East Sprague occurred in the late 1890s and was the first area outside downtown to be urbanized. Stormwater was originally combined with sanitary sewage and then discharged directly to the Spokane River. After the RECIPIENT's treatment plant was constructed in 1958, this combined sewer was conveyed to the treatment plant. While combined sewer is normally treated at the RECIPIENT'S treatment plant, a regulator is installed to allow combined sewage to overflow into the Spokane River during large storms or rain on frozen ground conditions.
This project will reduce these overflow events by reducing the amount of stormwater that flows to the existing system by installing bioretention cells and pervious pavement. This project will be constructed concurrently with the Sprague Avenue Rebuild pavement project, which is scheduled for construction beginning in 2016. The Sprague Avenue project will repave Sprague Avenue to the same width (48 feet) as it is today, but will reduce the travel lanes from four to two and will not require the installation of stormwater controls under the NPDES Phase II Stormwater Permit.

The two projects will be bid and constructed at the same time to reduce the overall cost to both projects, but funded from different sources.

Overall Goal:
This project will help protect and restore water quality in Washington by reducing stormwater impacts from existing infrastructure and development.

Current Fair Share Objective/Goal - The dollar amount of this assistance agreement is over $250,000; or the total dollar amount of all of the RECIPIENT's non-TAG assistance agreements from EPA in the current fiscal year is over $250,000. The Washington State Department of Ecology has negotiated the following, applicable MBE/WBE fair share objectives/goals with EPA as follows:

MBE: SUPPLIES 8.00%; SERVICES 10.00%; EQUIPMENT 8.00%; CONSTRUCTION 10.00%

Sources of Loan Repayment

1. Nature of RECIPIENT’s Obligation. The obligation of the RECIPIENT to repay the loan from the sources identified below and to perform and observe all of the other agreements and obligations on its part contained herein shall be absolute and unconditional, and shall not be subject to diminution by setoff, counterclaim, or abatement of any kind. This loan is a General Obligation Debt of the RECIPIENT payable from special assessments to be imposed within the constitutional and statutory tax limitations provided by law without a vote of the electors of the RECIPIENT on all of the taxable property within the boundaries of the RECIPIENT.

4. For Revenue-Secured: Lien Position. This loan is a Revenue-Secured Debt of the RECIPIENT’s Utility. This loan shall constitute a lien and charge upon the Net Revenue junior and subordinate to the lien and charge upon such Net Revenue of any Senior Lien Obligations.

In addition, if this loan is also secured by Utility Local Improvement Districts (ULID) Assessments, this loan shall constitute a lien upon ULID Assessments in the ULID prior and superior to any other charges whatsoever.

5. Other Sources of Repayment. The RECIPIENT may repay any portion of the loan from any funds legally available to it.

6. Defeasance of the Loan. So long as ECOLOGY shall hold this loan, the RECIPIENT shall not be entitled to, and shall not affect, an economic Defeasance of the loan. The RECIPIENT shall not advance refund the loan.

Failure to repay the Loan Amount plus interest within the time specified in ECOLOGY’s notice to make such repayment shall incur Late Charges and shall be treated as a Loan Default.

7. Refinancing or Early Repayment of the Project. So long as ECOLOGY shall hold this loan, the RECIPIENT shall give ECOLOGY thirty days written notice if the RECIPIENT intends to refinance or make early repayment of the loan.

Method and Conditions on Repayments

1. Semiannual Payments. Notwithstanding any other provision of this agreement, the first semiannual payment of principal and interest on this loan shall be due and payable no later than one year after the project completion date or initiation of operation date, whichever comes first.

Thereafter, equal payments shall be due every six months.

If the due date for any semiannual payment falls on a Saturday, Sunday, or designated holiday for Washington State agencies, the payment shall be due on the next business day for Washington State agencies.

Payments shall be mailed to:

Department of Ecology

In lieu of mailing payments, electronic fund transfers can be arranged by working with ECOLOGY’s Financial Manager.

No change to the amount of the semiannual principal and interest payments shall be made without a formal amendment to this agreement. The RECIPIENT shall continue to make semiannual payments based on this agreement until the amendment is effective, at which time the RECIPIENT’s payments shall be made pursuant to the amended agreement.

2. Late Charges. If any amount of the Final Loan Amount or any other amount owed to ECOLOGY pursuant to this agreement remains unpaid after it becomes due and payable, ECOLOGY may assess a late charge. The late charge shall be one percent per month on the past due amount starting on the date the debt becomes past due and until it is paid in full.

3. Repayment Limitations. Repayment of the loan is subject to the following additional limitations, among others: those on defeasance, refinancing and advance refunding, termination, and default and recovery of payments.

So long as ECOLOGY shall hold this loan, the RECIPIENT may prepay the entire unpaid principal balance of and accrued interest on the loan or any portion of the remaining unpaid principal balance of the Loan Amount. Any prepayments on the loan shall be applied first to any accrued interest due and then to the outstanding principal balance of the Loan Amount. If the RECIPIENT elects to prepay the entire remaining unpaid

J. Loan Security

Due Regard: For loans secured with a Revenue Obligation: The RECIPIENT shall exercise due regard for Maintenance and Operation Expense and the debt service requirements of the Senior Lien Obligations and any other outstanding obligations pledging the Gross Revenue of the Utility, and it has not obligated itself to set aside and pay into the loan Fund a greater amount of the Gross Revenue of the Utility than, in its judgment, shall be available over and above such Maintenance and Operation Expense and those debt service requirements.

Levy and Collection of Taxes (if used to secure the repayment of the loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of its electors on all of the taxable property within the boundaries of the RECIPIENT in an amount sufficient, together with other money legally available and to be used therefore, to pay when due the principal of and interest on the loan, and the full faith, credit and resources of the RECIPIENT are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Not an Excess Indebtedness: For loans secured with a general obligation pledge or a general obligation pledge on special assessments: The RECIPIENT agrees that this agreement and the loan to be made do not create an indebtedness of the RECIPIENT in excess of any constitutional or statutory limitations.

Pledge of Net Revenue and ULID Assessments in the ULID (if used to secure the repayment of this loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges the Net Revenue of the Utility, including applicable ULID Assessments in the ULID, to pay when due the principal of and interest on the loan.

Reserve Requirement: For loans that are Revenue-Secured Debt with terms greater than five years, the RECIPIENT must accumulate a reserve for the loan equivalent to at least the Average Annual Debt Service on the loan during the first five years of the repayment period of the loan. This amount shall be deposited in a Reserve Account in the Loan Fund in approximately equal annual payments commencing within one year after the initiation of operation or the project completion date, whichever comes first.

“Reserve Account” means, for a loan that constitutes Revenue-Secured Debt, an account of that name created in the Loan Fund to secure the payment of the principal and interest on the loan. The amount on deposit in the Reserve Account may be applied by the RECIPIENT (1) to make, in part or in full, the final repayment to ECOLOGY of the loan amount or, (2) if not so applied, for any other lawful purpose of the RECIPIENT once the Loan Amount, plus interest and any other amounts owing to ECOLOGY, have been paid in full.

Utility Local Improvement District (ULID) Assessment Collection (if used to secure the repayment of the loan): All ULID Assessments in the ULID shall be paid into the Loan Fund and used to pay the principal of and interest on the loan. The ULID Assessments in the ULID may be deposited into the Reserve Account to satisfy a Reserve Requirement if a Reserve Requirement is applicable.

K. Maintenance and Operation of a Funded Utility: The RECIPIENT shall at all times maintain and keep a funded Utility in good repair, working order and condition and also shall at all times operate the Utility and the business in an efficient manner and at a reasonable cost.

This applies to the construction, alteration, and repair of treatment works carried out in whole or in part with assistance made available by the State Revolving Fund as authorized by Section 513, title VI of the Federal Water Pollution Control Act (33 U.S.C. 1372). Laborers and mechanics employed by contractors and subcontractors shall be paid wages not less than once a week and at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor.

The RECIPIENT shall obtain the wage determination for the area in which the project is located prior to issuing requests for bids, proposals, quotes or other methods for soliciting contracts (solicitation). These wage determinations shall be incorporated into solicitations and any subsequent contracts. The RECIPIENT shall ensure that the required EPA contract language regarding Davis-Bacon Wages is in all contracts and subcontracts in excess of $2,000. The RECIPIENT shall maintain records sufficient to document compliance with the Davis-Bacon Act, and make such records available for review upon request.

The RECIPIENT also agrees, by signing this agreement, to comply with State Prevailing Wages on Public Works, Chapter 39.12 RCW, as applicable. Compliance may include the determination whether the project involves “public work” and inclusion of the applicable prevailing wage rates in the bid specifications and contracts. The RECIPIENT agrees to maintain records sufficient to evidence compliance with Chapter 39.12 RCW, and make such records available for review upon request.

Any changes in the RECIPIENT’s financial condition shall be disclosed in writing to ECOLOGY by the RECIPIENT in its request for payment.

P. Sale or Disposition of Utility: The RECIPIENT will not sell, transfer, or otherwise dispose of any of the works, plant, properties, facilities, or other part of the Utility or any real or personal property comprising a part of the Utility unless:

1. The facilities or property transferred are not material to the operation of the Utility, or have become unserviceable, inadequate, obsolete, or unfit to be used in the operation of the Utility or are no longer necessary, material, or useful to the operation of the Utility; or

2. The aggregate depreciated cost value of the facilities or property being transferred in any fiscal year comprises no more than three percent of the total assets of the Utility; or

3. The RECIPIENT receives from the transeree an amount equal to an amount which will be in the same proportion to the net amount of Senior Lien Obligations and this LOAN then outstanding (defined as the total amount outstanding less the amount of cash and investments in the bond and loan funds securing such debt) as the Gross Revenue of the Utility from the portion of the Utility sold or disposed of for the preceding year bears to the total Gross Revenue for that period.

4. Expressed written agreement by the DEPARTMENT.

The proceeds of any transfer under this paragraph must be used (1) to redeem promptly, or irrevocably set aside for the redemption of, Senior Lien Obligations and to redeem promptly the loan, and (2) to provide for part of the cost of additions to and betterments and extensions of the Utility.

3. Past Due Payments. The RECIPIENT shall be in default of its obligations under this loan agreement when any loan repayment becomes 60 days past due.

4. Other Cause. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance in full by the RECIPIENT of all of its obligations under this loan agreement. The RECIPIENT shall be in default of its obligations under this loan agreement if, in the opinion of ECOLOGY, the RECIPIENT has unjustifiably failed to perform any obligation required of it by this loan agreement.

Interest after Repayment Demand. From the time that ECOLOGY demands repayment of funds, amounts owed by the RECIPIENT to ECOLOGY shall accrue additional interest at the rate of one percent per month, or fraction thereof.

Accelerate Repayments. In the event of a default, ECOLOGY may, in its sole discretion, declare the principal of and interest on the loan immediately due and payable, subject to the prior lien and charge of any outstanding Senior Lien Obligation upon the Net Revenue. That is, the loan is not subject to acceleration so long as any Senior Lien Obligations are outstanding. Repayments not made immediately upon such acceleration will incur Late Charges.

Late Charges. All amounts due to ECOLOGY and not paid by the RECIPIENT by the Termination Payment Date or after acceleration following a default event, as applicable, shall incur late charges.

Intercept State Funds. In the event of a default event and in accordance with Chapter 90.50A.060 RCW, "Defaults," any state funds otherwise due to the RECIPIENT may, at ECOLOGY's sole discretion, be withheld and applied to the repayment of the loan.

Property to ECOLOGY. In the event of a default event and at the option of ECOLOGY, any personal property (equipment) acquired under this agreement may, in ECOLOGY's sole discretion, become ECOLOGY's property. In that circumstance, ECOLOGY shall reduce the RECIPIENT's liability to repay money by an amount reflecting the fair value of such property.

Documents and Materials. If this agreement is terminated, all finished or unfinished documents, data studies, surveys,
drawings, maps, models, photographs, and reports or other materials prepared by the RECIPIENT shall, at the option of ECOLOGY, become ECOLOGY property. The RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

S. User-Charge System: The RECIPIENT certifies that it has the legal authority to establish and implement a user-charge system and shall adopt a system of user-charges to assure that each user of the utility shall pay its proportionate share of the cost of operation and maintenance, including replacement during the design life of the project.

In addition, the RECIPIENT shall regularly evaluate the user-charge system, at least annually, to ensure the system provides adequate revenues necessary to operate and maintain the utility, to establish a reserve to pay for replacement, to establish the required Loan Reserve Account, and to repay the loan.

b) Divide the total requirements, when economically feasible, into smaller tasks or quantities, to permit maximum participation by qualified minority and women’s businesses.
c) Establish delivery schedules, where work requirements permit, which will encourage participation of qualified minority and women’s businesses.
d) Use the services and assistance of the Washington State Office of Minority and Women’s Business Enterprises (OMWBE) (866-208-1064) and the Office of Minority Business Enterprises of the U.S. Department of Commerce, as appropriate.

17. ORDER OF PRECEDENCE

a) Provide a draft copy to ECOLOGY for review and approval ten (10) business days prior to production and distribution of any documents or materials compiled or produced.
b) ECOLOGY reviews draft copy and reserves the right to require changes until satisfied.
c) Provide ECOLOGY two (2) final copies and an electronic copy of any tangible products developed.

Copies include any printed materials, and all tangible products developed such as brochures, manuals, pamphlets, videos, audio tapes, CDs, curriculum, posters, media announcements, or gadgets, such as a refrigerator magnet with a message as well as media announcements, and any other online communication products such as Web pages, blogs, and Twitter campaigns. If it is not practical to provide a copy, then the RECIPIENT must provide a complete description including photographs, drawings, or printouts of the product that best represents the item.

RECIPIENT shall include time in their project timeline for ECOLOGY’s review and approval process.

RECIPIENT shall acknowledge in the materials or documents that funding was provided by ECOLOGY.

19. PROGRESS REPORTING
a) RECIPIENT must satisfactorily demonstrate the timely use of funds by submitting payment requests and progress reports to ECOLOGY. ECOLOGY reserves the right to amend or terminate this Agreement if the RECIPIENT does not
document timely use of funds.

b) RECIPENT must submit a progress report with each payment request. Payment requests will not be processed without a progress report. ECOLOGY will define the elements and frequency of progress reports.

e) RECIPENT shall submit the Closeout Report within thirty (30) days of the expiration date of the project, unless an extension has been approved by ECOLOGY. RECIPENT shall use the ECOLOGY provided closeout report format.

20. PROPERTY RIGHTS

a) Copyrights and Patents. When the RECIPENT creates any copyrightable materials or invents any patentable property, the RECIPENT may copyright or patent the same but ECOLOGY retains a royalty free, nonexclusive, and irrevocable license to reproduce, publish, recover, or otherwise use the material(s) or property, and to authorize others to use the same for federal, state, or local government purposes.

b) Publications. When the RECIPENT or persons employed by the RECIPENT use or publish ECOLOGY information; present papers, lectures, or seminars involving information supplied by ECOLOGY; or use logos, reports, maps, or other data in printed reports, signs, brochures, pamphlets, etc., appropriate credit shall be given to ECOLOGY.

ECOLOGY shall have the right to use or reproduce any printed or graphic materials produced in fulfillment of this Agreement, in any manner ECOLOGY deems appropriate. ECOLOGY shall acknowledge the RECIPENT as the sole copyright owner in every use or reproduction of the materials.

d) Tangible Property Rights. ECOLOGY’s current edition of "Administrative Requirements for Recipients of Ecology Grants and Loans," shall control the use and disposition of all real and personal property purchased wholly or in part with funds furnished by ECOLOGY in the absence of state and federal statutes, regulations, or policies to the contrary, or upon specific instructions with respect thereto in this Agreement.

e) Personal Property Furnished by ECOLOGY. When ECOLOGY provides personal property directly to the RECIPENT for use in performance of the project, it shall be returned to ECOLOGY prior to final payment by ECOLOGY. If said property is lost, stolen, or damaged while in the RECIPENT’s possession, then ECOLOGY shall be reimbursed in cash or by setoff by the RECIPENT for the fair market value of such property.

f) Acquisition Projects. The following provisions shall apply if the project covered by this Agreement includes funds for the acquisition of land or facilities:

a. RECIPENT shall establish that the cost is fair value and reasonable prior to disbursement of funds provided for in this Agreement.

b. RECIPENT shall provide satisfactory evidence of title or ability to acquire title for each parcel prior to disbursement of funds provided by this Agreement. Such evidence may include title insurance policies, Torrens certificates, or abstracts, and attorney’s opinions establishing that the land is free from any impediment, lien, or claim which would impair the uses intended by this Agreement.

g) Conversions. Regardless of the agreement expiration date, the RECIPENT shall not at any time convert any equipment, property, or facility acquired or developed under this Agreement to uses other than those for which assistance was originally approved without prior written approval of ECOLOGY. Such approval may be conditioned upon payment to ECOLOGY of that portion of the proceeds of the sale, lease, or other conversion or encumbrance which monies granted pursuant to this Agreement bear to the total acquisition, purchase, or construction costs of such property.

21. RECORDS, AUDITS, AND INSPECTIONS

RECIPENT shall maintain complete program and financial records relating to this Agreement, including any engineering documentation and field inspection reports of all construction work accomplished.

All records shall:

ECOLOGY reserves the right to audit, or have a designated third party audit, applicable records to ensure that the state has been properly invoiced. Any remedies and penalties allowed by law to recover monies determined owed will be enforced. Repetitive instances of incorrect invoicing or inadequate records may be considered cause for termination.

All work performed under this Agreement and any property and equipment purchased shall be made available to ECOLOGY and to any authorized state, federal or local representative for inspection at any time during the course of this Agreement and for at least three (3) years following grant or loan termination or dispute resolution hereunder.

RECIPIENT shall provide right of access to ECOLOGY, or any other authorized representative, at all reasonable times, in order to monitor and evaluate performance, compliance, and any other conditions under this Agreement.

22. RECOVERY OF FUNDS
The right of the RECIPIENT to retain monies received as reimbursement payments is contingent upon satisfactory performance of this Agreement and completion of the work described in the Scope of Work.

RECIPIENT shall refund to ECOLOGY the full amount of any erroneous payment or overpayment under this Agreement.

RECIPIENT shall refund by check payable to ECOLOGY the amount of any such reduction of payments or repayments within thirty (30) days of a written notice. Interest will accrue at the rate of twelve percent (12%) per year from the time ECOLOGY demands repayment of funds.

Any property acquired under this Agreement, at the option of ECOLOGY, may become ECOLOGY's property and the RECIPIENT's liability to repay monies will be reduced by an amount reflecting the fair value of such property.

23. SEVERABILITY
If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

24. STATE ENVIRONMENTAL POLICY ACT (SEPA)
RECIPIENT must demonstrate to ECOLOGY's satisfaction that compliance with the requirements of the State Environmental Policy Act (Chapter 43.21C RCW and Chapter 197-11 WAC) have been or will be met. Any reimbursements are subject to this provision.

When in the best interest of ECOLOGY, ECOLOGY may at any time, and without cause, suspend this Agreement or
any portion thereof for a temporary period by written notice from ECOLOGY to the RECIPIENT. RECIPIENT shall resume performance on the next business day following the suspension period unless another day is specified by ECOLOGY.

26. SUSTAINABLE PRACTICES
In order to sustain Washington’s natural resources and ecosystems, the RECIPIENT is fully encouraged to implement sustainable practices and to purchase environmentally preferable products under this Agreement.

a) Sustainable practices may include such activities as: use of clean energy, use of double-sided printing, hosting low impact meetings, and setting up recycling and composting programs.

b) Purchasing may include such items as: sustainably produced products and services, EPEAT registered computers and imaging equipment, independently certified green cleaning products, remanufactured toner cartridges, products with reduced packaging, office products that are refillable, rechargeable, and recyclable, and 100% post-consumer recycled paper.

27. TERMINATION

a) For Cause
ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

b) For Convenience
ECOLOGY may terminate for convenience this Agreement, in whole or in part, for any reason when it is the best interest of ECOLOGY, with a thirty (30) calendar days prior written notification to the RECIPIENT. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY’s ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this agreement, ECOLOGY, at its sole discretion, may elect to terminate the agreement, in whole or part, or renegotiate the agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions.

WQC-2016-Spokan-00031
If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT’s obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT’s governing body.

c) By Mutual Agreement
ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

d) In Event of Termination
All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.
Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

28. THIRD PARTY BENEFICIARY
RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such.

29. WAIVER
Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.
Agreement WQC-2016-Spokan-00032

WATER QUALITY COMBINED FINANCIAL ASSISTANCE AGREEMENT

BETWEEN THE STATE OF WASHINGTON DEPARTMENT OF ECOLOGY

AND

City of Spokane

This is a binding Agreement entered into by and between the State of Washington, Department of Ecology, hereinafter referred to as “ECOLOGY” and City of Spokane, hereinafter referred to as the "RECIPIENT" to carry out with the provided funds activities described herein.

GENERAL INFORMATION

Project Title: Pettet Drive MS4 Elimination

Total Cost: $600,000.00
Total Eligible Cost: $600,000.00
Ecology Share: $450,000.00
Recipient Share: $150,000.00
The Effective Date of this Agreement is: 07/01/2015
The Expiration Date of this Agreement is no later than 12/31/2018
Project Type: Stormwater Facility

Project Short Description:
This project will improve water quality in the Spokane River through installation of bioretention areas along Pettet Drive in the City of Spokane. This project will provide treatment for Total Suspended Solids (TSS), Dissolved Copper, and Dissolved Zinc and will also reduce flows to the Spokane River by increasing stormwater infiltration and providing stormwater detention.

Project Long Description:
Pettet Drive is a minor arterial street within the City of Spokane. It currently consists of two travel lanes, with bicycle lanes and sidewalk on both sides of the street. The curb-to-curb width is approximately 45-feet. The project area is steep, with average slopes of approximately four percent. Pettet Drive slopes continuously to the north within the project limits. The existing stormwater control for Pettet Drive consists of several catch basins draining to a single 12-inch pipe. This pipe drains directly to the Spokane River without treatment.

This project will create bioretention areas adjacent to Pettet Drive where runoff will be stored, treated, and infiltrated.

WQC-2016-Spokan-00032
Pieces of the existing collection system will be utilized to direct runoff to the new bioretention areas and the outfall will be eliminated. Approximately 1000 feet of new 15-inch pipe will be constructed to collect stormwater runoff to a bioretention area at the downstream end of the street, adjacent to TJ Meenach Bridge.

Stormwater runoff will be conveyed into the bioretention areas for storage and treatment. An adaptive, low maintenance plant palette will be chosen and installed over an engineered soil to provide pollutant removal. The underlying soils are expected to have adequate infiltration based on geotechnical information gathered adjacent to the basin area. Further geotechnical investigation will be conducted for each bioretention area during final design. If one of the bioretention areas has unsuitable soils, an under drain system will be installed to collect and convey runoff to a suitable site.

As part of the Integrated Clean Water Plan (ICWP), the RECIPIENT has committed to remove stormwater that discharges directly to the Spokane River when other construction projects are planned. Analysis performed for the ICWP determined that green infrastructure and low impact development (LID) are cost effective when combined with other construction projects. CSO Basin 12 Control Facility and new outfall pipe will be constructed adjacent to Pettet Drive. In addition, street and sewer repairs are planned for TJ Meenach during 2016. Elimination of the MS4 on Pettet became an apparent water quality solution in this same vicinity.

Pettet Drive is known as “Doomsday Hill” on the Bloomsday annual timed road race held on the first Sunday in every May. Over 40,000 people run this race every year. A permanent educational sign will be placed along the project route to explain stormwater pollution, proper treatment, and the purpose of this project. In addition, removable signs will be placed during Bloomsday to accommodate reading on the run.

Overall Goal:
This project will help protect and restore water quality in Washington by reducing stormwater impacts from existing infrastructure and development.

The operation and maintenance plan will describe how the RECIPIENT will ensure project success consistent with the design manual used. The operation and maintenance plan must also address long-term activities to assure ongoing pollutant removal and flow-control capability of the project in accordance with the design manual.

G. Upon completion of construction, the RECIPIENT will provide to ECOLOGY:

1. A Stormwater Construction Completion Form signed by a professional engineer indicating that the project was completed in accordance with the plans and specifications and major change orders approved by ECOLOGY’s Project Engineer and shown on the Record Drawings. The RECIPIENT shall identify and separate eligible and ineligible costs in the final negotiated agreement and submit a copy of the agreement to ECOLOGY.

B. Best Management Practices (BMP) Implementation: If the RECIPIENT installs BMPs that are not approved by ECOLOGY prior to installation, the RECIPIENT assumes the risk that part or all of the reimbursement for that activity may be delayed or ineligible. For more details regarding BMP Implementation, please reference the Water Quality Financial Assistance Funding Guidelines available on ECOLOGY’s Water Quality Program funding website.

C. Cultural and Historic Resources Protection Compliance with Environmental Laws and Regulations. The RECIPIENT shall:

1) The RECIPIENT shall comply with all applicable federal, state and local environmental laws, statutes, regulations, executive orders, and permits.

2) The RECIPIENT shall comply with Ecology’s Archaeological Resource and Historic Property review process. The RECIPIENT agrees that in no case shall construction activities, ground disturbance, or excavation of any kind, begin until provisions of this process are complied with. The RECIPIENT is responsible for developing a complete Inadvertent Discovery Plan (IDP). The IDP must be immediately available by request by any party. An IDP must be immediately available and be implemented to address any discovery. The RECIPIENT will implement the procedures in the IDP, and immediately notify ECOLOGY, the Department of Archeology and Historic Preservation (DAHP), and tribal representatives if human remains, cultural, or archeological resources are discovered in the course of construction. For more details regarding requirements under this provision, please reference the Water Quality Financial Assistance Funding Guidelines available on ECOLOGY’s Water Quality Program funding website.

A representative from ECOLOGY’s Water Quality Program may contact the RECIPENT to request this data. ECOLOGY may also conduct site interviews and inspections, and may otherwise evaluate the project, as part of this assessment.

K. Project Status Evaluation: ECOLOGY may evaluate the status of this project 18 months from the effective date of this agreement. ECOLOGY’s Project Manager and Financial Manager will meet with the RECIPENT to review spending trends, completion of outcome measures, and overall project administration and performance. A. Disadvantaged Business Enterprise (DBE):

GENERAL COMPLIANCE, 40 CFR, Part 33 - The RECIPIENT agrees to comply with the requirements of EPA's Program for Utilization of Small, Minority and Women's Business Enterprises (MBE/WBE) in procurement under assistance agreements, contained in 40 CFR, Part 33.

FAIR SHARE OBJECTIVES, 40 CFR, Part 33, Subpart D - A RECIPIENT must negotiate with the appropriate EPA award official or his/her designee, fair share objectives for MBE and WBE participation in procurement under the financial assistance agreements.

Current Fair Share Objective/Goal - The dollar amount of this assistance agreement is over $250,000; or the total dollar amount of all of the RECIPIENT’s non-TAG assistance agreements from EPA in the current fiscal year is over $250,000. The Washington State Department of Ecology has negotiated the following, applicable MBE/WBE fair share objectives/goals with EPA as follows:

MBE: SUPPLIES 8.00%; SERVICES 10.00%; EQUIPMENT 8.00%; CONSTRUCTION 10.00%
WBE: SUPPLIES 4.00%; SERVICES 4.00%; EQUIPMENT 4.00%; CONSTRUCTION 6.00%

Negotiating Fair Share Objectives/Goals, 40 CFR, Section 33.404 - If the RECIPIENT has not yet negotiated its MBE/WBE fair share objectives/goals, the RECIPIENT agrees to submit proposed MBE/WBE objectives/goals based on an availability analysis, or disparity study, of qualified MBEs and WBEs in their relevant geographic buying market for construction, services, supplies and equipment.

The RECIPIENT agrees to submit proposed fair share objectives/goals, together with the supporting availability analysis or disparity study, to the Regional MBE/WBE Coordinator within 120 days of its acceptance of the financial assistance award. EPA shall respond to the proposed fair share objective/goals within 30 days of receiving the submission. If proposed fair share objective/goals are not received within the 120 day time frame, the recipient may not expend its EPA funds for procurements until the proposed fair share objective/goals are submitted.

SIX GOOD FAITH EFFORTS, 40 CFR, Part 33, Subpart C - Pursuant to 40 CFR, Section 33.301, the RECIPIENT agrees to make the following good faith efforts whenever procuring construction, equipment, services and supplies under an EPA financial assistance agreement, and to ensure that sub-recipients, loan recipients, and prime contractors also comply. Records documenting compliance with the six good faith efforts shall be retained:

(a) Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State, Local and Government recipients, this shall include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.

(b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.

(c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For
Indian Tribal, State and Local Government recipients, this shall include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.

(d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.

(e) Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.

(f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraphs (a) through (e) of this section.

B. Funding Recognition and Outreach: In addition to Section 2.F of these Terms and Conditions, the RECIPENT shall provide signage that informs the public that the project is funded by EPA. The signage shall contain the EPA logo and follow usage requirements available at http://www2.epa.gov/stylebook/using-epa-seal-and-logo. To obtain the appropriate EPA logo or seal graphic file, the RECIPENT may send a request to their Ecology’s Financial Manager.

To increase public awareness of projects serving communities where English is not the predominant language, RECIPENTS are encouraged to provide their outreach strategies communication in non-English languages. Translation costs for this purpose are allowable, provided the costs are reasonable.

The RECIPENT shall use the following paragraph in all reports, documents, and signage developed under this agreement:

“This project has been funded wholly or in part by the United States Environmental Protection Agency under an assistance agreement to the Washington State Department of Ecology. The contents of this document do not necessarily reflect the views and policies of the Environmental Protection Agency, nor does the mention of trade names or commercial products constitute endorsement or recommendation for use.”

C. Data Reporting: The RECIPENT must complete and submit the “Clean Water Act Section 319 Initial Data Reporting Sheet” to ECOLOGY’s Financial Manager with the signed agreement. The form is available in EAGL.

D. Load Reduction Reporting: The RECIPENT shall complete and submit a “Clean Water Act Section 319 Load Reductions Reporting Form” to ECOLOGY’s Financial Manager by January 15 of each year and at project close-out. ECOLOGY may hold reimbursements until the RECIPENT has submitted the completed form to the Financial Manager. This form is used to gather information on pollutant load reduction for each best management practice (BMP) installed as a part of this project. The form is available in EAGL.

E. Time Extension: The RECIPENT may request a one-time extension for up to 12 months. However, the time extension cannot exceed the time limitation established in EPA’s assistance agreement. In the event a time extension is requested and approved by ECOLOGY, the RECIPENT must complete all eligible work performed under this agreement by the expiration date.

SECTION 6: THE FOLLOWING CONDITIONS APPLY TO SECTION 319 AND STATE REVOLVING FUND (SRF) LOAN FUNDED PROJECTS ONLY.

A. Audit Requirements: In accordance with 2 CFR 200.501(a), the RECIPENT agrees to obtain a single audit from an independent auditor, if their organization expends $750,000 or more in total Federal funds in their fiscal year. The RECIPENT must submit the form SF-SAC and a Single Audit Report Package within 9 months of the end of the fiscal
year or 30 days after receiving the report from an independent auditor. The SF-SAC and a Single Audit Report Package MUST be submitted using the Federal Audit Clearinghouse’s Internet Data Entry System available at: https://harvester.census.gov/fac/collect/ddeindex.html. For complete information on how to accomplish the single audit submissions, go to the Federal Audit Clearinghouse Web site: http://harvester.census.gov/fac/.

C. Data Universal Numbering System (DUNS) and Central Contractor Registration (CCR) Requirements: RECIPIENTs shall have a DUNS number. Unless exempted from this requirement under 2 CFR 25.110, the RECIPIENT must ensure that the organization’s information in the System for Award Management (SAM), https://www.sam.gov, is kept current through project closeout. This requires that the RECIPIENT reviews and updates the information at least annually after the initial registration, and more frequently if information changes.

D. Electronic and Information Technology (EIT) Accessibility: RECIPIENTs shall ensure that loan funds provided under this agreement for costs incurred in the development or purchase of EIT systems or products provide individuals with disabilities reasonable accommodations and an equal and effective opportunity to benefit from or participate in a program, including those offered through electronic and information technology as per Section 504 of the Rehabilitation Act, codified in 40 CFR Part 7. Systems or products funded under this agreement must be designed to meet the diverse needs of users without barriers or diminished function or quality. Systems shall include usability features or functions that accommodate the needs of persons with disabilities, including those who use assistive technology.

E. Hotel-Motel Fire Safety Act: The RECIPIENT shall ensure that all space for conferences, meetings, conventions or training seminars funded in whole or in part with federal funds complies with the protection and control guidelines of the Hotel and Motel Fire Safety Act (15 USC 2225a, PL 101-391, as amended). This limit applies to consultation services of designated individuals with specialized skills who are paid at a daily or hourly rate. This rate does not include transportation and subsistence costs for travel performed. Contracts for services awarded using the procurement requirements in 40 CFR Parts 30 or 31, as applicable, are not affected by this limitation unless the terms of the contract provide the RECIPIENT with responsibility for the selection, direction, and control of the individuals who shall be providing services under the contract at an hourly or daily rate of compensation. See 40 CFR 30.27(b) or 40 CFR 31.36(j) for additional information.

J. Loan Security

Due Regard: For loans secured with a Revenue Obligation: The RECIPIENT shall exercise due regard for Maintenance and Operation Expense and the debt service requirements of the Senior Lien Obligations and any other outstanding obligations pledging the Gross Revenue of the Utility, and it has not obligated itself to set aside and pay into the loan Fund a greater amount of the Gross Revenue of the Utility than, in its judgment, shall be available over and above such Maintenance and Operation Expense and those debt service requirements.

Levy and Collection of Taxes (if used to secure the repayment of the loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of its electors on all of the taxable property within the boundaries of the RECIPIENT in an amount sufficient, together with other money legally available and to be used therefore, to pay when due the principal of and interest on the loan, and the full faith, credit and resources of the RECIPIENT are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Not an Excess Indebtedness: For loans secured with a general obligation pledge or a general obligation pledge on special assessments: The RECIPIENT agrees that this agreement and the loan to be made do not create an indebtedness of the RECIPIENT in excess of any constitutional or statutory limitations.

Pledge of Net Revenue and ULID Assessments in the ULID (if used to secure the repayment of this loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges the Net Revenue of the Utility, including applicable ULID Assessments in the ULID, to pay when due the principal of and interest on the loan.

Reserve Requirement: For loans that are Revenue-Secured Debt with terms greater than five years, the RECIPIENT must accumulate a reserve for the loan equivalent to at least the Average Annual Debt Service on the loan during the first five years of the repayment period of the loan. This amount shall be deposited in a Reserve Account in the Loan Fund in approximately equal annual payments commencing within one year after the initiation of operation or the project completion date, whichever comes first.

"Reserve Account" means, for a loan that constitutes Revenue-Secured Debt, an account of that name created in the Loan Fund to secure the payment of the principal and interest on the loan. The amount on deposit in the Reserve Account may be applied by the RECIPIENT (1) to make, in part or in full, the final repayment to ECOLOGY of the loan amount or, (2) if not so applied, for any other lawful purpose of the RECIPIENT once the Loan Amount, plus interest and any other amounts owing to ECOLOGY, have been paid in full.

Utility Local Improvement District (ULID) Assessment Collection (if used to secure the repayment of the loan): All ULID Assessments in the ULID shall be paid into the loan Fund and used to pay the principal of and interest on the loan. The ULID Assessments in the ULID may be deposited into the Reserve Account to satisfy a Reserve Requirement if a Reserve Requirement is applicable.

K. Maintenance and Operation of a Funded Utility: The RECIPIENT shall at all times maintain and keep a funded Utility in good repair, working order and condition and also shall at all times operate the Utility and the business in an efficient manner and at a reasonable cost.

Laborers and mechanics employed by contractors and subcontractors shall be paid wages not less often than once a week and at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor.

The RECIPIENT shall obtain the wage determination for the area in which the project is located prior to issuing requests for bids, proposals, quotes or other methods for soliciting contracts (solicitation). These wage determinations shall be incorporated into solicitations and any subsequent contracts. The RECIPIENT shall ensure that the required EPA contract language regarding Davis-Bacon Wages is in all contracts and subcontracts in excess of $2,000. The RECIPIENT shall maintain records sufficient to document compliance with the Davis-Bacon Act, and make such records available for review upon request.

The RECIPIENT also agrees, by signing this agreement, to comply with State Prevailing Wages on Public Works, Chapter 39.12 RCW, as applicable. Compliance may include the determination whether the project involves “public work” and inclusion of the applicable prevailing wage rates in the bid specifications and contracts. The RECIPIENT agrees to maintain records sufficient to evidence compliance with Chapter 39.12 RCW, and make such records available for review upon request.

2. The aggregate depreciated cost value of the facilities or property being transferred in any fiscal year comprises no more than three percent of the total assets of the Utility; or

3. The RECIPIENT receives from the transferee an amount equal to an amount which will be in the same proportion to the net amount of Senior Lien Obligations and this LOAN then outstanding (defined as the total amount outstanding less the amount of cash and investments in the bond and loan funds securing such debt) as the Gross Revenue of the Utility from the portion of the Utility sold or disposed of for the preceding year bears to the total Gross Revenue for that period.

4. Expressed written agreement by the DEPARTMENT.

The proceeds of any transfer under this paragraph must be used (1) to redeem promptly, or irrevocably set aside for the redemption of, Senior Lien Obligations and to redeem promptly the loan, and (2) to provide for part of the cost of additions to and betterments and extensions of the Utility.

b) Publications. When the RECIPIENT or persons employed by the RECIPIENT use or publish ECOLOGY information; present papers, lectures, or seminars involving information supplied by ECOLOGY; or use logos, reports, maps, or other data in printed reports, signs, brochures, pamphlets, etc., appropriate credit shall be given to ECOLOGY.

c) Presentation and Promotional Materials. ECOLOGY shall have the right to use or reproduce any printed or graphic materials produced in fulfillment of this Agreement, in any manner ECOLOGY deems appropriate. ECOLOGY shall acknowledge the RECIPIENT as the sole copyright owner in every use or reproduction of the materials.

e) Personal Property Furnished by ECOLOGY. When ECOLOGY provides personal property directly to the RECIPIENT for use in performance of the project, it shall be returned to ECOLOGY prior to final payment by ECOLOGY. If said property is lost, stolen, or damaged while in the RECIPIENT's possession, then ECOLOGY shall be reimbursed in cash or by setoff by the RECIPIENT for the fair market value of such property.

a. RECIPIENT shall establish that the cost is fair value and reasonable prior to disbursement of funds provided for in this Agreement.

b. RECIPIENT shall provide satisfactory evidence of title or ability to acquire title for each parcel prior to disbursement of funds provided by this Agreement. d) Be open for audit or inspection by ECOLOGY, or by any duly authorized audit representative of the State of Washington, for a period of at least three (3) years after the final grant payment or loan repayment, or any dispute resolution hereunder.

RECIPIENT shall provide clarification and make necessary adjustments if any audits or inspections identify discrepancies in the records.

ECOLOGY reserves the right to audit, or have a designated third party audit, applicable records to ensure that the state has been properly invoiced. Any remedies and penalties allowed by law to recover monies determined owed will be enforced. Repetitive instances of incorrect invoicing or inadequate records may be considered cause for termination.

All work performed under this Agreement and any property and equipment purchased shall be made available to ECOLOGY and to any authorized state, federal or local representative for inspection at any time during the course of this Agreement and for at least three (3) years following grant or loan termination or dispute resolution hereunder.

RECIPIENT shall provide right of access to ECOLOGY, or any other authorized representative, at all reasonable times, in order to monitor and evaluate performance, compliance, and any other conditions under this Agreement.

22. RECOVERY OF FUNDS
The right of the RECIPIENT to retain monies received as reimbursement payments is contingent upon satisfactory performance of this Agreement and completion of the work described in the Scope of Work.

All payments to the RECIPIENT are subject to approval and audit by ECOLOGY, and any unauthorized expenditure(s) or unallowable cost charged to this agreement shall be refunded to ECOLOGY by the RECIPIENT.

RECIPIENT shall refund to ECOLOGY the full amount of any erroneous payment or overpayment under this Agreement.

RECIPIENT shall refund by check payable to ECOLOGY the amount of any such reduction of payments or repayments within thirty (30) days of a written notice. Interest will accrue at the rate of twelve percent (12%) per year from the time ECOLOGY demands repayment of funds.

Any property acquired under this Agreement, at the option of ECOLOGY, may become ECOLOGY’s property and the RECIPIENT’s liability to repay monies will be reduced by an amount reflecting the fair value of such property.

23. SEVERABILITY
If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

24. STATE ENVIRONMENTAL POLICY ACT (SEPA)
RECIPIENT must demonstrate to ECOLOGY’s satisfaction that compliance with the requirements of the State Environmental Policy Act (Chapter 43.21C RCW and Chapter 197-11 WAC) have been or will be met. Any reimbursements are subject to this provision.

25. SUSPENSION
When in the best interest of ECOLOGY, ECOLOGY may at any time, and without cause, suspend this Agreement or
any portion thereof for a temporary period by written notice from ECOLOGY to the RECIPIENT. RECIPIENT shall resume performance on the next business day following the suspension period unless another day is specified by ECOLOGY.

a) Sustainable practices may include such activities as: use of clean energy, use of double-sided printing, hosting low impact meetings, and setting up recycling and composting programs.

b) Purchasing may include such items as: sustainably produced products and services, EPEAT registered computers and imaging equipment, independently certified green cleaning products, remanufactured toner cartridges, products with reduced packaging, office products that are refillable, rechargeable, and recyclable, and 100% post-consumer recycled paper.

27. TERMINATION

a) For Cause
ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

b) For Convenience
ECOLOGY may terminate for convenience this Agreement, in whole or in part, for any reason when it is the best interest of ECOLOGY, with a thirty (30) calendar days prior written notification to the RECIPIENT. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY’s ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this agreement, ECOLOGY, at its sole discretion, may elect to terminate the agreement, in whole or part, or renegotiate the agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions.
If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.

c) By Mutual Agreement
ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

d) In Event of Termination
All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials. Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

28. THIRD PARTY BENEFICIARY
RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such.

29. WAIVER
Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.

WATER QUALITY COMBINED FINANCIAL ASSISTANCE AGREEMENT

BETWEEN THE STATE OF WASHINGTON DEPARTMENT OF ECOLOGY

AND

City of Spokane

This is a binding Agreement entered into by and between the State of Washington, Department of Ecology, hereinafter referred to as "ECOLOGY" and City of Spokane, hereinafter referred to as the "RECIPIENT" to carry out with the provided funds activities described herein.

GENERAL INFORMATION

Project Title: Riverside Park Water Reclamation Facility LID

Total Cost: $515,000.00
Total Eligible Cost: $463,500.00
Ecology Share: $347,625.00
Recipient Share: $115,875.00
The Effective Date of this Agreement is: 07/01/2015
The Expiration Date of this Agreement is no later than 12/31/2016
Project Type: Stormwater Facility

Project Short Description:
This project will improve water quality in the Spokane River by installing Low Impact Development (LID) stormwater improvements as part of the parking rehabilitation at the Riverside Park Water Reclamation Facility (RPWRF). This project will also provide treatment for Total Suspended Solids (TSS), Dissolved Copper and Dissolved Zinc, and will reduce flows to the Spokane River by increasing stormwater infiltration.

Project Long Description:
The runoff from the RPWRF parking lot currently drains to an existing City storm sewer (48-inch) pipe that discharges directly to the Spokane River without treatment. The project will construct permeable concrete unit pavers, porous grass pavers, and porous concrete sidewalks within the parking lot to promote infiltration and minimize runoff to the river. A bioretention swale will be constructed adjacent to Aubrey L. White Parkway to treat and infiltrate stormwater that contains concentrations of metals and other pollutants.

The improvements constructed with this project will meet water quality and quantity requirements of the Spokane
Regional Stormwater Manual (SRSM, 2008). In addition, the project follows the guidelines of the RPWRF Aesthetic Master Plan (2006), which encourages the use of sustainable design practices. The Master Plan also encourages the implementation of water efficiency measures, such as the use of native landscaping to reduce water consumption.

The project will provide an educational opportunity for both visitors that tour the RPWRF and traffic passing the facility to Riverside State Park.

Overall Goal:
This project will help protect and restore water quality in Washington by reducing stormwater impacts from existing infrastructure and development.

Task Description:
A. The RECIPIENT will provide construction oversight and management of the project.

B. The RECIPIENT will submit a detailed construction quality assurance plan to ECOLOGY before the start of construction. This plan must describe how adequate and competent construction oversight will be performed.

C. The RECIPIENT will conduct a pre-construction conference meeting and invite ECOLOGY to attend.

D. The RECIPIENT will submit an updated project schedule with projected cash flow to ECOLOGY within 30 days of the start of construction. The project schedule will be revised and/or updated whenever major changes occur and at a minimum of every three months. A. Disadvantaged Business Enterprise (DBE):

GENERAL COMPLIANCE, 40 CFR, Part 33 - The RECIPIENT agrees to comply with the requirements of EPA’s Program for Utilization of Small, Minority and Women’s Business Enterprises (MBE/WBE) in procurement under assistance agreements, contained in 40 CFR, Part 33.

FAIR SHARE OBJECTIVES, 40 CFR, Part 33, Subpart D - A RECIPIENT must negotiate with the appropriate EPA award official or his/her designee, fair share objectives for MBE and WBE participation in procurement under the financial assistance agreements.

Current Fair Share Objective/Goal - The dollar amount of this assistance agreement is over $250,000; or the total dollar amount of all of the RECIPIENT’s non-TAG assistance agreements from EPA in the current fiscal year is over $250,000. The Washington State Department of Ecology has negotiated the following, applicable MBE/WBE fair share objectives/goals with EPA as follows:

MBE: SUPPLIES 8.00%; SERVICES 10.00%; EQUIPMENT 8.00%; CONSTRUCTION 10.00%
WBE: SUPPLIES 4.00%; SERVICES 4.00%; EQUIPMENT 4.00%; CONSTRUCTION 6.00%

Negotiating Fair Share Objectives/Goals, 40 CFR, Section 33.404 - If the RECIPIENT has not yet negotiated its MBE/WBE fair share objectives/goals, the RECIPIENT agrees to submit proposed MBE/WBE objectives/goals based on an availability analysis, or disparity study, of qualified MBEs and WBEs in their relevant geographic buying market for construction, services, supplies and equipment.

The RECIPIENT agrees to submit proposed fair share objectives/goals, together with the supporting availability analysis or disparity study, to the Regional MBE/WBE Coordinator within 120 days of its acceptance of the financial assistance award. EPA shall respond to the proposed fair share objective/goals within 30 days of receiving the submission. If proposed fair share objective/goals are not received within the 120 day time frame, the recipient may not expend its EPA funds for procurements until the proposed fair share objective/goals are submitted.

SIX GOOD FAITH EFFORTS, 40 CFR, Part 33, Subpart C - Pursuant to 40 CFR, Section 33.301, the RECIPIENT agrees to make the following good faith efforts whenever procuring construction, equipment, services and supplies under an EPA financial assistance agreement, and to ensure that sub-recipients, loan recipients, and prime contractors also comply. Records documenting compliance with the six good faith efforts shall be retained:

(a) Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State, Local and Government recipients, this shall include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.

(b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.

(c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For
Indian Tribal, State and Local Government recipients, this shall include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.

(d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.

(e) Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.

(f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraphs (a) through (e) of this section.

B. Funding Recognition and Outreach: In addition to Section 2.F of these Terms and Conditions, the RECIPIENT shall provide signage that informs the public that the project is funded by EPA. The signage shall contain the EPA logo and follow usage requirements available at http://www2.epa.gov/stylebook/using-epa-seal-and-logo. To obtain the appropriate EPA logo or seal graphic file, the RECIPIENT may send a request to their Ecology’s Financial Manager.

To increase public awareness of projects serving communities where English is not the predominant language, RECIPIENTS are encouraged to provide their outreach strategies communication in non-English languages. Translation costs for this purpose are allowable, provided the costs are reasonable.

The RECIPIENT shall use the following paragraph in all reports, documents, and signage developed under this agreement:

“This project has been funded wholly or in part by the United States Environmental Protection Agency under an assistance agreement to the Washington State Department of Ecology. The contents of this document do not necessarily reflect the views and policies of the Environmental Protection Agency, nor does the mention of trade names or commercial products constitute endorsement or recommendation for use.”

C. Data Reporting: The RECIPIENT must complete and submit the “Clean Water Act Section 319 Initial Data Reporting Sheet” to ECOLOGY’s Financial Manager with the signed agreement. The form is available in EAGL.

D. Load Reduction Reporting: The RECIPIENT shall complete and submit a “Clean Water Act Section 319 Load Reductions Reporting Form” to ECOLOGY’s Financial Manager by January 15 of each year and at project close-out. ECOLOGY may hold reimbursements until the RECIPIENT has submitted the completed form to the Financial Manager. This form is used to gather information on pollutant load reduction for each best management practice (BMP) installed as a part of this project. The form is available in EAGL.

E. Time Extension: The RECIPIENT may request a one-time extension for up to 12 months. However, the time extension cannot exceed the time limitation established in EPA’s assistance agreement. In the event a time extension is requested and approved by ECOLOGY, the RECIPIENT must complete all eligible work performed under this agreement by the expiration date.

SECTION 6: THE FOLLOWING CONDITIONS APPLY TO SECTION 319 AND STATE REVOLVING FUND (SRF) LOAN FUNDED PROJECTS ONLY.

A. Audit Requirements: In accordance with 2 CFR 200.501(a), the RECIPIENT agrees to obtain a single audit from an independent auditor, if their organization expends $750,000 or more in total Federal funds in their fiscal year. The RECIPIENT must submit the form SF-SAC and a Single Audit Report Package within 9 months of the end of the fiscal
year or 30 days after receiving the report from an independent auditor. The SF-SAC and a Single Audit Report Package MUST be submitted using the Federal Audit Clearinghouse’s Internet Data Entry System available at: https://harvester.census.gov/fac/collect/ddeindex.html. Sources of Loan Repayment

1. Nature of RECIPIENT’s Obligation. The obligation of the RECIPIENT to repay the loan from the sources identified below and to perform and observe all of the other agreements and obligations on its part contained herein shall be absolute and unconditional, and shall not be subject to diminution by setoff, counterclaim, or abatement of any kind. To secure the repayment of the loan from ECOLOGY, the RECIPIENT agrees to comply with all of the covenants, agreements, and attachments contained herein.

2. For General Obligation. This loan is a General Obligation Debt of the RECIPIENT.

3. For General Obligation Payable from Special Assessments. This loan is a General Obligation Debt of the RECIPIENT payable from special assessments to be imposed within the constitutional and statutory tax limitations provided by law without a vote of the electors of the RECIPIENT on all of the taxable property within the boundaries of the RECIPIENT.

4. For Revenue-Secured: Lien Position. This loan is a Revenue-Secured Debt of the RECIPIENT’s Utility. This loan shall constitute a lien and charge upon the Net Revenue junior and subordinate to the lien and charge upon such Net Revenue of any Senior Lien Obligations.

In addition, if this loan is also secured by Utility Local Improvement Districts (ULID) Assessments, this loan shall constitute a lien upon ULID Assessments in the ULID prior and superior to any other charges whatsoever.

5. Other Sources of Repayment. The RECIPIENT may repay any portion of the loan from any funds legally available to it.

6. Defeasance of the Loan. So long as ECOLOGY shall hold this loan, the RECIPIENT shall not be entitled to, and shall not affect, an economic Defeasance of the loan. The RECIPIENT shall not advance refund the loan.

If the RECIPIENT defeases or advance refunds the loan, it shall be required to use the proceeds thereof immediately upon their receipt, together with other available RECIPIENT funds, to repay both of the following:

Failure to repay the Loan Amount plus interest within the time specified in ECOLOGY’s notice to make such repayment shall incur Late Charges and shall be treated as a Loan Default.

7. Refinancing or Early Repayment of the Project. So long as ECOLOGY shall hold this loan, the RECIPIENT shall give ECOLOGY thirty days written notice if the RECIPIENT intends to refinance or make early repayment of the loan.

Method and Conditions on Repayments

1. Semiannual Payments. Notwithstanding any other provision of this agreement, the first semiannual payment of principal and interest on this loan shall be due and payable no later than one year after the project completion date or initiation of operation date, whichever comes first.

Thereafter, equal payments shall be due every six months.

If the due date for any semiannual payment falls on a Saturday, Sunday, or designated holiday for Washington State agencies, the payment shall be due on the next business day for Washington State agencies.

Payments shall be mailed to:

Department of Ecology
Cashiering Unit
P.O. Box 47611
Olympia WA 98504-7611

In lieu of mailing payments, electronic fund transfers can be arranged by working with ECOLOGY’s Financial Manager.

No change to the amount of the semiannual principal and interest payments shall be made without a formal amendment to this agreement. The RECIPIENT shall continue to make semiannual payments based on this agreement until the amendment is effective, at which time the RECIPIENT’s payments shall be made pursuant to the amended agreement.

2. Late Charges. If any amount of the Final Loan Amount or any other amount owed to ECOLOGY pursuant to this agreement remains unpaid after it becomes due and payable, ECOLOGY may assess a late charge. The late charge shall be one percent per month on the past due amount starting on the date the debt becomes past due and until it is paid in full.

3. Repayment Limitations. Repayment of the loan is subject to the following additional limitations, among others: those on defeasance, refinancing and advance refunding, termination, and default and recovery of payments.

4. Prepayment of Loan. So long as ECOLOGY shall hold this loan, the RECIPIENT may prepay the entire unpaid principal balance of and accrued interest on the loan or any portion of the remaining unpaid principal balance of the Loan Amount. Any prepayments on the loan shall be applied first to any accrued interest due and then to the outstanding principal balance of the Loan Amount. If the RECIPIENT elects to prepay the entire remaining unpaid
balance and accrued interest, the RECIPIENT shall first contact ECOLOGY's Revenue/Receivable Manager of the Fiscal Office.

J. Loan Security

Due Regard: For loans secured with a Revenue Obligation: The RECIPIENT shall exercise due regard for Maintenance and Operation Expense and the debt service requirements of the Senior Lien Obligations and any other outstanding obligations pledging the Gross Revenue of the Utility, and it has not obligated itself to set aside and pay into the loan Fund a greater amount of the Gross Revenue of the Utility than, in its judgment, shall be available over and above such Maintenance and Operation Expense and those debt service requirements.

Levy and Collection of Taxes (if used to secure the repayment of the loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of its electors on all of the taxable property within the boundaries of the RECIPIENT in an amount sufficient, together with other money legally available and to be used therefore, to pay when due the principal of and interest on the loan, and the full faith, credit and resources of the RECIPIENT are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Not an Excess Indebtedness: For loans secured with a general obligation pledge or a general obligation pledge on special assessments: The RECIPIENT agrees that this agreement and the loan to be made do not create an indebtedness of the RECIPIENT in excess of any constitutional or statutory limitations.

Pledge of Net Revenue and ULID Assessments in the ULID (if used to secure the repayment of this loan): For so long as the loan is outstanding, the RECIPIENT irrevocably pledges the Net Revenue of the Utility, including applicable ULID Assessments in the ULID, to pay when due the principal of and interest on the loan.

Reserve Requirement: For loans that are Revenue-Secured Debt with terms greater than five years, the RECIPIENT must accumulate a reserve for the loan equivalent to at least the Average Annual Debt Service on the loan during the first five years of the repayment period of the loan. This amount shall be deposited in a Reserve Account in the Loan Fund in approximately equal annual payments commencing within one year after the initiation of operation or the project completion date, whichever comes first.

"Reserve Account" means, for a loan that constitutes Revenue-Secured Debt, an account of that name created in the Loan Fund to secure the payment of the principal and interest on the loan. The amount on deposit in the Reserve Account may be applied by the RECIPIENT (1) to make, in part or in full, the final repayment to ECOLOGY of the loan amount or, (2) if not so applied, for any other lawful purpose of the RECIPIENT once the Loan Amount, plus interest and any other amounts owing to ECOLOGY, have been paid in full.

Utility Local Improvement District (ULID) Assessment Collection (if used to secure the repayment of the loan): All ULID Assessments in the ULID shall be paid into the loan Fund and used to pay the principal of and interest on the loan. The ULID Assessments in the ULID may be deposited into the Reserve Account to satisfy a Reserve Requirement if a Reserve Requirement is applicable.

K. Maintenance and Operation of a Funded Utility: The RECIPIENT shall at all times maintain and keep a funded Utility in good repair, working order and condition and also shall at all times operate the Utility and the business in an efficient manner and at a reasonable cost.

L. Opinion of RECIPIENT's Legal Counsel: The RECIPIENT must submit an "Opinion of Legal Counsel to the RECIPIENT" to ECOLOGY before this agreement shall be signed. ECOLOGY will provide the form.
M. Prevailing Wage (Davis-Bacon Act): The RECIPIENT agrees, by signing this agreement, to comply with the Davis-Bacon Act prevailing wage requirements. This applies to the construction, alteration, and repair of treatment works carried out in whole or in part with assistance made available by the State Revolving Fund as authorized by Section 513, title VI of the Federal Water Pollution Control Act (33 U.S.C. 1372). Laborers and mechanics employed by contractors and subcontractors shall be paid wages not less often than once a week and at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor.

The RECIPIENT shall obtain the wage determination for the area in which the project is located prior to issuing requests for bids, proposals, quotes or other methods for soliciting contracts (solicitation). These wage determinations shall be incorporated into solicitations and any subsequent contracts. The RECIPIENT shall ensure that the required EPA contract language regarding Davis-Bacon Wages is in all contracts and subcontracts in excess of $2,000. The RECIPIENT shall maintain records sufficient to document compliance with the Davis-Bacon Act, and make such records available for review upon request.

The RECIPIENT also agrees, by signing this agreement, to comply with State Prevailing Wages on Public Works, Chapter 39.12 RCW, as applicable. Compliance may include the determination whether the project involves “public work” and inclusion of the applicable prevailing wage rates in the bid specifications and contracts. The RECIPIENT agrees to maintain records sufficient to evidence compliance with Chapter 39.12 RCW, and make such records available for review upon request.

N. Litigation; Authority: No litigation is now pending, or to the RECIPIENT’s knowledge, threatened, seeking to restrain, or enjoin:

(i) the execution of this agreement; or

(ii) the fixing or collection of the revenues, rates, and charges or the formation of the ULID and the levy and collection of ULID Assessments therein pledged to pay the principal of and interest on the loan (for revenue secured lien obligations); or

(iii) the levy and collection of the taxes pledged to pay the principal of and interest on the loan (for general obligation-secured loans and general obligation payable from special-assessment-secured loans); or

(iv) in any manner questioning the proceedings and authority under which the agreement, the loan, or the project are authorized. Neither the corporate existence or boundaries of the RECIPIENT nor the title of its present officers to their respective offices is being contested. No authority or proceeding for the execution of this agreement has been repealed, revoked, or rescinded.

O. Representations and Warranties: The RECIPIENT represents and warrants to ECOLOGY as follows:

Application: Material Information. All information and materials submitted by the RECIPIENT to ECOLOGY in connection with its loan application were, when made, and are, as of the date the RECIPIENT signs this agreement, true and correct. Any changes in the RECIPIENT’s financial condition shall be disclosed in writing to ECOLOGY by the RECIPIENT in its request for payment.

P. Sale or Disposition of Utility: The RECIPIENT will not sell, transfer, or otherwise dispose of any of the works, plant, properties, facilities, or other part of the Utility or any real or personal property comprising a part of the Utility unless:

1. The facilities or property transferred are not material to the operation of the Utility, or have become unserviceable, inadequate, obsolete, or unfit to be used in the operation of the Utility or are no longer necessary, material, or useful to the operation of the Utility; or

2. The aggregate depreciated cost value of the facilities or property being transferred in any fiscal year comprises no more than three percent of the total assets of the Utility; or

3. The RECIPIENT receives from the transferee an amount equal to an amount which will be in the same proportion to the net amount of Senior Lien Obligations and this LOAN then outstanding (defined as the total amount outstanding less the amount of cash and investments in the bond and loan funds securing such debt) as the Gross Revenue of the Utility from the portion of the Utility sold or disposed of for the preceding year bears to the total Gross Revenue for that period.

4. Expressed written agreement by the DEPARTMENT.

The proceeds of any transfer under this paragraph must be used (1) to redeem promptly, or irrevocably set aside for the redemption of, Senior Lien Obligations and to redeem promptly the loan, and (2) to provide for part of the cost of additions to and betterments and extensions of the Utility.

Q. Sewer-Use Ordinance or Resolution: If not already in existence, the RECIPIENT shall adopt and shall enforce a sewer-use ordinance or resolution. Such ordinance or resolution shall be submitted to ECOLOGY upon request.

3. Past Due Payments. The RECIPIENT shall be in default of its obligations under this loan agreement when any loan repayment becomes 60 days past due.

4. Other Cause. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance in full by the RECIPIENT of all of its obligations under this loan agreement. The RECIPIENT shall be in default of its obligations under this loan agreement if, in the opinion of ECOLOGY, the RECIPIENT has unjustifiably failed to perform any obligation required of it by this loan agreement.

Procedures for Termination. If this loan agreement is terminated prior to project completion, ECOLOGY shall provide to the RECIPIENT a written notice of termination at least five working days prior to the effective date of termination (the “Termination Date”). The written notice of termination by the ECOLOGY shall specify the Termination Date and, when applicable, the date by which the RECIPIENT must repay any outstanding balance of the loan and all accrued interest (the “Termination Payment Date”).

Termination and Default Remedies

No Further Payments. On and after the Termination Date, or in the event of a default event, ECOLOGY may, at its sole discretion, withdraw the loan and make no further payments under this agreement.

Repayment Demand. In response to an ECOLOGY initiated termination event, or in response to a loan default event, ECOLOGY may at its sole discretion demand that the RECIPIENT repay the outstanding balance of the Loan Amount and all accrued interest.

Interest after Repayment Demand. From the time that ECOLOGY demands repayment of funds, amounts owed by the RECIPIENT to ECOLOGY shall accrue additional interest at the rate of one percent per month, or fraction thereof.

Accelerate Repayments. In the event of a default, ECOLOGY may, in its sole discretion, declare the principal of and interest on the loan immediately due and payable, subject to the prior lien and charge of any outstanding Senior Lien Obligation upon the Net Revenue. That is, the loan is not subject to acceleration so long as any Senior Lien Obligations are outstanding. Repayments not made immediately upon such acceleration will incur Late Charges.

Late Charges. All amounts due to ECOLOGY and not paid by the RECIPIENT by the Termination Payment Date or after acceleration following a default event, as applicable, shall incur late charges.

Intercept State Funds. In the event of a default event and in accordance with Chapter 90.50A.060 RCW, “Defaults,” any state funds otherwise due to the RECIPIENT may, at ECOLOGY’s sole discretion, be withheld and applied to the repayment of the loan.

Property to ECOLOGY. In the event of a default event and at the option of ECOLOGY, any personal property (equipment) acquired under this agreement may, in ECOLOGY’s sole discretion, become ECOLOGY’s property. In that circumstance, ECOLOGY shall reduce the RECIPIENT’s liability to repay money by an amount reflecting the fair value of such property.

Documents and Materials. If this agreement is terminated, all finished or unfinished documents, data studies, surveys,
drawings, maps, models, photographs, and reports or other materials prepared by the RECIPIENT shall, at the option of ECOLOGY, become ECOLOGY property. The RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Collection and Enforcement Actions. In the event of a default event, the state of Washington reserves the right to take any actions it deems necessary to collect the amounts due, or to become due, or to enforce the performance and observance of any obligation by the RECIPIENT, under this agreement.

Fees and Expenses. In any action to enforce the provisions of this agreement, reasonable fees and expenses of attorneys and other reasonable expenses (including, without limitation, the reasonably allocated costs of legal staff) shall be awarded to the prevailing party as that term is defined in Chapter 4.84.330 RCW.

Damages. Notwithstanding ECOLOGY's exercise of any or all of the termination or default remedies provided in this agreement, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and/or the state of Washington because of any breach of this agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

S. User-Charge System: The RECIPIENT certifies that it has the legal authority to establish and implement a user-charge system and shall adopt a system of user-charges to assure that each user of the utility shall pay its proportionate share of the cost of operation and maintenance, including replacement during the design life of the project.

In addition, the RECIPIENT shall regularly evaluate the user-charge system, at least annually, to ensure the system provides adequate revenues necessary to operate and maintain the utility, to establish a reserve to pay for replacement, to establish the required Loan Reserve Account, and to repay the loan.

ECOLOGY shall have the right to immediately terminate for cause this Agreement as provided herein if the RECIPIENT fails to comply with above requirements.

If any provision of this Agreement violates any statute or rule of law of the state of Washington, it is considered modified to conform to that statute or rule of law.

8. CONFLICT OF INTEREST
RECIPIENT and ECOLOGY agree that any officer, member, agent, or employee, who exercises any function or responsibility in the review, approval, or carrying out of this Agreement, shall not have any personal or financial interest, direct or indirect, nor affect the interest of any corporation, partnership, or association in which he/she is a part, in this Agreement or the proceeds thereof.

9. CONTRACTING FOR GOODS AND SERVICES
RECIPIENT may contract to buy goods or services related to its performance under this Agreement. RECIPIENT shall award all contracts for construction, purchase of goods, equipment, services, and professional architectural and engineering services through a competitive process, if required by State law. 11. ENVIRONMENTAL STANDARDS
a) RECIPIENTS who collect environmental-monitoring data must provide these data to ECOLOGY using the Environmental Information Management System (EIM). To satisfy this requirement these data must be successfully loaded into EIM, see instructions on the EIM website at: http://www.ecy.wa.gov/eim.

a) Provide a draft copy to ECOLOGY for review and approval ten (10) business days prior to production and distribution of any documents or materials compiled or produced.
b) ECOLOGY reviews draft copy and reserves the right to require changes until satisfied.
c) Provide ECOLOGY two (2) final copies and an electronic copy of any tangible products developed.

Copies include any printed materials, and all tangible products developed such as brochures, manuals, pamphlets, videos, audio tapes, CDs, curriculum, posters, media announcements, or gadgets, such as a refrigerator magnet with a message as well as media announcements, and any other online communication products such as Web pages, blogs, and Twitter campaigns. If it is not practical to provide a copy, then the RECIPIENT must provide a complete description including photographs, drawings, or printouts of the product that best represents the item.

RECIPIENT shall include time in their project timeline for ECOLOGY's review and approval process.

RECIPIENT shall acknowledge in the materials or documents that funding was provided by ECOLOGY.

19. PROGRESS REPORTING
a) RECIPIENT must satisfactorily demonstrate the timely use of funds by submitting payment requests and progress reports to ECOLOGY. ECOLOGY reserves the right to amend or terminate this Agreement if the RECIPIENT does not
document timely use of funds.
b) RECIPIENT must submit a progress report with each payment request. Payment requests will not be processed without a progress report. ECOLOGY will define the elements and frequency of progress reports.
c) RECIPIENT shall use ECOLOGY’s provided progress report format.
d) Quarterly progress reports will cover the periods from January 1 through March 31, April 1 through June 30, July 1 through September 30, and October 1 through December 31. Reports shall be submitted within thirty (30) days after the end of the quarter being reported.
e) RECIPIENT shall submit the Closeout Report within thirty (30) days of the expiration date of the project, unless an extension has been approved by ECOLOGY. RECIPIENT shall use the ECOLOGY provided closeout report format.

20. PROPERTY RIGHTS

a) Copyrights and Patents. When the RECIPIENT creates any copyrightable materials or invents any patentable property, the RECIPIENT may copyright or patent the same but ECOLOGY retains a royalty free, nonexclusive, and irrevocable license to reproduce, publish, recover, or otherwise use the material(s) or property, and to authorize others to use the same for federal, state, or local government purposes.
b) Publications. When the RECIPIENT or persons employed by the RECIPIENT use or publish ECOLOGY information; present papers, lectures, or seminars involving information supplied by ECOLOGY; or use logos, reports, maps, or other data in printed reports, signs, brochures, pamphlets, etc., appropriate credit shall be given to ECOLOGY.
c) Presentation and Promotional Materials. ECOLOGY shall have the right to use or reproduce any printed or graphic materials produced in fulfillment of this Agreement, in any manner ECOLOGY deems appropriate. ECOLOGY shall acknowledge the RECIPIENT as the sole copyright owner in every use or reproduction of the materials.
d) Tangible Property Rights. ECOLOGY's current edition of "Administrative Requirements for Recipients of Ecology Grants and Loans," shall control the use and disposition of all real and personal property purchased wholly or in part with funds furnished by ECOLOGY in the absence of state and federal statutes, regulations, or policies to the contrary, or upon specific instructions with respect thereto in this Agreement.
e) Personal Property Furnished by ECOLOGY. When ECOLOGY provides personal property directly to the RECIPIENT for use in performance of the project, it shall be returned to ECOLOGY prior to final payment by ECOLOGY. If said property is lost, stolen, or damaged while in the RECIPIENT's possession, then ECOLOGY shall be reimbursed in cash or by setoff to the RECIPIENT for the fair market value of such property.
f) Acquisition Projects. The following provisions shall apply if the project covered by this Agreement includes funds for the acquisition of land or facilities:

a. RECIPIENT shall establish that the cost is fair value and reasonable prior to disbursement of funds provided for in this Agreement.
b. RECIPIENT shall provide satisfactory evidence of title or ability to acquire title for each parcel prior to disbursement of funds provided by this Agreement. Such evidence may include title insurance policies, Torrens certificates, or abstracts, and attorney's opinions establishing that the land is free from any impediment, lien, or claim which would impair the uses intended by this Agreement.
g) Conversions. Regardless of the agreement expiration date, the RECIPIENT shall not at any time convert any equipment, property, or facility acquired or developed under this Agreement to uses other than those for which assistance was originally approved without prior written approval of ECOLOGY. Such approval may be conditioned upon payment to ECOLOGY of that portion of the proceeds of the sale, lease, or other conversion or encumbrance which monies granted pursuant to this Agreement bear to the total acquisition, purchase, or construction costs of such property.

21. RECORDS, AUDITS, AND INSPECTIONS

RECIPIENT shall maintain complete program and financial records relating to this Agreement, including any engineering documentation and field inspection reports of all construction work accomplished.

All records shall:

a) Be kept in a manner which provides an audit trail for all expenditures.
b) Be kept in a common file to facilitate audits and inspections.
c) Clearly indicate total receipts and expenditures related to this Agreement.
d) Be open for audit or inspection by ECOLOGY, or by any duly authorized audit representative of the State of Washington, for a period of at least three (3) years after the final grant payment or loan repayment, or any dispute resolution hereunder.

RECIPIENT shall provide clarification and make necessary adjustments if any audits or inspections identify discrepancies in the records.

ECOLOGY reserves the right to audit, or have a designated third party audit, applicable records to ensure that the state has been properly invoiced. Any remedies and penalties allowed by law to recover monies determined owed will be enforced. Repetitive instances of incorrect invoicing or inadequate records may be considered cause for termination.

All work performed under this Agreement and any property and equipment purchased shall be made available to ECOLOGY and to any authorized state, federal or local representative for inspection at any time during the course of this Agreement and for at least three (3) years following grant or loan termination or dispute resolution hereunder.

RECIPIENT shall provide right of access to ECOLOGY, or any other authorized representative, at all reasonable times, in order to monitor and evaluate performance, compliance, and any other conditions under this Agreement.

22. RECOVERY OF FUNDS
The right of the RECIPIENT to retain monies received as reimbursement payments is contingent upon satisfactory performance of this Agreement and completion of the work described in the Scope of Work.

All payments to the RECIPIENT are subject to approval and audit by ECOLOGY, and any unauthorized expenditure(s) or unallowable cost charged to this agreement shall be refunded to ECOLOGY by the RECIPIENT.

RECIPIENT shall refund to ECOLOGY the full amount of any erroneous payment or overpayment under this Agreement.

RECIPIENT shall refund by check payable to ECOLOGY the amount of any such reduction of payments or repayments within thirty (30) days of a written notice. Interest will accrue at the rate of twelve percent (12%) per year from the time ECOLOGY demands repayment of funds.

Any property acquired under this Agreement, at the option of ECOLOGY, may become ECOLOGY’s property and the RECIPIENT’s liability to repay monies will be reduced by an amount reflecting the fair value of such property.

23. SEVERABILITY
If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

24. STATE ENVIRONMENTAL POLICY ACT (SEPA)
RECIPIENT must demonstrate to ECOLOGY’s satisfaction that compliance with the requirements of the State Environmental Policy Act (Chapter 43.21C RCW and Chapter 197-11 WAC) have been or will be met. Any reimbursements are subject to this provision.

25. SUSPENSION
When in the best interest of ECOLOGY, ECOLOGY may at any time, and without cause, suspend this Agreement or
any portion thereof for a temporary period by written notice from ECOLOGY to the RECIPIENT. RECIPIENT shall resume performance on the next business day following the suspension period unless another day is specified by ECOLOGY.

26. SUSTAINABLE PRACTICES
In order to sustain Washington’s natural resources and ecosystems, the RECIPIENT is fully encouraged to implement sustainable practices and to purchase environmentally preferable products under this Agreement.

a) Sustainable practices may include such activities as: use of clean energy, use of double-sided printing, hosting low impact meetings, and setting up recycling and composting programs.

b) Purchasing may include such items as: sustainably produced products and services, EPEAT registered computers and imaging equipment, independently certified green cleaning products, remanufactured toner cartridges, products with reduced packaging, office products that are refillable, rechargeable, and recyclable, and 100% post-consumer recycled paper.

27. TERMINATION
a) For Cause
ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

b) For Convenience
ECOLOGY may terminate for convenience this Agreement, in whole or in part, for any reason when it is the best interest of ECOLOGY, with a thirty (30) calendar days prior written notification to the RECIPIENT. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY’s ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this agreement, ECOLOGY, at its sole discretion, may elect to terminate the agreement, in whole or part, or renegotiate the agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions.
If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.

c) By Mutual Agreement
ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

d) In Event of Termination
All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.
Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

28. THIRD PARTY BENEFICIARY
RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such.

29. WAIVER
Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.

GENERAL INFORMATION

Project Title: Havana Street Stormwater Improvements

Total Cost: $4,230,000.00
Total Eligible Cost: $1,015,400.00
Ecology Share: $761,550.00
Recipient Share: $253,850.00
The Effective Date of this Agreement is: 07/01/2015
The Expiration Date of this Agreement is no later than 12/31/2016
Project Type: Stormwater Facility

Project Short Description:
This project will improve water quality in the Spokane River through installation of water quality facilities including porous asphalt and bioretention facilities at Havana Street and 37th Avenue in the City of Spokane. This project will provide treatment for Total Dissolved Solids (TSS), Dissolved Copper, and Dissolved Zinc, and will also reduce flows to the Spokane River by increasing stormwater infiltration and providing stormwater detention.

Project Long Description:
Havana Street currently relies on passive stormwater management techniques. The majority of the roadway has gravel and/or native brush shoulders with some portions having sidewalk installed within the shoulder. Side streets to the west are sloped away from Havana and contribute no runoff. Side streets to the east are sloped towards Havana but managed by corner swales and/or dry wells; exceptions are Sumac Drive, 47th Court, and a small portion of Glenrose Road. Curb is sparsely installed and mainly found on the west side of the street, south of 42nd Avenue. Havana was constructed by Spokane County before the area was annexed by the RECIPIENT. While this area has developed and become more urban, the stormwater management has not been updated.
Grassed bioretention areas have been utilized extensively for stormwater management in the greater Spokane area for many years. As the inventory of these bioretention areas has grown, it has become more difficult for the RECIPIENT’s crews to maintain these facilities with decreasing budgets. This project provides an opportunity to see if porous asphalt bike lanes can be utilized as a stormwater treatment and detention area in lieu of standard bioretention areas. The porous asphalt will manage stormwater in the same space as the bicycle facility and provide efficient use of right-of-way space. This project may also provide information to develop a City standard to be used throughout the City. Street trees will also be planted to manage stormwater.

In addition to the pervious asphalt bike lanes, the project will include bioretention areas as a secondary facility should the pervious asphalt not infiltrate as expected. No curbs will be constructed. This is a different construction method than the RECIPIENT’s usual design standards. The secondary stormwater facility will receive runoff through dispersion. This will provide Low Impact Development (LID) and detention by not concentrating the runoff into inlets and curb cuts. The project is integrated with a Drinking Water SRF funded project to reduce costs through a shared project.

Overall Goal:
This project will help protect and restore water quality in Washington by reducing stormwater impacts from existing infrastructure and development.

A representative from ECOLOGY's Water Quality Program may contact the recipient to request this data. ECOLOGY may also conduct site interviews and inspections, and may otherwise evaluate the project, as part of this assessment.

K. Project Status Evaluation: ECOLOGY may evaluate the status of this project 18 months from the effective date of this agreement. ECOLOGY's Project Manager and Financial Manager will meet with the recipient to review spending trends, completion of outcome measures, and overall project administration and performance. If the recipient fails to make satisfactory progress toward achieving project outcomes, ECOLOGY may change the scope of work, reduce grant funds, or increase oversight measures.

2. Clean Water Act Section 319 Initial Data Reporting Sheet or the “Section 319 Initial Data Reporting” form in EAGL.

A. Disadvantaged Business Enterprise (DBE):

GENERAL COMPLIANCE, 40 CFR, Part 33 - The RECIPIENT agrees to comply with the requirements of EPA's Program for Utilization of Small, Minority and Women's Business Enterprises (MBE/WBE) in procurement under assistance agreements, contained in 40 CFR, Part 33.

FAIR SHARE OBJECTIVES, 40 CFR, Part 33, Subpart D - A RECIPIENT must negotiate with the appropriate EPA award official or his/her designee, fair share objectives for MBE and WBE participation in procurement under the financial assistance agreements.

Current Fair Share Objective/Goal - The dollar amount of this assistance agreement is over $250,000; or the total dollar amount of all of the RECIPIENT's non-TAG assistance agreements from EPA in the current fiscal year is over $250,000. The Washington State Department of Ecology has negotiated the following, applicable MBE/WBE fair share objectives/goals with EPA as follows:

MBE: SUPPLIES 8.00%; SERVICES 10.00%; EQUIPMENT 8.00%; CONSTRUCTION 10.00%
WBE: SUPPLIES 4.00%; SERVICES 4.00%; EQUIPMENT 4.00%; CONSTRUCTION 6.00%

Negotiating Fair Share Objectives/Goals, 40 CFR, Section 33.404 - If the RECIPIENT has not yet negotiated its MBE/WBE fair share objectives/goals, the RECIPIENT agrees to submit proposed MBE/WBE objectives/goals based on an availability analysis, or disparity study, of qualified MBEs and WBEs in their relevant geographic buying market for construction, services, supplies and equipment.

The RECIPIENT agrees to submit proposed fair share objectives/goals, together with the supporting availability analysis or disparity study, to the Regional MBE/WBE Coordinator within 120 days of its acceptance of the financial assistance award. EPA shall respond to the proposed fair share objective/goals within 30 days of receiving the submission. If proposed fair share objective/goals are not received within the 120 day time frame, the recipient may not expend its EPA funds for procurements until the proposed fair share objective/goals are submitted.

SIX GOOD FAITH EFFORTS, 40 CFR, Part 33, Subpart C - Pursuant to 40 CFR, Section 33.301, the RECIPIENT agrees to make the following good faith efforts whenever procuring construction, equipment, services and supplies under an EPA financial assistance agreement, and to ensure that sub-recipients, loan recipients, and prime contractors also comply. Records documenting compliance with the six good faith efforts shall be retained:

(a) Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State, Local and Government recipients, this shall include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.

(b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.

(c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For
Indian Tribal, State and Local Government recipients, this shall include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.

(d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.

(e) Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.

(f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraphs (a) through (e) of this section.

B. Funding Recognition and Outreach: In addition to Section 2.F of these Terms and Conditions, the RECIPIENT shall provide signage that informs the public that the project is funded by EPA. The signage shall contain the EPA logo and follow usage requirements available at http://www2.epa.gov/stylebook/using-epa-seal-and-logo. To obtain the appropriate EPA logo or seal graphic file, the RECIPIENT may send a request to their Ecology’s Financial Manager.

To increase public awareness of projects serving communities where English is not the predominant language, RECIPIENTS are encouraged to provide their outreach strategies communication in non-English languages. Translation costs for this purpose are allowable, provided the costs are reasonable.

The RECIPIENT shall use the following paragraph in all reports, documents, and signage developed under this agreement:

“This project has been funded wholly or in part by the United States Environmental Protection Agency under an assistance agreement to the Washington State Department of Ecology. The contents of this document do not necessarily reflect the views and policies of the Environmental Protection Agency, nor does the mention of trade names or commercial products constitute endorsement or recommendation for use.”

C. Data Reporting: The RECIPIENT must complete and submit the “Clean Water Act Section 319 Initial Data Reporting Sheet” to ECOLOGY’s Financial Manager with the signed agreement. The form is available in EAGL.

D. Load Reduction Reporting: The RECIPIENT shall complete and submit a “Clean Water Act Section 319 Load Reductions Reporting Form” to ECOLOGY’s Financial Manager by January 15 of each year and at project close-out. ECOLOGY may hold reimbursements until the RECIPIENT has submitted the completed form to the Financial Manager. This form is used to gather information on pollutant load reduction for each best management practice (BMP) installed as a part of this project. The form is available in EAGL.

E. Time Extension: The RECIPIENT may request a one-time extension for up to 12 months. However, the time extension cannot exceed the time limitation established in EPA’s assistance agreement. Laborers and mechanics employed by contractors and subcontractors shall be paid wages not less often than once a week and at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor.

The RECIPIENT shall obtain the wage determination for the area in which the project is located prior to issuing requests for bids, proposals, quotes or other methods for soliciting contracts (solicitation). These wage determinations shall be incorporated into solicitations and any subsequent contracts. The RECIPIENT shall ensure that the required EPA contract language regarding Davis-Bacon Wages is in all contracts and subcontracts in excess of $2,000. The RECIPIENT shall maintain records sufficient to document compliance with the Davis-Bacon Act, and make such records available for review upon request.

The RECIPIENT also agrees, by signing this agreement, to comply with State Prevailing Wages on Public Works, Chapter 39.12 RCW, as applicable. 2. The aggregate depreciated cost value of the facilities or property being transferred in any fiscal year comprises no more than three percent of the total assets of the Utility; or

3. The RECIPIENT receives from the transferee an amount equal to an amount which will be in the same proportion to the net amount of Senior Lien Obligations and this LOAN then outstanding (defined as the total amount outstanding less the amount of cash and investments in the bond and loan funds securing such debt) as the Gross Revenue of the Utility from the portion of the Utility sold or disposed of for the preceding year bears to the total Gross Revenue for that period.

4. Expressed written agreement by the DEPARTMENT,

The proceeds of any transfer under this paragraph must be used (1) to redeem promptly, or irrevocably set aside for the redemption of, Senior Lien Obligations and to redeem promptly the loan, and (2) to provide for part of the cost of additions to and betterments and extensions of the Utility.

Interest after Repayment Demand. From the time that ECOLOGY demands repayment of funds, amounts owed by the RECIPIENT to ECOLOGY shall accrue additional interest at the rate of one percent per month, or fraction thereof.

Accelerate Repayments. In the event of a default, ECOLOGY may, in its sole discretion, declare the principal of and interest on the loan immediately due and payable, subject to the prior lien and charge of any outstanding Senior Lien Obligation upon the Net Revenue. That is, the loan is not subject to acceleration so long as any Senior Lien Obligations are outstanding. Repayments not made immediately upon such acceleration will incur Late Charges.

Late Charges. All amounts due to ECOLOGY and not paid by the RECIPIENT by the Termination Payment Date or after acceleration following a default event, as applicable, shall incur late charges.

In the event of a default event and at the option of ECOLOGY, any personal property (equipment) acquired under this agreement may, in ECOLOGY’s sole discretion, become ECOLOGY’s property. In that circumstance, ECOLOGY shall reduce the RECIPIENT’s liability to repay money by an amount reflecting the fair value of such property.

Documents and Materials. If this agreement is terminated, all finished or unfinished documents, data studies, surveys,
drawings, maps, models, photographs, and reports or other materials prepared by the RECIPIENT shall, at the option of ECOLOGY, become ECOLOGY property. The RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

S. User-Charge System: The RECIPIENT certifies that it has the legal authority to establish and implement a user-charge system and shall adopt a system of user-charges to assure that each user of the utility shall pay its proportionate share of the cost of operation and maintenance, including replacement during the design life of the project.

In addition, the RECIPIENT shall regularly evaluate the user-charge system, at least annually, to ensure the system provides adequate revenues necessary to operate and maintain the utility, to establish a reserve to pay for replacement, to establish the required Loan Reserve Account, and to repay the loan.

RECIPIENT shall include time in their project timeline for ECOLOGY's review and approval process.

RECIPIENT shall acknowledge in the materials or documents that funding was provided by ECOLOGY.

19. PROGRESS REPORTING
a) RECIPIENT must satisfactorily demonstrate the timely use of funds by submitting payment requests and progress reports to ECOLOGY. ECOLOGY reserves the right to amend or terminate this Agreement if the RECIPIENT does not
document timely use of funds.

b) RECIPIENT must submit a progress report with each payment request. Payment requests will not be processed without a progress report. ECOLOGY will define the elements and frequency of progress reports.

c) RECIPIENT shall use ECOLOGY’s provided progress report format.

d) Quarterly progress reports will cover the periods from January 1 through March 31, April 1 through June 30, July 1 through September 30, and October 1 through December 31. Reports shall be submitted within thirty (30) days after the end of the quarter being reported.

e) RECIPIENT shall submit the Closeout Report within thirty (30) days of the expiration date of the project, unless an extension has been approved by ECOLOGY. RECIPIENT shall use the ECOLOGY provided closeout report format.

20. PROPERTY RIGHTS

a) Copyrights and Patents. When the RECIPIENT creates any copyrightable materials or invents any patentable property, the RECIPIENT may copyright or patent the same but ECOLOGY retains a royalty free, nonexclusive, and irrevocable license to reproduce, publish, recover, or otherwise use the material(s) or property, and to authorize others to use the same for federal, state, or local government purposes.

b) Publications. When the RECIPIENT or persons employed by the RECIPIENT use or publish ECOLOGY information; present papers, lectures, or seminars involving information supplied by ECOLOGY; or use logos, reports, maps, or other data in printed reports, signs, brochures, pamphlets, etc., appropriate credit shall be given to ECOLOGY.

c) Presentation and Promotional Materials. ECOLOGY shall have the right to use or reproduce any printed or graphic materials produced in fulfillment of this Agreement, in any manner ECOLOGY deems appropriate. ECOLOGY shall acknowledge the RECIPIENT as the sole copyright owner in every use or reproduction of the materials.

d) Tangible Property Rights. ECOLOGY's current edition of "Administrative Requirements for Recipients of Ecology Grants and Loans," shall control the use and disposition of all real and personal property purchased wholly or in part with funds furnished by ECOLOGY in the absence of state and federal statutes, regulations, or policies to the contrary, or upon specific instructions with respect thereto in this Agreement.

e) Personal Property Furnished by ECOLOGY. When ECOLOGY provides personal property directly to the RECIPIENT for use in performance of the project, it shall be returned to ECOLOGY prior to final payment by ECOLOGY. If said property is lost, stolen, or damaged while in the RECIPIENT's possession, then ECOLOGY shall be reimbursed in cash or by setoff by the RECIPIENT for the fair market value of such property.

f) Acquisition Projects. The following provisions shall apply if the project covered by this Agreement includes funds for the acquisition of land or facilities:

a. RECIPIENT shall establish that the cost is fair value and reasonable prior to disbursement of funds provided for in this Agreement.

b. RECIPIENT shall provide satisfactory evidence of title or ability to acquire title for each parcel prior to disbursement of funds provided by this Agreement. Such evidence may include title insurance policies, Torrens certificates, or abstracts, and attorney's opinions establishing that the land is free from any impediment, lien, or claim which would impair the uses intended by this Agreement.

g) Conversions. Regardless of the agreement expiration date, the RECIPIENT shall not at any time convert any equipment, property, or facility acquired or developed under this Agreement to uses other than those for which assistance was originally approved without prior written approval of ECOLOGY. Such approval may be conditioned upon payment to ECOLOGY of that portion of the proceeds of the sale, lease, or other conversion or encumbrance which monies granted pursuant to this Agreement bear to the total acquisition, purchase, or construction costs of such property.

21. RECORDS, AUDITS, AND INSPECTIONS

RECIPIENT shall maintain complete program and financial records relating to this Agreement, including any engineering documentation and field inspection reports of all construction work accomplished.

All records shall:

a) Be kept in a manner which provides an audit trail for all expenditures.
b) Be kept in a common file to facilitate audits and inspections.
c) Clearly indicate total receipts and expenditures related to this Agreement.
d) Be open for audit or inspection by ECOLOGY, or by any duly authorized audit representative of the State of Washington, for a period of at least three (3) years after the final grant payment or loan repayment, or any dispute resolution hereunder.

RECIPIENT shall provide clarification and make necessary adjustments if any audits or inspections identify discrepancies in the records.

ECOLOGY reserves the right to audit, or have a designated third party audit, applicable records to ensure that the state has been properly invoiced. Any remedies and penalties allowed by law to recover monies determined owed will be enforced. Repetitive instances of incorrect invoicing or inadequate records may be considered cause for termination.

All work performed under this Agreement and any property and equipment purchased shall be made available to ECOLOGY and to any authorized state, federal or local representative for inspection at any time during the course of this Agreement and for at least three (3) years following grant or loan termination or dispute resolution hereunder.

RECIPIENT shall provide right of access to ECOLOGY, or any other authorized representative, at all reasonable times, in order to monitor and evaluate performance, compliance, and any other conditions under this Agreement.

22. RECOVERY OF FUNDS
The right of the RECIPIENT to retain monies received as reimbursement payments is contingent upon satisfactory performance of this Agreement and completion of the work described in the Scope of Work.

All payments to the RECIPIENT are subject to approval and audit by ECOLOGY, and any unauthorized expenditure(s) or unallowable cost charged to this agreement shall be refunded to ECOLOGY by the RECIPIENT.

RECIPIENT shall refund to ECOLOGY the full amount of any erroneous payment or overpayment under this Agreement.

RECIPIENT shall refund by check payable to ECOLOGY the amount of any such reduction of payments or repayments within thirty (30) days of a written notice. Interest will accrue at the rate of twelve percent (12%) per year from the time ECOLOGY demands repayment of funds.

Any property acquired under this Agreement, at the option of ECOLOGY, may become ECOLOGY's property and the RECIPIENT's liability to repay monies will be reduced by an amount reflecting the fair value of such property.

23. SEVERABILITY
If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

24. STATE ENVIRONMENTAL POLICY ACT (SEPA)
RECIPIENT must demonstrate to ECOLOGY's satisfaction that compliance with the requirements of the State Environmental Policy Act (Chapter 43.21C RCW and Chapter 197-11 WAC) have been or will be met. Any reimbursements are subject to this provision.

25. SUSPENSION
When in the best interest of ECOLOGY, ECOLOGY may at any time, and without cause, suspend this Agreement or
any portion thereof for a temporary period by written notice from ECOLOGY to the RECIPIENT. RECIPIENT shall resume performance on the next business day following the suspension period unless another day is specified by ECOLOGY.

26. SUSTAINABLE PRACTICES
In order to sustain Washington’s natural resources and ecosystems, the RECIPIENT is fully encouraged to implement sustainable practices and to purchase environmentally preferable products under this Agreement.

a) Sustainable practices may include such activities as: use of clean energy, use of double-sided printing, hosting low impact meetings, and setting up recycling and composting programs.

b) Purchasing may include such items as: sustainably produced products and services, EPEAT registered computers and imaging equipment, independently certified green cleaning products, remanufactured toner cartridges, products with reduced packaging, office products that are refillable, rechargeable, and recyclable, and 100% post-consumer recycled paper.

a) For Cause
ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

b) For Convenience
ECOLOGY may terminate for convenience this Agreement, in whole or in part, for any reason when it is the best interest of ECOLOGY, with a thirty (30) calendar days prior written notification to the RECIPIENT. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY’s ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this agreement, ECOLOGY, at its sole discretion, may elect to terminate the agreement, in whole or part, or renegotiate the agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions.
If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.

c) By Mutual Agreement
ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

d) In Event of Termination
All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.
Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

28. THIRD PARTY BENEFICIARY
RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such.

29. WAIVER
Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.

Summary (Background)
On September 28, 2015 an agenda was presented to Council for the purchase of two Wavetrionix Smartsensor Radar Detection Systems. Subject
Purchase of Wavetronix Smartsensor radar detection systems from Advanced Traffic Products using State Contract 03709.

Background
The City of Spokane Signal and Lighting intends to upgrade eighteen year-old video detection systems with radar detection systems. Existing video detection systems have reached the end of useful life and some have failed. Wavetronix Smartsensor radar detection systems have demonstrated reliability in detecting motorized and non-motorized vehicles at the stop bar.

Signal & Lighting crews will install these systems.

Impact
The total material cost to the Street Department for six (6) radar detection systems is approximately $128,500.

Action
Recommend approval.

Funding
Six (6) existing video detection systems are in need of upgrade. Signal & Lighting intends to replace two (2) systems in 2015 and four (4) or fewer in 2016, depending upon availability of funds. Funding source is Signal and Lighting’s annual operations and maintenance budget. Availability of funds is dependent upon unplanned maintenance needs.
Upriver Dam Spillway Rehabilitation Phase II. Construction will be for the downstream concrete apron, spillway drains, energy dissipation blocks, pier abutment steel plate anchoring, and trunnion arm reinforcement awarded to McMillen LLC (Boise, ID).

**Summary (Background)**

The Upriver Dam Spillway Rehabilitation Project includes the addition of a reinforced concrete topping slab at the spillway secondary apron, replacement of the reinforced concrete baffle blocks at the primary and secondary aprons, installation of apron drains, and structural reinforcing of the spillway radial gates. The project is scheduled to be constructed during the 2016 low flow season, which typically starts in mid-July. The construction duration is estimated to be approximately 3-5 months.

Continuation of Wording, Summary, Budget, and Distribution

**Agenda Wording**

**Summary (Background)**

This rehabilitation work will increase the factor of safety and extend the life of the spillway. By replacing the energy dissipation blocks and anchoring the steel plates, annual maintenance and repairs will be reduced. Drains are a critical part of maintaining the stability of the spillway. The new drainage system that will be constructed will reduce the possibility of winnowing of fine grain materials from beneath the spillway. The FERC has been notified of the scope of work and the City is waiting for their reply. The project will be funded by the Integrated Capital Budget. The engineer's estimate for this project is $1.7 million, including tax. Sealed Bids were opened on 11/2/15 with ten (10) responses received. McMillen is the lowest responsive bidder.

Value Blanket for the purchase of Activated Carbon for the Waste to Energy Facility. $70,000.00 including taxes.

Summary (Background)
The Title V Air Operating Permit for the WTE facility requires that the pollution control equipment reduce mercury and dioxin and furans that could potentially be released into the atmosphere. Activated Carbon injected into the flue gas aids in this reduction and is required to be in compliance with the Permit. If the pollution control equipment is not operating, the WTE facility would have to shut down or risk violating permit conditions or potentially causing harm to the environment.

1.0 General Workplace Safety

1.1 Zero Tolerance for Unsafe Acts, Behaviors and Conditions

- Contractors working at Wheelabrator facilities must understand that safety is paramount to the success of all work and that poor safety work practices will not be tolerated. Safety performance is a factor used when selecting Contractors for future work. Wheelabrator requires its Contractors to properly supervise their employees, agents and sub-contractors to ensure strict compliance with applicable federal, state and local regulations and Wheelabrator Safety Rules at all times. Violators may be removed from a facility.

1.2 Contractor Safety and Environmental Evaluations

- Contractors must ensure that Wheelabrator’s safety and environmental requirements are clearly communicated to all Contractors’ employees for the duration of the work. Contractors are responsible for designating one person per shift to provide safety and environmental supervision for their own employees, agents and sub-contractors, and that designated person or their designee must remain on-site while the Contractor is working.

- If Wheelabrator observes safety hazards or environmental incidents caused by a Contractor which pose an imminent danger to people or the environment, Wheelabrator will stop the work and require the Contractor’s supervisor to take immediate corrective action to eliminate the hazard(s).

- Contractor’s employees who demonstrate an attitude of indifference towards safety or the environment may result in Wheelabrator staff removing them from the site or terminating the contract.

- If Wheelabrator observes safety hazards or environmental incidents caused by a Contractor that do not pose an imminent danger, the hazards will be reported to the Contractor’s supervisor and to the Wheelabrator Facility Management.

- Contractors or Contractor’s employees who fail to perform work in compliance with the contract requirements may be permanently removed from the site.

  - When cleaning up around a conveyor, always shovel in the direction the belt is moving.

4.0 Safe Work Procedures
4.1 Chemical Unloading and Transfer
- All chemical unloading shall comply with Wheelabrator site-specific chemical unloading procedures, which specifies PPE for those involved and verification the closest eyewash station to the unloading is operating correctly. Contact the Wheelabrator Control Room before unloading any delivery.
- All deliveries cannot be made unless they are supervised by Wheelabrator personnel.

4.2 Hazard Communications
- Contractors will have MSDS for all chemicals they bring on-site. All MSDS must be available on-site for Wheelabrator review. Contractors will follow the facility chemical storage and disposal requirements; when in doubt, ask a Wheelabrator supervisor for clarification.
- Contractors must coordinate with the facility before storing any hazardous materials. Information such as: the quantity, location to drains and material compatibility will be addressed.
- Containers, lines and tanks are labeled at the facility. If you have a question, ask the Control Room.
- MSDSs for all hazardous materials used on the site by Wheelabrator are available through Wheelabrator’s Internal Document Control System –O-Box. If you have a question about a hazardous material used at the site, ask the Control Room.

4.3 Lockout/Tagout (LOTO) Permit Authorization
- Proper lockout permit/authorization is required for all jobs with hazardous energy sources.
- Obtain proper authorization or lockout permit from the Control Room.
- At a minimum, a Contractor’s supervisor shall use an individual lock on the lock box with a tag to identify it as a Contractor’s lock for each work crew. Contractor’s employees should have some means of controlling access to the key of that lock following Contractor’s LO/TO procedure.
- All guards and safety interlocks shall be replaced when work is completed.
- Notify the Control Room when work is completed.

4.4 Confined Spaces
- Permit Required Confined Spaces (PRCSs) exist at the facility and have been labeled. Contractors will not work in an area that has been labeled as a PRCS or which
Contractors believe is a PRCS without first notifying the Control Room and obtaining proper authorization (i.e., Wheelabrator-issued PRCS permit). PRCSs that have been posted as a reclassified “Non-Permit Required” space do not require authorization to enter.

- A PRCS permit/reclassification is required for all confined space work. A permit/reclassification must be posted at the job location. When the work is completed, Contractors must return the permit to the Control Room where Contractors will be required to complete the “Contractor Debriefing” section.

- Attendant and retrieval devices are the responsibility of Contractors and required for all PRCS entry jobs unless alternative, specific arrangements have been made with the facility.

- Wheelabrator evaluates PRCSs for its employees. Contractors must have their own program in place, including a means for rescue, unless specific arrangements have been made with the facility for a different means of rescue. In all cases, Contractor rescue procedures must be coordinated with Wheelabrator’s procedures.

4.5 Tools and Equipment
- All tools and equipment must be in good condition with safety devices.

- Do not use defective tools or equipment.

- Contractors are not allowed to use Wheelabrator tools or equipment unless and until the equipment has been specified in the Contractor’s Corporate Declaration Attachment C-1.

- Compressed air cannot be used for cleaning (e.g., clothing, housekeeping).

4.6 Bins/Hoppers/Bunkers/Silos
- Never open doors or covers without authorization.

- Always assume all ash is hot.

4.7 Jacking
- Inspect the jack before using it.

- Do not use a jack that is leaking fluid.

- The jack set-up shall be stable before lifting the load.

4.8 Power Washers
- Electric power washers shall not be used unless GFCI-protected.
• Gasoline-, diesel- or propane-powered engines shall not be used inside building structures because of the exhaust emissions they generate. The emissions can accumulate and cause health issues. Where such engines are required by Contractors, they must first receive Wheelabrator authorization before beginning use.

• Housekeeping is a continuous effort; Contractors are required to keep work areas clean and orderly.

5.0 Electrical Safety

5.1 Electrical

• The Control Room issues Lockout/Tagout permits for electrical work.

• Do not leave exposed conductors.

• Only “Qualified” persons knowledgeable in the construction and operation of electric power generation and transmission equipment and the associated hazards may work on exposed energized lines or equipment operating at 50 volts or more.

• Keep areas in front of electrical panels clear for at least 36 inches.

• All electrical distribution panels, breakers, disconnects, switches, and junction box doors and covers shall be kept closed unless work requiring the doors or covers to be open is in progress.

• Use only non-conductive (such as plastic-cased) flashlights around electrical lines and equipment.

• Do not alter safety features of any electrical equipment.

• Use only 3-wire industrial extension cords rated for the work environment conditions. All extension cords must be in good condition. Spliced extension cords are not permitted.

• All cord- and plug-connected equipment must be either double insulated or equipped with ground fault circuit interrupters (GFCIs).

• Avoid placing extension cords or welding leads in contact with wet areas; avoid creating trip hazards (e.g., string overhead where appropriate); avoid doorways and travel areas.

• Do not use wire to support welding leads.
• High voltage and live line work must be coordinated with the Control Room and local power utility.

6.0 Vehicle and Equipment Operation

6.1 Mobile Equipment

• Contractors are not permitted to use any Wheelabrator equipment unless and until such equipment has been specified in the Contractor's Corporate Declaration Attachment C-1. If Contractor's employees are authorized to use Wheelabrator equipment, Contractor shall be responsible for training such employees to properly operate such equipment, and ensuring that such employees are familiar with all operating and safety procedures associated with the equipment.

• Only qualified personnel shall operate equipment.

• Reverse alarms shall be operable on all equipment.

• All equipment shall be operated at a safe speed and as designated by the facility.

• No employees shall be exposed to "pinch point" locations.

• No persons are permitted to ride on the outside of vehicles.

• No mobile equipment is permitted on the site without a restraining device (e.g., seatbelt). Seatbelts must be used at all times while operating equipment.

6.2 Excavations

• All excavations shall be covered or barricaded to restrict access.

• Excavated materials must be placed or stored at least 2 feet from the excavation and be safely sloped.

• Shoring is required for trenches over 5 feet deep.

6.3 Hoisting and Rigging

• Good rigging practices are to be used; no unstable loads are permitted.

• Clear communication between the signalperson and the operator must be maintained. If visual contact cannot be maintained, continuous radio communications shall be required. If continuous communications cannot be maintained, stop operations until the communications are re-established. Only designated signal persons who have documented 3rd party or employer certified qualifications shall direct movement and give signals.
• Hand signals to crane and derrick operators shall be those prescribed by ANSI for the type of crane in use. An illustration of the signals used by the contractor shall be with them on-site.

• Crane work zones shall be designated. Where power lines are within designated work zones, encroachment prevention measures shall be implemented.

• Walking under loads is prohibited.

• Never put yourself in pinch point positions, such as between moving and stationary objects—particularly when hoisting materials or working around mobile equipment.

• No persons are permitted in the boiler during large/heavy lifts. These include, but are not limited to: water wall and superheater partial and full pendants. Dutchmen are not considered heavy lifts.

• Allowing persons to be inside the furnace during rigging operations working under the bullnose (i.e., ram feeder) are not permitted during heaving lifting operations.

• When two or more hoisting machines are lifting the same load, only one designated signal person will direct the movements. The operator shall acknowledge an emergency stop signal from anyone. The operator shall stop the lift if a signal is not understood.

• "Tag lines" must be used to control large loads.

• Only those slings and chains that have been inspected and are free from defects shall be used at a facility.

• All hoist and rigging, lifting chains and slings must have visible load rating tags.

• Never attach rigging or any lifting device to a stairway or platform railing (such as handrails/guardrails) for purposes of lifting or supporting a load.

• Do not allow the load to exceed the rated capacity of any individual component.

• Do not expose nylon slings to sharp edges or hot materials.

• Chain falls and come-a-longs must have a functional safety latch.

• Contractors are not permitted to use Wheelabrator hoisting or rigging equipment unless and until the equipment has been specified in the Contractor's Corporate Declaration Attachment C-1.
7.0 Maintenance Activities: Hot Work

7.1 Hot Work-Fire Safety

- A Hot Work Permit is required for all jobs involving welding, cutting, heating, grinding, open flames, high temperatures, or other activities that generate sparks except for those jobs occurring in areas that have been designated by the facility as non-permit areas. A Hot Work Permit must be posted on the job.

- Obtain Hot Work Permits from the Control Room. When the work is completed, return the permit to the Control Room.

- Where practical, all combustibles shall be relocated beyond a 35 ft radius from the work area. Where relocation is impractical, combustibles shall be protected with metal or flameproof covers.

- Do not allow solvents or other flammable material in areas where Hot Work is being performed.

- Grate surfaces or openings which could allow cutting and welding sparks or spatter to drop onto lower levels shall be covered with fire-resistant material. Where not feasible, red-tape off the area or use a fire watch.

- Persons performing fire watch duties shall:
  - Know and understand the communication method to be used for reporting a fire
  - Not perform other tasks that will interfere with the primary duty to monitor fires
  - When necessary, warn others of Hot Work activities and prevent unauthorized entry
  
  - Remain at the Hot Work area for at least 1 hour after work is complete unless specified by the hot work permit
  
  - Have fire extinguishing equipment capable of extinguishing a Hot Work-generated fire and shall be available within 10 seconds of unobstructed travel time from the Hot Work.

- Cylinders must be used upright and secure at all times. Cylinder sling/cradle is required for hoisting.

- Spare cylinders of oxygen and acetylene, when not used within a 24-hour period, shall be stored separately at least 20 feet apart or by a non-combustible barrier at least 5 feet high having a fire-resistance rating of at least 1/2 hour.
• All grating and floor openings must be covered to prevent hot slag from falling to the floors below.

• All stored cylinders shall be secured with caps on.

• Smoking is permitted only in designated areas.

7.2 Welding

• Do not weld without a Hot Work Permit.

• It is the Contractor’s responsibility to prevent hot slag or sparks from contacting persons or equipment.

• Unless cylinder carts are equipped with a 5-foot high separating plate specifically engineered to meet a 1/2 hour fire-resistance rating and prevent the spread of fire, remove regulators and cap cylinders and return them to storage if torch sets are to remain idle for periods greater than 24 hours.

• DO NOT use torch sets unless combination reverse-flow check valves/flashback arrestors are installed on BOTH fuel gas and oxygen lines at the torch AND regulators.

8.0 Emergency Response

8.1 Communications

In the event of an emergency, medical or otherwise, the Contractor is to contact the Control Room using the plant phone or paging system. In general, Contractors should not call 911 using a personal cellular phone.

8.2 Emergency Evacuations

• The general emergency alarm will be sounded for all emergencies requiring evacuation. When this alarm sounds, leave the facility immediately.

• If an emergency alarm sounds, know your escape route. Do not use the elevator.

• Use stairwells and follow the exit signs.

• The primary assembly point for any evacuation is at the administrative building parking lot, unless otherwise instructed. Each facility has a secondary evacuation assembly point. When the primary assembly point cannot be used, the facility will instruct the Contractor where to meet.
9.0 Environmental

- Leaks or spills to the ground are not permitted. If you observe a leak or spill of any quantity, immediately notify the Control Room.

- All temporary fuel and chemical storage tanks shall have a means of secondary containment.

- Never release chemicals, oils, fuels, solvents, etc. into plant drains, sinks or sewers.

- No hazardous waste is to be generated unless specified in the Contractor’s Service Agreement with Wheelabrator and detailed in Attachment A-Scope of Services.

- Do not dispose of waste generated on-site onto the Tipping Floor unless disposal has been previously approved by facility management.

- For waste materials generated by Contractors, use the drums or containers provided or approved by Wheelabrator. Do not store waste at a Wheelabrator facility without notifying plant management of it type, quantity and location. Do not remove waste materials from the Wheelabrator facility.

- When performing work that uses liquid chemicals or oil within 20 feet of drains, install temporary drain covers before beginning.

- Clean tools and equipment of ash inside the plant structure before leaving property.

- Notify plant management before undertaking any work on equipment that might release ash to the environment (e.g., conveyors, air pollution control equipment). This includes any outdoor work where ash could be released as fugitive dust or released to the ground (including release as a wastewater or wash water component). The Contractor’s Scope of Services will specify the controls necessary to prevent ash releases to the environment. For outdoor work, temporary enclosure will be constructed to prevent potential releases.

- Immediately notify Wheelabrator management if in the course of your work outside the building structures, ash is released to the ground or causes visible dust emissions.

- Contractors must not dispose of ash or otherwise remove ash from the plant site.

- Used boiler tubes, used conveyor parts and other used equipment partially coated with ash must be stored indoors or if stored outdoors, must be placed on pallets and covered to prevent ash dispersion and stormwater contact.
- If outdoors, ash containers must be covered and be leak-tight (e.g., roll-off boxes, bins, wash tanks, etc.).

- Hazardous Materials including Hazardous Waste

  - Many waste materials generated during the course of work at Wheelabrator facilities has the potential for being classified, through testing and analysis, as a hazardous waste. Contractor Health and Safety Programs required in the Service Agreement address the handling of these hazardous waste materials.

  - For Companies providing spill response (containment) and clean-up of materials determined to be a hazardous waste must be handled by individuals who have received training in accordance with State and Federal Hazardous Waste Regulations (40 CFR 265.16 and OSHA Standard 1910.120 (q) or (p)(8)).

  - Trained contractors will handle hazardous waste as described in the Scope of Services, Attachment A, at Wheelabrator facilities by placing the material into Wheelabrator approved or provided containers and then moving them to an approved on-site storage location as specified by Plant Management. At no time shall any hazardous waste be placed into storage or removed from a Wheelabrator facility without authorization.

  - Contractors are required to inform Wheelabrator site Management during the EHS orientation if they anticipate that their work will generate hazardous waste onsite. Contractors are required to inform Wheelabrator site Management when they actually generate any hazardous waste (notify during same shift that waste is generated). For multi-day jobs where hazardous waste generation is expected over an extended period (e.g., entire bag house change out) then only an initial notification of hazardous waste generation is required.

Employers report and pay premiums each quarter based on hours of employee work already performed, and are liable for premiums found later to be due. Industrial insurance accounts have no policy periods, cancellation dates, limitations of coverage or waiver of subrogation (See RCW 51.12.050 and 51.16.190).

Subject
The CHHS Board Evaluation and Review Committee recommends allocations to multiple projects (see attached) under the Homeless Housing Operations and Services (HHOS) RFP. Funded projects will support an integrated system of housing assistance that supports Spokane’s Strategic Plan to End Homelessness through innovative practices that minimize barriers to program entry and focus on permanent housing options for clients.

Background
The HHOS RFP combines federal, state and local homeless and human services resources into a single grant opportunity. Funding sources include HUD Emergency Solutions Grant, Washington State Department of Commerce Consolidated Homeless Grant, City of Spokane Homeless Housing Assistance Act funds, and City of Spokane Human Services Funding. The HHOS RFP was developed so applications would be reviewed and ranked by housing components: The HHOS Funding Notice included a description of each of the eight housing interventions, the qualities of high performing projects within that component, required performance measures and links to best practice models.

Panels for each housing component were created to review and rank applications by project type. This allowed for expertise in the review panel by grouping the applications by housing component and comparing similar project types to one another. Panels consisted of members of the CHHS RFP Review Committee, CoC Advisory Committee members with no conflicts of interest, and community members with expertise in the subject area. In addition to panel review CHHS and GMFA staff performed a risk assessment and review of each application, which was part of the ranking process.

Reductions in anticipated funding from Washington State Department of Commerce Consolidated Homeless Grant resulted in funding below the recommended allocations.

The CHHS Board approved the funding recommendations on 11/4/15.

Impact
This project will fund 25 new and existing projects serving the homeless population, providing essential services to vulnerable households. The projects support strategies in Spokane’s Plan to End Homelessness and meet our community goals of ending homelessness.

Action
The CHHS Board asks that City Council approve its recommendation as detailed in the attachment to multiple agencies and allow CHHS to contract with funded agencies for the contract period 1/1/16-6/30/17.

Consultant master agreements

Background
Engineering Services has master agreements with various consulting firms for specialized engineering services (structural, geotech, etc.), landscape architecture and real estate acquisition. Some of those agreements are expiring at the end of this year. Also, DOT is requiring separate agreements with consultants for FHWA funded projects. Therefore, Engineering Services is in the process of advertising various requests for qualifications (RFQs) to solicit statements of qualifications from interested consultants. The following RFQs are being advertised:

- Geotechnical Engineering – Federal Aid Projects
- Geotechnical Engineering – Non-Federal Aid Projects
- Landscape Architect – Federal Aid Projects
- Landscape Architect – Non-Federal Aid Projects
- Cultural Resource Consultant – Federal Aid Projects
- Right of Way Consultant – Federal Aid Projects
- Surveying – Federal Aid Projects

Consultants will be selected on the basis of qualifications as defined in the RFQ. One consultant will be selected for each of the above listed RFQs and a master agreement prepared. Each master agreement will be brought to council for approval. Each master agreement will be for 2 years with an optional 1 year extension and each will be for $200,000 to $400,000. Costs incurred under each of these contracts will be covered by individual public works projects (e.g., street/sidewalk projects, water/sewer pump stations, etc.).

The $200,000 to $400,000 contract amount is an estimate of the amount of work which would be required over the two to three year life of each contract. Consultants will be assigned to work on specific projects (street/sidewalk, pump stations, etc.) ranging from approx. $5,000 to $50,000, the total of which will be limited to the amount of the master contract.

Action
This information is being provided for background information.

Funding
Costs incurred under each of these contracts will be covered by individual public works projects.

A. Hourly Rates: Hourly rates are comprised of the following elements - Direct (Raw) Labor, Indirect Cost Rate, and Fixed Fee (Profit). The CONSULTANT shall be paid by the AGENCY for work done, based upon the negotiated hourly rates shown in Exhibits “D” and “E” attached hereto and by reference made part of this AGREEMENT. These negotiated hourly rates will be accepted based on a review of the CONSULTANT’s direct labor rates and indirect cost rate computations and agreed upon fixed fee. The accepted negotiated rates shall be memorialized in a final written acknowledgement between the parties. Such final written acknowledgement shall be incorporated into, and become a part of, this AGREEMENT. The initially accepted negotiated rates shall be applicable from the approval date, as memorialized in a final written acknowledgement, to 180 days following the CONSULTANT’s fiscal year end (FYE) date.

The direct (raw) labor rates and classifications, as shown on Exhibits “D” and “E” shall be subject to renegotiations for each subsequent twelve (12) month period (180 days following FYE date to 180 days following FYE date) upon written request of the CONSULTANT or the AGENCY. The written request must be made to the other party within ninety (90) days following the CONSULTANT’s FYE date. If no such written request is made, the current direct (raw) labor rates and classifications as shown on Exhibits “D” and “E”, will remain in effect for the twelve (12) month period.

Conversely, if a timely request is made in the manner set forth above, the parties will commence negotiations to determine the new direct (raw) labor rates and classifications that will be applicable for the twelve (12) month period. Any agreed to renegotiated rates shall be memorialized in a final written acknowledgement between the parties. Such final written acknowledgement shall be incorporated into, and become a part of, this AGREEMENT. If requested, the CONSULTANT shall provide current payroll register and classifications to aid in negotiations. If the parties cannot reach an agreement on the direct (raw) labor rates and classifications, the AGENCY shall perform an audit of the CONSULTANT’s books and records to determine the CONSULTANT’s actual costs. The audit findings will establish the direct (raw) labor rates and classifications that will be applicable for the twelve (12) month period.

The fixed fee as identified in Exhibits “D” and “E” shall represent a value to be applied throughout the life of the AGREEMENT.

The CONSULTANT shall submit annually to the AGENCY an updated indirect cost rate within 180 days of the close of its fiscal year. An approved updated indirect cost rate shall be included in the current fiscal year rates under this AGREEMENT, even if/when other components of the hourly rate are not renegotiated. These rates will be applicable for the twelve (12) month period. At the AGENCY’s option, a provisional and/or conditional indirect cost rate may be negotiated. This provisional or conditional indirect rate shall remain in effect until the updated indirect cost rate is completed and approved. Indirect cost rate costs incurred during the provisional or conditional period will not be adjusted. The CONSULTANT may request an extension of the last approved indirect cost rate for the twelve (12) month period. These requests for provisional indirect cost rate and/or extension will be considered on a case-by-case basis, and if granted, will be memorialized in a final written acknowledgement.

The CONSULTANT shall maintain and have accessible support data for verification of the components of the hourly rates, i.e., direct (raw) labor, indirect cost rate, and fixed fee (profit) percentage. The CONSULTANT shall bill each employee’s actual classification, and actual salary plus indirect cost rate plus fixed fee.

Agreement Number:
B. Direct Non-Salary Costs: Direct Non-Salary Costs will be reimbursed at the actual cost to the CONSULTANT. These charges may include, but are not limited to, the following items: travel, printing, long distance telephone, supplies, computer charges and fees of sub-consultants. Air or train travel will be reimbursed only to lowest price available, unless otherwise approved by the AGENCY. The CONSULTANT shall comply with the rules and regulations regarding travel costs (excluding air, train, and rental car costs) in accordance with the WSDOT’s Accounting Manual M 13-82, Chapter 10 – Travel Rules and Procedures, and all revisions thereeto. Air, train and rental card costs shall be reimbursed in accordance with 48 Code of Federal Regulations (CFR) Part 31.205-46 “Travel Costs.” The billing for Direct Non-salary Costs shall include an itemized listing of the charges directly identifiable with these SERVICES. The CONSULTANT shall maintain the original supporting documents in their office. Copies of the original supporting documents shall be supplied to the STATE upon request. All above charges must be necessary for the SERVICES provided under this AGREEMENT.

C. Maximum Amount Payable: The Maximum Amount Payable by the AGENCY to the CONSULTANT under this AGREEMENT shall not exceed the amount shown in the heading of this AGREEMENT on page one (1). The Maximum Amount Payable does not include payment for extra work as stipulated in section XIII, “Extra Work.” No minimum amount payable is guaranteed under this AGREEMENT.

D. Monthly Progress Payments: Progress payments may be claimed on a monthly basis for all costs authorized in A and B above. The monthly billings shall be supported by detailed statements for hours expended at the rates established in Exhibit “D,” including names and classifications of all employees, and billings for all direct non-salary expenses. To provide a means of verifying the billed salary costs for the CONSULTANT’s employees, the AGENCY may conduct employee interviews. These interviews may consist of recording the names, titles, salary rates, and present duties of those employees performing work on the SERVICES at the time of the interview.

E. Final Payment: Final Payment of any balance due the CONSULTANT of the gross amount earned will be made promptly upon its verification by the AGENCY after the completion of the SERVICES under this AGREEMENT, contingent upon receipt of all PS&E, plans, maps, notes, reports, electronic data, and other related documents which are required to be furnished under this AGREEMENT. Acceptance of such Final Payment by the CONSULTANT shall constitute a release of all claims for payment, which the CONSULTANT may have against the AGENCY unless such claims are specifically reserved in writing and transmitted to the AGENCY by the CONSULTANT prior to its acceptance. Said Final Payment shall not, however, be a bar to any claims that the AGENCY may have against the CONSULTANT or to any remedies the AGENCY may pursue with respect to such claims.

The payment of any billing will not constitute agreement as to the appropriateness of any item and at the time of final audit all required adjustments will be made and reflected in a final payment. In the event that such final audit reveals an overpayment to the CONSULTANT, the CONSULTANT will refund such overpayment to the AGENCY within thirty (30) calendar days of notice of the overpayment. Such refund shall not constitute a waiver by the CONSULTANT for any claims relating to the validity of a finding by the AGENCY of overpayment. Per WSDOT’s “Audit Guide for Consultants,” Chapter 23 “Resolution Procedures,” the CONSULTANT has twenty (20) working days after receipt of the final Post Audit to begin the appeal process to the AGENCY for audit findings.

F. Inspection of Cost Records: The CONSULTANT and their sub-consultants shall keep available for inspection by representatives of the AGENCY and the United States, for a period of six (6) years after receipt of final payment, the cost records and accounts pertaining to this AGREEMENT and all items related to or bearing upon these records with the following exception: if any litigation, claim or audit arising out of, in connection with, or related to this AGREEMENT is initiated before the expiration of the six (6) year period, the cost records and accounts shall be retained until such litigation, claim, or audit involving the records is completed.

An interim or post audit may be performed on this AGREEMENT. The audit, if any, will be performed by the State Auditor, WSDOT’s Internal Audit Office and/or at the request of the AGENCY’s Project Manager.

Agreement Number:
VI. Sub-Contracting

The AGENCY permits subcontracts for those items of SERVICES as shown in Exhibit “A” attached hereto and by this reference made part of this AGREEMENT.

The CONSULTANT shall not subcontract for the performance of any SERVICE under this AGREEMENT without prior written permission of the AGENCY. No permission for subcontracting shall create, between the AGENCY and sub-consultant, any contract or any other relationship.

Compensation for this sub-consultant SERVICES shall be based on the cost factors shown on Exhibit “E” attached hereto and by this reference made part of this AGREEMENT.

The SERVICES of the sub-consultant shall not exceed its maximum amount payable identified in each sub-consultant cost estimate unless a prior written approval has been issued by the AGENCY.

All reimbursable direct labor, indirect cost rate, direct non-salary costs and fixed fee costs for the sub-consultant shall be negotiated and substantiated in accordance with section V “Payment Provisions” herein and shall be memorialized in a final written acknowledgement between the parties.

All subcontracts shall contain all applicable provisions of this AGREEMENT, and the CONSULTANT shall require each sub-consultant or subcontractor, of any tier, to abide by the terms and conditions of this AGREEMENT. With respect to sub-consultant payment, the CONSULTANT shall comply with all applicable sections of the STATE’s Prompt Payment laws as set forth in RCW 39.04.250 and RCW 39.76.011.

The CONSULTANT, sub-recipient, or sub-consultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this AGREEMENT. The CONSULTANT shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the CONSULTANT to carry out these requirements is a material breach of this AGREEMENT, which may result in the termination of this AGREEMENT or such other remedy as the recipient deems appropriate.

VII. Employment and Organizational Conflict of Interest

The CONSULTANT warrants that they have not employed or retained any company or person, other than a bona fide employee working solely for the CONSULTANT, to solicit or secure this contract, and that it has not paid or agreed to pay any company or person, other than a bona fide employee working solely for the CONSULTANT, any fee, commission, percentage, brokerage fee, gift, or any other consideration, contingent upon or resulting from the award or making of this contract. For breach or violation of this warrant, the AGENCY shall have the right to annul this AGREEMENT without liability or, in its discretion, to deduct from this AGREEMENT price or consideration or otherwise recover the full amount of such fee, commission, percentage, brokerage fee, gift, or contingent fee.

Any and all employees of the CONSULTANT or other persons while engaged in the performance of any work or services required of the CONSULTANT under this AGREEMENT, shall be considered employees of the CONSULTANT only and not of the AGENCY, and any and all claims that may arise under any Workmen’s Compensation Act on behalf of said employees or other persons while so engaged, and any and all claims made by a third party as a consequence of any act or omission on the part of the CONSULTANT’s employees or other persons while so engaged on any of the work or services provided to be rendered herein, shall be the sole obligation and responsibility of the CONSULTANT.

The CONSULTANT shall not engage, on a full- or part-time basis, or other basis, during the period of this AGREEMENT, any professional or technical personnel who are, or have been, at any time during the period of this AGREEMENT, in the employ of the United States Department of Transportation or the AGENCY, except regularly retired employees, without written consent of the public employer of such person if he/she will be working on this AGREEMENT for the CONSULTANT.

Agreement Number:
VIII. Nondiscrimination

During the performance of this AGREEMENT, the CONSULTANT, for itself, its assignees, sub-consultants, subcontractors and successors in interest, agrees to comply with the following laws and regulations:

- Title VI of the Civil Rights Act of 1964
  (42 U.S.C. Chapter 21 Subchapter V § 2000d through 2000d-4a)
- Federal-aid Highway Act of 1973
  (23 U.S.C. Chapter 3 § 324)
- Rehabilitation Act of 1973
  (29 U.S.C. Chapter 16 Subchapter V § 794)
- Age Discrimination Act of 1975
  (42 U.S.C. Chapter 76 § 6101 et. seq.)
- Civil Rights Restoration Act of 1987
  (Public Law 100-259)
- American with Disabilities Act of 1990
  (42 U.S.C. Chapter 126 § 12101 et. seq.)
- 23 CFR Part 200
- 49 CFR Part 21
- 49 CFR Part 26
- RCW 49.60.180

In relation to Title VI of the Civil Rights Act of 1964, the CONSULTANT is bound by the provisions of Exhibit “F” attached hereto and by this reference made part of this AGREEMENT, and shall include the attached Exhibit “F” in every sub-contract, including procurement of materials and leases of equipment, unless exempt by the Regulations or directives issued pursuant thereto.

IX. Termination of Agreement

The right is reserved by the AGENCY to terminate this AGREEMENT at any time with or without cause upon ten (10) days written notice to the CONSULTANT.

In the event this AGREEMENT is terminated by the AGENCY, other than for default on the part of the CONSULTANT, a final payment shall be made to the CONSULTANT for actual hours charged at the time of termination of this AGREEMENT, plus any direct non-salary costs incurred up to the time of termination of this AGREEMENT.

No payment shall be made for any SERVICES completed after ten (10) days following receipt by the CONSULTANT of the notice to terminate. If the accumulated payment made to the CONSULTANT prior to Notice of Termination exceeds the total amount that would be due when computed as set forth in paragraph two (2) of this section, then no final payment shall be due and the CONSULTANT shall immediately reimburse the AGENCY for any excess paid.

If the services of the CONSULTANT are terminated by the AGENCY for default on the part of the CONSULTANT, the above formula for payment shall not apply.

In the event of a termination for default, the amount to be paid to the CONSULTANT shall be determined by the AGENCY with consideration given to the actual costs incurred by the CONSULTANT in performing SERVICES to the date of termination, the amount of SERVICES originally required which was satisfactorily completed to date of termination, whether that SERVICE is in a form or a type which is usable to the AGENCY at the time of termination, the cost to the AGENCY of employing another firm to complete the SERVICES required and the time which may be required to do so, and other factors which affect the value to the AGENCY of the SERVICES performed at the time of termination. Under no circumstances shall payment made under this subsection exceed the amount, which would have been made using the formula set forth in paragraph two (2) of this section.

If it is determined for any reason that the CONSULTANT was not in default or that the CONSULTANT’s failure to perform is without the CONSULTANT’s or its employee’s fault or negligence, the termination shall be deemed to be a termination for the convenience of the AGENCY. In such an event, the CONSULTANT would be reimbursed for actual costs in accordance with the termination for other than default clauses listed previously.

Revised 4/10/2015
The CONSULTANT shall, within 15 days, notify the AGENCY in writing, in the event of the death of any member, partner, or officer of the CONSULTANT or the death or change of any of the CONSULTANT’s supervisory and/or other key personnel assigned to the project or disaffiliation of any principally involved CONSULTANT employee. If termination for convenience occurs, final payment will be made to the CONSULTANT as set forth in the second and third paragraphs of this section.

Payment for any part of the SERVICES by the AGENCY shall not constitute a waiver by the AGENCY of any remedies of any type it may have against the CONSULTANT for any breach of this AGREEMENT by the CONSULTANT, or for failure of the CONSULTANT to perform SERVICES required of it by the AGENCY. Forbearance of any rights under the AGREEMENT will not constitute waiver of entitlement to exercise those rights with respect to any future act or omission by the CONSULTANT.

X. Changes of Work

The CONSULTANT shall make such changes and revisions in the completed work of this AGREEMENT as necessary to correct errors appearing therein, without additional compensation thereof. Should the AGENCY find it desirable for its own purposes to have previously satisfactorily completed SERVICES or parts thereof changed or revised, the CONSULTANT shall make such revisions as directed by the AGENCY. This work shall be considered as Extra Work and will be paid for as herein provided under section XIII “Extra Work.”

XI. Disputes

Any disputed issue not resolved pursuant to the terms of this AGREEMENT shall be submitted in writing within 10 days to the Director of Public Works or AGENCY Engineer, whose decision in the matter shall be final and binding on the parties of this AGREEMENT; provided however, that if an action is brought challenging the Director of Public Works or AGENCY Engineer’s decision, that decision shall be subject to judicial review. If the parties to this AGREEMENT mutually agree, disputes concerning alleged design errors will be conducted under the procedures found in Exhibit “J”. In the event that either party deem it necessary to institute legal action or proceeding to enforce any right or obligation under this AGREEMENT, this action shall be initiated in the Superior Court of the State of Washington, situated in the county in which the AGENCY is located. The parties hereto agree that all questions shall be resolved by application of Washington law and that the parties have the right of appeal from such decisions of the Superior Court in accordance with the laws of the State of Washington. The CONSULTANT hereby consents to the personal jurisdiction of the Superior Court of the State of Washington, situated in the county in which the AGENCY is located.

XII. Legal Relations

The CONSULTANT, any sub-consultants, and the AGENCY shall comply with all Federal, State, and local laws, rules, codes, regulations and all AGENCY policies and directives, applicable to the work to be performed under this AGREEMENT. This AGREEMENT shall be interpreted and construed in accordance with the laws of the State of Washington.

The CONSULTANT shall defend, indemnify, and hold the State of Washington (STATE) and the AGENCY and their officers and employees harmless from all claims, demands, or suits at law or equity arising in whole or in part from the negligence of, or the breach of any obligation under this AGREEMENT by, the CONSULTANT or the CONSULTANT’s agents, employees, sub consultants, subcontractors or vendors, of any tier, or any other persons for whom the CONSULTANT may be legally liable; provided that nothing herein shall require a CONSULTANT
to defend or indemnify the STATE and the AGENCY and their officers and employees against and hold harmless the STATE and the AGENCY and their officers and employees from claims, demands or suits based solely upon the negligence of, or breach of any obligation under this AGREEMENT by the STATE and the AGENCY, their agents, officers, employees, sub-consultants, subcontractors or vendors, of any tier, or any other persons for whom the STATE and/or the AGENCY may be legally liable; and provided further that if the claims or suits are caused by or result from the concurrent negligence of (a) the CONSULTANT or the CONSULTANT’s agents, employees, sub-consultants, subcontractors or vendors, of any tier, or any other persons for whom the CONSULTANT is legally liable, and (b) the STATE and/or AGENCY, their agents, officers, employees, sub-consultants, subcontractors and or vendors, of any tier, or any other persons for whom the STATE and/or AGENCY may be legally liable, the defense and indemnity obligation shall be valid and enforceable only to the extent of the CONSULTANT’s negligence or the negligence of the CONSULTANT’s agents, employees, sub-consultants, subcontractors or vendors, of any tier, or any other persons for whom the CONSULTANT may be legally liable. This provision shall be included in any AGREEMENT between CONSULTANT and any sub-consultant, subcontractor and vendor, of any tier.

The CONSULTANT shall also defend, indemnify, and hold the STATE and the AGENCY and their officers and employees harmless from all claims, demands, or suits at law or equity arising in whole or in part from the alleged patent or copyright infringement or other allegedly improper appropriation or use of trade secrets, patents, proprietary information, know-how, copyright rights or inventions by the CONSULTANT or the CONSULTANT’s agents, employees, sub-consultants, subcontractors or vendors, of any tier, or any other persons for whom the CONSULTANT may be legally liable, in performance of the Work under this AGREEMENT or arising out of any use in connection with the AGREEMENT of methods, processes, designs, information or other items furnished or communicated to STATE and/or the AGENCY, their agents, officers and employees pursuant to the AGREEMENT; provided that this indemnity shall not apply to any alleged patent or copyright infringement or other allegedly improper appropriation or use of trade secrets, patents, proprietary information, know-how, copyright rights or inventions resulting from STATE and/or AGENCY’s, their agents’, officers’ and employees’ failure to comply with specific written instructions regarding use provided to STATE and/or AGENCY, their agents, officers and employees by the CONSULTANT, its agents, employees, sub-consultants, subcontractors or vendors, of any tier, or any other persons for whom the CONSULTANT may be legally liable.

The CONSULTANT’s relation to the AGENCY shall be at all times as an independent contractor.

Notwithstanding any determination by the Executive Ethics Board or other tribunal, the AGENCY may, in its sole discretion, by written notice to the CONSULTANT terminate this AGREEMENT if it is found after due notice and examination by the AGENCY that there is a violation of the Ethics in Public Service Act, Chapter 42.52 RCW; or any similar statute involving the CONSULTANT in the procurement of, or performance under, this AGREEMENT.

The CONSULTANT specifically assumes potential liability for actions brought by the CONSULTANT’s own employees or its agents against the STATE and/or the AGENCY and, solely for the purpose of this indemnification and defense, the CONSULTANT specifically waives any immunity under the state industrial insurance law, Title 51 RCW. This waiver has been mutually negotiated by the Parties.

Unless otherwise specified in this AGREEMENT, the AGENCY shall be responsible for administration of construction contracts, if any, on the project. Subject to the processing of a new sole source, or an acceptable supplemental AGREEMENT, the CONSULTANT shall provide On-Call assistance to the AGENCY during contract administration. By providing such assistance, the CONSULTANT shall assume no responsibility for: proper construction techniques, job site safety, or any construction contractor’s failure to perform its work in accordance with the contract documents.

The CONSULTANT shall obtain and keep in force during the terms of this AGREEMENT, or as otherwise required, the following insurance with companies or through sources approved by the State Insurance Commissioner pursuant to Title 48 RCW.

This coverage shall be primary coverage and non-contributory and any coverage maintained by the AIs shall be excess over, and shall not contribute with, the additional insured coverage required hereunder. The CONSULTANT’s and the sub-consultant’s and/or subcontractor’s insurer shall waive any and all rights of subrogation against the AIs. The CONSULTANT shall furnish the AGENCY with verification of insurance and endorsements required by this AGREEMENT. The AGENCY reserves the right to require complete, certified copies of all required insurance policies at any time.

In no case shall the CONSULTANT’s professional liability to third parties be limited in any way.

The parties enter into this AGREEMENT for the sole benefit of the parties, and to the exclusion of any third party, and no third party beneficiary is intended or created by the execution of this AGREEMENT.

The AGENCY will pay no progress payments under section V “Payment Provisions” until the CONSULTANT has fully complied with this section. This remedy is not exclusive; and the AGENCY may take such other action as is available to it under other provisions of this AGREEMENT, or otherwise in law.
XIII. Extra Work

A. The AGENCY may at any time, by written order, make changes within the general scope of this AGREEMENT in the SERVICES to be performed.

B. If any such change causes an increase or decrease in the estimated cost of, or the time required for, performance of any part of the SERVICES under this AGREEMENT, whether or not changed by the order, or otherwise affects any other terms and conditions of this AGREEMENT, the AGENCY shall make an equitable adjustment in the: (1) maximum amount payable; (2) delivery or completion schedule, or both; and (3) other affected terms and shall modify this AGREEMENT accordingly.

C. The CONSULTANT must submit any “request for equitable adjustment,” hereafter referred to as “CLAIM,” under this clause within thirty (30) days from the date of receipt of the written order. However, if the AGENCY decides that the facts justify it, the AGENCY may receive and act upon a CLAIM submitted before final payment of this AGREEMENT.

D. Failure to agree to any adjustment shall be a dispute under the section XI “Disputes” clause. However, nothing in this clause shall excuse the CONSULTANT from proceeding with the AGREEMENT as changed.

E. Notwithstanding the terms and conditions of paragraphs (A.) and (B.) above, the maximum amount payable for this AGREEMENT, shall not be increased or considered to be increased except by specific written supplement to this AGREEMENT.

XIV. Endorsement of Plans

No agent, or representative of either party has authority to make, and the parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein. XIX. Protection of Confidential Information

The CONSULTANT acknowledges that some of the material and information that may come into its possession or knowledge in connection with this AGREEMENT or its performance may consist of information that is exempt from disclosure to the public or other unauthorized persons under either chapter 42.56 RCW or other local, state or federal statutes ("State’s Confidential Information"). The "State’s Confidential Information" includes, but is not limited to, names, addresses, Social Security numbers, e-mail addresses, telephone numbers, financial profiles, credit card information, driver’s license numbers, medical data, law enforcement records (or any other information identifiable to an individual), STATE and AGENCY source code or object code, STATE and AGENCY security data, non-public Specifications, STATE and AGENCY non-publicly available data, proprietary software, STATE and AGENCY security data, or information which may jeopardize any part of the project that relates to any of these types of information. The CONSULTANT agrees to hold the State’s Confidential Information in strictest confidence and not to make use of the State’s Confidential Information for any purpose other than the performance of this AGREEMENT, to release it only to authorized employees, sub-consultants or subcontractors requiring such information for the purposes of carrying out this AGREEMENT, and not to release, divulge, publish, transfer, sell, disclose, or otherwise make it known to any other party without the AGENCY’s express written consent or as provided by law. The CONSULTANT agrees to release such information or material only to employees, sub-consultants or subcontractors who have signed a nondisclosure AGREEMENT, the terms of which have been previously approved by the AGENCY. The CONSULTANT agrees to implement physical, electronic, and managerial safeguards to prevent unauthorized access to the State’s Confidential Information.

Immediately upon expiration or termination of this AGREEMENT, the CONSULTANT shall, at the AGENCY’s option: (i) certify to the AGENCY that the CONSULTANT has destroyed all of the State’s Confidential Information; or (ii) returned all of the State’s Confidential Information to the AGENCY; or (iii) take whatever other steps the AGENCY requires of the CONSULTANT to protect the State’s Confidential Information.

As required under Executive Order 00-03, the CONSULTANT shall maintain a log documenting the following: the State’s Confidential Information received in the performance of this AGREEMENT; the purpose(s) for which the State’s Confidential Information was received; who received, maintained and used the State’s Confidential Information; and the final disposition of the State’s Confidential Information. The CONSULTANT’s records shall be subject to inspection, review, or audit upon reasonable notice from the AGENCY.

The AGENCY reserves the right to monitor, audit, or investigate the use of the State’s Confidential Information collected, used, or acquired by the CONSULTANT through this AGREEMENT. The monitoring, auditing, or investigating may include, but is not limited to, salting databases.

Violation of this section by the CONSULTANT or its sub-consultants or subcontractors may result in termination of this AGREEMENT and demand for return of all State’s Confidential Information, monetary damages, or penalties.

It is understood and acknowledged that the CONSULTANT may provide the AGENCY with information which is proprietary and/or confidential during the term of this AGREEMENT. The parties agree to maintain the confidentiality of such information during the term of this AGREEMENT and afterwards. All materials containing such proprietary and/or confidential information shall be clearly identified and marked as “Confidential” and shall be returned to the disclosing party at the conclusion of the SERVICES under this AGREEMENT.
The CONSULTANT shall provide the AGENCY with a list of all information and materials it considers confidential and/or proprietary in nature: (a) at the commencement of the term of this AGREEMENT; or (b) as soon as such confidential or proprietary material is developed. “Proprietary and/or confidential information” is not meant to include any information which, at the time of its disclosure: (i) is already known to the other party; (ii) is rightfully disclosed to one of the parties by a third party that is not acting as an agent or representative for the other party; (iii) is independently developed by or for the other party; (iv) is publicly known; or (v) is generally utilized by unaffiliated third parties engaged in the same business or businesses as the CONSULTANT.

The parties also acknowledge that the AGENCY is subject to Washington State and federal public disclosure laws. As such, the AGENCY shall maintain the confidentiality of all such information marked proprietary and/or confidential or otherwise exempt, unless such disclosure is required under applicable state or federal law. If a public disclosure request is made to view materials identified as “Proprietary and/or confidential information” or otherwise exempt information, the AGENCY will notify the CONSULTANT of the request and of the date that such records will be released to the requester unless the CONSULTANT obtains a court order from a court of competent jurisdiction enjoining that disclosure. If the CONSULTANT fails to obtain the court order enjoining disclosure, the AGENCY will release the requested information on the date specified.

The CONSULTANT agrees to notify the sub-consultant of any AGENCY communication regarding disclosure that may include a sub-consultant’s proprietary and/or confidential information. The CONSULTANT notification to the sub-consultant will include the date that such records will be released by the AGENCY to the requester and state that unless the sub-consultant obtains a court order from a court of competent jurisdiction enjoining that disclosure the AGENCY will release the requested information. If the CONSULTANT and/or sub-consultant fail to obtain a court order or other judicial relief enjoining the AGENCY by the release date, the CONSULTANT shall waive and release and shall hold harmless and indemnify the AGENCY from all claims of actual or alleged damages, liabilities, or costs associated with the AGENCY’s said disclosure of sub-consultants’ information.

XX. Records Maintenance

During the progress of the Work and SERVICES provided hereunder and for a period of not less than six (6) years from the date of final payment to the CONSULTANT, the CONSULTANT shall keep, retain and maintain all “documents” pertaining to the SERVICES provided pursuant to this AGREEMENT. For purposes of this AGREEMENT, "ESI" means any and all computer data or electronic recorded media of any kind, including "Native Files", that are stored in any medium from which it can be retrieved and examined, either directly or after translation into a reasonably useable form. ESI may include information and/or documentation stored in various software programs such as: Email, Outlook, Word, Excel, Access, Publisher, PowerPoint, Adobe Acrobat, SQL databases, or any other software or electronic communication programs or databases that the CONSULTANT may use in the performance of its operations. "Native files" are a subset of ESI and refer to the electronic format of the application in which such ESI is normally created, viewed, and /or modified.

The CONSULTANT shall include this section XX "Records Maintenance" in every subcontract it enters into in relation to this AGREEMENT and bind the sub-consultant to its terms, unless expressly agreed to otherwise in writing by the AGENCY prior to the execution of such subcontract.

If FHWA approval is obtained, the AGENCY may, at its own cost, reimburse the CONSULTANT for the additional professional liability insurance required.

The purpose of this exhibit is to establish a procedure to determine if a consultant’s alleged design error is of a nature that exceeds the accepted standard of care. In addition, it will establish a uniform method for the resolution and/or cost recovery procedures in those instances where the agency believes it has suffered some material damage due to the alleged error by the consultant.

**Step 1 Potential Consultant Design Error(s) is Identified by Agency’s Project Manager**
At the first indication of potential consultant design error(s), the first step in the process is for the Agency’s project manager to notify the Director of Public Works or Agency Engineer regarding the potential design error(s). For federally funded projects, the Region Local Programs Engineer should be informed and involved in these procedures. (Note: The Director of Public Works or Agency Engineer may appoint an agency staff person other than the project manager, who has not been as directly involved in the project, to be responsible for the remaining steps in these procedures.)

**Step 2 Project Manager Documents the Alleged Consultant Design Error(s)**
After discussion of the alleged design error(s) and the magnitude of the alleged error(s), and with the Director of Public Works or Agency Engineer’s concurrence, the project manager obtains more detailed documentation than is normally required on the project. Examples include: all decisions and descriptions of work; photographs, records of labor, materials and equipment.

**Step 3 Contact the Consultant Regarding the Alleged Design Error(s)**
If it is determined that there is a need to proceed further, the next step in the process is for the project manager to contact the consultant regarding the alleged design error(s) and the magnitude of the alleged error(s). The project manager and other appropriate agency staff should represent the agency and the consultant should be represented by their project manager and any personnel (including sub-consultants) deemed appropriate for the alleged design error(s) issue.

**Step 4 Attempt to Resolve Alleged Design Error with Consultant**
After the meeting(s) with the consultant have been completed regarding the consultant’s alleged design error(s), there are three possible scenarios:

- It is determined via mutual agreement that there is not a consultant design error(s). If this is the case, then the process will not proceed beyond this point.

- It is determined via mutual agreement that a consultant design error(s) occurred. If this is the case, then the Director of Public Works or Agency Engineer, or their representatives, negotiate a settlement with the consultant. The settlement would be paid to the agency or the amount would be reduced from the consultant’s agreement with the agency for the services on the project in which the design error took place. The agency is to provide LP, through the Region Local Programs Engineer, a summary of the settlement for review and to make adjustments, if any, as to how the settlement affects federal reimbursements. No further action is required.

- There is not a mutual agreement regarding the alleged consultant design error(s). The consultant may request that the alleged design error(s) issue be forwarded to the Director of Public Works or Agency Engineer for review. If the Director of Public Works or Agency Engineer, after review with their legal counsel, is not able to reach mutual agreement with the consultant, proceed to Step 5.
Step 5 Forward Documents to Local Programs
For federally funded projects all available information, including costs, should be forwarded through the
Region Local Programs Engineer to LP for their review and consultation with the FHWA. LP will meet
with representatives of the agency and the consultant to review the alleged design error(s), and attempt
to find a resolution to the issue. If necessary, LP will request assistance from the Attorney General’s Office
for legal interpretation. LP will also identify how the alleged error(s) affects eligibility of project costs
for federal reimbursement.

- If mutual agreement is reached, the agency and consultant adjust the scope of work and costs
to reflect the agreed upon resolution. LP, in consultation with FHWA, will identify the amount
of federal participation in the agreed upon resolution of the issue.

- If mutual agreement is not reached, the agency and consultant may seek settlement by arbitration
or by litigation.
The purpose of this exhibit is to describe a procedure regarding claim(s) on a consultant agreement. The following procedures should only be utilized on consultant claims greater than $1,000. If the consultant’s claim(s) are a total of $1,000 or less, it would not be cost effective to proceed through the outlined steps. It is suggested that the Director of Public Works or Agency Engineer negotiate a fair and reasonable price for the consultant’s claim(s) that total $1,000 or less.

This exhibit will outline the procedures to be followed by the consultant and the agency to consider a potential claim by the consultant.

**Step 1 Consultant Files a Claim with the Agency Project Manager**

If the consultant determines that they were requested to perform additional services that were outside of the agreement’s scope of work, they may be entitled to a claim. The first step that must be completed is the request for consideration of the claim to the Agency’s project manager.

The consultant’s claim must outline the following:

- Summation of hours by classification for each firm that is included in the claim;
- Any correspondence that directed the consultant to perform the additional work;
- Timeframe of the additional work that was outside of the project scope;
- Summary of direct labor dollars, overhead costs, profit and reimbursable costs associated with the additional work; and
- Explanation as to why the consultant believes the additional work was outside of the agreement scope of work.

**Step 2 Review by Agency Personnel Regarding the Consultant’s Claim for Additional Compensation**

After the consultant has completed step 1, the next step in the process is to forward the request to the Agency’s project manager. The project manager will review the consultant’s claim and will meet with the Director of Public Works or Agency Engineer to determine if the Agency agrees with the claim. If the FHWA is participating in the project’s funding, forward a copy of the consultant’s claim and the Agency’s recommendation for federal participation in the claim to the WSDOT Local Programs through the Region Local Programs Engineer. If the claim is not eligible for federal participation, payment will need to be from agency funds.

If the Agency project manager, Director of Public Works or Agency Engineer, WSDOT Local Programs (if applicable), and FHWA (if applicable) agree with the consultant’s claim, send a request memo, including backup documentation to the consultant to either supplement the agreement, or create a new agreement for the claim. After the request has been approved, the Agency shall write the supplement and/or new agreement and pay the consultant the amount of the claim. Inform the consultant that the final payment for the agreement is subject to audit. No further action is needed regarding the claim procedures.

If the Agency does not agree with the consultant’s claim, proceed to step 3 of the procedures.
Step 3 Preparation of Support Documentation Regarding Consultant’s Claim(s)

If the Agency does not agree with the consultant’s claim, the project manager shall prepare a summary for the Director of Public Works or Agency Engineer that included the following:

- Copy of information supplied by the consultant regarding the claim;
- Agency’s summation of hours by classification for each firm that should be included in the claim;
- Any correspondence that directed the consultant to perform the additional work;
- Agency’s summary of direct labor dollars, overhead costs, profit and reimbursable costs associated with the additional work;
- Explanation regarding those areas in which the Agency does/does not agree with the consultant’s claim(s);
- Explanation to describe what has been instituted to preclude future consultant claim(s); and
- Recommendations to resolve the claim.

Step 4 Director of Public Works or Agency Engineer Reviews Consultant Claim and Agency Documentation

The Director of Public Works or Agency Engineer shall review and administratively approve or disapprove the claim, or portions thereof, which may include getting Agency Council or Commission approval (as appropriate to agency dispute resolution procedures). If the project involves federal participation, obtain concurrence from WSDOT Local Programs and FHWA regarding final settlement of the claim. If the claim is not eligible for federal participation, payment will need to be from agency funds.

Step 5 Informing Consultant of Decision Regarding the Claim

The Director of Public Works or Agency Engineer shall notify (in writing) the consultant of their final decision regarding the consultant’s claim(s). Include the final dollar amount of the accepted claim(s) and rationale utilized for the decision.

Step 6 Preparation of Supplement or New Agreement for the Consultant’s Claim(s)

The agency shall write the supplement and/or new agreement and pay the consultant the amount of the claim. Inform the consultant that the final payment for the agreement is subject to audit.

Dear Ms. Johnston:

We have performed a cognizant review of the examination, and supporting workpapers, of the Indirect Cost Rate of Historical Research Associates, Inc. as presented in the Statement of Direct Labor, Fringe Benefits, and General Overhead for the year ended December 31, 2014 in accordance with our role as Cognizant Agency as defined in 23 U.S.C. 112(b)(2)(c) and 23 CFR 172.3 and 172.7. The Independent CPA firm Doyle & Associates, P.C., performed the audit. The CPA represented that the audit was conducted in accordance with the Government Auditing Standards, as promulgated by the Comptroller General of the United States of America, and the audit was designed to determine that the indirect cost rate was established in accordance with Cost Principles contained in the Federal Acquisition Regulation, 48 CFR Part 31. Our cognizant review was performed in accordance with the AASHTO Review Program for CPA Audits of Consulting Engineers' Indirect Cost Rates.

In connection with our cognizant review, nothing came to our attention that caused us to believe that the examination, and supporting workpapers for the Indirect Cost Rate, and the related Accountant's Report, we reviewed did not conform in all material respects to the aforementioned regulations and auditing standards.

Accordingly, we recommend acceptance of the following rates:

1. Combined Fringe and General Overhead 143.33%

Brenda Kedish

**Subject**
Consultant master agreements

**Background**
Engineering Services has master agreements with various consulting firms for specialized engineering services (structural, geotech, etc.), landscape architecture and real estate acquisition. Some of those agreements are expiring at the end of this year. Also, DOT is requiring separate agreements with consultants for FHWA funded projects. Therefore, Engineering Services is in the process of advertising various requests for qualifications (RFQs) to solicit statements of qualifications from interested consultants. The following RFQs are being advertised:

- Geotechnical Engineering – Federal Aid Projects
- Geotechnical Engineering – Non-Federal Aid Projects
- Landscape Architect – Federal Aid Projects
- Landscape Architect – Non-Federal Aid Projects
- Cultural Resource Consultant – Federal Aid Projects
- Right of Way Consultant – Federal Aid Projects
- Surveying – Federal Aid Projects

Consultants will be selected on the basis of qualifications as defined in the RFQ. One consultant will be selected for each of the above listed RFQs and a master agreement prepared. Each master agreement will be brought to council for approval. Each master agreement will be for 2 years with an optional 1 year extension and each will be for $200,000 to $400,000. Costs incurred under each of these contracts will be covered by individual public works projects (e.g., street/sidewalk projects, water/sewer pump stations, etc.).

The $200,000 to $400,000 contract amount is an estimate of the amount of work which would be required over the two to three year life of each contract. Consultants will be assigned to work on specific projects (street/sidewalk, pump stations, etc.) ranging from approx. $5,000 to $50,000, the total of which will be limited to the amount of the master contract.

**Action**
This information is being provided for background information.

**Funding**
Costs incurred under each of these contracts will be covered by individual public works projects.

The established completion time shall not be extended because of any delays attributable to the CONSULTANT, but may be extended by the AGENCY in the event of a delay attributable to the AGENCY, or because of unavoidable delays caused by an act of GOD, governmental actions, or other conditions beyond the control of the CONSULTANT. A prior supplemental AGREEMENT issued by the AGENCY is required to extend the established completion time.

Agreement Number:
V. Payment Provisions

The CONSULTANT shall be paid by the AGENCY for completed SERVICES rendered under this AGREEMENT as provided hereinafter. Such payment shall be full compensation for SERVICES performed or SERVICES rendered and for all labor, materials, supplies, equipment, and incidentals necessary to complete SERVICES. The CONSULTANT shall conform to all applicable portions of 48 CFR Part 31 (www.ecfr.gov).

A. Hourly Rates: Hourly rates are comprised of the following elements - Direct (Raw) Labor, Indirect Cost Rate, and Fixed Fee (Profit). The CONSULTANT shall be paid by the AGENCY for work done, based upon the negotiated hourly rates shown in Exhibits “D” and “E” attached hereto and by reference made part of this AGREEMENT. These negotiated hourly rates will be accepted based on a review of the CONSULTANT’s direct labor rates and indirect cost rate computations and agreed upon fixed fee. The accepted negotiated rates shall be memorialized in a final written acknowledgement between the parties. Such final written acknowledgement shall be incorporated into, and become a part of, this AGREEMENT. The initially accepted negotiated rates shall be applicable from the approval date, as memorialized in a final written acknowledgement, to 180 days following the CONSULTANT’s fiscal year end (FYE) date.

The direct (raw) labor rates and classifications, as shown on Exhibits “D” and “E” shall be subject to renegotiations for each subsequent twelve (12) month period (180 days following FYE date to 180 days following FYE date) upon written request of the CONSULTANT or the AGENCY. The written request must be made to the other party within ninety (90) days following the CONSULTANT’s FYE date. If no such written request is made, the current direct (raw) labor rates and classifications as shown on Exhibits “D” and “E”, will remain in effect for the twelve (12) month period.

Conversely, if a timely request is made in the manner set forth above, the parties will commence negotiations to determine the new direct (raw) labor rates and classifications that will be applicable for the twelve (12) month period. Any agreed to renegotiated rates shall be memorialized in a final written acknowledgement between the parties. Such final written acknowledgement shall be incorporated into, and become a part of, this AGREEMENT. If requested, the CONSULTANT shall provide current payroll register and classifications to aid in negotiations. If the parties cannot reach an agreement on the direct (raw) labor rates and classifications, the AGENCY shall perform an audit of the CONSULTANT’s books and records to determine the CONSULTANT’s actual costs. The audit findings will establish the direct (raw) labor rates and classifications that will be applicable for the twelve (12) month period.

The fixed fee as identified in Exhibits “D” and “E” shall represent a value to be applied throughout the life of the AGREEMENT.

The CONSULTANT shall submit annually to the AGENCY an updated indirect cost rate within 180 days of the close of its fiscal year. An approved updated indirect cost rate shall be included in the current fiscal year rates under this AGREEMENT, even if when other components of the hourly rate are not renegotiated. These rates will be applicable for the twelve (12) month period. At the AGENCY’s option, a provisional and/or conditional indirect cost rate may be negotiated. This provisional or conditional indirect rate shall remain in effect until the updated indirect cost rate is completed and approved. Indirect cost rate costs incurred during the provisional or conditional period will not be adjusted. The CONSULTANT may request an extension of the last approved indirect cost rate for the twelve (12) month period. These requests for provisional indirect cost rate and/or extension will be considered on a case-by-case basis, and if granted, will be memorialized in a final written acknowledgement.

The CONSULTANT shall maintain and have accessible support data for verification of the components of the hourly rates, i.e., direct (raw) labor, indirect cost rate, and fixed fee (profit) percentage. The CONSULTANT shall bill each employee’s actual classification, and actual salary plus indirect cost rate plus fixed fee.
B. Direct Non-Salary Costs: Direct Non-Salary Costs will be reimbursed at the actual cost to the CONSULTANT. These charges may include, but are not limited to, the following items: travel, printing, long distance telephone, supplies, computer charges and fees of sub-consultants. Air or train travel will be reimbursed only to lowest price available, unless otherwise approved by the AGENCY. The CONSULTANT shall comply with the rules and regulations regarding travel costs (excluding air, train, and rental car costs) in accordance with the WSDOT's Accounting Manual M 13-82, Chapter 10 – Travel Rules and Procedures, and all revisions thereto. Air, train and rental card costs shall be reimbursed in accordance with 48 Code of Federal Regulations (CFR) Part 31.205-46 “Travel Costs.” The billing for Direct Non-salary Costs shall include an itemized listing of the charges directly identifiable with these SERVICES. The CONSULTANT shall maintain the original supporting documents in their office. Copies of the original supporting documents shall be supplied to the STATE upon request. All above charges must be necessary for the SERVICES provided under this AGREEMENT.

C. Maximum Amount Payable: The Maximum Amount Payable by the AGENCY to the CONSULTANT under this AGREEMENT shall not exceed the amount shown in the heading of this AGREEMENT on page one (1.) The Maximum Amount Payable does not include payment for extra work as stipulated in section XIII, “Extra Work.” No minimum amount payable is guaranteed under this AGREEMENT.

D. Monthly Progress Payments: Progress payments may be claimed on a monthly basis for all costs authorized in A and B above. The monthly billings shall be supported by detailed statements for hours expended at the rates established in Exhibit “D,” including names and classifications of all employees, and billings for all direct non-salary expenses. To provide a means of verifying the billed salary costs for the CONSULTANT’s employees, the AGENCY may conduct employee interviews. These interviews may consist of recording the names, titles, salary rates, and present duties of those employees performing work on the SERVICES at the time of the interview.

E. Final Payment: Final Payment of any balance due the CONSULTANT of the gross amount earned will be made promptly upon its verification by the AGENCY after the completion of the SERVICES under this AGREEMENT, contingent upon receipt of all PS&E, plans, maps, notes, reports, electronic data, and other related documents which are required to be furnished under this AGREEMENT. Acceptance of such Final Payment by the CONSULTANT shall constitute a release of all claims for payment, which the CONSULTANT may have against the AGENCY unless such claims are specifically reserved in writing and transmitted to the AGENCY by the CONSULTANT prior to its acceptance. Said Final Payment shall not, however, be a bar to any claims that the AGENCY may have against the CONSULTANT or to any remedies the AGENCY may pursue with respect to such claims.

The payment of any billing will not constitute agreement as to the appropriateness of any item and at the time of final audit all required adjustments will be made and reflected in a final payment. In the event that such final audit reveals an overpayment to the CONSULTANT, the CONSULTANT will refund such overpayment to the AGENCY within thirty (30) calendar days of notice of the overpayment. Such refund shall not constitute a waiver by the CONSULTANT for any claims relating to the validity of a finding by the AGENCY of overpayment. Per WSDOT's “Audit Guide for Consultants,” Chapter 23 “Resolution Procedures,” the CONSULTANT has twenty (20) working days after receipt of the final Post Audit to begin the appeal process to the AGENCY for audit findings.

F. Inspection of Cost Records: The CONSULTANT and their sub-consultants shall keep available for inspection by representatives of the AGENCY and the United States, for a period of six (6) years after receipt of final payment, the cost records and accounts pertaining to this AGREEMENT and all items related to or bearing upon these records with the following exception: if any litigation, claim or audit arising out of, in connection with, or related to this AGREEMENT is initiated before the expiration of the six (6) year period, the cost records and accounts shall be retained until such litigation, claim, or audit involving the records is completed.

An interim or post audit may be performed on this AGREEMENT. The audit, if any, will be performed by the State Auditor, WSDOT's Internal Audit Office and /or at the request of the AGENCY’s Project Manager.

Agreement Number:
VI. Sub-Contracting

The AGENCY permits subcontracts for those items of SERVICES as shown in Exhibit “A” attached hereto and by this reference made part of this AGREEMENT.

The CONSULTANT shall not subcontract for the performance of any SERVICE under this AGREEMENT without prior written permission of the AGENCY. No permission for subcontracting shall create, between the AGENCY and sub-consultant, any contract or any other relationship.

Compensation for this sub-consultant SERVICES shall be based on the cost factors shown on Exhibit “E” attached hereto and by this reference made part of this AGREEMENT.

The SERVICES of the sub-consultant shall not exceed its maximum amount payable identified in each sub-consultant cost estimate unless a prior written approval has been issued by the AGENCY.

- Title VI of the Civil Rights Act of 1964
  (42 U.S.C. Chapter 21 Subchapter V § 2000d through 2000d-4a)
- Federal-aid Highway Act of 1973
  (23 U.S.C. Chapter 3 § 324)
- Rehabilitation Act of 1973

- Age Discrimination Act of 1975
  (42 U.S.C. Chapter 76 § 6101 et. seq.)
- Civil Rights Restoration Act of 1987
  (Public Law 100-259)
- American with Disabilities Act of 1990
  (42 U.S.C. Chapter 126 § 12101 et. seq.)
- 23 CFR Part 200
- 49 CFR Part 21
- 49 CFR Part 26
- RCW 49.60.180

In relation to Title VI of the Civil Rights Act of 1964, the CONSULTANT is bound by the provisions of Exhibit “F” attached hereto and by this reference made part of this AGREEMENT, and shall include the attached Exhibit “F” in every sub-contract, including procurement of materials and leases of equipment, unless exempt by the Regulations or directives issued pursuant thereto.

IX. Termination of Agreement

The right is reserved by the AGENCY to terminate this AGREEMENT at any time with or without cause upon ten (10) days written notice to the CONSULTANT.

In the event this AGREEMENT is terminated by the AGENCY, other than for default on the part of the CONSULTANT, a final payment shall be made to the CONSULTANT for actual hours charged at the time of termination of this AGREEMENT, plus any direct non-salary costs incurred up to the time of termination of this AGREEMENT.

No payment shall be made for any SERVICES completed after ten (10) days following receipt by the CONSULTANT of the notice to terminate. If the accumulated payment made to the CONSULTANT prior to Notice of Termination exceeds the total amount that would be due when computed as set forth in paragraph two (2) of this section, then no final payment shall be due and the CONSULTANT shall immediately reimburse the AGENCY for any excess paid.

If the services of the CONSULTANT are terminated by the AGENCY for default on the part of the CONSULTANT, the above formula for payment shall not apply.

In the event of a termination for default, the amount to be paid to the CONSULTANT shall be determined by the AGENCY with consideration given to the actual costs incurred by the CONSULTANT in performing SERVICES to the date of termination, the amount of SERVICES originally required which was satisfactorily completed to date of termination, whether that SERVICE is in a form or a type which is usable to the AGENCY at the time of termination, the cost to the AGENCY of employing another firm to complete the SERVICES required and the time which may be required to do so, and other factors which affect the value to the AGENCY of the SERVICES performed at the time of termination. Under no circumstances shall payment made under this subsection exceed the amount, which would have been made using the formula set forth in paragraph two (2) of this section.

If it is determined for any reason that the CONSULTANT was not in default or that the CONSULTANT’s failure to perform is without the CONSULTANT’s or its employee’s fault or negligence, the termination shall be deemed to be a termination for the convenience of the AGENCY. In such an event, the CONSULTANT would be reimbursed for actual costs in accordance with the termination for other than default clauses listed previously.

If termination for convenience occurs, final payment will be made to the CONSULTANT as set forth in the second and third paragraphs of this section.

Payment for any part of the SERVICES by the AGENCY shall not constitute a waiver by the AGENCY of any remedies of any type it may have against the CONSULTANT for any breach of this AGREEMENT by the CONSULTANT, or for failure of the CONSULTANT to perform SERVICES required of it by the AGENCY. Forbearance of any rights under the AGREEMENT will not constitute waiver of entitlement to exercise those rights with respect to any future act or omission by the CONSULTANT.

X. Changes of Work

The CONSULTANT shall make such changes and revisions in the completed work of this AGREEMENT as necessary to correct errors appearing therein, without additional compensation thereof. Should the AGENCY find it desirable for its own purposes to have previously satisfactorily completed SERVICES or parts thereof changed or revised, the CONSULTANT shall make such revisions as directed by the AGENCY. If the parties to this AGREEMENT mutually agree, disputes concerning alleged design errors will be conducted under the procedures found in Exhibit “J”. In the event that either party deem it necessary to institute legal action or proceeding to enforce any right or obligation under this AGREEMENT, this action shall be initiated in the Superior Court of the State of Washington, situated in the county in which the AGENCY is located. The parties hereto agree that all questions shall be resolved by application of Washington law and that the parties have the right of appeal from such decisions of the Superior Court in accordance with the laws of the State of Washington. This provision shall be included in any AGREEMENT between CONSULTANT and any sub-consultant, subcontractor and vendor, of any tier.

The CONSULTANT shall also defend, indemnify, and hold the STATE and the AGENCY and their officers and employees harmless from all claims, demands, or suits at law or equity arising in whole or in part from the alleged patent or copyright infringement or other allegedly improper appropriation or use of trade secrets, patents, proprietary information, know-how, copyright rights or inventions by the CONSULTANT or the CONSULTANT’s agents, employees, sub-consultants, subcontractors or vendors, of any tier, or any other persons for whom the CONSULTANT may be legally liable, in performance of the Work under this AGREEMENT or arising out of any use in connection with the AGREEMENT of methods, processes, designs, information or other items furnished or communicated to STATE and/or the AGENCY, their agents, officers and employees pursuant to the AGREEMENT; provided that this indemnity shall not apply to any alleged patent or copyright infringement or other allegedly improper appropriation or use of trade secrets, patents, proprietary information, know-how, copyright rights or inventions resulting from STATE and/or AGENCY’s, their agents’, officers’ and employees’ failure to comply with specific written instructions regarding use provided to STATE and/or AGENCY, their agents, officers and employees by the CONSULTANT, its agents, employees, sub-consultants, subcontractors or vendors, of any tier, or any other persons for whom the CONSULTANT may be legally liable.

The CONSULTANT’s relation to the AGENCY shall be at all times as an independent contractor.

Notwithstanding any determination by the Executive Ethics Board or other tribunal, the AGENCY may, in its sole discretion, by written notice to the CONSULTANT terminate this AGREEMENT if it is found after due notice and examination by the AGENCY that there is a violation of the Ethics in Public Service Act, Chapter 42.52 RCW; or any similar statute involving the CONSULTANT in the procurement of, or performance under, this AGREEMENT.

The CONSULTANT specifically assumes potential liability for actions brought by the CONSULTANT’s own employees or its agents against the STATE and/or the AGENCY and, solely for the purpose of this indemnification and defense, the CONSULTANT specifically waives any immunity under the state industrial insurance law, Title 51 RCW. This waiver has been mutually negotiated by the Parties.

Unless otherwise specified in this AGREEMENT, the AGENCY shall be responsible for administration of construction contracts, if any, on the project. Subject to the processing of a new sole source, or an acceptable supplemental AGREEMENT, the CONSULTANT shall provide On-Call assistance to the AGENCY during contract administration. By providing such assistance, the CONSULTANT shall assume no responsibility for: proper construction techniques, job site safety, or any construction contractor’s failure to perform its work in accordance with the contract documents.

The CONSULTANT shall obtain and keep in force during the terms of this AGREEMENT, or as otherwise required, the following insurance with companies or through sources approved by the State Insurance Commissioner pursuant to Title 48 RCW.

This coverage shall be primary coverage and non-contributory and any coverage maintained by the AIs shall be excess over, and shall not contribute with, the additional insured coverage required hereunder. The CONSULTANT’s and the sub-consultant’s and/or subcontractor’s insurer shall waive any and all rights of subrogation against the AIs. The CONSULTANT shall furnish the AGENCY with verification of insurance and endorsements required by this AGREEMENT. The AGENCY reserves the right to require complete, certified copies of all required insurance policies at any time.

Solicitations for Sub-consultants, Including Procurement of Materials and Equipment: In all solicitations either by competitive bidding or negotiations made by the CONSULTANT for work to be performed under a sub-contract, including procurement of materials or leases of equipment, each potential sub-consultant or supplier shall be notified by the CONSULTANT of the CONSULTANT’s obligations under this AGREEMENT and the REGULATIONS relative to non-discrimination on the grounds of race, color, sex, or national origin.

4. Information and Reports: The CONSULTANT shall provide all information and reports required by the REGULATIONS or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the AGENCY, the STATE, or the Federal Highway Administration (FHWA) to be pertinent to ascertain compliance with such REGULATIONS, orders and instructions. Where any information required of a CONSULTANT is in the exclusive possession of another who fails or refuses to furnish this information, the CONSULTANT shall so certify to the AGENCY, the STATE, or the FHWA as appropriate, and shall set forth what efforts it has made to obtain the information.

5. Sanctions for Non-compliance: In the event of the CONSULTANT’s non-compliance with the non-discrimination provisions of this AGREEMENT, the AGENCY shall impose such AGREEMENT sanctions as it, the STATE, or the FHWA may determine to be appropriate, including, but not limited to:
   • Withholding of payments to the CONSULTANT under this AGREEMENT until the CONSULTANT complies, and/or;
   • Cancellation, termination, or suspension of this AGREEMENT, in whole or in part.

6. Incorporation of Provisions: The CONSULTANT shall include the provisions of paragraphs (1) through (5) in every subcontract, including procurement of materials and leases of equipment, unless exempt by the REGULATIONS, or directives issued pursuant thereto. The CONSULTANT shall take such action with respect to any sub-consultant or procurement as the STATE, the AGENCY, or FHWA may direct as a means of enforcing such provisions including sanctions for non-compliance.

Provided, however, that in the event a CONSULTANT becomes involved in, or is threatened with, litigation with a sub-consultant or supplier as a result of such direction, the CONSULTANT may request the AGENCY enter into such litigation to protect the interests of the STATE and/or the AGENCY and, in addition, the CONSULTANT may request the United States enter into such litigation to protect the interests of the United States.

Alleged Consultant Design Error Procedures

The purpose of this exhibit is to establish a procedure to determine if a consultant’s alleged design error is of a nature that exceeds the accepted standard of care. In addition, it will establish a uniform method for the resolution and/or cost recovery procedures in those instances where the agency believes it has suffered some material damage due to the alleged error by the consultant.

Step 1 Potential Consultant Design Error(s) is Identified by Agency’s Project Manager

At the first indication of potential consultant design error(s), the first step in the process is for the Agency’s project manager to notify the Director of Public Works or Agency Engineer regarding the potential design error(s). For federally funded projects, the Region Local Programs Engineer should be informed and involved in these procedures. (Note: The Director of Public Works or Agency Engineer may appoint an agency staff person other than the project manager, who has not been as directly involved in the project, to be responsible for the remaining steps in these procedures.)

Step 2 Project Manager Documents the Alleged Consultant Design Error(s)

After discussion of the alleged design error(s) and the magnitude of the alleged error(s), and with the Director of Public Works or Agency Engineer’s concurrence, the project manager obtains more detailed documentation than is normally required on the project. Examples include: all decisions and descriptions of work; photographs, records of labor, materials and equipment.

Step 3 Contact the Consultant Regarding the Alleged Design Error(s)

If it is determined that there is a need to proceed further, the next step in the process is for the project manager to contact the consultant regarding the alleged design error(s) and the magnitude of the alleged error(s). The project manager and other appropriate agency staff should represent the agency and the consultant should be represented by their project manager and any personnel (including sub-consultants) deemed appropriate for the alleged design error(s) issue.

Step 4 Attempt to Resolve Alleged Design Error with Consultant

After the meeting(s) with the consultant have been completed regarding the consultant’s alleged design error(s), there are three possible scenarios:

- It is determined via mutual agreement that there is not a consultant design error(s). If this is the case, then the process will not proceed beyond this point.

- It is determined via mutual agreement that a consultant design error(s) occurred. If this is the case, then the Director of Public Works or Agency Engineer, or their representatives, negotiate a settlement with the consultant. The settlement would be paid to the agency or the amount would be reduced from the consultant’s agreement with the agency for the services on the project in which the design error took place. The agency is to provide LP, through the Region Local Programs Engineer, a summary of the settlement for review and to make adjustments, if any, as to how the settlement affects federal reimbursements. No further action is required.

- There is not a mutual agreement regarding the alleged consultant design error(s). The consultant may request that the alleged design error(s) issue be forwarded to the Director of Public Works or Agency Engineer for review. If the Director of Public Works or Agency Engineer, after review with their legal counsel, is not able to reach mutual agreement with the consultant, proceed to Step 5.

Agreement Number:
Step 5 Forward Documents to Local Programs
For federally funded projects all available information, including costs, should be forwarded through the Region Local Programs Engineer to LP for their review and consultation with the FHWA. LP will meet with representatives of the agency and the consultant to review the alleged design error(s), and attempt to find a resolution to the issue. If necessary, LP will request assistance from the Attorney General’s Office for legal interpretation. LP will also identify how the alleged error(s) affects eligibility of project costs for federal reimbursement.

- If mutual agreement is reached, the agency and consultant adjust the scope of work and costs to reflect the agreed upon resolution. LP, in consultation with FHWA, will identify the amount of federal participation in the agreed upon resolution of the issue.

- If mutual agreement is not reached, the agency and consultant may seek settlement by arbitration or by litigation.
The purpose of this exhibit is to describe a procedure regarding claim(s) on a consultant agreement. The following procedures should only be utilized on consultant claims greater than $1,000. If the consultant’s claim(s) are a total of $1,000 or less, it would not be cost effective to proceed through the outlined steps. It is suggested that the Director of Public Works or Agency Engineer negotiate a fair and reasonable price for the consultant’s claim(s) that total $1,000 or less.

This exhibit will outline the procedures to be followed by the consultant and the agency to consider a potential claim by the consultant.

Step 1 Consultant Files a Claim with the Agency Project Manager

If the consultant determines that they were requested to perform additional services that were outside of the agreement’s scope of work, they may be entitled to a claim. The first step that must be completed is the request for consideration of the claim to the Agency’s project manager.

The consultant’s claim must outline the following:

- Summation of hours by classification for each firm that is included in the claim;
- Any correspondence that directed the consultant to perform the additional work;
- Timeframe of the additional work that was outside of the project scope;
- Summary of direct labor dollars, overhead costs, profit and reimbursable costs associated with the additional work; and
- Explanation as to why the consultant believes the additional work was outside of the agreement scope of work.

Step 2 Review by Agency Personnel Regarding the Consultant’s Claim for Additional Compensation

After the consultant has completed step 1, the next step in the process is to forward the request to the Agency’s project manager. The project manager will review the consultant’s claim and will meet with the Director of Public Works or Agency Engineer to determine if the Agency agrees with the claim. If the FHWA is participating in the project’s funding, forward a copy of the consultant’s claim and the Agency’s recommendation for federal participation in the claim to the WSDOT Local Programs through the Region Local Programs Engineer. If the claim is not eligible for federal participation, payment will need to be from agency funds.

If the Agency project manager, Director of Public Works or Agency Engineer, WSDOT Local Programs (if applicable), and FHWA (if applicable) agree with the consultant’s claim, send a request memo, including backup documentation to the consultant to either supplement the agreement, or create a new agreement for the claim. After the request has been approved, the Agency shall write the supplement and/or new agreement and pay the consultant the amount of the claim. Inform the consultant that the final payment for the agreement is subject to audit. No further action in needed regarding the claim procedures.

If the Agency does not agree with the consultant’s claim, proceed to step 3 of the procedures.
Step 3 Preparation of Support Documentation Regarding Consultant’s Claim(s)

If the Agency does not agree with the consultant’s claim, the project manager shall prepare a summary for the Director of Public Works or Agency Engineer that included the following:

- Copy of information supplied by the consultant regarding the claim;
- Agency’s summation of hours by classification for each firm that should be included in the claim;
- Any correspondence that directed the consultant to perform the additional work;
- Agency’s summary of direct labor dollars, overhead costs, profit and reimbursable costs associated with the additional work;
- Explanation regarding those areas in which the Agency does/does not agree with the consultant’s claim(s);
- Explanation to describe what has been instituted to preclude future consultant claim(s); and
- Recommendations to resolve the claim.

Step 4 Director of Public Works or Agency Engineer Reviews Consultant Claim and Agency Documentation

The Director of Public Works or Agency Engineer shall review and administratively approve or disapprove the claim, or portions thereof, which may include getting Agency Council or Commission approval (as appropriate to agency dispute resolution procedures). If the project involves federal participation, obtain concurrence from WSDOT Local Programs and FHWA regarding final settlement of the claim. If the claim is not eligible for federal participation, payment will need to be from agency funds.

Step 5 Informing Consultant of Decision Regarding the Claim

The Director of Public Works or Agency Engineer shall notify (in writing) the consultant of their final decision regarding the consultant’s claim(s). Include the final dollar amount of the accepted claim(s) and rationale utilized for the decision.

Step 6 Preparation of Supplement or New Agreement for the Consultant’s Claim(s)

The agency shall write the supplement and/or new agreement and pay the consultant the amount of the claim. Inform the consultant that the final payment for the agreement is subject to audit.

ADDITIONAL INSURED – OWNERS, LESSEES OR CONTRACTORS – AUTOMATIC STATUS WHEN REQUIRED IN CONSTRUCTION AGREEMENT WITH YOU

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

A. Section II – Who Is An Insured is amended to include as an additional insured any person or organization for whom you are performing operations when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy. Such person or organization is an additional insured only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured.

However, the insurance afforded to such additional insured:

1. Only applies to the extent permitted by law; and
2. Will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

A person's or organization's status as an additional insured under this endorsement ends when your operations for that additional insured are completed.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to:

1. "Bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of, or the failure to render, any professional architectural, engineering or surveying services, including:
   a. The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or
   b. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of or the failure to render any professional architectural, engineering or surveying services.
2. "Bodily injury" or "property damage" occurring after:
   a. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
   b. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

C. With respect to the insurance afforded to these additional insureds, the following is added to Section III – Limits Of Insurance:

The most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement you have entered into with the additional insured; or

2. Available under the applicable Limits of Insurance shown in the Declarations; whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

<table>

<tr>
<th>Designated Construction Project(s):</th>

</thead>
<tbody>
<tr>
<td>AS REQUIRED BY WRITTEN CONTRACT</td>
</tr>
</tbody>
</table>

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section I – Coverage A, and for all medical expenses caused by accidents under Section I – Coverage C, which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.

2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under Coverage A, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under Coverage C regardless of the number of:
   a. Insureds;
   b. Claims made or "suits" brought; or
   c. Persons or organizations making claims or bringing "suits".

3. Any payments made under Coverage A for damages or under Coverage C for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.

4. The limits shown in the Declarations for Each Occurrence, Damage To Premises Rented To You and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section I – Coverage A, and for all medical expenses caused by accidents under Section I – Coverage C, which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. Any payments made under Coverage A for damages or under Coverage C for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-completed Operations Aggregate Limit, whichever is applicable; and
2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.

C. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.

D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.

E. The provisions of Section III — Limits Of Insurance not otherwise modified by this endorsement shall continue to apply as stipulated.

Specific assignments may include investigation of claims, all aspects of litigation, appeals, and additional legal representation or consultation tasks as assigned by the City Attorney. If a conflict of interest arises between the City and any department employee, it will be resolved in accordance with the Rules of Professional Conduct.

B. Interaction with the City.

Unless prohibited by the Rules of Professional Conduct, the Firm’s interaction with the City will comply with the following guidelines:

1. The City Attorney must be given advance notice of any significant decisions in order to participate fully in the decision making process.

3. The City Attorney must routinely receive copies of all other documents, including correspondence and internal legal memoranda.

4. The City Attorney must fully participate in all deliberations and decisions regarding possible settlement of a case.

5. The City Attorney must participate in the selection of all consultants or experts. No subcontracting is permitted under this Contract without the specific authorization of the City Attorney.

6. Any extensive legal research proposed by the Firm must be discussed in advance with the City Attorney.

7. The City Attorney must be advised as soon as reasonably possible of any potential conflicts in representation.

C. The City reserves the right to designate a specific attorney(s) in the Firm to work on specific matters as lead counsel or associate lead counsel for the services rendered pursuant to any referral contract. The City further reserves the right to approve any attorney offered to provide services.
D. Conflicts of Interest.

The Firm or attorney who is selected to represent the City must disclose any actual or potential conflicts of interest, and will be prohibited from engaging in or carrying on, any legal work on behalf of any client that is directly adverse to the City or its interests, without the specific written consent and waiver of the Office of the City Attorney. Waivers will be evaluated on a case-by-case basis. The Firm or attorney engaged to represent the City shall have a continuing duty to disclose such information. The Office of the City Attorney will NOT sign “blanket” waivers.

E. Confidential Information.

All confidential communications between the City, its officers, employees or agents, and the Firm, whether oral or written, and all documentation whether prepared by the Firm or the City shall be considered privileged and shall not be disclosed, except by the written consent of the City Attorney.

2. Unless otherwise agreed upon in advance in writing, the City will be charged for services rendered on an hourly basis and billings will be reflected in increments of one-tenth of an hour.

3. Each billing statement shall be set forth for each date services were performed:

   - A brief summary of the services provided; and
   - The number of hours, or fractions of hours spent by each provider; and
   - The hourly rates of each provider.

4. Expenses and disbursements shall be shown in detail:

   - Air travel shall be approved by the City in advance and is reimbursable at coach rates; and
• The City must NOT be charged for courier service or other expedited mail delivery, unless the urgency was caused by the City or the City requests the service; and

• Billings for experts or consultants retained by the Firm shall be provided in a substantially similar format as outlined above.

5. Any changes in outside counsel’s fee schedule shall be discussed with the City Attorney prior to implementation.

6. The Firm has been retained because of its expertise. The City shall not be billed for basic general legal or technical research necessary to educate staff or less experienced attorneys in the Firm without advanced City approval.

7. The City shall not be billed for any time spent in preparing or reviewing the Firm's billings to the City or for internal quality control procedures.

8. Unless approved in advance, the City will NOT reimburse for time spent by more than one (1) attorney attending meetings, witness interviews, depositions, hearings and the like.

B. Payment.

The Firm shall send its applications for payment to the City Attorney's Office, Fifth Floor, City Hall, 808 West Spokane Falls Boulevard, Spokane, Washington 99201. Payment will be made within thirty (30) days after receipt of the Firm's invoice, except as provided by state law.

Mara Spitzer provided remarks on behalf of Deb Conklin who asked that Council Member Stratton and her legislative aide Skyler Oberst be thanked for picking up and taking action on the evictions in West Central. Olga Lucia Herrera expressed concern about what she thinks is indifference to the increased incidents of gun violence in places our society as always considered safe, such as schools and the work place. She indicated her hope is that in Spokane we start a conversation of mass shootings, gun violence including suicide, and that we come up with ideas and actions to take and work on prevention.

**Section 4. Estimated Rate of Levy of Special Assessment.**

To finance the programs set forth in Section 3, there shall be levied and collected an annual special assessment upon the “businesses” and “multifamily residential” or “mixed-use projects,” as defined in RCW 35.87A.020(3) (including real property improvements thereon) as set forth on the special assessment formula for the East Sprague PBIA which shall be adopted annually by ordinance and incorporated by this reference as if fully set forth herein.

A. Special assessments shall be levied based on the classification of the businesses, multifamily residential and mixed-use projects (multi-family residential and commercial within the East Sprague PBIA) detailed below, using the Spokane County Assessor’s property information (including but not limited to assessed value, taxable value, lot size, and present use) upon Ratepayers within this area.

Properties classified by the Spokane County Tax Assessor’s Office as residential properties with three units or less shall not be assessed.

Properties that are located in “Residential Single Family” zoning or “Residential Two Family” zoning and that are also classified by the Spokane County Tax Assessor’s Office as “Residential Undivided” shall not be assessed.

B. Ratepayers will be assessed by the City of Spokane annually, beginning with the base year of the authorization (2016). Beginning in January 2016, the assessment will be as follows:

1. For properties in Zone 1, the assessment will be 2.5¢ per Lot Square Foot (LSF) plus 60¢ per $1,000 Total Assessed Value (TAV) based on the 2015 Spokane County records, with a minimum of $200 per property parcel and a maximum of $1,000 per property parcel.

2. For properties within Zone 2, the assessment will be 1.3¢ per LSF plus 30¢ per $1,000 of TAV based on the 2015 Spokane County
records, with a minimum of $100 per property parcel and a maximum of $500 per property parcel.

3. For properties within Zone 3, the assessment will be 0.6¢ per LSF plus 15¢ per $1,000 TAV based on the 2015 Spokane County records, with a minimum of $50 per property parcel and a maximum of $250 per property parcel.

C. After the first assessment year, the assessment amount shall be adjusted subject to the following conditions:

1. Assessments in the second and third assessment years, as adjusted pursuant to this subsection, shall be based upon the first assessment year.
   i. For the second assessment year (2017), the assessments will equal the first year assessments multiplied by a CPI Factor that is the lesser of 3% or the percentage change in CPI-U-Spokane between June 2015 and June 2016.
   ii. For the third assessment year (2018), the assessments will equal the first year assessments multiplied by a CPI Factor that is the lesser of 6% or the percentage change in CPI-U-Spokane between June 2015 and June 2017.

2. Assessments in the subsequent years will be recalcualted using current records of LSF and TAV as maintained by the Spokane County Assessor’s 2018 property information and the rates described in Section 4.B.
   i. For the fourth assessment year, to account for inflation and maintain the equivalent buying power, the assessment rate on LSF will be increased by an Inflationary Factor, which is equal to the percentage change in CPI-U-Spokane since the first assessment year. The TAV rate will remain the same.
   ii. For the fifth assessment year (2020), the assessments will equal the fourth year assessments multiplied by a CPI Factor that is the lesser of 3% or the percentage change in CPI-U-Spokane between June 2018 and June 2019.
   iii. For the sixth assessment year (2021), the assessments will equal the fourth year assessments multiplied by a CPI Factor that is the lesser of 6% or the percentage change in CPI-U-Spokane between June 2018 and June 2020.

3. For subsequent years, the assessment will continue on this three-year cycle with updates to the value and LSF rate every three years after the first assessment year.
D. Annual Improvement Area assessments will be determined by the CPI Factor as set forth in Section 4. B., except in the case of new construction, as follows:

1. Once a year, current Spokane County Assessor's property data will be compared to Spokane County Assessor's property data from the previous year.

2. If there is an increase in Net Building Square Footage for a parcel, then the East Sprague PBIA assessment will be calculated using the new Spokane County Assessor's values. No Inflationary Factor shall be assessed on the parcel in the year the change was made. In each subsequent assessment year, the Inflationary Factor shall be limited to the lesser of:
   i. 3% per year from the year of the change; or
   ii. The CPI-U-Spokane from January of the year prior to the change to January of the year prior to the assessment year.

New assessments will be invoiced during the next billing cycle.

3. If there is no increase in Net Building Square Footage for a parcel, then assessments in the East Sprague PBIA will be calculated as described in Sections 4 B and 4 C above. New assessments will be invoiced during the next billing cycle.

Section 5. The City Council shall hold a public hearing to consider establishing the East Sprague PBIA on Monday, December 14, 2015, at 6:00 P.M., or as soon thereafter as the same may be heard in the City Council Chambers located at City Hall, 808 West Spokane Falls Boulevard, Spokane, Washington 99201-3304. The City Council will receive evidence and testimony from all individuals who are in support of or against the proposal to form the East Sprague PBIA. The City Clerk is directed to cause notice of such hearing to be giving in the manner required by RCW 35.87A.050.

Section 7. This resolution shall take effect immediately.

A. Special assessments shall be levied on all businesses, multifamily residential and mixed-use projects within the Hillyard PBIA using the Spokane County Assessor's property information (including but not limited to assessed value, taxable value, and present use).

Properties classified by the Spokane County Tax Assessor's Office as residential properties with three units or less shall not be assessed. Properties that are located in "Residential Single Family" zoning or "Residential Two Family" zoning and that are also classified by the Spokane County Tax Assessor's Office as "Residential Undivided" shall not be assessed.

B. Ratepayers will be assessed by the City of Spokane annually, beginning with the base year of the authorization (2016). Beginning in January 2016, the assessment will be $1.26 per $1,000 Total Assessed Value (TAV) based on the 2015 Spokane County records, with a minimum of $100 per property parcel. A ratepayer may elect to make payment in equal semi-annual installments.

C. After the first assessment year, the assessment amount shall be adjusted subject to the following conditions:

1. Assessments in the second and third assessment years, as adjusted pursuant to this subsection, shall be based upon the first assessment year.
   i. For the second assessment year (2017), the assessments will equal the first year assessments multiplied by a Consumer Price Index (CPI) Factor that is the lesser of 3% or the percentage change in CPI-U-Spokane between June 2015 and June 2016.
   ii. For the third assessment year (2018), the assessments will equal the first year assessments multiplied by a CPI Factor that is the lesser of 6% or the percentage change in CPI-U-Spokane between June 2015 and June 2017.

2. Assessments in the subsequent years will be recalcultated using current records of TAV as maintained by the Spokane County Assessor's 2018 property information and the rates described in Section 4 B.
   i. For the fourth assessment year, the TAV rate will remain the same.
ii. For the fifth assessment year (2020), the assessments will equal the fourth year assessments multiplied by a CPI Factor that is the lesser of 3% or the percentage change in CPI-U-Spokane between June 2018 and June 2019.

iii. For the sixth assessment year (2021), the assessments will equal the fourth year assessments multiplied by a CPI Factor that is the lesser of 6% or the percentage change in CPI-U-Spokane between June 2018 and June 2020.

3. For subsequent years, the assessment will continue on this three-year cycle with updates to the value every three years after the first assessment year.

D. Annual Parking and Business Improvement Area assessments will be determined by the CPI Factor as set forth in Section 4 C above, except in the case of new construction, as follows:

1. Once a year, current Spokane County Assessor’s property data will be compared to Spokane County Assessor’s property data from the previous year.

2. If there is an increase in Net Building Square Footage for a parcel, then the Hillyard Parking and Business Improvement Area assessment will be calculated using the new Spokane County Assessor’s values. No Inflationary Factor shall be assessed on the parcel in the year the change was made. In each subsequent assessment year, the Inflationary Factor shall be limited to the lesser of:

   i. 3% per year from the year of the change; or

   ii. The CPI-U-Spokane from January of the year prior to the change to January of the year prior to the assessment year.

New assessments will be invoiced during the next billing cycle.

3. If there is no increase in Net Building Square Footage for a parcel, then assessments in the Hillyard PBIA will be calculated as described in Sections 4 B and 4 C above. New assessments will be invoiced during the next billing cycle.

Section 5. The City Council shall hold a public hearing to consider establishing the Hillyard PBIA on Monday, December 14, 2015, at 6:00 P.M., or as soon thereafter as the same may be heard in the City Council Chambers located at City Hall, 808 West Spokane Falls Boulevard, Spokane, Washington 99201-3304. The City Council will receive evidence and testimony from all individuals who are in support of or against the proposal to form the Hillyard PBIA. The City Clerk is directed to cause notice of such hearing to be giving in the manner required by RCW 35.87A.050.
Section 7. This resolution shall take effect immediately.

ADOPTED by the City Council this 12\textsuperscript{th} day of October, 2015.

ORDINANCE NO. C35320

AN ORDINANCE of the City of Spokane, Washington, relating to local improvement districts; establishing Consolidated Local Improvement District No. 224A and a consolidated local improvement district bond redemption fund; fixing the amount, form, date, interest rate and maturity of the Consolidated Local Improvement District No. 224A Installment Note; providing for the purchase of that Note by the City from funds on deposit in the Spokane Investment Pool; and defining the interest rate on local improvement district assessment installments.

THE CITY OF SPOKANE DOES ORDAIN:

Section 1. Recitals.

1.1 The City Council of the City of Spokane, Washington (the “City”), heretofore has created Local Improvement Districts Nos. 2012066 and 2013080 (the “LIDs”) for various purposes.

1.2 RCW 35.45.160 authorizes the establishment of consolidated local improvement districts for the purpose of issuing bonds only and provides that if the governing body of any municipality orders the creation of such consolidated local improvement district, the money received from the installment payment of the principal of and interest on assessments levied within the original local improvement districts shall be deposited in a consolidated local improvement district bond redemption fund to be used to redeem outstanding consolidated local improvement district bonds.

1.3 RCW 35.45.150 provides that in addition to issuing bonds in payment of the cost and expenses of any local improvement, a city may issue installment notes payable out of the relevant local improvement fund, and such notes are legal investments for any available surplus fund of the issuing city.

1.4 The City desires to provide a market-rate return on a portion of the funds it regularly invests while making those funds available on an interfund loan basis to finance the repayment of the installment note authorized herein; and

1.5 Pursuant to RCW 35.45.150, the City has determined to issue its Consolidated Local Improvement District No. 224A Installment Note in the aggregate principal amount not to exceed $306,901.53 and finds it is in the best interest of the City that such note be purchased by the City from funds on deposit in the City Treasury’s pooled cash portfolio and available for investment.

The Note shall be dated its date of delivery; shall mature on December 1, 2025; shall be in fully registered form; and shall be numbered R-4. The Note Registrar is authorized, on behalf of the City, to authenticate and deliver the Note in accordance with the provisions of the Note and this ordinance, to serve as the City’s paying agent for the Note and to carry out all of the Note Registrar’s powers and duties under this ordinance. For purposes of this Note, the provisions of this ordinance shall constitute a system of registration for the City’s notes and obligations. The Note Registrar shall be responsible for the representations contained in the Note Registrar’s Certificate of Authentication on the Note.

Section 6. Payment of the Note.

Both principal of and interest on the Note shall be payable solely out of the Note Fund, and from the Local Improvement Guaranty Fund of the City, consistent with RCW 35.45.150 and chapter 35.54 RCW, and shall be payable in lawful money of the United States of America. Interest on the Note, and any prepaid principal thereon, shall be paid by check, draft or electronic or interfund transfer on the interest payment date to the Registered Owner at the address appearing on the Note Register. The City reserves the right to prepay principal of the Note prior to its stated maturity on any interest payment date, at par plus accrued interest to the date fixed for prepayment, whenever there shall be sufficient money in the Note Fund to prepay the principal of the Note over and above the amount required for the payment of the interest then due on the Note. No notice of prepayment to the Registered Owner is required. Interest on the principal of the Note so prepaid shall cease to accrue on the date of such prepayment.

Section 8. Failure to Redeem the Note.

If the Note is not redeemed when properly presented at its maturity or earlier prepayment date, the City shall be obligated to pay interest on the Note at the same rate provided therein from and after its maturity date until the Note, both principal and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Note Fund and the Note has been called for payment by giving notice of that call to the Registered Owner.
Section 9. **Form and Execution of the Note.**

9.1 The Note shall be printed, lithographed or typed on good Note paper in a form consistent with the provisions of this ordinance and state law (including RCW 35.45.150), shall be signed by the Mayor and attested by the City Clerk, either or both of whose signatures may be manual or in facsimile, and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

RE: ORDINANCE C35274 RELATING TO THE PROCESS OF FILLING VACANCIES
IN THE POSITION OF POLICE OMBUDSMAN

During its 3:30 p.m. Administrative Session held Monday, August 10, 2015, upon review
of the August 10, 2015, Current Agenda, the Spokane City Council took the following
action:

Motion by Council Member Snyder, seconded by Council Member
Stratton, to defer Final Reading Ordinance C35274—relating to the
process of filling vacancies in the position of police ombudsman—for 90
days (or to November 9, 2015); carried unanimously.

(Clerical Note: Following the August 10, 2015, City Council Meeting, it was discovered
that Ordinance C35274 was inadvertently placed on the August 10, 2015, Agenda as a
Final Reading Ordinance rather than as a First Reading Ordinance. Ordinance C35274
was initially deferred as a first reading ordinance by City Council on June 22 and then
staff inadvertently placed the ordinance as a Final Reading Ordinance on the August 10
Current Agenda, with Council action taken as reflected above. In light of this oversight,
the ordinance will be placed under “First Reading Ordinances” on the November 9,
2015, agenda rather than under “Final Reading Ordinances.”)

COUNCIL ACTION MEMORANDUM

RE: FIRST READING ORDINANCE C35274 RELATING TO THE PROCESS FOR FILLING VACANCIES IN THE POSITION OF POLICE OMBUDSMAN

During the Spokane City Council’s 6:00 p.m. Legislative Session held Monday, June 22, 2015, Council President Stuckart suggested Ordinance C35274 be deferred for six weeks in order to send it to negotiations. Council Member Snyder presented a motion to defer the ordinance in order to give the Administration a chance to speak with the bargaining units about the impact of this ordinance. Subsequently, the following action was taken:

Motion by Council Member Snyder, seconded by Council Member Allen, to defer First Reading Ordinance C35274—Relating to the process for filling vacancies in the position of police ombudsman; amending SMC section 04.32.080 and SMC section 04.32.090—for six weeks to give some time for that dialogue (between Administration and the bargaining units) to occur; carried unanimously.

(Clerical Note: The deferral of Ordinance C35274 for six weeks falls on Monday, August 3, 2015. The City Council meeting for August 3 has been canceled. Therefore, the matter is instead deferred to Council’s August 10, 2015, Agenda.)

If the commission fails to appoint an interim ombudsman, the city council shall appoint an interim ombudsman, to serve until the permanent police ombudsman is hired.

D. In order to remain prepared for future vacancies, the commission should maintain a list of applicants for the positions of interim and permanent police ombudsman from which future interview pools can be drawn.

F. The selection committee shall, according to its own process and organizing principles, forward a list of no more than five (5) qualified candidates for the position of permanent police ombudsman to the commission no later than one hundred twenty (120) days from the committee’s formation. For purposes of this
section, the “committee’s formation” occurs when the final member of the committee is seated.

G. No later than sixty (60) days after receiving the selection committee’s list of qualified candidates for the position of permanent police ombudsman, the commission shall select one of the individuals on the list for appointment as permanent police ombudsman.

Section 2. That section 04.32.090 of the Spokane Municipal Code is amended to read as follows:

The selection committee referenced in SMC 4.32.080 must meet within thirty days of notification by the commission of the need to appoint an interim police ombudsman.))

ORDINANCE NO. C35324

An ordinance relating to the City of Spokane’s Central Incentives Area; amending sections 13.04.2042 and 13.03.0732 of the Spokane Municipal Code.

WHEREAS, development incentives can and should be targeted to those areas where they will do the most good for a variety of measures; and

WHEREAS, Council members and staff have worked to develop an incentive framework which provides for focused, accountable, clear, and measurable outcomes; and

WHEREAS, the Council passed Resolution 2015-0084 to give staff direction on how best to proceed with the process, including a request that staff recommend specific ordinance and/or policy changes to put the incentives strategy into effect; and

WHEREAS, an amendment to the City’s existing Empowerment Zone is needed to conform the specified areas with the incentives measures under consideration.

NOW, THEREFORE, the City of Spokane does ordain:

Section 1. That section 13.04.2042 of the Spokane Municipal Code is amended to read as follows:

Section 13.04.2042 Water General Facilities Charge – Schedule of Charges

A. Findings – General Facilities Charge (GFC).
   The City Council finds:
   1. under the previous system providing for collection of latecomer connection charges under chapter 35.91 RCW or special connection changes under RCW 35.92.025, customers happening to connect in certain areas must pay extra costs, although the primary benefit of access to the public water system is the same to a new customer, whether the customer is within or outside an area subject to such special connection charges. Additionally, upgraded customers moving from a smaller to a larger connection capacity gain additional system benefits, but may otherwise escape paying a special connection or latecomer charge, once having connected and paid an initial connection charge based on a smaller size connection.
   2. undue administrative burdens and costs are created in administering various connection and latecomer charges, each of which may have differing trigger dates and which may also have differing limits in terms of allowable interest accruing on such payments as well as the period or periods such charges may be collected.
   3. there is a system-wide benefit, served by a uniform, adjustable GFC, in encouraging system growth through infilling certain unserved areas and

Revised, Recv’d 11-18-2015
considering that expanding the overall customer ratebase and customer densities will reduce fixed costs which must otherwise be spread over all classes of ratepayers.

4. it is in the public interest to provide for a more uniform rate structure and to replace individual area connection or latecomer fees with a single GFC rate, except only as may be distinguished by the size of connection or connection upgrade, as provided hereafter.

5. it is further in the public interest that those adding additional costs or burdens to the City water system by creating need and demand for new system growth and infill needs in the City water system should pay a GFC therefore. Such customers should be treated and classified in common with customers formerly also subject to a special connection or latecomer connection charge, so that only one uniform GFC should be paid by all customers with new or upgraded utility service.

B. Findings; ((Empowerment Zone)) Central Incentives Area.

The ((city council)) City Council finds:

1. Washington State’s growth management laws, including RCW 36.70A.110, encourage development first within existing urban areas before moving to other areas.

2. the City of Spokane’s comprehensive plan and state growth management policies encourage the "infilling" of developed areas that still have some growth capacity. A consequence of not doing this is sprawling development out in long corridors or scattered areas, making the extension of needed urban services more expensive and less efficient for the public.

3. costs of encouraging development in more densely populated areas already served by existing utility lines is lower than extending new lines to more remote undeveloped areas. Existing utility lines are installed and designed to serve the full growth potential of an area, so it is an unwise use of resources to continue extending lines where some growth can still occur in developed areas.

4. the ((empowerment zone)) Central Incentives Area (CIA) established herein is in the category of a more densely populated area rather than a more remote, undeveloped area. The savings that City sewer and water utilities realize by encouraging development in the ((empowerment zone)) CIA, through not assessing a GFC to customers located there, is roughly proportional to the loss of the GFC revenues.

5. properties within the ((empowerment zone)) CIA are identified as generally of lower value investment than other areas served. The opportunity for new development in the ((empowerment zone)) CIA to recover acceptable investment value is of a more marginal, doubtful and unlikely character than customers connecting in areas outside the ((empowerment zone)) CIA. Adding a GFC charge to the class of
customers in the ((empowerment zone)) CIA would make it significantly more difficult for further development or new connections in such areas. This result is contrary to public policy, growth management laws, and responsible utility system management for the overall benefit of the ratepayers. Encouraging development in the ((empowerment zone)) CIA will benefit the City sewer and water utilities by new customer revenues, which would otherwise be lost if a GFC were assessed because such development would be less likely to occur.

6. the ((empowerment zone)) CIA as an area substantially deficient in development and heavily populated with low income and fixed income, poor or elderly customers.

7. there is a reasonable basis to classify customers seeking connections to premises in an ((empowerment zone)) CIA not to be subject to GFC charge.

C. ((Empowerment Zone ))The boundaries of the CIA are:

((All that property located within the following described area:

Census tracts 1, 2, 4, 14, 15, 16, 20, 23, 24, 25, 26, 27, 28, 30, 31, 33, 34, 35, 36, 40 according to the U.S. Census Bureau 1990 TIGER census data database. Situate in the City of Spokane, Spokane County, Washington.))

On the west, the Spokane River;

On the south, a line running from Latah Creek to 9th Avenue, then east on 9th Avenue to Lincoln Street, then north on Lincoln Street to 5th Avenue, then east on 5th Avenue to Sherman Street, then south on Sherman Street to 9th Avenue, then east on 9th Avenue from Sherman Street to Havana Street;

On the east, a line running north on Havana Street from 9th Avenue to Francis Avenue, excluding Minnehaha Park and Esmerelda Golf Course;

On the north, a line running west along Francis Avenue from Havana to Division Street, then south on Division Street to Indiana Avenue, then west on Indiana Avenue to Monroe Street, then north on Monroe Street to Garland Avenue, then west on Garland Avenue to Ash Street, then south on Ash Street to Fairview Avenue, then west on Fairview Avenue to Cochran Street, then south on Cochran Street and T.J. Meenach Drive to the Spokane River; and

All land within the City Limits of the City of Spokane which is owned or controlled by, or which is subject to proprietary interest of, the Spokane Airport Board.

The ((director of public works)) Director of Public Works ((is authorized to adjust this boundary consistent with the findings and purpose of this section. A copy of the empowerment zone map shall (be maintained)) maintain a copy of the map of the CIA (Attachment A to this ordinance) (on file with the director of public works)) for public inspection.
D. **Charge for new service or new upgrades inside the empowerment zone CIA:** No charge.

E. **Service Outside (Empowerment Zone) CIA.**
   1. For new service or new upgrades of existing service to the City water system, a GFC is assessed as provided hereafter. The charge will be based upon the tap size required for the facility. If the size of a previous connection is upgraded to a larger connection, only the difference between the charges for the size of a connection, as shown at the time of connection, is charged.

2. The water GFC is intended to supersede all prior special connection capital charges assessed to defray an equitable share of the cost of the City water system, except for such charges the City may be bound to continue pursuant to chapter 35.91 RCW (developer latecomer charges), or which the City remains legally bound to collect.

   a. Except for such charges, it is the intent of the ((city council)) City Council to supersede all previous special connection capital charges of any form or nature, replacing all such charges with a single water GFC for any new connections or connection or service demand upgrades to the City water system at any location served by said system.

   b. The GFC is to be used to finance new system growth and infill needs created by new or upgraded customers. In the case of latecomer contracts entered into under chapter 35.91 RCW and the like, the GFC herein supersedes the amount to be collected from a party seeking connection.

   c. However, any GFC collected does not increase or decrease amounts the City may previously have contracted to reimburse to a third party at the time of allowing a connection, said parties to be paid by the City as provided under the preexisting contract.

   d. Hereafter, consistent with this ordinance, the ((director of public works)) Director of Public Works may make provision for reimbursement of third parties for facility construction costs, but hereafter, the amount of reimbursement per connection shall not exceed the GFC amount collected, which may change from year to year as the ((city council)) City may adjust the GFC.

3. Adjustments.
   The charge for a water connection can be adjusted upon a showing of prior payment of similar charges, or for other sound considerations of
fairness, as determined by the ((director of public works)) **Director of Public Works**.

a. To be eligible for such adjustment, a party required to pay a water GFC must submit a written application to the ((director of public works)) **Director of Public Works**, together with any supporting materials and explanation.

b. The ((director of public works)) **Director of Public Works** must receive such materials no later than the time of connection of the subject premises.

c. No adjustment may exceed the amount of the water GFC applicable to the connection requested.

4. The water GFC applies, in addition to all other non-capital connection, permit or other fees required by this code or elsewhere. The charge is due and payable in full at or before the time of connection or as otherwise ordered by the ((director of public works)) **Director of Public Works**.

5. The ((director of public works)) **Director of Public Works** may record appropriate notice with the county auditor concerning areas subject to the water GFC pursuant to the requirements of RCW 65.08.170 and RCW 65.08.180, as applicable, reserving the possibility of upgrade charges.

Section 2. That section 13.03.0732 of the Spokane Municipal Code is amended to read as follows:

**Section 13.03.0732 Wastewater General Facilities Charge (GFC) – Schedule of Charges**

A. Findings – General Facilities Charge.

The ((city council)) **City Council** finds:

1. under the previous system providing for collection of latecomer connection charges under chapter 35.91 RCW or special connection changes under RCW 35.92.025, customers happening to connect in certain areas must pay extra costs, although the primary benefit of access to the public sewer system is the same to a new customer, whether the customer is within or outside an area subject to such special connection charges.

   a. Additionally, upgraded customers moving from a smaller to a larger connection capacity gain additional system benefits, but may otherwise escape paying a special connection or latecomer charge, once having connected and paid an initial connection charge based on a smaller size connection;

2. undue administrative burdens and costs are created in administering various connection and latecomer charges, each of which may have
differing effective dates and which may also have differing limits in terms of allowable interest accruing on such payments as well as the period or periods such charges may be collected;

3. there is a system-wide benefit, served by a uniform, adjustable ((general facilities charge)) GFC, in encouraging system growth through infilling certain unserved areas and considering that expanding the overall customer rate base and customer densities will reduce fixed costs which must otherwise be spread over all classes of ratepayers;

4. it is in the public interest to provide for a more uniform rate structure and to replace individual area connection or latecomer fees with a single ((general facilities charge)) GFC rate, except only as may be distinguished by the size of connection or connection upgrade, as provided hereafter;

5. it is further in the public interest that those adding additional costs or burdens to the City sewer system by creating need and demand for new system growth and infill needs in the City sewer system should pay a ((general facilities charge)) GFC therefor. Such customers should be treated and classified in common with customers formerly also subject to a special connection or latecomer connection charge, so that only one uniform ((general facilities charge)) GFC should be paid by all customers with new or upgraded utility service.

B. Findings – ((Empowerment Zone)) Central Incentives Area (CIA).
   The ((city council)) City Council finds:
   1. Washington State's growth management laws, including RCW 36.70A.110, encourage development first within existing urban areas before moving to other areas.

   2. the City of Spokane's comprehensive plan and state growth management policies encourage the "infilling" of developed areas that still have some growth capacity. A consequence of not doing this is sprawling development out in long corridors or scattered areas, making the extension of needed urban services more expensive and less efficient for the public;

   3. costs of encouraging development in more densely populated areas already served by existing utility lines is lower than extending new lines to more remote undeveloped areas. Existing utility lines are installed and designed to serve the full growth potential of an area, so it is an unwise use of resources to continue extending lines where some growth can still occur in developed areas;

   4. the ((empowerment zone)) CIA established herein is in the category of a more densely populated area rather than a more remote, undeveloped area. The savings that City sewer and water utilities realize by encouraging development in the ((empowerment zone)) CIA, through not assessing a ((general facilities charge)) GFC to customers
located there, is roughly proportional to the loss of the ((general facilities charge)) GFC revenues;

5. properties within the ((empowerment zone)) CIA are identified as generally of lower value investment than other areas served. The opportunity for new development in the ((empowerment zone)) CIA to recover acceptable investment value is of a more marginal, doubtful and unlikely character than customers connecting in areas outside the ((empowerment zone)) CIA. Adding a ((general facilities charge)) GFC to the class of customers in the ((empowerment zone)) CIA would make it significantly more difficult for further development or new connections in such areas. This result is contrary to public policy, growth management laws and responsible utility system management for the overall benefit of the ratepayers. Encouraging development in the ((empowerment zone)) CIA will benefit the City sewer and water utilities by new customer revenues, which would otherwise be lost if a ((general facilities charge)) GFC were assessed because such development would be less likely to occur;

6. the ((empowerment zone)) CIA as an area substantially deficient in development and heavily populated with low income and fixed income, poor or elderly customers;

7. there is a reasonable basis to classify customers seeking connection to premises in an ((empowerment zone)) CIA not to be subject to a ((general facilities charge)) GFC.

C. Empowerment Zone The boundaries of the CIA are:

((All that property located within the following described area:

Revised, Rec’v’d 11-18-2015
All land within the City Limits of the City of Spokane which is owned or controlled by, or subject to a proprietary interest of, the Spokane Airport Board.

The Director of Public Works is authorized to adjust this boundary consistent with the findings and purpose of this section. A copy of the empowerment zone map shall maintain a copy of the map of the CIA (Attachment A to this ordinance) for public inspection.

D. **Charge for new service or new upgrades inside the CIA**: No charge.

E. Service Outside the CIA.

1. For new service or new upgrades to existing service from the City sewer system, a wastewater general facilities charge GFC is assessed as provided hereafter. The charge will be based on the water tap size that would otherwise be required for the facility without fire flow and/or irrigation flow.

   a. Upgrades are charged at the current difference between the old and new connection size charges.

a. The charge is due and payable in full at the time of application for connection or as otherwise ordered by the Director of Public Works.

5. The Wastewater Management Director may record appropriate notice with the county auditor concerning areas subject to the wastewater GFC in accord with RCW 65.08.170 and RCW 65.08.180, as applicable.
