## **LAND ACKNOWLEDGEMENT**

We acknowledge that we are on the unceded land of the Spokane people. And that these lands were once the major trading center for the Spokanes as they shared this place and welcomed other area tribes through their relations, history, trade, and ceremony. We also want to acknowledge that the land holds the spirit of the place, through its knowledge, culture, and all the original peoples Since Time Immemorial.

As we take a moment to consider the impacts of colonization may we also acknowledge the strengths and resiliency of the Spokanes and their relatives. As we work together making decisions that benefit all, may we do so as one heart, one mind, and one spirit.

We are grateful to be on the shared lands of the Spokane people and ask for the support of their ancestors and all relations. We ask that you recognize these injustices that forever changed the lives of the Spokane people and all their relatives.

We agree to work together to stop all acts of continued injustices towards Native Americans and all our relatives. It is time for reconciliation. We must act upon the truths and take actions that will create restorative justice for all people.

Adopted by Spokane City Council on the 22nd day of March, 2021  
*via Resolution 2021-0019*

## CONSENT AGENDA

The consent agenda consists of purchases and contracts for supplies and services provided to the city, as well as other agreements that arise (such as settlement or union agreements), and weekly claims and payments of previously approved obligations and biweekly payroll claims against the city. Any agreement over \$50,000 must be approved by the city council. Typically, the funding to pay for these agreements has already been approved by the city council through the annual budget ordinance, or through a separate special budget ordinance. If the contract requires a new allocation of funds, that fact usually will be indicated in the summary of the contract in the consent agenda.

Unless a council member requests that an item be considered separately, the council approves the consent agenda as a whole in a single vote. Note: The consent agenda is no longer read in full by the city clerk. The public is welcome to testify on matters listed in the consent agenda, but individual testimony is limited to three minutes for the entire consent agenda.

0680 - NIGHT VISION GOGGLES AND HELMET MOUNTS

**Agenda Wording**

SPD Requests approval to purchase night vision goggles and helmet mounts for SWAT

**Summary (Background)**

SWAT utilizes night vision goggles during high risk incidents. Currently all sets of goggles are stored in the equipment truck and have to be transported to scenes where often times SWAT officers arrive before the truck gets there with equipment, causing delays and increasing risk to the public. Having enough sets to issue each SWAT member will allow members to respond more quickly during high risk situations.

0680 - MULTI-PURPOSE ARMORED VEHICLE PURCHASE

**Agenda Wording**

Purchase approval of a Terradyne Multi-purpose Vehicle-accessing the Florida Sheriff's Association Cooperative Purchasing Program Contract #FSA23-VEH21.0.

**Summary (Background)**

SPD's previous armored vehicle was damaged in a collision and deemed irreparable by the manufacturer. This is a critical piece of equipment for the community and department to have the armored vehicle replaced. The build time is 7 plus months from time of purchase to delivery. This vehicle has been used for an average of 130 plus callouts the last two years and is a de-escalation tool (utilizing time, distance cover and communication) for a safe resolution to high-risk incidents in the community. Many operations we have been waiting on mutual aid to make the operation/scene safer and de-escalate. There are times that multiple calls for service are occurring, and additional resources are divided with multiple armored vehicles necessary.

**What impacts would the proposal have on historically excluded communities?**

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

## **INTERAGENCY AGREEMENT**

**BETWEEN THE**

**Washington Traffic Safety Commission**

**AND**

**Spokane Police Department**

**2026-ST-5712-Dedicated DUI Enforcement - Spokane Police Department**

THIS AGREEMENT is made and entered into by and between the Washington Traffic Safety Commission, hereinafter referred to as "WTSC," and Spokane Police Department, hereinafter referred to as "SUB-RECIPIENT."

NOW THEREFORE, in consideration of the authority provided to WTSC in RCW 43.59 and RCW 39.34, terms, conditions, covenants, and performance contained herein, or attached and incorporated and made a part hereof, the parties mutually agree as follows:

### **1. PURPOSE OF THE AGREEMENT:**

The purpose of this Agreement is to provide funding for traffic safety grant project 2026-ST-5712-Dedicated DUI Enforcement - Spokane Police Department.

### **2. PERIOD OF PERFORMANCE**

The period of performance of this Contract shall commence upon the date of execution by both Parties or July 01, 2025, whichever is later, and remain in effect until June 30, 2026, unless terminated sooner, as provided herein.

### **3. STATEMENT OF WORK**

The SUB-RECIPIENT shall carry out the provisions of the traffic safety project described here as the Statement of Work (SOW). If the SUB-RECIPIENT is unable to fulfill the SOW in any manner on this project, the SUB-RECIPIENT must contact the WTSC Program Manager immediately and discuss a potential amendment. All State regulations will apply.

### 3.1 SCOPE OF WORK

#### 3.1.1 Problem ID and/or Opportunity

From 2019 to 2023, traffic fatalities in Washington State have increased 50% from 538 to 810. The 810 fatalities in 2023 represent a 30-year high in traffic deaths. On average, half of these fatal crashes (49%) involved an impaired driver. From 2019-2023, the number of impaired drivers involved in fatal crashes has increased 43% from 258 to 369.

From 2022-2023, the total number of fatal crashes in Washington State have increased 46%. In this same timeframe, Spokane County has seen a 61% increase in the number of impaired drivers involved in fatal crashes. 51% of all the fatal crashes in Spokane County involve an impaired driver. This is higher than the state average of 49%. Furthermore, Spokane County has a much higher-than average percentage of impaired drivers involved in pedestrian fatalities (24% vs. 15% statewide).

#### 3.1.2 Project Purpose and Strategies

The purpose of this project is to address an increase in serious injury and fatal collisions related to alcohol and drug impairment. This project will accomplish this by providing funding to support approximately 2080 hours of officer activities to conduct dedicated DUI enforcement.

### 3.2 PROJECT GOALS

2)

Goal: Conduct sustained DUI enforcement at least 5 days/nights per week to reduce impaired driving crashes by 10%, by June 30th, 2026.

3.2.1 The objectives, measures and timelines listed in Appendix A will be reviewed at least annually by the designated contacts of the SUB-RECIPIENT and WTSC, and may be updated pursuant to clause 6 of this AGREEMENT. For the purposes of this section only, the parties' DESIGNATED CONTACTS, as listed in clause 32, are authorized to execute these amendments to Appendix A.

### 3.3. COMPENSATION

3.3.1 The cost of accomplishing the work described in the SOW will not exceed \$158,861.06, for the entire period of performance, as allocated to each year of this agreement in Section 3.4 PROJECT

COSTS. Unspent contract funds from each year do NOT carry over into subsequent years and each year's budget is independent of the others.

3.3.2 Payment for satisfactory performance of the work shall not exceed this amount unless the parties mutually agree to a higher amount in a written Amendment to this Agreement executed by both parties.

3.3.3 After the first year, continuation is subject to funding availability, agreement on future objectives and measures, and satisfactory progress toward completion of agreed upon goals (as determined by WTSC), as set forth in the SOW.

3.3.4 If the SUB-RECIPIENT intends to charge indirect costs, an Indirect Cost Rate must be established in accordance with WTSC policies, and an approved cost allocation plan may be required to be submitted to the WTSC before any performance is conducted under this Agreement. Indirect cost rates are subject to change based on updated Indirect Rate Letters from a cognizant federal agency or approved cost allocation plans. If the indirect rate increases, the budget will be modified by deducting the amount of the indirect rate increase from other budget categories so that the total budget does not increase. The total budget may not increase without an amendment to this agreement executed by both parties.

3.3.5 WTSC will only reimburse the SUB-RECIPIENT for travel related expenses for travel defined in the scope of work and budget or for which approval was expressly granted. The SUB-RECIPIENT must submit a travel authorization form (A-40) to request approval for any travel not defined in the SOW and for all travel outside of the continental United States.

3.3.6 WTSC will reimburse travel related expenses consistent with the written travel policies of the SUB-RECIPIENT. If no written policy exists, state travel rates and policies (SAAM Chapter 10) apply. If WTSC makes travel arrangements on behalf of the SUB-RECIPIENT, state travel policies must also be followed. Washington State Administrative & Accounting Manual (SAAM) Chapter 10 can be obtained at this website: <https://www.ofm.wa.gov/sites/default/files/public/legacy/policy/10.htm>. If for any reason, this information is not available at this website, contact the WTSC office at 360-725-9860 to obtain a copy. If following state travel policies, the SUB-RECIPIENT must provide appropriate documentation (receipts) to support reimbursement requests, including the A-40 Travel Authorization form if required.

3.3.7 All equipment purchased with this grant must be inventoried by the SUB-RECIPIENT. The SUB-RECIPIENT agrees to maintain the equipment, continue to use it for project purposes, and report on its status to WTSC each year when requested.

3.3.8 Equipment is defined as any asset with a useful life greater than one year AND a unit cost of \$10,000 or greater, and small and attractive assets.

### **15. GOVERNANCE**

15.1. This Agreement is entered into pursuant to and under the authority granted by the laws of the state of Washington and any applicable federal laws. The provisions of this Agreement shall be construed to conform to those laws.

15.2. In the event of an inconsistency in the terms of this Agreement, or between its terms and any applicable statute or rule, the inconsistency shall be resolved by giving precedence in the following order:

15.2.1. Applicable federal and state statutes and rules

15.2.2. Terms and Conditions of this Agreement

15.2.3. Any Amendment executed under this Agreement

15.2.4. Any SOW executed under this Agreement

15.2.5. Any other provisions of the Agreement, including materials incorporated by reference

### **16. INCOME**

Any income earned by the SUB-RECIPIENT from the conduct of the SOW (e.g., sale of publications, registration fees, or service charges) must be accounted for, reported to WTSC, and that income must be

applied to project purposes or used to reduce project costs.

## **17. INDEMNIFICATION**

17.1. To the fullest extent permitted by law, the SUB-RECIPIENT shall indemnify and hold harmless the WTSC, its officers, employees, and agents, and process and defend at its own expense any and all claims, demands, suits at law or equity, actions, penalties, losses, damages, or costs of whatsoever kind ("claims") brought against WTSC arising out of or in connection with this Agreement and/or the SUB-RECIPIENT's performance or failure to perform any aspect of the Agreement. This indemnity provision applies to all claims against WTSC, its officers, employees, and agents arising out of, in connection with, or incident to the acts or omissions of the SUB-RECIPIENT, its officers, employees, agents, contractors, and subcontractors. Provided, however, that nothing herein shall require the SUB-RECIPIENT to indemnify and hold harmless or defend the WTSC, its agents, employees, or officers to the extent that claims are caused by the negligent acts or omissions of the WTSC, its officers, employees or agents; and provided further that if such claims result from the concurrent negligence of (a) the SUB-RECIPIENT, its officers, employees, agents, contractors, or subcontractors, and (b) the WTSC, its officers, employees, or agents, or involves those actions covered by RCW 4.24.115, the indemnity provisions provided herein shall be valid and enforceable only to the extent of the negligence of the SUB-RECIPIENT, its officers, employees, agents, contractors, or subcontractors.

17.2. The SUB-RECIPIENT agrees that its obligations under this Section extend to any claim, demand and/or cause of action brought by, or on behalf of, any of its employees or agents in the performance of this agreement. For this purpose, the SUB-RECIPIENT, **by mutual negotiation**, hereby waives with respect to WTSC only, any immunity that would otherwise be available to it against such claims under the Industrial Insurance provisions chapter 51.12 RCW.

17.3. The indemnification and hold harmless provision shall survive termination of this Agreement.

## **18. INDEPENDENT CAPACITY**

The employees or agents of each party who are engaged in the performance of this Agreement shall continue to be employees or agents of that party and shall not be considered for any purpose to be employees or agents of the other party.

## **19. INSURANCE COVERAGE**

19.1. The SUB-RECIPIENT shall comply with the provisions of Title 51 RCW, Industrial Insurance, if required by law.

19.2. If the SUB-RECIPIENT is not required to maintain insurance in accordance with Title 51 RCW, prior to the start of any performance of work under this Agreement, the SUB-RECIPIENT shall provide WTSC with proof of insurance coverage (e.g., vehicle liability insurance, private property liability insurance, or

commercial property liability insurance), as determined appropriate by WTSC, which protects the SUB-RECIPIENT and WTSC from risks associated with executing the SOW associated with this Agreement.

## **20. LICENSING, ACCREDITATION, AND REGISTRATION**

The SUB-RECIPIENT shall comply with all applicable local, state, and federal licensing, accreditation, and registration requirements and standards necessary for the performance of this Agreement. The SUB-RECIPIENT shall complete registration with the Washington State Department of Revenue, if required, and be responsible for payment of all taxes due on payments made under this Agreement.

## **21. RECORDS MAINTENANCE**

21.1. During the term of this Agreement and for six years thereafter, the SUB-RECIPIENT shall maintain books, records, documents, and other evidence that sufficiently and properly reflect all direct and indirect costs expended in the performance of the services described herein. These records shall be subject to inspection, review, or audit by authorized personnel of the WTSC and the Office of the State Auditor. All books, records, documents, and other material relevant to this Agreement will be retained for six years after expiration. The Office of the State Auditor, the WTSC, and any duly authorized representatives shall have full access and the right to examine any of these materials during this period.

21.2. Records and other documents, in any medium, furnished by one party to this Agreement to the other party, will remain the property of the furnishing party, unless otherwise agreed. The receiving party will not disclose or make available this material to any third parties without first giving notice to the furnishing party and giving them a reasonable opportunity to respond. Each party will utilize reasonable security procedures and protections to assure that records and documents provided by the other party are not erroneously disclosed to third parties.

## **22. RIGHT OF INSPECTION**

The SUB-RECIPIENT shall provide right of access to its facilities to the WTSC or any of its officers, or to any other authorized agent or official of the state of Washington, at all reasonable times, in order to monitor and evaluate performance, compliance, and/or quality assurance under this Agreement. The SUB-RECIPIENT shall make available information necessary for WTSC to comply with the right to access, amend, and receive an accounting of disclosures of their Personal Information according to the Health Insurance Portability and Accountability Act of 1996 (HIPAA) or any regulations enacted or revised pursuant to the HIPAA provisions and applicable provisions of Washington State law. The SUB-RECIPIENT shall upon request make available to the WTSC and the United States Secretary of the Department of Health and Human Services all internal policies and procedures, books, and records relating to the safeguarding, use, and disclosure of Personal Information obtained or used as a result of this Agreement.

## **23. RIGHTS IN DATA**

23.1. WTSC and SUB-RECIPIENT agree that all data and work products (collectively called "Work Product") pursuant to this Agreement shall be considered works made for hire under the U.S. Copyright Act, 17 USC §101 et seq., and shall be owned by the state of Washington. Work Product includes, but is not limited to, reports, documents, pamphlets, advertisement, books, magazines, surveys, studies, computer programs, films, tapes, sound reproductions, designs, plans, diagrams, drawings, software, and/or databases to the extent provided by law. Ownership includes the right to copyright, register the copyright, distribute, prepare derivative works, publicly perform, publicly display, and the ability to otherwise use and transfer these rights.

23.2. If for any reason the Work Product would not be considered a work made for hire under applicable law, the SUB-RECIPIENT assigns and transfers to WTSC the entire right, title, and interest in and to all rights in the Work Product and any registrations and copyright applications relating thereto and any renewals and extensions thereof.

23.3. The SUB-RECIPIENT may publish, at its own expense, the results of project activities without prior review by the WTSC, provided that any publications (written, visual, or sound) contain acknowledgment of the support provided by WTSC. Any discovery or invention derived from work performed under this project shall be referred to the WTSC, who will determine whether patent protections will be sought, how any rights will be administered, and other actions required to protect the public interest.

## **24. SAVINGS**

In the event funding is withdrawn, reduced, or limited in any way after the effective date of this Agreement and prior to completion of the SOW under this Agreement, the WTSC may terminate the Agreement under the "TERMINATION FOR CONVENIENCE" clause, without the 30 day notice requirement. The Agreement is subject to renegotiation at the WTSC's discretion under any new funding limitations or conditions.

## **25. SEVERABILITY**

If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, if such remainder conforms to the requirements of applicable law and the fundamental purpose of this Agreement, and to this end the provisions of this Agreement are declared to be severable.

## **26. SITE SECURITY**

While on WTSC premises, the SUB-RECIPIENT, its agents, employees, or sub-contractors shall conform in all respects with all WTSC physical, fire, or other security policies and applicable regulations.

## **27. TAXES**

All payments of payroll taxes, unemployment contributions, any other taxes, insurance, or other such expenses for the SUB-RECIPIENT or its staff shall be the sole responsibility of the SUB-RECIPIENT.

## **28. TERMINATION FOR CAUSE**

If the SUB-RECIPIENT does not fulfill in a timely and proper manner its obligations under this Agreement or violates any of these terms and conditions, the WTSC will give the SUB-RECIPIENT written notice of such failure or violation, and may terminate this Agreement immediately. At the WTSC's discretion, the SUB-RECIPIENT may be given 15 days to correct the violation or failure. In the event that the SUB-RECIPIENT is given the opportunity to correct the violation and the violation is not corrected within the 15-day period, this Agreement may be terminated at the end of that period by written notice of the WTSC.

## **29. TERMINATION FOR CONVENIENCE**

Except as otherwise provided in this Agreement, either party may terminate this Agreement, without cause or reason, with 30 days written notice to the other party. If this Agreement is so terminated, the WTSC shall be liable only for payment required under the terms of this Agreement for services rendered or goods delivered prior to the effective date of termination.

## **30. TREATMENT OF ASSETS**

30.1. Title to all property furnished by the WTSC shall remain property of the WTSC. Title to all property furnished by the SUB-RECIPIENT for the cost of which the SUB-RECIPIENT is entitled to be reimbursed as a direct item of cost under this Agreement shall pass to and vest in the WTSC upon delivery of such property by the SUB-RECIPIENT. Title to other property, the cost of which is reimbursable to the SUB-RECIPIENT under this Agreement, shall pass to and vest in the WTSC upon (i) issuance for use of such property in the performance of this Agreement, or (ii) commencement of use of such property in the performance of this Agreement, or (iii) reimbursement of the cost thereof by the WTSC in whole or in part, whichever first occurs.

30.2. Any property of the WTSC furnished to the SUB-RECIPIENT shall, unless otherwise provided herein or approved by the WTSC, be used only for the performance of this Agreement.

30.3. The SUB-RECIPIENT shall be responsible for any loss or damage to property of the WTSC which results from the negligence of the SUB-RECIPIENT or which results from the failure on the part of the SUB-RECIPIENT to maintain and administer that property in accordance with sound management practices.

30.4. If any WTSC property is lost, destroyed, or damaged, the SUB-RECIPIENT shall immediately notify the WTSC and shall take all reasonable steps to protect the property from further damage.

30.5. The SUB-RECIPIENT shall surrender to the WTSC all property of the WTSC upon completion, termination, or cancellation of this Agreement.

30.6. All reference to the SUB-RECIPIENT under this clause shall also include SUB-RECIPIENT's employees, agents, or sub-contractors.

### **31. STATE NONDISCRIMINATION**

Notwithstanding any provision to the contrary, WTSC may suspend Contractor, including any subcontractor, upon notice of a failure to participate and cooperate with any state agency investigation into alleged discrimination prohibited by this Contract, pursuant to RCW 49.60.530(3). Any such suspension will remain in place until WTSC receives notification that Contractor, including any subcontractor, is cooperating with the investigating state agency. In the event Contractor, or subcontractor, is determined to have engaged in discrimination identified at RCW 49.60.530(3), WTSC may terminate this Contract in whole or in part, and Contractor, subcontractor, or both, may be referred for debarment as provided in RCW 39.26.200. The Contractor or subcontractor may be given a reasonable time in which to cure this noncompliance, including implementing conditions consistent with any court-ordered injunctive relief or settlement agreement.

31.4 Remedies for Breach. Notwithstanding any provision to the contrary, in the event of Contract termination or suspension for engaging in discrimination, Contractor, subcontractor, or both, shall be liable for contract damages as authorized by law including, but not limited to, any cost difference between the original contract and the replacement or cover contract and all administrative costs directly related to the replacement contract, which damages are distinct from any penalties imposed under Chapter 49.60, RCW. WTSC shall have the right to deduct from any monies due to Contractor or subcontractor, or that thereafter become due, an amount for damages Contractor or subcontractor will owe WTSC for default under this provision.

Note: The funding for this project comes through a proviso from the Washington State Legislature. Moreover, the allocation of grants in future years will hinge on the availability of funds and the performance of sub-recipients.

Important Notes:

1. Indirect cost rates are subject to change based on updated Indirect Rate Letters from a cognizant federal agency or approved cost allocation plans. If the indirect rate increases, the budget will be modified by deducting the amount of the indirect rate increase from other budget categories so that the total budget does not increase.
2. The total annual budget may not increase without a written amendment to this agreement executed by both parties.
3. Adjustments between budget categories within the same year can be made upon mutual agreement of the contact for WTSC and the contact for the SUB-RECIPIENT.

0680 SPD RENEWAL OF DELL POWERSCALE SYSTEM MAINTENANCE

**Agenda Wording**

Spokane Police Department seeks approval for a renewal of maintenance and support for the department's Dell Powerscale file server.

**Summary (Background)**

This is an annual renewal of warranty and support costs for a file server used for digital forensics and technical investigations. We utilize this appliance to store working copies of forensic extractions and other large technical examinations for investigations.

**What impacts would the proposal have on historically excluded communities?**

Our forensic file server is utilized by our TARU digital forensic team and SPD investigations to examine evidence for cases from across our community with an emphasis on Major Crimes and Sexual Assault. Our investigations are performed to aid crime victims from across the Spokane community including for historically excluded communities.

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

We do not plan on evaluating the effect of this purchase against victim demographics. The file server has been in place since 2022.

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

We do not plan to collect data regarding the effectiveness of this purchase since it is a standard warranty/maintenance renewal. The file server has proven to be a major asset in investigations as it ensures digital evidence is stored securely and that detectives are able to access evidence in a timely manner.

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

This system aligns with the SPD Strategic Plan which emphasizes the need for technology in investigating violent crime.

0680 - CRIMETRACER (FORMERLY COPLINK) RENEWAL

**Agenda Wording**

Spokane Police Department seeks approval for the annual renewal of CrimeTracer software.

**Summary (Background)**

Annual renewal of CrimeTracer software (formally CopLink). Annual amount \$57,475. This is funded via a designated COPLINK administration fund and has no impact on the 2025 general fund. COPLINK software is used to share police reports and other information with our regional partner agencies.

**What impacts would the proposal have on historically excluded communities?**

This software is utilized to share crime information with regional partner agencies (Spokane County Sheriff's Office, Cheney Police Department, etc...). The data and reports that are shared include all crimes regardless of the demographics of victims/suspects/etc. Sharing data with regional partners can help victims from all backgrounds including historically excluded communities since it provides more situational awareness for law enforcement. For example, if a victim of domestic violence has been victimized in multiple jurisdictions, law enforcement can respond differently based on the totality of the circumstances.

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

We do not plan to collect data concerning the effect of police report/crime data sharing by different demographic groups since we share the vast majority of our data with our partners (there are some restrictions due to State law).

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

We do not plan to collect data regarding the effectiveness of COPLINK, since we have had the solution in place for many years.

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

This system aligns with the SPD Strategic Plan which prioritizes partnership with regional law enforcement agencies.

0680 - CONFERENCE ROOM AV FOR GARDNER AND ACADEMY

**Agenda Wording**

Spokane Police Department seeks approval for the purchase of Audio Visual equipment for the Academy classrooms and Gardner conference room.

**Summary (Background)**

The Spokane Police Department runs training and meetings at the Academy training rooms and the Gardner large conference room. The AV equipment is aging and needs replacement. This project will modernize both rooms. We've selected Bluum as our vendor as they provided a reasonably priced quote that meets department needs. Bluum is well-known in the AV space. They provide AV for many organizations including for classrooms and courtrooms.

**What impacts would the proposal have on historically excluded communities?**

This project will improve the ability to train our department. A well-trained department will positively impact the entire Spokane community, including historically excluded communities.

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

The department does not plan to track the effect of the AV equipment by demographics.

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

We intend to do a post-implementation survey to ensure that the new equipment is meeting department needs.

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

This project aligns with the Spokane Police Department's Strategic Plan which emphasizes the need for continual training.

A Technology Proposal created for: Refresh Spokane Police Dept

Account Executive: Anthony Capers

Systems Engineer: Gary Mansfeldt

Opportunity Number: 56185

Revision: N/A

# Scope of Work

## Site Address:

### Locations

1. Command Center – 1427 West Gardner, Spokane, WA 99201

    - A single camera, slaved to the master room, will be utilized.
    - Audio systems will become combined, providing full coverage of mic and speakers for both rooms.
    - Either HDMI input may be used, however, the primary room will have control of the systems.
    - Room control touchscreens will be located on the wall, replacing existing touch controllers.
    - All control will be done using the Yealink MTR touch screens utilizing the Yealink VC Deployment with Crestron Series Control Processors

If one or more of the quotes in this proposal are not approved, existing quotes will need to be revised to reflect those changes and additional charges may apply.

Equipment locations such as closets, or cabinetry may require additional venting, or in some cases, dedicated cooling units to keep equipment operating at standard temperatures.

Bluum will not be responsible for the condition and functionality of any existing OFE (Owner Furnished Equipment) during the installation process. This includes transitioning product from the process of de-installation to re-installation. Should existing equipment fail or be found to not work properly with our system design, the customer will have the option of sourcing a Bluum approved replacement part or Bluum will offer a billable replacement alternative. If OFE malfunction causes delays in the installation timeframe, additional billable labor charges may apply.

1970 FIRE - APPROVAL TO PURCHASE TWO NEW PIERCE FIRE ENGINES

**Agenda Wording**

Approval to purchase two new Pierce Fire Engines from Hughes Fire Equipment.

**Summary (Background)**

Spokane Fire Department is systematically purchasing new fire apparatus to provide more reliable vehicles for emergency response. The Spokane Fire Department fleet management goal is to remove fire engines from front line service and place them in reserve status after 12 years of service. These Engines meet current National Fire Protection Agency safety standards, providing a greater margin of safety for firefighters and citizens. These new Engines will be identical to previous Pierce Engines, which allow for efficiencies in operations and maintenance. Additionally, these new Engines have significantly cleaner exhaust emissions, contributing to better regional air quality and reduced cancer risks.

This Purchase Agreement (together with all attachments referenced herein, the "Agreement"), made and entered into by and between Hughes Fire Equipment Inc. ("Company"), and City of Spokane, a Municipality ("Customer") is effective as of the date specified in Section 3 hereof.

### 1. Definitions.

- a. **"Product"** means the fire apparatus and any associated equipment manufactured or furnished for the Customer by Company pursuant to the Specifications.
- b. **"Specifications"** means the general specifications, technical specifications, training, and testing requirements for the Product contained in the Company Proposal for the Product prepared in response to the Customer's request for proposal.
- c. **"Company Proposal"** means the proposal provided by Company attached as Exhibit C prepared in response to the Customer's request for proposal.
- d. **"Delivery"** means the date Company is prepared to make physical possession of the Product available to the Customer.
- e. **"Acceptance"** The Customer shall have the opportunity, as described in Section 8(b) below, to inspect the Product for substantial conformance with the material Specifications; unless Company receives a Notice of Defect within the time frame described in Section 8(b), the Product will be deemed to be in conformance with the Specifications and accepted by the Customer.

2. Purpose. This Agreement sets forth the terms and conditions of Company's sale of the Product to the Customer.

3. Term of Agreement. This Agreement will become effective on the date it is signed and approved by both Customer and Company ("Effective Date") and, unless earlier terminated pursuant to the terms of this Agreement, it will terminate upon the Customer's Acceptance and payment in full of the Purchase Price.

4. Purchase and Payment. The Customer agrees to purchase the Product specified on Exhibit A for the total purchase price of \$2,525,684.61 ("Purchase Price"). Prices are in U.S. funds. A credit card convenience fee will be added to the purchase price if the Customer elects to make purchase of the Product in whole, or in part, using a credit card. The cost of the convenience fee will be determined prior to processing credit card.

5. Future Changes. Various state or federal regulatory agencies (e.g. NFPA, DOT, EPA) may require changes to the Specifications and/or the Product and in any such event any resulting cost increases incurred to comply therewith will be added to the Purchase Price to be paid by the Customer. In addition, any future drive train upgrades (engine, transmission, axles, etc.), or any other specification changes have not been calculated into our annual increases and will be provided at additional cost. To the extent practicable, Company will document and itemize any such price increases for the Customer.

6. Agreement Changes. The Customer may request that Company incorporate a change to the Products or the Specifications for the Products by delivering a change order to Company; provided, however, that any such change order must be in writing and include a description of the proposed change sufficient to permit Company to evaluate the feasibility of such change ("Change Order"). Within [seven (7) business days] of receipt of a Change Order, Company will inform the Customer in writing of the feasibility of the Change Order, the earliest possible implementation date for the Change Order, of any increase or decrease in the Purchase Price resulting from such Change Order, and of any effect on production scheduling or Delivery resulting from such Change Order. Pricing for option changes that result in a deduction will be based on the option price at the time of order placement. Pricing for additions will be based on the pricing level at the time of the change request. Company shall not be liable to the Customer for any delay in performance or Delivery arising from any such Change Order. A Change Order is only effective when counter-signed by Company's authorized representative.

7. Cancellation/Termination. In the event this Agreement is cancelled or terminated by a party before completion, Company may charge a cancellation fee. The following charge schedule based on costs incurred may be applied: (a) 10% of the Purchase Price after order is accepted and entered by Company; (b) 20% of the Purchase Price after completion of approval drawings, and; (c) 30% of the Purchase Price upon any material requisition. The cancellation fee will increase accordingly as costs are incurred as the order progresses through engineering and into manufacturing. Company endeavors to mitigate any such costs through the sale of such Product to another purchaser; however, Customer shall remain liable for the difference between the Purchase Price and, if applicable, the sale price obtained by Company upon sale of the Product to another purchaser, plus any costs incurred by Company to conduct any such sale.

8. Delivery, Inspection and Acceptance. (a) Delivery. Delivery of the Product is scheduled to be within 26 to 29 months of the Effective Date of this Agreement, F.O.B. Customer's facility in Spokane, Washington. Risk of loss shall pass to Customer upon

Delivery. Delivery of Product is subject to change pending manufacture's delivery schedule at time of order placement. Notification of change will be sent to Customer's address specified in Section 9 hereof. (b) Inspection and Acceptance. Upon Delivery, Customer shall have fifteen (15) days within which to inspect the Product for substantial conformance to the material Specifications, and in the event of substantial non-conformance to the material Specifications to furnish Company with written notice sufficient to permit Company to evaluate such non-conformance ("Notice of Defect"). Any Product not in substantial conformance to material Specifications shall be remedied by Company within thirty (30) days from the Notice of Defect. In the event Company does not receive a Notice of Defect within fifteen (15) days of Delivery, Product will be deemed to be in conformance with Specifications and accepted by Customer.

9. Notice. Any required or permitted notices hereunder must be given in writing at the address of each party set forth below, or to such other address as either party may substitute by written notice to the other in the manner contemplated herein, by one of the following methods: hand delivery; registered, express, or certified mail, return receipt requested, postage prepaid; or nationally-recognized private express courier:

a. Disclaimer. OTHER THAN AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER COMPANY, ITS PARENT COMPANY, AFFILIATES, SUBSIDIARIES, LICENSORS OR SUPPLIERS, THEIR RESPECTIVE OFFICERS, DIRECTORS, EMPLOYEES, SHAREHOLDERS, AGENTS OR REPRESENTATIVES, MAKE ANY EXPRESS OR IMPLIED WARRANTIES WITH RESPECT TO THE PRODUCTS PROVIDED HEREUNDER OR OTHERWISE REGARDING THIS AGREEMENT, WHETHER ORAL OR WRITTEN, EXPRESS, IMPLIED OR STATUTORY. WITHOUT LIMITING THE FOREGOING, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, THE IMPLIED WARRANTY AGAINST INFRINGEMENT, AND THE IMPLIED WARRANTY OR CONDITION OF FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY EXCLUDED AND DISCLAIMED. 11. Persistent Inflationary Environment. If the Producer Price Index of Components for Manufacturing [www.bls.gov Series ID: WPUID6112] ("PPI") has increased at a compounded annual growth rate of 5.0% or more between the month Pierce accepts our order ("Order Month") and a month 14 months prior to the then predicted Ready For Pickup date ("Evaluation Month"), then pricing may be updated in an amount equal to the increase in PPI over 5.0% for each year or fractional year between the Order Month and the Evaluation Month. The seller will document any such updated price for the customer's approval before proceeding and provide an option to cancel the order.

12. Force Majeure. Company shall not be responsible nor deemed to be in default on account of delays in performance due to causes which are beyond Company's control which make Company's performance impracticable, including but not limited to civil wars, insurrections, strikes, riots, fires, storms, floods, other acts of nature, explosions, earthquakes, accidents, any act of government, delays in transportation, inability to obtain necessary labor supplies or manufacturing facilities, allocation regulations or orders affecting materials, equipment, facilities or completed products, failure to obtain any required license or certificates, acts of God or the public enemy or terrorism, failure of transportation, epidemics, pandemics, quarantine restrictions, failure of vendors (due to causes similar to those within the scope of this clause) to perform their contracts or labor troubles causing cessation, slowdown, or interruption of work.

a. Component Price Volatility. Company shall not be responsible for any unforeseen price increase enacted by the suppliers of major components of the Product (including but not limited to engine, transmission, and fire pump) after the Effective Date of this Agreement. Any price increase for major components of the Product will be passed on to the Customer and will be documented on a Change Order. Due to the uncertainty of the current Tariff situation, an adjustment to the price may be required prior to the listed expiration date, or after order placement. If necessary, this will appear as a separate line item on invoices.

13. Default. The occurrence of one or more of the following shall constitute a default under this Agreement: (a) the Customer fails to pay when due any amounts under this Agreement or to perform any of its obligations under this Agreement; (b) Company fails to perform any of its obligations under this Agreement; (c) either party becomes insolvent or become subject to a bankruptcy or insolvency proceedings; (d) any representation made by either party to induce the other to enter into this Agreement is false in any material respect; (e) the Customer dissolves, merges, consolidates or transfers a substantial portion of its property to another entity; or (f) the Customer is in default or has breached any other contract or agreement with Company.

14. Manufacturer's Statement of Origin. It is agreed that the manufacturer's statement of origin ("MSO") for the Product covered by this Agreement shall remain in the possession of Company until the entire Purchase Price has been paid. If more than one Product is covered by this Agreement, then the MSO for each individual Product shall remain in the possession of Company until the Purchase Price for that Product has been paid in full. In case of any default in payment, Company may take full possession of the Product, and any payments that have been made shall be applied as payment for the use of the Product up to the date of taking possession.

15. Independent Contractors. The relationship of the parties established under this Agreement is that of independent contractors and neither party is a partner, employee, agent, or joint venture of or with the other.

16. Assignment. Neither party may assign its rights and obligations under this Agreement unless it has obtained the prior written approval of the other party.

18. Facsimile Signatures. The delivery of signatures to this Agreement by facsimile transmission shall be binding as original signatures.

19. Federally Funded Purchases. Company is registered with SAM.gov, is in good standing for purchases utilizing federal funds, and has no past, pending, or threatened ligation that would impact its ability to fulfill the obligations committed herein.

20. Entire Agreement. This Agreement shall be the exclusive agreement between the parties for the Product. Additional or different terms proposed by the Customer shall not be applicable, unless accepted in writing by Company's authorized representative. No change in, modification of, or revision of this Agreement shall be valid unless in writing and signed by Company's authorized representative.

##### e. Newly Acquired Organizations

Any organization you newly acquire or form, other than a partnership, joint venture or limited liability company, and over which you maintain ownership or majority interest, will qualify as a Named Insured if there is no other similar insurance available to that organization. However:

1. Coverage under this provision is afforded only until the 90th day after you acquire or form the organization or the end of the policy period; whichever is earlier; and

##### f. For Any Covered "Auto":

**Who Is An Insured is amended to** include as an insured any organization or subsidiary thereof which is a legally incorporated entity of which you own a financial interest of more than 50 percent of the voting stock on the effective date of this endorsement.

This provision applies only if there is no similar insurance available to the entity described above.

#### 2. Additional Insured by Contract, Agreement or Permit

**SECTION II - LIABILITY COVERAGE**, Paragraph **A.1. Who is An Insured** is amended to include the following as an "insured":

### Section III - Limits Of Insurance

- A. The Limits of Insurance shown in the Declarations and the rules below fix the most we will pay under **Coverages E** and **U** combined, regardless of the number of:

The Aggregate Limits, as described in Paragraphs **B.** and **C.** above, apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining Limits of Insurance.

### Section IV - Conditions

We have no duty to provide coverage under this Coverage Part unless you and any other insured have fully complied with the Conditions contained in this Coverage Part.

#### A. Appeals

If the "underlying insurer" or insured elects not to appeal a judgment in excess of the available limit of "underlying insurance" or the retained limit stated in the Declarations, we may do so at our own expense. We will be liable for taxable costs, interest and disbursements. Such appeal does not increase the Limits of Insurance.

#### B. Bankruptcy

##### 1. Bankruptcy Of Insured

Bankruptcy or insolvency of the insured or of the insured's estate will not relieve us of our obligations under this Coverage Part.

##### 2. Bankruptcy of Underlying Insurer

Bankruptcy of the "underlying insurer" will not relieve us of our obligations under **Coverage E**. However, this insurance will apply as if the "underlying insurance" were in full effect.

#### C. Duties In The Event Of Occurrence, Claim Or Suit

- 1. You must see to it that we are notified as soon as practicable of an "occurrence", regardless of the amount, which may result in a claim. To the extent possible, notice should include:
  - a. How, when and where the "occurrence" took place;
  - b. The names and addresses of any injured persons and witnesses; and
  - c. The nature and location of any injury or damage arising out of the "occurrence".
- 2. If a claim is made or "suit" is brought against any insured, you must:
  - a. Immediately record the specifics of the claim or "suit" and the date received; and

b. Notify us as soon as practicable.

You must see to it that we receive written notice of the claim or "suit" as soon as practicable.

3. You and any other involved insured must:
  - a. Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";
  - b. Authorize us to obtain records and other information;
  - c. Cooperate with us in the investigation or settlement of the claim or defense against the "suit"; and
  - d. Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of injury or damage to which this insurance may also apply.
4. No insured will, except at the insured's own cost, voluntarily make a payment, assume any obligation or incur any expense, other than for first aid, without our consent.

#### **D. Expanded Coverage Territory**

1. If a "suit" to which this insurance applies is brought outside the United States of America (including its territories and possessions), Puerto Rico or Canada, we will have the right but not the duty to defend the insured against such "suit".

In any such case in which we elect not to defend, the insured will at our option and under our supervision:

- a. Make or cause to be made such investigation and defense as are reasonably necessary; and
- b. To the extent possible, effect such settlement or settlements as we shall deem proper.

We will reimburse the insured, under **Supplementary Payments - Coverage E and U** for the reasonable cost of such investigation and defense and, within the limits of liability, for the amounts of such authorized settlement.

2. All payments or reimbursements we make for damages because of judgments or settlements will be made in U.S. currency at the prevailing exchange rate at the time the insured became legally obligated to pay such sums. All payments or reimbursements we make for expenses under **Supplementary Payments - Coverages E and U** will be made in U.S. currency at the prevailing exchange rate at the time the expenses are incurred.

3. Any disputes between you and us as to whether there is coverage under this Coverage Part must be filed in the courts of the United States of America (including its territories and possessions), Puerto Rico or Canada.

#### **E. Legal Action Against Us**

No person or organization has a right under this Coverage Part:

1. To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or
2. To sue us on this Coverage Part unless all of its terms have been fully complied with.

A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable under the terms of this Coverage Part or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured and the claimant or the claimant's legal representative.

#### **F. Loss Payable**

We will have no liability under **Coverage E** unless and until the insured's "underlying insurer" has become obligated to pay the underlying limit. We will have no liability under **Coverage U** unless and until the insured has become obligated to pay the retained limit. Such obligation to pay part of the "ultimate net loss" shall have been previously determined by a final settlement or judgment after an actual trial or written agreement between the insured, claimant and us. The first Named Insured shown in the Declarations will promptly reimburse us for any damages we pay which are within the Retained Limit stated in the Declarations.

#### **G. Maintenance Of Underlying Insurance - Coverage E - Excess Liability**

You shall maintain in full force and effect during the term of this Coverage Part all "underlying insurance" stated in the Declarations. In the event you fail to do so:

1. **Coverage E** will apply only to the extent that it would have been applied if the "underlying insurance" had been maintained as specified; and
2. **Coverage U** will not fill the "underlying insurance" gap created by your failure to maintain **Coverage E** "underlying insurance".

Failure to reinstate any aggregate limit reduced or exhausted solely by "occurrences" which take place during the term of this Coverage Part shall not be interpreted as failure to maintain the "underlying insurance" in force.

## H. Other Insurance

1. This insurance is excess over, and shall not contribute with, any other insurance, whether primary, excess, contingent or on any other basis. This condition will not apply to insurance specifically written as excess over this Coverage Part.

When this insurance is excess, we will have no duty to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against those other insurers.

2. When this insurance is excess over other insurance, we will pay only our share of the "ultimate net loss" that exceeds the sum of:
  - a. The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
  - b. The total of all deductible and self-insured amounts under all that other insurance.

## I. Premium Audit

1. We will compute all premiums for the Coverage Part in accordance with our rules and rates.
2. The premium for this Coverage Part is designated in the Declarations as an Advance Premium or a Flat Charge Premium.
  - a. An Advance Premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period. Audit premiums are due and payable on notice to the first Named Insured. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.
  - b. A Flat Charge Premium is not subject to audit or adjustment.
3. The first Named Insured must keep records of the information we need for premium computation and send us copies at such times as we may request.

3. We have issued this policy in reliance upon your representations; and

4. This policy is void in any case of fraud by you as it relates to this policy or any claim under this policy.

## K. Separation Of Insureds

Except with respect to Limits of Insurance, and any rights or duties specifically assigned to the first Named Insured, this insurance applies:

1. As if each Named Insured were the only Named Insured; and
2. Separately to each insured against whom claim is made or "suit" is brought.

## L. Coverage E - Transfer Of Defense

When the underlying limits of insurance have been used up in the payment of judgments or settlements, the duty to defend will be transferred to us. We will cooperate in the transfer of control to us of any outstanding claims or "suits" seeking damages to which this insurance applies which would have been covered by the "underlying insurance" had the applicable limit not been used up.

## M. Transfer Of Rights Of Recovery Against Others To Us

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us to enforce them.

Any amounts recovered shall be apportioned in reverse order to payment, as follows:

1. The payer of any amount over and above our payment shall first be reimbursed;
2. We shall be reimbursed for the amount paid hereunder; and
3. Lastly any remainder shall be applied to the interests of those to whom this coverage is excess.

Each concerned interest will share expenses of recovery in proportion to the amounts recovered.

## N. When We Do Not Renew

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

## O. Two Or More Coverage Forms Or Policies Issued By Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us apply to the same "occurrence", the aggregate maximum Limit of Insurance under all the Coverage Forms or

policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or any affiliated company to apply:

Any subcontract made by the Company shall incorporate by reference this Agreement, except as otherwise provided. The Company shall ensure that all subcontractors comply with the obligations and requirements of the subcontract. ## LETTER OF SUBMITTAL | IRFP NUMBER 634-25

May 29, 2025

City of Spokane Purchasing Department,

Thank you for this opportunity to submit a bid in response to IRFP Number 634-25. Emergency Responders Health Center-North was established as a mission-based practice to provide highly specialized, occupationally-relevant healthcare services to firefighters and allied first responders serving Northeastern Washington and Northern Idaho communities. Our parent company, Emergency Responders Health Center, was originally founded to meet the need to offer comprehensive entry-level and annual wellness exams to fire service members. ERHC's scope of practice quickly evolved to offer "360 degrees of care" exclusively on behalf of emergency response personnel, from preventative wellness and screening services, occupational and sports medicine, and primary/urgent care, to physical therapy and mental health services. ERHC-North currently serves regional fire and police agencies across a multi-county service area. In total, ERHC clinics serve members employed by more than 40 fire, police and EMS agencies across three states.

We are confident that our attached response demonstrates that ERHC-North presents not only the requisite credentials and capacity to deliver comprehensive Pre-Employment Physicals for City of Spokane fire service candidates, but also a deep and unwavering commitment to keep firefighters healthy and on the front lines of service to their community.

Emergency Responders Health Center – North (ERHC-North) seeks to deliver Pre-Employment Physicals to fire service candidates referred by the City of Spokane, in response to the opportunity outlined in IRFP 634-25.

### A. PROJECT REQUIREMENTS, PROPOSED APPROACH & METHODOLOGY

#### ***Approach, Philosophy of Care & Customer Service Commitment***

ERHC-North is committed to advancing the health, performance, on-duty safety, and quality of life of all patients we serve. We recognize that first responder wellness is a matter of public safety. We specialize in delivering comprehensive, compassionate, and clinically precise Pre-Employment Physicals for active-duty roles. Our entry-level exams are designed to (i) assess candidates' current medical indicators against well-researched occupational health standards and (ii) assess baseline wellness predictive of career longevity, understanding that new recruits will withstand years of subsequent physiological demands and exposures. Our Medical Director continually reviews the evidence base to incorporate emerging research and technologies into our exam protocols, for the most advanced, efficacious, and duty-relevant screening modalities possible.

ERHC-North emphasizes balancing patient privacy while supplying emergency agencies with occupationally-relevant information on which to base appropriate hiring, fit-for-duty, and return-to-duty determinations. We are committed to the welfare of departments, recruits, and incumbent members alike. We are a patient-centered practice and emphasize convenience and responsiveness for candidates and members who seek care. While mainstream medical practices must manage patient-provider relationships, ERHC has been trusted for more than 20 years to effectively manage the sensitivity of patient-provider-department relationships.

#### ***Methodology***

**Location:** ERHC-North will provide Pre-Employment Physicals, inclusive of all exam elements and laboratory sample collection, at our Spokane site. (We currently care for patients in a temporary clinic location but plan to relocate to our permanent site, in the same building, in later 2025.) We are located at:

⇒ 1330 North Washington Street | Rock Pointe Center | Central Spokane

**Scheduling:** Post-offer candidates will be directed to ERHC-North's main number to speak with an experienced medical receptionist, who will work to schedule candidates within 1-2 weeks, and if urgent, within 3 business days (barring holiday closures and force majeure events). Medical receptionists will provide instructions for patients to complete their intake paperwork and pre-appointment laboratory studies. ⇒ Main Number: (509) 824-7327. ERHC works with departments closely to 'block out' appointment slots several months ahead of time in anticipation of recruit examinations.

- Pre-Employment Physicals will be scheduled from 8 a.m. to 5 p.m., Monday through Friday

**Exam Protocols:** Pre-Employment Physical exam elements are outlined in **Appendix A**. The specific testing regimen requested by the City of Spokane is fully aligned with existing ERHC-North entry-level exam protocols, which are based on (i) NFPA-1582 standards and (ii) direct experience in firefighter occupational health assessment spanning two decades. ***All exam elements, with the exception of advance Laboratory Work-Up, will be performed during the same clinic visit, scheduled for a duration of 2- to 3-hours.***

**Laboratory Work-Up:** Patients will have the option to visit ERHC-North prior to their scheduled exam for initial blood and urine sample collection. ERHC-North encourages patients to complete their laboratory collection 48 hours prior to their exam, so that providers may discuss results at the time of the Pre-Employment Physical. However, same-day sample collection will also be available, at the patient's convenience.

**Results Compilation:** ERHC-North will prepare a HIPAA-compliant Medical Clearance Letter for candidates undergoing a Pre-Employment Physical. These results will be shared with an authorized City of Spokane Human Resources representative within 48 hours of the patient exam with documented patient consent. Candidates will receive a customized Health Dashboard Report outlining their current health status and risks, based on key indicators. ERHC-North medical providers will be available to discuss Medical Clearance Letters

with authorized City of Spokane representatives, for occupational fitness-related questions. Please refer to **Appendix B** for sample documents.

**Clinical Follow-Up:** ERHC-North medical providers will manage follow-up for concerning findings identified in the course of Pre-Employment Physicals, including coordinating in-house or third-party diagnostics and referrals to specialists, if desired. This care will be billed to the patient's individual insurance coverage.

**Outreach:** ERHC-North has prepared an ERHC Patient Reference Guide to advise candidates of Pre-Employment Physical scheduling protocols, screening modalities, lab sample collection, and other preparation tips. This PDF will be shared with the City of Spokane to distribute to all referred candidates.

**Collaborating Service Providers:** ERHC maintains contracts with LabCorp for the processing of laboratory samples and with Inland Imaging for professional radiologist interpretation of X-rays. Technical component of chest X-ray will also be completed at Inland Imaging, until the new ERHC clinic site is opened (fall 2025). Both practices are subject to HIPAA standards for patient privacy and have been vetted by the ERHC-North Medical Director.

**Medical Oversight:** Exam protocols will be reviewed on a regular basis by the ERHC-North Medical Director, for alignment with evolving NFPA-1582 and other relevant occupational health standards, as well as emerging research. Any proposed revisions to exam protocols will be reviewed and approved by the City of Spokane.

**Employment Decisions:** ERHC affirms that all final hiring decisions for post-offer candidates will be made by the City of Spokane (AHJ; Authority Having Jurisdiction, per NFPA 1582).

### **A. EXPERIENCE, QUALIFICATIONS & AVAILABILITY**

#### ***ERHC Practice***

The ERHC-North clinic site operates under the auspices of its parent company, Emergency Responders Health Center, LLC (ERHC). ERHC-North was established in Spokane at the explicit request of local first response departments and unions.

ERHC was established in Idaho in 2004 to offer comprehensive, duty-relevant entry-level and annual wellness exams to firefighters and allied first responders. ERHC's scope of practice quickly evolved to offer "360 degrees of care" exclusively on behalf of emergency response personnel, from preventative wellness and screening services, occupational and sports medicine, and primary/urgent care, to physical therapy and mental health services. In total, ERHC clinics care for more than 8,000 first responders (and their family members) employed by more than 40 fire, police and paramedic agencies across three states (Washington, Idaho, and Alaska).

ERHC provides entry-level examinations for more than 30 fire, police and EMS agencies in Idaho, Washington and Alaska (Valdez), and manages an array of exam protocols specialized according to emergency response profession, employment status (new recruits, lateral transfers, or incumbent members), age, and special operations team assignments. Exam protocols and scheduling practices are customizable in response to respective emergency agency needs and preferences. Exam protocols are reviewed on a routine basis by the ERHC Medical Director, for alignment with evolving NFPA-1582 and other relevant occupational health standards, as well as emerging research. (Any proposed revisions to exam protocols, in association with a signed contract, will be reviewed and approved by the City of Spokane.)

ERHC has significant experience managing a variety of clinical contracts with first responder agencies and corresponding municipal, county, district, and federal entities (military responder and wildlands fire units), for services ranging from physical exams, to injury risk and fitness assessment, to Workers' Compensation care, to mental health screening. ERHC is highly experienced at effectively managing the sensitivity of patient-provider-department relationships, balancing the protection of patient privacy and the dissemination of occupational-fitness-related medical findings and determinations to department leadership through Medical Clearance Letters and other communication templates.

In addition to supplying HIPAA-compliant Medical Clearance Letters, ERHC has developed a proprietary, personalized Health Dashboard, which is sent to individual patients undergoing our comprehensive physical exams to provide an at-a-glance health status/risk stratification. For new recruits accepted for active-duty employment, the Health Dashboard reports provide an actionable baseline on which to develop personal health maintenance plans, toward optimal job performance and career longevity.

#### ***ERHC Leadership***

ERHC, and the ERHC-North clinic, were founded by Rob Hilvers, MD. ERHC was established in 2004 following an invitation to develop and deliver annual exams to members of the Boise Fire Department dive team, after working in close proximity with the first responder community as an ER physician at St. Luke's Regional Medical Center. Dr. Hilvers re-dedicated his career to developing highly specialized expertise in first responder medicine, and has invested significant due diligence in the continued advancement of duty-specific screening protocols and algorithms. Dr. Hilvers has served as an expert witness in the development of Idaho's presumptive eligibility laws for Workers' Compensation coverage of cancer and PTSD, and is frequently called upon to speak to emergency agency leaders across the Pacific Northwest on a variety of health topics.

In May of 2025, Dr. Hilvers presented to the Idaho Fire Chiefs Association on recent changes to the NFPA-1582 occupational health standards for fire service members, with an emphasis on implications for new recruit and incumbent physical exams and fitness-for-duty assessment. Dr. Hilvers is currently developing protocols and programming for (i) advanced firefighter cardiac screening and (ii) ultrasound-based early detection of cancers with a high incidence rate among fire service members.

As an alumnus and adjunct faculty member of the University of Washington School of Medicine and Family Medicine Residency of Idaho, Dr. Hilvers is dually board-certified in family medicine and sports medicine. He has developed advanced expertise in emergency medicine; cardiac, pulmonary, and cancer screening; musculoskeletal health and injury prevention; sleep medicine; wilderness medicine; longevity; and mental health screening. He has actively practiced medicine for nearly 30 years, balancing the medical and administrative oversight of ERHC with direct patient care for the past two decades.

**Agenda Wording**

Municipal Court received funding from the Administrative Office of the Courts (AOC) to support the Therapeutic Court programs from July 1, 2025 through June 30, 2026. the AOC cost categories are available for salary and benefits, program equipment and technology, training and travel, treatment, and recovery services.

**Summary (Background)**

The AOC provides annual financial support to the therapeutic court programs; however, applications and budgets are required annually. The funding cannot supplant existing funds. Therapeutic Courts received \$430,330.00 to support: -Salary and Benefits: \$319,121.00 -Staff Equipment and Technology: \$2,790.00 -Team Training/Travel: \$38,000.00 -Treatment Services: \$39,419.00 -Recovery Supports: \$31,000.00

**What impacts would the proposal have on historically excluded communities?**

Therapeutic Courts build stronger and safer communities by providing accountability to justice-involved individuals by utilizing a problem-solving approach to crime to help individuals become productive members of the community. Therapeutic Courts work to address factors impacting participant's criminal behavior, substance use/mental health disorders, provide access to resources, and address victim needs. Therapeutic Courts attempt to enhance the lives of individual participants by addressing the underlying causes for court involvement, while ensuring public safety.

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

Therapeutic Courts utilize various data metrics to analyze the effectiveness of the program and to ensure justice involved individuals are not excluded based on racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities. The data is shared with the multidisciplinary team for analysis.

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

Therapeutic Courts will utilize data metrics that will provide regular analysis of the effectiveness and inclusion of community members to ensure racial inequities do not present. If data analysis presents some limitation to access Therapeutic Courts on any bias against race, age, gender, or socio-economic status, the court may address the data and alternative methodology of services with the multi-disciplinary court team.

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

The participants of Therapeutic Courts often face adversary and barriers at every step as they attempt to exit homelessness, address substance use and mental health disorders, and become productive members of the community. The funding will enhance therapeutic court programs as we work to improve the participant's lives and the community. Improving community safety is a critical element in the City's criminal justice reform efforts.

- n. Severability. If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, if such remainder conforms to the requirements of applicable law and the fundamental purpose of this agreement, and to this end the provisions of this Agreement are declared to be severable.
- o. Termination for Cause. If for any cause, either party does not fulfill in a timely and proper manner its obligations under this Agreement, or if either party violates any of these terms and conditions, the aggrieved party will give the other party written notice of such failure or violation. Upon such termination, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of such termination.
- q. Termination for Non-Availability of Funds. AOC's ability to make payments is contingent on availability of funding. In the event funding from state, federal, or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to completion or expiration date of this Agreement, AOC, at its sole discretion, may

elect to terminate the Agreement, in whole or part, for convenience or to renegotiate the Agreement subject to new funding limitations and conditions. AOC may also elect to suspend performance of the Agreement until AOC determines the funding insufficiency is resolved. AOC may exercise any of these options with no notification restrictions, although AOC will make a reasonable attempt to provide notice.

In the event of termination or suspension, AOC will reimburse eligible costs incurred by the Agency through the effective date of termination or suspension. Reimbursed costs must be agreed to by AOC and the Agency. In no event shall AOC's reimbursement exceed AOC's total responsibility under the agreement and any amendments.

- r. Suspension for Convenience. AOC may suspend this Agreement or any portion thereof for a temporary period by providing written notice to the Agency a minimum of seven (7) calendar days before the suspension date. Agency shall resume performance on the first business day following the suspension period unless another day is specified in writing by AOC prior to the expiration of the suspension period.
- s. Waiver. A failure by either party to exercise its rights under this Agreement shall not preclude that party from subsequent exercise of such rights and shall not constitute a waiver of any other rights under this Agreement unless stated to be such in a writing signed by an authorized representative of the party and attached to the original Agreement.

EXECUTED AND EFFECTIVE as of the day and date first above written.

0650 - ACCEPTANCE OF WA COMMERCE FUNDS OF \$280,000 FOR PHASE 2

**Agenda Wording**

Acceptance of WA Commerce Funds of \$280,000 for Phase 2 Climate Planning

**Summary (Background)**

The WA Legislature passed and signed into law HB 1181 in 2023 that adds a climate goal to the Growth Management Act (GMA) and requires local comprehensive plans to have a climate element with a focus on resilience and greenhouse gas emissions mitigation. WA Dept. of Commerce has made available funding for climate planning. The City has requested \$280,000 for Phase 2 for the 2025-2027 biennium, which is the remaining funding allocated. Phase 2 will focus on policy development, prioritization, environmental justice engagement and outcomes, and integration into the Plan Spokane 2046 comprehensive plan periodic update, due in December 2026. City Council accepted \$420,000 for Phase 1 of climate planning on February 26, 2024 (RES 2024-0142), which focused on community engagement, impacts analysis, gap analysis, and climate vulnerability and risk assessment with completion in June 2025. The WA Dept. of Commerce climate planning grant is supported with funding from Washington's Climate Commitment Act.

**What impacts would the proposal have on historically excluded communities?**

Climate change does not impact everyone equally. Core to climate planning is building climate resilience and developing goals and policies in the comprehensive plan that support communitywide climate resilience, environmental justice, and equity. This climate planning grant emphasizes the importance of developing a public engagement strategy and ensuring that historically underrepresented and overburdened communities are included in the early and continuous planning efforts. WA Commerce recommends that establishing a climate policy advisory team that includes leaders within overburdened communities that are most impacted

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

The planning work will focus on both quantitative and qualitative data through the lens of climate and equity. Quantitative data will be collected, analyzed and reported related to vulnerability risks and climate hazards, and an equitable approach will be taken to look at the intersections of race, income, gender, ability, and other disparities to understand our community's vulnerabilities and those at highest risk for climate impacts. Data will also be collected through qualitative means through the development of a climate vision statement, and outreach will focus on engaging with community members to understand unique perspectives, asset and

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

Following the 2026 Periodic update to the City's Comprehensive Plan, RCW 36.70A.130 now requires that the city reassess the plan every 5 years. An Implementation Progress Report will be required in 2031.

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

Aligns with: Council Sustainability Action Plan 2021 - Land Use, Goal 4, Strategy 8. "update the Comp Plan with ...climate goals"

"Materials" means all items in any format and includes, but is not limited to, data, reports, documents, pamphlets, advertisements, books, magazines, surveys, studies, computer programs, films, tapes, and/or sound reproductions. "Ownership" includes the right to copyright, patent, register and the ability to transfer these rights.

For Materials that are delivered under the Contract, but that incorporate pre-existing materials not produced under the Contract, the Contractor hereby grants to COMMERCE a nonexclusive, royalty-free, irrevocable license (with rights to sublicense to others) in such Materials to translate, reproduce, distribute, prepare derivative works, publicly perform, and publicly display. The Contractor warrants and represents that the Contractor has all rights and permissions, including intellectual property rights, moral rights and rights of publicity, necessary to grant such a license to COMMERCE.

The Contractor shall exert all reasonable effort to advise COMMERCE, at the time of delivery of Materials furnished under this Contract, of all known or potential invasions of privacy contained therein and of any portion of such document which was not produced in the performance of this Contract. The Contractor shall provide COMMERCE with prompt written notice of each notice or claim of infringement received by the Contractor with respect to any Materials delivered under this Contract. COMMERCE shall have the right to modify or remove any restrictive markings placed upon the Materials by the Contractor.

## **7. DISPUTES**

In the event that a dispute arises under this Agreement, it shall be determined by a Dispute Board in the following manner: Each party to this Agreement shall appoint one member to the Dispute Board. The members so appointed shall jointly appoint an additional member to the Dispute Board. The Dispute Board shall review the facts, Agreement terms and applicable statutes and rules and make a determination of the dispute. The Dispute Board shall thereafter decide the dispute with the majority

prevailing. The determination of the Dispute Board shall be final and binding on the parties hereto. As an alternative to this process, either of the parties may request intervention by the Governor, as provided by RCW 43.17.330, in which event the Governor's process will control.

**8. GOVERNING LAW AND VENUE**

This Contract shall be construed and interpreted in accordance with the laws of the state of Washington, and the venue of any action brought hereunder shall be in the Superior Court for Thurston County.

**9. INDEMNIFICATION**

Each party shall be solely responsible for the acts of its employees, officers, and agents.

**10. LICENSING, ACCREDITATION AND REGISTRATION**

The Contractor shall comply with all applicable local, state, and federal licensing, accreditation and registration requirements or standards necessary for the performance of this Contract.

**11. RECAPTURE**

In the event that the Contractor fails to perform this Contract in accordance with state laws, federal laws, and/or the provisions of this Contract, COMMERCE reserves the right to recapture funds in an amount to compensate COMMERCE for the noncompliance in addition to any other remedies available at law or in equity.

Repayment by the Contractor of funds under this recapture provision shall occur within the time period specified by COMMERCE. In the alternative, COMMERCE may recapture such funds from payments due under this Contract.

**12. RECORDS MAINTENANCE**

The Contractor shall maintain books, records, documents, data and other evidence relating to this contract and performance of the services described herein, including but not limited to accounting procedures and practices that sufficiently and properly reflect all direct and indirect costs of any nature expended in the performance of this contract.

The Contractor shall retain such records for a period of six years following the date of final payment. At no additional cost, these records, including materials generated under the contract, shall be subject at all reasonable times to inspection, review or audit by COMMERCE, personnel duly authorized by COMMERCE, the Office of the State Auditor, and federal and state officials so authorized by law, regulation or agreement.

If any litigation, claim or audit is started before the expiration of the six (6) year period, the records shall be retained until all litigation, claims, or audit findings involving the records have been resolved.

**13. SAVINGS**

In the event funding from state, federal, or other sources is withdrawn, reduced, or limited in any way after the effective date of this Contract and prior to normal completion, COMMERCE may suspend or terminate the Contract under the "Termination for Convenience" clause, without the ten calendar day notice requirement. In lieu of termination, the Contract may be amended to reflect the new funding limitations and conditions.

**14. SEVERABILITY**

The provisions of this contract are intended to be severable. If any term or provision is illegal or invalid for any reason whatsoever, such illegality or invalidity shall not affect the validity of the remainder of the contract.

**15. SUBCONTRACTING**

The Contractor may only subcontract work contemplated under this Contract if it obtains the prior written approval of COMMERCE.

If COMMERCE approves subcontracting, the Contractor shall maintain written procedures related to subcontracting, as well as copies of all subcontracts and records related to subcontracts. For cause, COMMERCE in writing may: (a) require the Contractor to amend its subcontracting procedures as they relate to this Contract; (b) prohibit the Contractor from subcontracting with a particular person or entity; or (c) require the Contractor to rescind or amend a subcontract.

Every subcontract shall bind the Subcontractor to follow all applicable terms of this Contract. The Contractor is responsible to COMMERCE if the Subcontractor fails to comply with any applicable term or condition of this Contract. The Contractor shall appropriately monitor the activities of the Subcontractor to assure fiscal conditions of this Contract. In no event shall the existence of a subcontract operate to release or reduce the liability of the Contractor to COMMERCE for any breach in the performance of the Contractor's duties.

Every subcontract shall include a term that COMMERCE and the State of Washington are not liable for claims or damages arising from a Subcontractor's performance of the subcontract.

**16. SURVIVAL**

The terms, conditions, and warranties contained in this Contract that by their sense and context are intended to survive the completion of the performance, cancellation or termination of this Contract shall so survive.

**17. TERMINATION FOR CAUSE**

In the event COMMERCE determines the Contractor has failed to comply with the conditions of this contract in a timely manner, COMMERCE has the right to suspend or terminate this contract. Before suspending or terminating the contract, COMMERCE shall notify the Contractor in writing of the need to take corrective action. If corrective action is not taken within 30 calendar days, the contract may be terminated or suspended.

In the event of termination or suspension, the Contractor shall be liable for damages as authorized by law including, but not limited to, any cost difference between the original contract and the replacement or cover contract and all administrative costs directly related to the replacement contract, e.g., cost of the competitive bidding, mailing, advertising and staff time.

COMMERCE reserves the right to suspend all or part of the contract, withhold further payments, or prohibit the Contractor from incurring additional obligations of funds during investigation of the alleged compliance breach and pending corrective action by the Contractor or a decision by COMMERCE to terminate the contract. A termination shall be deemed a "Termination for Convenience" if it is determined that the Contractor: (1) was not in default; or (2) failure to perform was outside of his or her control, fault or negligence.

The rights and remedies of COMMERCE provided in this contract are not exclusive and are, in addition to any other rights and remedies, provided by law.

**18. TERMINATION FOR CONVENIENCE**

Except as otherwise provided in this Contract, COMMERCE may, by ten (10) business days' written notice, beginning on the second day after the mailing, terminate this Contract, in whole or in part. If this Contract is so terminated, COMMERCE shall be liable only for payment required under the terms of this Contract for services rendered or goods delivered prior to the effective date of termination.

**19. TERMINATION PROCEDURES**

Upon termination of this contract, COMMERCE, in addition to any other rights provided in this contract, may require the Contractor to deliver to COMMERCE any property specifically produced or acquired for the performance of such part of this contract as has been terminated. The provisions of the "Treatment of Assets" clause shall apply in such property transfer.

COMMERCE shall pay to the Contractor the agreed upon price, if separately stated, for completed work and services accepted by COMMERCE, and the amount agreed upon by the Contractor and COMMERCE for (i) completed work and services for which no separate price is stated, (ii) partially completed work and services, (iii) other property or services that are accepted by COMMERCE, and (iv) the protection and preservation of property, unless the termination is for default, in which case the Authorized Representative shall determine the extent of the liability of COMMERCE. Failure to agree with such determination shall be a dispute within the meaning of the "Disputes" clause of this contract. COMMERCE may withhold from any amounts due the Contractor such sum as the Authorized Representative determines to be necessary to protect COMMERCE against potential loss or liability.

The rights and remedies of COMMERCE provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

After receipt of a notice of termination, and except as otherwise directed by the Authorized Representative, the Contractor shall:

- A. Stop work under the contract on the date, and to the extent specified, in the notice;
- B. Place no further orders or subcontracts for materials, services, or facilities except as may be necessary for completion of such portion of the work under the contract that is not terminated;
- C. Assign to COMMERCE, in the manner, at the times, and to the extent directed by the Authorized Representative, all of the rights, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case COMMERCE has the right, at its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;
- D. Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, with the approval or ratification of the Authorized Representative to the extent the Authorized Representative may require, which approval or ratification shall be final for all the purposes of this clause;
- E. Transfer title to COMMERCE and deliver in the manner, at the times, and to the extent directed by the Authorized Representative any property which, if the contract had been completed, would have been required to be furnished to COMMERCE;
- F. Complete performance of such part of the work as shall not have been terminated by the Authorized Representative; and
- G. Take such action as may be necessary, or as the Authorized Representative may direct, for the protection and preservation of the property related to this contract, which is in the possession of the Contractor and in which COMMERCE has or may acquire an interest.

## **20. TREATMENT OF ASSETS**

Title to all property furnished by COMMERCE shall remain in COMMERCE. Title to all property furnished by the Contractor, for the cost of which the Contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass to and vest in COMMERCE upon delivery of such property by the Contractor. Title to other property, the cost of which is reimbursable to the Contractor under this contract, shall pass to and vest in COMMERCE upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by COMMERCE in whole or in part, whichever first occurs.

- A. Any property of COMMERCE furnished to the Contractor shall, unless otherwise provided herein or approved by COMMERCE, be used only for the performance of this contract.
- B. The Contractor shall be responsible for any loss or damage to property of COMMERCE that results from the negligence of the Contractor or which results from the failure on the part of the Contractor to maintain and administer that property in accordance with sound management

practices.

- C. If any COMMERCE property is lost, destroyed or damaged, the Contractor shall immediately notify COMMERCE and shall take all reasonable steps to protect the property from further damage.
- D. The Contractor shall surrender to COMMERCE all property of COMMERCE prior to settlement upon completion, termination or cancellation of this contract.
- E. All reference to the Contractor under this clause shall also include Contractor's employees, agents or Subcontractors.

21. **WAIVER**

Waiver of any default or breach shall not be deemed to be a waiver of any subsequent default or breach. Any waiver shall not be construed to be a modification of the terms of this Contract unless stated to be such in writing and signed by Authorized Representative of COMMERCE.

It shall include contractual liability coverage for the indemnity provided under this Agreement. It shall provide that the City, its officers and employees are additional insureds but only with respect to the Consultant's services to be provided under this Agreement.
  - i. Acceptable **supplementary Umbrella insurance** coverage combined with Consultant's General Liability insurance policy must be a minimum of \$2,000,000, in order to meet the insurance coverage limits required in this Agreement; and
- C. Automobile Liability Insurance with a combined single limit, or the equivalent of not less than \$1,000,000 each accident for bodily injury and property damage, including coverage for owned, hired and non-owned vehicles.

- D. Professional Liability Insurance with a combined single limit of not less than \$1,000,000 each claim, incident or occurrence. This is to cover damages caused by the error, omission, or negligent acts related to the professional services to be provided under this Agreement. The coverage must remain in effect for at least two (2) years after the Agreement is completed.

There shall be no cancellation, material change, reduction of limits or intent not to renew the insurance coverage(s) without thirty (30) days written notice from the Consultant or its insurer(s) to the City. As evidence of the insurance coverage(s) required by this Agreement, the Consultant shall furnish acceptable Certificates Of Insurance (COI) to the City. With the exception of Professional Liability insurance, the certificate shall specify the City of Spokane as "Additional Insured" specifically for Consultant's services under this Agreement, as well as all of the parties who are additional insureds, and include applicable policy endorsements, the thirty (30) day cancellation clause, and the deduction or retention level. The Consultant shall be financially responsible for all pertinent deductibles, self-insured retentions, and/or self-insurance.

## **12. DEBARMENT AND SUSPENSION.**

The Consultant has provided its certification that it is in compliance with and shall not contract with individuals or organizations which are debarred, suspended, or otherwise excluded from or ineligible from participation in Federal Assistance Programs under Executive Order 12549 and "Debarment and Suspension", codified at 29 CFR part 98.

## **13. AUDIT.**

Upon request, the Consultant shall permit the City and any other governmental agency ("Agency") involved in the funding of the Work to inspect and audit all pertinent books and records. This includes work of the Consultant, any subconsultant, or any other person or entity that performed connected or related Work. Such books and records shall be made available upon reasonable notice of a request by the City, including up to three (3) years after final payment or release of withheld amounts. Such inspection and audit shall occur in Spokane County, Washington, or other reasonable locations mutually agreed to by the parties. The Consultant shall permit the City to copy such books and records at its own expense. The Consultant shall ensure that inspection, audit and copying rights of the City is a condition of any subcontract, agreement or other arrangement under which any other persons or entity may perform Work under this Agreement.

## **14. INDEPENDENT CONSULTANT.**

- A. The Consultant is an independent Consultant. This Agreement does not intend the Consultant to act as a City employee. The City has neither direct nor immediate control over the Consultant nor the right to control the manner or means by which the Consultant works. Neither the Consultant nor any Consultant employee shall be an employee of the City. This Agreement prohibits the Consultant to act as an agent or legal representative of the City. The Consultant is not granted express or implied rights or authority to assume or create any obligation or responsibility for or in the name of the City, or to bind the City. The City is not liable for or obligated to pay sick leave, vacation pay, or any other benefit of employment, nor to pay social security or other tax that may arise from employment. The Consultant shall pay all income and other taxes as due. The Consultant may perform work for other parties; the City is not the exclusive user of the services that the Consultant provides.
- B. If the City needs the Consultant to Work on City premises and/or with City equipment, the City may provide the necessary premises and equipment. Such

premises and equipment are exclusively for the Work and not to be used for any other purpose.

- C. If the Consultant works on the City premises using City equipment, the Consultant remains an independent Consultant and not a City employee. The Consultant will notify the City Project Manager if s/he or any other Workers are within ninety (90) days of a consecutive 36-month placement on City property. If the City determines using City premises or equipment is unnecessary to complete the Work, the Consultant will be required to work from its own office space or in the field. The City may negotiate a reduction in Consultant fees or charge a rental fee based on the actual costs to the City, for City premises or equipment.

#### **15. KEY PERSONS.**

The Consultant shall not transfer or reassign any individual designated in this Agreement as essential to the Work, nor shall those key persons, or employees of Consultant identified as to be involved in the Project Work be replaced, removed or withdrawn from the Work without the express written consent of the City, which shall not be unreasonably withheld. If any such individual leaves the Consultant's employment, the Consultant shall present to the City one or more individuals with greater or equal qualifications as a replacement, subject to the City's approval, which shall not be unreasonably withheld. The City's approval does not release the Consultant from its obligations under this Agreement.

#### **16. ASSIGNMENT AND SUBCONTRACTING.**

The Consultant shall not assign or subcontract its obligations under this Agreement without the City's written consent, which may be granted or withheld in the City's sole discretion. Any subcontract made by the Consultant shall incorporate by reference this Agreement, except as otherwise provided. The Consultant shall require that all subconsultants comply with the obligations and requirements of the subcontract. The City's consent to any assignment or subcontract does not release the consultant from liability or any obligation within this Agreement, whether before or after City consent, assignment or subcontract.

#### **17. CITY ETHICS CODE.**

- A. Consultant shall promptly notify the City in writing of any person expected to be a Consultant Worker (including any Consultant employee, subconsultant, principal, or owner) and was a former City officer or employee within the past twelve (12) months.
- B. Consultant shall ensure compliance with the City Ethics Code by any Consultant Worker when the Work or matter related to the Work is performed by a Consultant Worker who has been a City officer or employee within the past two (2) years.
- C. Consultant shall not directly or indirectly offer anything of value (such as retainers, loans, entertainment, favors, gifts, tickets, trips, favors, bonuses, donations, special discounts, work or meals) to any City employee, volunteer or official that is intended, or may appear to a reasonable person to be intended, to obtain or give special consideration to the Consultant. Promotional items worth less than \$25 may be distributed by the Consultant to a City employee if the Consultant uses the items as routine and standard promotional materials. Any violation of this provision may cause termination of this Agreement. Nothing in this Agreement prohibits donations to campaigns for election to City office, so long as the donation is disclosed as required by the election campaign disclosure laws of the City and of the State.

**18. NO CONFLICT OF INTEREST.**

Consultant confirms that the Consultant or workers have no business interest or a close family relationship with any City officer or employee who was or will be involved in the consultant selection, negotiation, drafting, signing, administration or evaluation of the Consultant's work. As used in this Section, the term Consultant includes any worker of the Consultant who was, is, or will be, involved in negotiation, drafting, signing, administration or performance of the Agreement. The term "close family relationship" refers to: spouse or domestic partner, any dependent parent, parent-in-law, child, son-in-law, daughter-in-law; or any parent, parent in-law, sibling, uncle, aunt, cousin, niece or nephew residing in the household of a City officer or employee described above.

**19. ERRORS AND OMISSIONS, CORRECTIONS.**

Consultant is responsible for professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by or on the behalf of the Consultant under this Agreement in the delivery of a final work product. The standard of care applicable to Consultant's services will be the degree of skill and diligence normally employed by professional engineers or Consultants performing the same or similar services at the time said services are performed. The Final Work Product is defined as a stamped, signed work product. Consultant, without additional compensation, shall correct or revise errors or mistakes in designs, drawings, specifications, and/or other consultant services immediately upon notification by the City. The obligation provided for in this Section regarding acts or omissions resulting from this Agreement survives Agreement termination or expiration.

**20. INTELLECTUAL PROPERTY RIGHTS.**

- A. Copyrights. The Consultant shall retain the copyright (including the right of reuse) to all materials and documents prepared by the Consultant for the Work, whether or not the Work is completed. The Consultant grants to the City a non-exclusive, irrevocable, unlimited, royalty-free license to use copy and distribute every document and all the materials prepared by the Consultant for the City under this Agreement. If requested by the City, a copy of all drawings, prints, plans, field notes, reports, documents, files, input materials, output materials, the media upon which they are located (including cards, tapes, discs, and other storage facilities), software program or packages (including source code or codes, object codes, upgrades, revisions, modifications, and any related materials) and/or any other related documents or materials developed solely for and paid for by the City to perform the Work, shall be promptly delivered to the City.
- B. Patents: The Consultant assigns to the City all rights in any invention, improvement, or discovery, with all related information, including but not limited to designs, specifications, data, patent rights and findings developed with the performance of the Agreement or any subcontract. Notwithstanding the above, the Consultant does not convey to the City, nor does the City obtain, any right to any document or material utilized by the Consultant created or produced separate from the Agreement or was pre-existing material (not already owned by the City), provided that the Consultant has identified in writing such material as pre-existing prior to commencement of the Work. If pre-existing materials are incorporated in the work, the Consultant grants the City an irrevocable, non-exclusive right and/or license to use, execute, reproduce, display and transfer the pre-existing material, but only as an inseparable part of the work.
- C. The City may make and retain copies of such documents for its information and reference with their use on the project. The Consultant does not represent or warrant that such documents are suitable for reuse by the City or others, on

extensions of the project or on any other project, and the City releases the Consultant from liability for any unauthorized reuse of such documents.

**21. CONFIDENTIALITY.**

Notwithstanding anything to the contrary, City will maintain the confidentiality of Consultant's materials and information only to the extent that is legally allowed in the State of Washington. City is bound by the State Public Records Act, RCW Ch. 42.56. That law presumptively makes all records in the possession of the City public records which are freely available upon request by anyone. In the event that City gets a valid public records request for Consultant's materials or information and the City determines there are exemptions only the Consultant can assert, City will endeavor to give Consultant notice. Consultant will be required to go to Court to get an injunction preventing the release of the requested records. In the event that Consultant does not get a timely injunction preventing the release of the records, the City will comply with the Public Records Act and release the records.

**22. DISPUTES.**

Any dispute or misunderstanding that may arise under this Agreement, concerning the Consultant's performance, shall first be through negotiations, if possible, between the Consultant's Project Manager and the City's Project Manager. It shall be referred to the Director and the Consultant's senior executive(s). If such officials do not agree upon a decision within a reasonable period of time, either party may decline or discontinue such discussions and may then pursue the legal means to resolve such disputes, including but not limited to mediation, arbitration and/or alternative dispute resolution processes. Nothing in this dispute process shall mitigate the rights of the City to terminate the Agreement. Notwithstanding all of the above, if the City believes in good faith that some portion of the Work has not been completed satisfactorily, the City may require the Consultant to correct such work prior to the City payment. The City will provide to the Consultant an explanation of the concern and the remedy that the City expects. The City may withhold from any payment otherwise due, an amount that the City in good faith finds to be under dispute, or if the Consultant provides no sufficient remedy, the City may retain the amount equal to the cost to the City for otherwise correcting or remedying the work not properly completed. Waiver of any of these rights is not deemed a future waiver of any such right or remedy available at law, contract or equity.

**23. TERMINATION.**

- A. For Cause: The City or Consultant may terminate the Agreement if the other party is in material breach of this Agreement, and such breach has not been corrected to the other party's reasonable satisfaction in a timely manner. Notice of termination under this Section shall be given by the party terminating this Agreement to the other, not fewer than thirty (30) business days prior to the effective date of termination.
- B. For Reasons Beyond Control of Parties: Either party may terminate this Agreement without recourse by the other where performance is rendered impossible or impracticable for reasons beyond such party's reasonable control, such as, but not limited to, an act of nature, war or warlike operation, civil commotion, riot, labor dispute including strike, walkout or lockout, except labor disputes involving the Consultant's own employees, sabotage, or superior governmental regulation or control. Notice of termination under this Section shall be given by the party terminating this Agreement to the other, not fewer than thirty (30) business days prior to the effective date of termination.
- C. For Convenience: Either party may terminate this Agreement without cause, upon thirty (30) days written notice to the other party.

- D. Actions upon Termination: if termination occurs not the fault of the Consultant, the Consultant shall be paid for the services properly performed prior to the actual termination date, with any reimbursable expenses then due, but such compensation shall not exceed the maximum compensation to be paid under the Agreement. The Consultant agrees this payment shall fully and adequately compensate the Consultant and all subconsultants for all profits, costs, expenses, losses, liabilities, damages, taxes and charges of any kind (whether foreseen or unforeseen) attributable to the termination of this Agreement.
- E. Upon termination, the Consultant shall provide the City with the most current design documents, contract documents, writings and other products the Consultant has produced to termination, along with copies of all project-related correspondence and similar items. The City shall have the same rights to use these materials as if termination had not occurred; provided however, that the City shall indemnify and hold the Consultant harmless from any claims, losses, or damages to the extent caused by modifications made by the City to the Consultant's work product.

#### **24. EXPANSION FOR NEW WORK.**

This Agreement scope may be expanded for new work. Any expansion for New Work (work not specified within the original Scope of Work Section of this Agreement, and/or not specified in the original RFP as intended work for the Agreement) must comply with all the following limitations and requirements: (a) the New Work is not reasonable to solicit separately; (b) the New Work is for reasonable purpose; (c) the New Work was not reasonably known either the City or Consultant at time of contract or else was mentioned as a possibility in the solicitation (such as future phases of work, or a change in law); (d) the New Work is not significant enough to be reasonably regarded as an independent body of work; (e) the New Work would not have attracted a different field of competition; and (f) the change does not vary the essential identified or main purposes of the Agreement. The City may make exceptions for immaterial changes, emergency or sole source conditions, or other situations required in City opinion. Certain changes are not New Work subject to these limitations, such as additional phases of Work anticipated at the time of solicitation, time extensions, Work Orders issued on an On-Call contract, and similar. New Work must be mutually agreed and issued by the City through written Addenda. New Work performed before an authorizing Amendment may not be eligible for payment.

#### **25. MISCELLANEOUS PROVISIONS.**

- A. Amendments: No modification of this Agreement shall be effective unless in writing and signed by an authorized representative of each of the parties hereto.
- B. Binding Agreement: This Agreement shall not be binding until signed by both parties. The provisions, covenants and conditions in this Agreement shall bind the parties, their legal heirs, representatives, successors and assigns.
- C. Americans with Disabilities Act (ADA): Specific attention by the designer is required in association with the Americans with Disabilities Act (ADA) 42 U.S.C. 12101-12213 and 47 U.S.C. 225 and 611, its requirements, regulations, standards and guidelines, which were updated in 2010 and are effective and mandatory for all State and local government facilities and places of public accommodation for construction projects including alteration of existing facilities, as of March 15, 2012. The City advises that the requirements for accessibility under the ADA, may contain provisions that differ substantively from accessibility provisions in applicable State and City codes, and if the provisions of the ADA impose a greater or equal protection for the rights of individuals with disabilities or individuals associated with them than the adopted local codes, the ADA prevail unless

approval for an exception is obtained by a formal documented process. Where local codes provide exceptions from accessibility requirements that differ from the ADA Standards; such exceptions may not be permitted for publicly owned facilities subject to Title II requirements unless the same exception exists in the Title II regulations. It is the responsibility of the designer to determine the code provisions.

- D. The Consultant, at no expense to the City, shall comply with all laws of the United States and Washington, the Charter and ordinances of the City of Spokane; and rules, regulations, orders and directives of their administrative agencies and officers. Without limiting the generality of this paragraph, the Consultant shall comply with the requirements of this Section.
- E. This Agreement shall be construed and interpreted under the laws of Washington. The venue of any action brought shall be in the Superior Court of Spokane County.
- F. Remedies Cumulative: Rights under this Agreement are cumulative and nonexclusive of any other remedy of law or in equity.
- G. Captions: The titles of sections or subsections are for convenience only and do not define or limit the contents.
- H. Severability: If any term or provision is determined by a court of competent jurisdiction to be invalid or unenforceable, the remainder of this Agreement shall not be affected, and each term and provision shall be valid and enforceable to the fullest extent permitted by law.
- I. Waiver: No covenant, term or condition or the breach shall be deemed waived, except by written consent of the party against whom the waiver is claimed, and any waiver of the breach of any covenant, term or condition shall not be deemed a waiver of any preceding or succeeding breach of the same or any other covenant, term of condition. Neither the acceptance by the City of any performance by the Consultant after the time the same shall have become due nor payment to the Consultant for any portion of the Work shall constitute a waiver by the City of the breach or default of any covenant, term or condition unless otherwise expressly agreed to by the City in writing.
- J. Additional Provisions: This Agreement may be modified by additional terms and conditions ("Special Conditions") which shall be attached to this Agreement as an Exhibit. The parties agree that the Special Conditions shall supplement the terms and conditions of the Agreement, and in the event of ambiguity or conflict with the terms and conditions of the Agreement, these Special Conditions shall govern.
- K. Entire Agreement: This document along with any exhibits and all attachments, and subsequently issued addenda, comprises the entire agreement between the City and the Consultant. If conflict occurs between contract documents and applicable laws, codes, ordinances or regulations, the most stringent or legally binding requirement shall govern and be considered a part of this contract to afford the City the maximum benefits.
- L. Negotiated Agreement: The parties acknowledge this is a negotiated agreement, that they have had this Agreement reviewed by their respective legal counsel, and that the terms and conditions of this Agreement are not to be construed against any party on the basis of such party's draftsmanship.
- M. No personal liability: No officer, agent or authorized employee of the City shall be personally responsible for any liability arising under this Agreement, whether expressed or implied, nor for any statement or representation made or in any connection with this Agreement.

## 1 LETTER OF SUBMITTAL

Dear Mrs. Tanya Lester,

Mesa Associates, Inc. (Mesa) is pleased to present this proposal to the City of Spokane Water & Hydroelectric Department in response to RFQ 6402-25 to provide design engineering services for a new gantry crane at the Upriver Spillway location in Spokane, Washington.

Mesa has the legal classification of a corporate entity that is headquartered in Madison, Alabama. The field services, civil/structural design, and in-person meetings would operate from the Spokane office, i.e. Ian Whiteley, P.E., and relay information to the design team personnel located in Tennessee. The design engineering services would utilize key personnel with gantry crane design (civil, mechanical and electrical) experience from the Knoxville and Chattanooga offices in Tennessee that would ensure economic efficiency and be available for video conference calling during design review meetings.

Mesa reviewed the minimum qualifications provided in Section 1.4 of the RFQ and complies with all the listed items.

Mesa acknowledges and agrees to the terms and conditions set forth in Attachment 1 of RFQ 6402-25 with one exception taken in the insurance section. A copy with the Mesa addition shown in red has been uploaded with this proposal.

Sincerely,

Timothy B. Ramsey, PE

## **3 TECHNICAL APPROACH**

### **Work Plan**

The following contains Mesa's anticipated technical approach to accomplishing the project scope of work.

#### **3.1 Project Initiation and Kickoff**

Every project begins with the development of a written Project Execution Plan (PEP). The PEP is prepared by the Project Manager, with the support of engineering, procurement, and QA. The intent of the PEP is to consolidate and transfer information from the proposal to the project team, which will execute the project.

Mesa will conduct a project kickoff meeting where the PEP is reviewed in detail with all team members who will be involved in the work. The Project Manager will lead the meeting; attendees will typically include the responsible engineer, design/engineering personnel, any subcontractors, and the QA Manager. The intent of this meeting is to ensure that all project team members understand and agree upon the scope, schedule, and requirements, and to familiarize all with the product Mesa has committed to deliver. Quality requirements are discussed, including plans for potential vendor surveillance and special processes monitoring, if applicable. Minutes of this meeting are written and distributed by the Project Manager.

#### **3.2 Preliminary 30% Design Phase**

Upon completion of the kickoff meeting with The City of Spokane Water & Hydroelectric Department (the Department), Mesa will schedule the site visit and go over the inputs that have been provided within the RFQ. At this time, any additional related engineering documents will be acquired from the existing structure and systems.

Mesa will then conduct a site visit a few days after the kickoff meeting, or when it's approved by the Department, for 3D scanning the existing features and obstacles of the Upriver Spillway as well as to determine existing electrical power termination options. By scanning the gantry crane area, Mesa will be able to develop a 3D model of the project site to take measurements from and ensure no interferences of existing components will remain in place (excluding the man basket integration as outlined in Addendum 1 of the RFQ) that will impede the new gantry crane design. Once we have secured the necessary data to proceed with our design, this information, along with developing design deliverables, will be stored in Vault, our Document Management System (DMS). This is part of our configuration management system to maintain all relevant project documentation in a traceable, revision-based system.

Upon completion of data collection, the project team will begin the preliminary design effort. Upper-tier design documents (Schematics, Control Philosophy, Studies, etc.) will be prepared to identify major design concepts and alternative design approaches, as required. Mesa will reach out to local crane manufacturers to identify economical, high quality equipment supply options. These preliminary

documents will provide sufficient detail to establish the design features that can be cost-estimated and reviewed with all stakeholders to assure the design intent is consistent with budget, safety, and operational expectations. Other design considerations evaluated during the preliminary and all design stages include Integrated Safety Management, Reliability and Maintainability, Ergonomics, Constructability, Flexibility, and Value Engineering. In addition to design documents, outline specifications for long-lead engineering equipment procurements will be provided. A preliminary design review will be conducted, and results disseminated.

### **3.2.1 Deliverables**

#### **Civil/Structural Engineering**

# **4 MANAGEMENT APPROACH**

## **4.1 Project Management Methods**

### **4.1.1 Quality Assurance**

Mesa has placed top priority on providing quality products to each of our customers. Quality is emphasized at the top levels and provided by every Mesa associate. In our commitment to excellence, our detailed review process has proven very successful in meeting customer quality expectations. We

practice applicable client standards and requirements, perform value engineering and constructability reviews, and provide construction and field support. Mesa aims to ensure our client is provided a safe, affordable, reliable, and quality product that is easy to operate and maintain.

Mesa has a formal Quality Assurance Quality Control (QA/QC) process. The process is established under Mesa's Corporate Quality Management Program, which provides consistent methods for planning and performing engineering and design services. The **Corporate Quality Control Management Manual (MA-QM-MAN-GEN-2000)** summarizes the requirements that apply to all work performed by Mesa Associates, Inc., and can be provided if requested.

Other key processes included in Mesa's Quality program include:

**Quality Planning Process (MA-QM-SOP-GEN-2009)**

This process describes how leadership within each business unit creates a plan to manage quality throughout the lifecycle of a project. The customer's QA QC requirements and additional inputs are incorporated to define the technical approach, identify resources, quality assurance control measures, and ultimately develop a plan to achieve project deliverables.

**Design Control (MA-QM-SOP-GEN-1028)**

This process specifies the design control measures required to ensure design activities are defined, controlled, and verified to ensure the quality of design work. Mesa's quality program requires a design check of all drawings, calculations, specifications, and other design output documents. Procedures provide requirements for reviewing and checking all design output documents (i.e., deliverables), and checklists are used by reviewers to ensure the design satisfies the design criteria and all applicable codes, standards, and client requirements.

**Corrective Action Management (MA-QM-SOP-CA-2003)**

This process was developed to provide a structured and standardized method to identify, document, and manage quality incidents. Quality incidents are logged as Quality Action Tickets by the owning Business Unit or Support Organization and tracked by Quality Management through the Quality Management Center SharePoint site. Quality Action Tickets are not closed until the Quality Management Team can confirm that all Corrective Actions and Actions to Prevent Recurrence have been effectively implemented.

We have been successful in meeting performance expectations for our clients, receiving excellent task performance evaluations. The majority of our MSA and EOC contracts include metrics related to performance, productivity, and cost savings. Mesa diligently works towards these initiatives, striving to demonstrate the value we bring to our customers. In the most recent evaluations with our largest customer, our company received 99%-100% in all assessment areas. We have been very successful managing all KPIs for other customers, both programmatically and at task-specific levels, such as:

- ◆ Contract Compliance
- ◆ Cost and Budget Adherence
- ◆ Project Management Process

- ◆ Quality
- ◆ Safety
- ◆ Schedule
- ◆ Supplier Interaction

### **Traveling Hoist Rehabilitation | Roanoke Rapids Hydro Facility**

Client: Dominion/Crowder Construction | Barry Fletcher | 864.640.3645 | Location: North Carolina

Mesa was retained by Crowder Industrial Construction to provide engineering and design services for the Traveling Hoist Rehabilitation project at Dominion Energy's Roanoke Rapids (RR) Hydro Power Plant. The 100-megawatt hydroelectric facility is located in Roanoke Rapids, North Carolina.

RR is equipped with two traveling hoist cars to raise and lower the spillway tainter gates. The RR hoist, rated for a maximum load of 30 tons, has been in use since the plant began operating in 1955. The traveling hoist cars required rehabilitation in order to restore the equipment to optimal operating condition. This project was for the first car rehabilitation. The second car rehabilitation is planned for the future.

The multidiscipline team from Mesa performed engineering and design for a complete mechanical package to replace the existing mechanical components within the traveling hoist car. Additionally, Mesa specified new mechanical equipment, reviewed vendor-submitted documentation, and performed limited quality assurance oversight during fabrication (shop acceptance witness testing). The design concept evaluated the existing hoist car gate lifting system and components to determine which components had become obsolete. Mesa designed a lifting system that retained as much of the original configuration as possible while satisfying current COE and CMAA design requirements. The new equipment was mounted on the structural steel frame of the existing hoist car.

### **Floodgate Hoist System | Wylie Hydro Station**

Client: Duke Energy | Jim Malton | 843.367.7332 | Location: South Carolina

Mesa Associates, Inc., was contracted by Duke Energy to provide support for a Floodgate Hoist System project at Wylie Hydro Station (WYL). Located on the Catawba River in Fort Mill, South Carolina, WYL has four generating units with a capacity of 60 megawatts.

WYL was equipped with eleven floodgates and two movable floodgate hoists that had reached the end of their usable life. The two mobile hoists were replaced with eleven new Reel COH fixed hoist units with external remote controls capabilities. Mesa installed a GE RX3i based PLC system to connect the individual hoists. The PLC system allows all the hoists to be controlled remotely to open or close the flood gates from a location in downtown Charlotte, North Carolina. The existing hoist system has two 480VAC 3-phase 4-wire power feeds. The feed for each of the two power feeds was cross-tied via the Flood Gate Hoist Double Throw Switch 1A and 1 B. Each of the two sides has a 480VAC trolley bus feeding its respective movable hoist. The new system taps the trolley bus feeders and provides a 480VAC daisy chain power connection to the new hoists. Power from the tap was “daisy-chained” between the five new fixed-hoist control panels on the powerhouse side of the dam and the six new fixed-hoists.

### Spillway Gate Hoist PLC | Walters Hydro Station

Client: TVA | Gary Melton | [gmelton@tva.gov](mailto:gmelton@tva.gov) | Location: Tennessee

Mesa Associates, Inc. was retained by the Tennessee Valley Authority (TVA) to support an Intake Gantry Crane project at Nickajack Hydro Plant (NJH). Nickajack Dam is located on the Tennessee River in New Hope, Tennessee, and has four generating units with a summer net dependable capacity of 107 megawatts.

Over the past 25 years, the NJH 30-ton intake gantry crane has been modified twice and had the gantry drive rebuilt multiple times. Reliable crane operation is crucial for installing intake gates during emergencies as well as during routine outages. Mesa was commissioned to conduct an engineering assessment and create a Project Planning Document outlining solutions, deliverables, and estimated costs. The assessment determined that upgrading the existing crane to a 50-ton capacity was necessary but unfeasible due to its age and condition.

To improve safety and reliability, the existing 70-year-old crane was replaced with a new 50-ton crane designed to accommodate the predicted 100,000-pound loads present during an intake gate emergency. The new crane meets CMAA Class 'C' criteria, and the lifting beam complies with ASME BTH-1. The hoist, trolley, and gantry drive are rated for Variable Frequency Drive (VFD) service. The crane can be controlled from the cab chair using infinitely variable hand switches or a handheld remote-control box.

The crane was fully assembled and tested at the vendor's facility. Once it had passed all testing, it was partially disassembled, transported by barge and tractor-trailer to the site, reassembled, installed, and field tested.

Mesa served as the project's Responsible Engineer, overseeing work activities, weekly meetings, on-site support, addressing RFIs, conducting the site acceptance testing, and providing the final drawing update. Mesa also assisted the crane installer with deck and wall load analysis for the use of selected mobile equipment.

The crane was designed with the required capacity, lift, and speed, and fabricated in the same shape and style as the previous crane, maintaining the Nickajack Powerhouse's character and satisfying the historical preservation requirements.

### **2. PROPRIETARY INFORMATION / PUBLIC DISCLOSURE**

All materials submitted to the City in responses to this competitive procurement shall become the property of the City.

If you believe that some part of your response constitutes legally protected proprietary information, you MUST submit those portions of your response as a separate part of your response, and you MUST label it as "PROPRIETARY INFORMATION." If a valid public records request is then received by the City for this information, you will be given notice and a 10-day opportunity to go to court to obtain an injunction to prevent the City from releasing this part of your response. If no injunction is obtained, the City is legally required to release the records.

The City will neither look for nor honor any claims of "proprietary information" that are not within the separate part of your response.

**City of Spokane – Upriver Spillway Gantry Crane Design  
Mesa Proposal No. 25PGNO109--Addendum**

Dear Ms. Lester:

Per the request of the City of Spokane, the following updated information for an expedited schedule and cost estimate for the effort is being presented for review and consideration.

**SCOPE CLARIFICATIONS:**

Structural

The structural scope includes design of a new gantry crane frame to support the new crane equipment. In accordance with the RFQ document, Mesa will design the new gantry crane frame to match the geometry of the existing frame, with the following modifications/clarifications:

- ◆ Hook height will be 2ft higher than existing
- ◆ Maximum east travel (upstream) will be 2ft further than existing.
- ◆ Only four (4) wheels will be used for north/south travel
- ◆ The gantry crane frame will be designed without vertical bracing in the long direction (Side Elevation) so that stop logs do not interfere with the bracing. Moment frame connections will be utilized in lieu of bracing. In the short direction (End Elevation), vertical knee bracing will be used to resist lateral forces to match existing conditions. Horizontal angle bracing will be used at the top of the gantry crane frame to serve as a diaphragm, to match existing conditions.
- ◆ Based on the above, Mesa will develop a set of Issued For Construction (IFC) design drawings for the new gantry crane frame.

Electrical

Electrical characteristics will be written to include the motor, disconnecting means, and local starting capabilities in the specification for the new gantry crane. The existing power feed will be reused unless considered inadequate due to the sizing or age of the cable. The crane will be controlled locally. The new gantry crane system will not require any remote controls, indications, or alarms in the control room.

The plant electrical model using software such as ETAP will be updated to show the loads added to this project. Arc Flash, Short Circuit, and Protection & Coordination Analysis will

*Engineers and Consultants*

be provided in a new calculation, and Arc Flash Labels will be provided under this scope of work.

#### Mechanical

In support of selecting the new crane equipment, the mechanical scope of work will be to develop a detailed performance specification for the new equipment. The specification will base on the performance characteristics of the existing gantry crane system.

#### **DELIVERABLE CLARIFICATIONS:**

Gantry Crane Specification including multi-discipline inputs: Electrical, Mechanical, and Structural

#### Electrical - 90% Drawing Set

- ◆ Single Line Diagram
- ◆ Wiring Diagram
- ◆ Conduit Plan
- ◆ Grounding Plan
- ◆ Demolition Drawings
- ◆ Cable Schedule
- ◆ Conduit Schedule
- ◆ Updated ETAP Model
- ◆ Arc Flash, Short Circuit, and Protection & Coordination analysis report
- ◆ Arc Flash Labels

#### Structural - 90% Drawing Set:

- ◆ Structural Analysis & Design Calculation for New Gantry Crane Framing (Qty. 1)
- ◆ Structural General Notes and Specifications (Qty. 1)
- ◆ Gantry Crane Base Framing Plan & Top Framing Plan (Qty. 1)
- ◆ Gantry Crane Elevations (Qty. 1)
- ◆ Gantry Crane Sections/Details (Qty. 1)

#### **ASSUMPTIONS FOR THE EXPEDITED SCHEDULE:**

This proposal is based on the following assumptions:

#### General

- ◆ Mesa Standards will be used to prepare all drawings.
- ◆ Existing drawings accurately reflect the current plant configuration and will be used as a project design input.
- ◆ All existing drawings will be provided in CAD format. CAD conversion or checking of converted drawings is not required, and all existing equipment is accurately detailed on existing plant drawings.
- ◆ Redrawing existing plant drawings is not part of this project.
- ◆ The kick-off meeting will be held via videoconference.

*Engineers and Consultants*

- ◆ The 90% Design Review Meetings (DRM) will be held via videoconference.
- ◆ City of Spokane will purchase any new equipment for this project.
- ◆ Others will provide test and checkout procedures.
- ◆ Others will provide testing and commissioning.
- ◆ This proposal includes one (1) site visit to Upriver Spillway after the project kick-off meeting.
- ◆ A manufacturer site visit is not required for fabrication support. Coordination with the manufacturer can be performed remotely via email and teleconference. If site visits to the manufacturer's fabrication shop are required, these costs can be added at a T&M rate once the crane vendor contract has been rewarded and their fabrication location has been established.
- ◆ Construction support is not included. The RFP is for design services only and therefore the assumption that Mesa would be needed for construction support has been corrected to exclude this post-design service. If Mesa is needed for construction support, a Change Order or amendment to the contract for the additional cost associated with the post-design service can be negotiated at that time.
- ◆ The scope is limited to items discussed in this proposal & addendum.

#### Electrical

- ◆ City of Spokane will assign any equipment, cable, and conduit identifiers required for this project.
- ◆ DCS or PLC wiring is not required.
- ◆ Control room controls, indications, or alarms can be added for an additional fee.
- ◆ Sufficient lighting is available in the area. Lighting details are not included in this proposal but can be provided if requested by City of Spokane for an additional fee.
- ◆ ETAP version 22 will be used.
- ◆ Arc flash labels will be installed by others.

#### Mechanical

- ◆ The new gantry crane performance will be based on the existing crane's performance characteristics.
- ◆ Detailed calculations to develop crane capacity requirements for the installation of the stop logs or other crane uses is not required. Existing crane capacity is assumed to be adequate for the service.
- ◆ All operational requirements for the crane will be provided by the owner at project kickoff. This includes but is not limited to final crane capacity, hook configuration, travel speed, cable length, hoist speed, etc.

*Engineers and Consultants*

### Structural

- ◆ Gantry crane capacities/loads used in design of the framing will be as specified in Attachment 3 of the RFQ Documents.
- ◆ Analysis/repairs for the existing work bridge, if required, are by others. Mesa drawings will specify the total self-weight of the new gantry crane and maximum wheel reaction.
- ◆ Structural design drawings will detail out all steel connections, geometry, and member sizes. However, shop drawings will not be created (i.e. single part drawings).

0560-SBO FOR THERAPEUTIC COURTS AOC AWARD

### **Agenda Wording**

Municipal Court received funding from the Administrative Office of the Courts (AOC) to support the therapeutic court programs. The AOC cost categories available are for: salary and benefits, staff equipment and technology, training and travel, treatment, and recovery services. This is an ongoing funding stream; however applications and budgets are required annually. The funding cannot supplant existing funds.

### **Summary (Background)**

The attached SBO is to increase revenue by \$430,330 to fund therapeutic court programs. The increased appropriation of \$430,330 to fund the below city cost categories as follows: -Base wage and benefits in the amount of \$319,121. -Equipment in the amount of \$2,790. -Travel in the amount of \$38,000 -Professional services in the amount of \$70,419.

**What impacts would the proposal have on historically excluded communities?**

Therapeutic Courts build stronger and safer communities by providing accountability to justice-involved individuals by utilizing a problem-solving approach to crime to help individuals become productive members of the community. Therapeutic Courts work to address factors impacting participant's criminal behavior, substance use/mental health disorders, provide access to resources, and address victim needs. Therapeutic Courts attempt to enhance the lives of individual participants by addressing the underlying causes for court involvement, while ensuring public safety.

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

Therapeutic Courts utilize various data metrics to analyze the effectiveness of the program and to ensure justice involved individuals are not excluded based on racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities. The data is shared with the multidisciplinary team for analysis.

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

Therapeutic Courts will utilize data metrics that will provide regular analysis of the effectiveness and inclusion of community members to ensure racial inequities do not present. If data analysis presents some limitation to access Therapeutic Courts on any bias against race, age, gender, or socio-economic status, the court may address the data and alternative methodology of services with the multi-disciplinary court team.

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

The participants of Therapeutic Courts often face adversary and barriers at every step as they attempt to exit homelessness, address substance use and mental health disorders, and become productive members of the community. The funding will enhance therapeutic court programs as we work to improve the participant's lives and the community. Improving community safety is a critical element in the City's criminal justice reform efforts.

**Agenda Wording**

A Resolution setting forth the City Council's budget priorities pursuant to Section 07.14.030 of the Spokane Municipal Code.

**Summary (Background)**

SMC 07.14.030.E provides that the City Council is to adopt a draft resolution to the administration identifying council budget priorities, to be placed on Finance & Administration Committee agenda as a standing legislative item no later than April of each year, with final action by the City Council to occur no later than the first council meeting in July. Since the resolution is technically overdue, it is necessary to place this item on the Finance and Administration committee agenda for June 23 and slate it for council action on July 14. As drafted, the resolution sets forth council priorities in the following areas: 1. Labor Agreements: A description of budget allocations and identified funding sources related to anticipated or potential cost changes stemming from labor agreements executed during the 2025-2026 biennium; and 3. SERS VRIP: A defined funding plan for the Spokane Employees' Retirement System (SERS) actuarial valuation of costs related to the 2024 Voluntary Retirement Incentive Program (VRIP); and 4. Public Safety Capital and Animal Control: A comprehensive funding strategy for public safety capital needs, including infrastructure and equipment, as well as an explanation of the new service delivery model for animal control, with associated budget implications; and 5. Ombuds Office: A clear outline of the Administration's funding plans for the Office of the Police Ombuds, including specific budget levels and identified funding sources; and 6. City Facilities and Real Property: A plan for budgeting facility needs at levels sufficient to support long-term investment in City-owned real property, including maintenance, renovation, disposition, and conveyance plans for such properties; and 7. Workforce Planning: Provide detailed projected changes to the City's budgeted Full-Time Equivalent (FTE) positions, including strategies to rationalize, downsize, consolidate, outsource, or eliminate specific functional areas

where necessary and appropriate. The resolution also further commits the council to adopting a balanced, realistic mid-biennial budget for year 2026 no later than December 8, 2025.

## **RESOLUTION NO. 2025-0052**

A Resolution setting forth the City Council's budget priorities pursuant to Section 07.14.030 of the Spokane Municipal Code.

WHEREAS, the City Council has historically adopted the annual budget for the City of Spokane in December of each year, following a process of fiscal planning, public input, and collaboration with the Mayor's Administration; and

WHEREAS, on June 11, 2024, the City Council adopted Ordinance C36531 at the request of the administration, which ordinance converted the City's budget from an annual budget to a biennial budget; and

WHEREAS, on December 9, 2024, the City Council adopted Ordinance C36626, establishing the City's first biennial budget, covering the years 2025 – 2026; and

WHEREAS, on March 31, 2025 the City Council enacted Ordinance C36641, which revised timelines for budget development in the Spokane Municipal Code and established a procedure in Section 07.14.030 of the Spokane Municipal Code for City Council to set forth budget priorities each year by resolution; and

WHEREAS, Ordinance C36641 was signed by the Mayor on April 10, 2025 and the changes to the Spokane Municipal Code became effective on May 10, 2025; and

WHEREAS, Section 07.14.030.E of the Spokane Municipal Code provides:

Concurrent to the joint budget deliberations, the City Council ...shall develop a draft resolution to the administration identifying council budget priorities, to be placed on Finance & Administration Committee agenda as a standing legislative item no later than April of each year, with final action by the City Council to occur no later than the first council meeting in July[;].

and

WHEREAS, the City's General Fund is projected to experience lower-than-expected revenues in 2025 and only modest revenue growth in 2026, and such projected revenue trends will strain the City's ability to maintain existing service levels without significant adjustments to expenditures, revenue policy, or both;

WHEREAS, the City of Spokane's expenditures—particularly within the General Fund—are projected to outpace revenues, resulting in persistent, fiscally unsustainable structural deficits; and

WHEREAS, consistent with Section 07.14.030.E, and mindful of the budget and revenue realities identified above, the City Council wishes to fulfill its obligation under SMC 07.14.030.E by adopting the following resolution;

NOW, THEREFORE, BE IT RESOLVED that the Spokane City Council requests the priorities set forth below guide the development and adoption of Year 2026 budget:

1. Reserve Funds: A detailed projection of reserve fund balances for fiscal years 2025 and 2026, along with a clear strategy and timeline for achieving full statutory funding of all City reserve accounts; and
2. Labor Agreements: A description of budget allocations and identified funding sources related to anticipated or potential cost changes stemming from labor agreements executed during the 2025–2026 biennium; and
3. SERS VRIP: A defined funding plan for the Spokane Employees' Retirement System (SERS) actuarial valuation of costs related to the 2024 Voluntary Retirement Incentive Program (VRIP); and
4. Public Safety Capital and Animal Control: A comprehensive funding strategy for public safety capital needs, including infrastructure and equipment, as well as an explanation of the new service delivery model for animal control, with associated budget implications; and
5. Ombuds Office: A clear outline of the Administration's funding plans for the Office of the Police Ombuds, including specific budget levels and identified funding sources; and
6. City Facilities and Real Property: A plan for budgeting facility needs at levels sufficient to support long-term investment in City-owned real property, including maintenance, renovation, disposition, and conveyance plans for such properties; and
7. Workforce Planning: Provide detailed projected changes to the City's budgeted Full-Time Equivalent (FTE) positions, including strategies to rationalize, downsize, consolidate, outsource, or eliminate specific functional areas where necessary and appropriate;

BE IT ALSO RESOLVED that, with adherence to the foregoing priorities, the City Council requests focused discussions at the coming budget sessions on these priorities

and commits to working with the Administration to finalize and adopt a balanced, realistic mid-biennial 2026 budget no later than December 8, 2025.

RE: Wellness Properties Application to Vacate Grace Ave.

Erik,

Thank you for your help and guidance with the application to vacate Grace Ave. In summary of "...appropriate justification..." for the vacation, we respectfully submit the following comments and application materials:

Complete Application: Please see attached

Application Fee: To be paid online following creation of invoice.

Site Plan: Please see attached

## Narrative

Wellness Properties, LLC is a subsidiary of Excelsior Wellness who's mission is to provide community health, wellness, and support services to our community's most vulnerable in need. Safe, permanent, and attainable housing is a cornerstone of health and is the mission of Wellness Properties, LLC and the purpose of this project.

Currently, the property at 2303 Northwest Blvd, (25122.2802), fronts Grace Ave and has a burned down garage and empty house on it, which was converted to an office at some point, but is in a partial state of demolition. The remaining lot, nearly ½ acre, sits vacant and is among the City's most underutilized commercially zoned land inventories. Development of the project, facilitated by the vacation of Grace Ave. ROW, will add nearly 45 mix-income housing units in response to the ever-deepening housing crisis. Without the vacation of Grace Ave., the available building area is diminished, and project density falls dramatically to about 24-units while incurring approximately the same site development and infrastructure construction costs, putting the Project's feasibility in jeopardy.

## Application Question Responses

1. *Is the right-of-way no longer required for public use or access?*

Applicant Response: No. As currently configured the portion of the ROW being considered is a dead-end and only serves three parcels, all owned by the Applicant.

2. *How will the use of the right-of-way change after it becomes private Property?*

Applicant Response: The former ROW will be used for Project access from NW Blvd. in addition to parking, project site elements, in addition to portions of the building constructed over the former ROW.

3. *Will the vacation result in any parcel of land being denied sole access to a public right-of-way?*

Applicant Response: No. Though 2321 NW Blvd has frontage along Grace Ave., the property actually addresses NW Blvd with access from two driveways - it is also owned by the Applicant. 2215 NW Blvd has minor frontage on Grace Ave. with no access. Parcel ingress and egress are gained by two driveways on NW Blvd.

4. *Are there any utilities in the right-of-way and if so do you plan to relocate them? If the utilities are not relocated, the City will retain no-build easements in the final vacation ordinance for the purveyors.?*

Applicant Response: Yes. An 18-inch water main and 6-inch parallel line exist in the ROW. No plans are made to remove or relocate them. Discussions with City staff indicate that a 30-foot no-build/utility easement centered on the 18-inch line is acceptable to adequately access, service, and maintain the lines and is anticipated to be retained/conveyed to the City of Spokane as part of the ROW vacation action.

Please let me know if any additional materials or clarifications are needed.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Stanicar".

**STREET VACATION REPORT  
2/3/2025**

**LOCATION:** Grace Avenue west of Northwest Boulevard  
**PROPONENT:** Excelsior Wellness  
**PURPOSE:** To develop a 24 unit housing complex  
**HEARING:** March 3, 2025  
**REPORTS:**

**PRIVATE UTILITY COMPANIES**

**AVISTA UTILITIES** – Avista has reviewed the proposed street vacation and notes that we maintain electric service to multiple locations at the end west end of Grace Avenue, thus access to pole and services is required.

Avista requests the following language be added as a condition of approval:

1. Property owner(s) shall coordinate with Avista to secure a utility easement for access to electrical services located in vacated Grace Avenue. Easement shall be recorded and referenced on final Record of Survey.

**COMCAST** – According to our maps we have no plant in the vacation area.

**EXTENET** – No comments

**FATBEAM FIBER** – No comments

**INLAND POWER** – Inland Power has no facilities within the proposed vacation area.

**INTERMOUNTAIN INFRASTRUCTURE GROUP** – No comments

**LIGHT SPEED NETWORKS** – No comments

**LUMEN** – Lumen does not have any facilities in the proposed vacate area. We can vacate.

**PORT OF WHITMAN** – No comments

**TDS TELECOM** - No comments

**VERIZON/MCI Metro** - No comments

**YELLOWSTONE PIPELINE** – Based on the location of the vacation, YPL does not have any questions as there is no impact to the Pipeline.

**WHOLESALE NETWORKS** – No comments

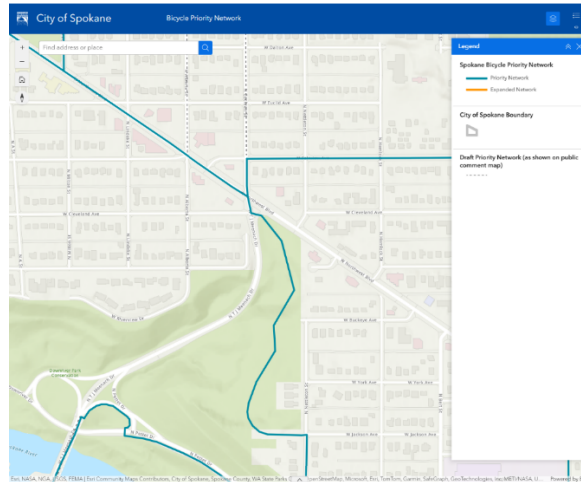

**ZAYO COMMUNICATIONS** – No comments

### **CITY DEPARTMENTS & E911**

**ADDRESSING** - No comments

**BICYCLE ADVISORY BOARD** – I think we would want to maintain a pedestrian access easement and a right to improve pedestrian/bicycle infrastructure from the stormwater/park site (parcels 25122.1703 & 25122.2701) through to NW Blvd. Our Bicycle Priority Network runs perpendicular to Grace Ave here and there's a currently a "desire line" to Grace Ave from the open space. Below are two maps – the one with the red lines showing the pedestrian desire lines/paths and the other route of our bicycle priority network.

**DEVELOPER SERVICES – CURRENT PLANNING** – Once Grace Ave is vacated, 25122.2802 would be landlocked, but since both that parcel and 25122.1604 are owned by Excelsior – and the vacation is initiated by them - we'd be OK with the vacation if they aggregate all the land so that it has frontage on NW Blvd.

**DEVELOPER SERVICES - TRAFFIC** – No comments

**FIRE DEPARTMENT** - No comments from Fire

**INTEGRATED CAPITAL MANAGEMENT** – No transportation concerns.

**NEIGHBORHOOD SERVICES** – No comments

**PARKS DEPARTMENT** - No comments

**PLANNING & ECONOMIC DEVELOPMENT** – No comments

**POLICE DEPARTMENT** - No comments

**SOLID WASTE MANAGEMENT** – Solid Waste has no concerns

**SPOKANE REGIONAL EMERGENCY COMMUNICATIONS** – No comments

**STREET DEPARTMENT** - No comments

**WASTEWATER MANAGEMENT** - Wastewater maintenance has no utilities/facilities within the subject Grace Ave. right of way. If the vacation is approved, it should be conditioned that the existing street access to NW Blvd be modified and on-site runoff must be maintained and properly treated on site. Also, an extension of the current Nettleton Street utility easement that exists north and south of Grace Ave. should be provided in order to maintain the ability to provide sewer service to the properties on the north side of this Grace Ave cul-de-sac, or some equal alternative provided. See the below comment regarding easement release.

Regarding the existing utility easement releases, our comments made back in May of this year remain in effect. The two properties on the south side of Grace, 2303 W. NW Blvd (25122.2802) and 2215 W. NW Blvd (25122.2801), currently have sewer service from the public sewer main in the alley to the south. The property at 2321 W. NW Blvd (25122.1604) as well as the small one adjacent on the west (25122.1702) do not currently have public sewer service, according to our records. Therefore, as we stated in May, the Nettleton easement north and south of the Grace Ave. right-of-way, which currently provides the access to a public sewer connection for these properties, should only be released if an equal alternative route is provided for sewer service.

**WATER DEPARTMENT** - No comments

**RECOMMENDATION:** That the petition be granted and a vacating ordinance be prepared subject to the following conditions:

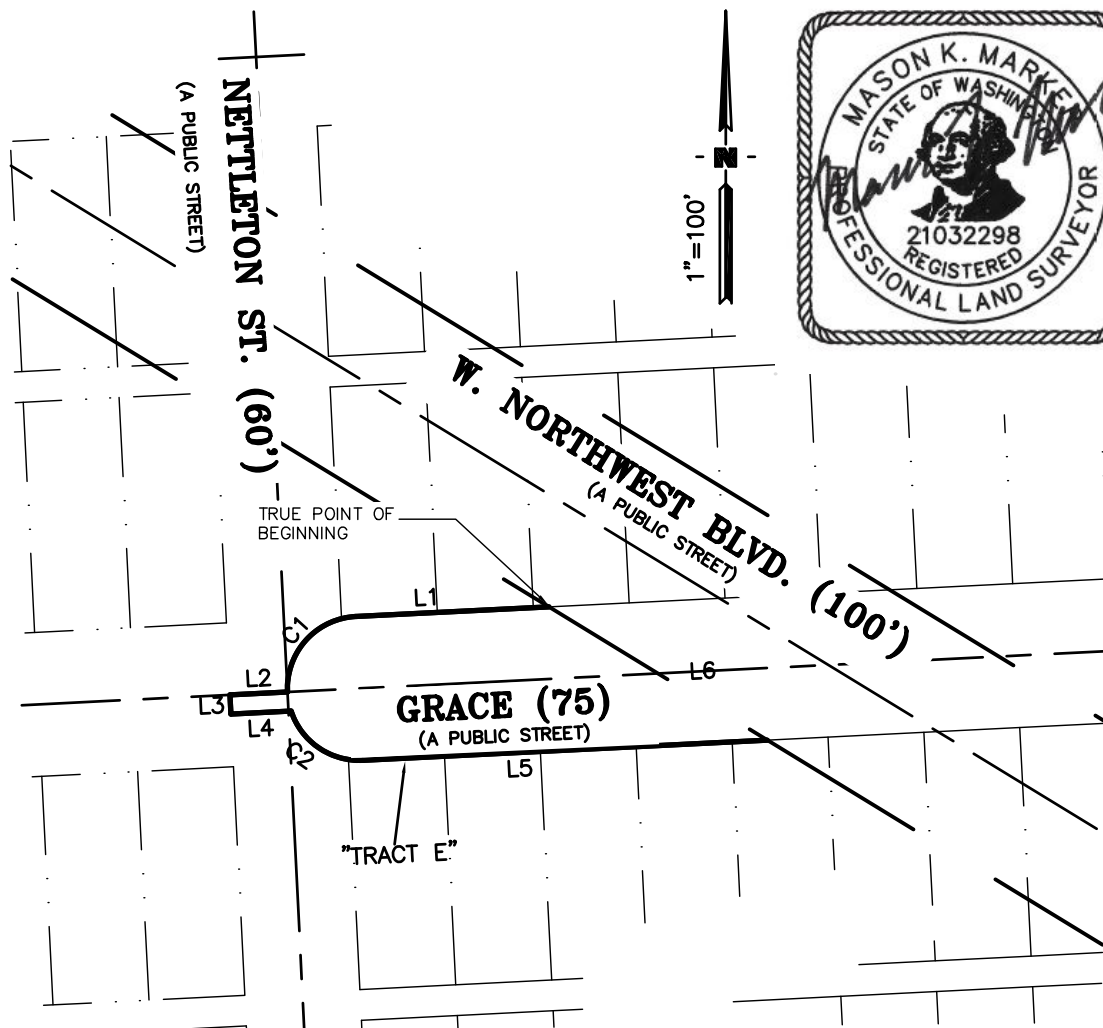

1. An easement, as requested by the City of Spokane, shall be retained to protect existing City water facilities and a potential future bike path within the vacation ordinance.
2. An easement for Avista's facilities must be established or the existing facilities must be relocated.
3. All parcels must be aggregated to prevent any single property from being landlocked without frontage to a public right-of-way.
4. Plans for termination and closure of the existing right-of-way must be accepted by the City of Spokane Development Services Department and the must either be completed or bonded for.
  - a) This closure work must include the removal of the curb returns on the east side and full height curb and sidewalk must be placed across the entrance to the right-of-way. If access is still desired at this location, a driveway approach will need to be installed. Stormwater must be addressed and isolated from the City storm system. Any street name signs must be returned to the Street Department.
  - b) The existing fire hydrant on the north side of Grace cannot be located outside of public right-of-way and must be moved to the south RW of NW BLVD unless it is privatized. Any changes will need to be approved by the Fire Dept.
5. The proponent shall pay to the City of Spokane the assessed valuation for the vacated land as defined by the latest information from the County Assessor's Office. This is calculated to be

\$125,328.89 and is to be deposited to Budget Account #3200  
49199 99999 39510.

6. That the final reading of the vacation be held in abeyance until all of the above conditions are met and that the above conditions are met by December 1, 2026.

Amending Ordinance C-22933 to release easements.

**Summary (Background)**

In 1975, City Council passed Ordinance C-22933 vacating portions of Grace Ave south of Northwest Boulevard, and retained utility easements within the vacation ordinance. Since that time, the adjacent property owners have asked to vacate these easements to accommodate a future housing project. The existing easement holders have been contacted and are in support of the release.

0320 ORDINANCE RELATING TO AMENDMENTS OF TITLE 18 &amp; HUMAN RIGHTS

**Agenda Wording**

An ordinance expanding the duties of the Spokane Human Rights Commission to include automatic review of proposed changes to Title 18 of the Spokane Municipal Code and related provisions

**Summary (Background)**

The City established the Spokane Human Rights Commission in 1992 with the stated purpose of advising and making recommendations to the Spokane City Council on issues concerning human rights and discrimination as well as the implementation of the programs consistent with the needs of all residents. One of the specific powers and duties of the Spokane Human Rights Commission identified in SMC 04.10.040 is to "make recommendations for public policy relating to human rights." To fulfill the spirit of the purpose of the Spokane Human Rights Commission and their powers and duties, it is necessary to confirm, in the municipal code, that the duties of the Spokane Human Rights Commission include review of any proposed ordinances amending Title 18 of the Spokane Municipal Code and other provisions relating to discriminatory practices.

**What impacts would the proposal have on historically excluded communities?**

The core mission of the SHRC is to ensure that city policies and practices do not have a disparate impact on historically marginalized communities. While the SHRC regularly provides policy recommendations to the City Council, it often does not have an opportunity to review legislation before the council takes it under consideration, especially legislation affecting the core principles articulated in Title 18. .

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

No specific data collection is triggered by this ordinance, but rather this is a procedural change intended to ensure the SHRC has an opportunity to fulfill its mission to advise council on matters affecting historically marginalized communities.

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

See response above.

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

The ordinance ensures the spirit of the enabling ordinance creating the SHRC in 1992 is satisfied by a procedural change that guarantees it has a voice in significant legislation.

0320ORDINANCE AMENDING MEMBERSHIP OF CLIMATE RESILIENCE &

### **Agenda Wording**

An ordinance modifying the membership of the Climate Resilience and Sustainability Board to include a liaison designated by the Community Assembly, and amending Sections 04.41.020 and 04.41.030 of the Spokane Municipal Code.

### **Summary (Background)**

Ordinance C36557, adopted in 2024, created the Climate Resilience and Sustainability Board (CRSB). As originally configured the membership on the CRSB did not include a representative from the Community Assembly. By resolution the Community Assembly requested that it be allowed to designate a liaison to the CRSB. The ordinance modified SMC 04.41 to allow for a Community Assembly liaison on the CRSB.

**What impacts would the proposal have on historically excluded communities?**

The ordinance provides a formal role on the Climate Resilience and Sustainability Board (CRSB) for the Community Assembly, which is comprised of representatives from the 29 neighborhood councils and which has broad representation from all sectors of the city. To the extent they participate in the neighborhood council program and the Community Assembly, historically excluded communities would be given an additional voice on the CRSB.

**How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?**

Not applicable. This ordinance broadens the membership of the CRSB to include a Community Assembly liaison.

**How will data be collected regarding the effectiveness of this program, policy, or product to ensure it is the right solution?**

Not applicable. This ordinance broadens the membership of the CRSB to include a Community Assembly liaison.

**Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?**

SMC 04.41, which established the CRSB, indicates that its membership "will consist of diverse and broad representation." Adding a liaison position for the Community Assembly is consistent with this stated desire of the ordinance to create a broad-based membership on the CRSB.

**Section 2.** That Section 17H.020.010 of the Spokane Municipal Code is amended to read as follows:

#### **Section 17H.020.010 Purpose**

The purpose of the Complete Streets Program is the integration of transportation and land use planning in order to ensure all users are accommodated in the construction of all City transportation improvement projects as outlined in the Comprehensive Plan and detailed in the adopted Bicycle Master Plan, Bicycle Priority Network, Pedestrian Master Plan, and the American with Disabilities Act (ADA) Transition Plan.

Implementation of complete streets planning will create a balanced transportation system that provides safe, accessible, and efficient routes among priority destinations for walking, bicycling, and public transport, that encourages healthy and active living, and that reduces traffic congestion, greenhouse gas emissions, tire particulate pollution, and noise pollution.

**Section 3.** That there is adopted a new Section 17H.020.015 of the Spokane Municipal Code to read as follows:

#### **Section 17H.020.015 Definitions**

For the purpose of this chapter, the following words shall be defined as follows:

Term	Definition
Complete Street	<p>A “Complete Street” is a road designed to be safe for users of all ages and abilities and exhibits a high degree of multimodal level of service informed by various plans adopted by the City of Spokane.</p> <p>The “Complete Street Program” focuses not just on individual roads but on changing the community and engineering decision-making process so that all users are routinely considered during the planning, designing, building, and operating of all roadways.</p>
Street Project	<p>"Street Project" means the construction, reconstruction, retrofit, maintenance, alteration, or repair of any street, and includes the planning, design, approval, and implementation processes, except that "Street Project" does not include minor routine upkeep such as cleaning, sweeping, mowing, spot repair or patching potholes, paving unpaved streets, or interim measures on detour routes. If safety and convenience can be improved within the scope of pavement resurfacing such as grind and overlay and restriping, such projects shall implement Complete Streets as outlined in the adopted Bicycle Master Plan, Bicycle Priority Network, Pedestrian Master Plan and the Americans with Disabilities Act Transition Plan to provide access and increase safety for all users. Grind and overlay and restriping projects shall be limited to striping elements as called for in the Bicycle Master Plan, the Bicycle Priority Network, and the Pedestrian Master Plan. Changes to existing signalization shall not trigger additional Complete Streets elements.</p>
Users	<p>"Users" mean individuals that use streets, including people walking, people using wheeled assisted mobility devices such</p>

	as wheelchairs, people riding bicycles, people using micromobility devices, people driving automobiles, people driving freight delivery vehicles, and people using transit options, people of all ages and abilities, including children, youth, families, older adults, and individuals with disabilities.

**Section 4.** That Section 17H.020.020 of the Spokane Municipal Code is hereby repealed.

**Section 5.** That Section 17H.020.030 of the Spokane Municipal Code is amended to read as follows:

#### **Section 17H.020.030 Freight/Truck Routes**

Because freight is important to the basic economy of the City and has unique right-of-way needs to support that role, freight will be ~~((the major))~~ a priority on streets classified as truck routes as designated by SMC 12.08.020. Complete Street improvements that are consistent with freight mobility but also support other modes shall be considered for these streets.

**Section 6.** That Section 17H.020.040 of the Spokane Municipal Code is amended to read as follows:

#### **Section 17H.020.040 Complete Streets Implementation**

A. All street projects shall include Complete Streets elements as called for in the Bicycle Master ((Bike)) Plan, ((and)) Pedestrian Master Plan, and the Americans with Disabilities Act (ADA) Transition Plan. Complete Streets shall be achieved either through single projects or through a series of smaller improvements or maintenance activities over time. It is the City's intent that all allowable sources of transportation funding be drawn upon to implement Complete Streets projects. ~~((The City believes that maximum financial flexibility is important to implement Complete Streets principles. The City believes a Complete Streets program will increase connectivity for all modes of travel within the City.))~~

B. The implementation of various Complete Streets elements will utilize the ~~((latest and best design criteria and the design of various complete streets components to be implemented shall be based on a context sensitive approach, with the analysis of the street's existing conditions, and the present/future needs for all users.))~~ National Association of City Transportation Officials (NACTO) Design Guidance, including Urban Street Design Guide and Urban Bikeway Design Guide, as well as the American Association of State Highway and Transportation Officials (AASHTO) Guide for the

Development of Bicycle Facilities and other best practices; provided, certain projects may be required to follow the Washington State Department of Transportation (WSDOT) or Federal Highway Administration (FHWA) standards, which may supersede other design standards.

C. Complete Streets components to be implemented shall be based on a context-sensitive approach, using a Safe Systems framework as defined in RCW 47.04.010, with the analysis of the street's existing conditions, and the present and future needs for all users.

D. The City will provide continuing education opportunities through various state and national providers, associations, and experts on Complete Streets and urban street design and implementation for identified staff that implement Complete Streets.

**Section 7.** That Section 17H.020.050 of the Spokane Municipal Code is hereby repealed.

**Section 8.** That there is adopted a new Section 17H.020.055 of the Spokane Municipal Code to read as follows:

### **Section 17H.020.055 Limited Exceptions to the Complete Streets Program**

A. The following situations are limited exceptions to the Complete Streets Program:

1. Major catastrophic repairs where roadway function has been significantly lost due to situations such as wildfires, sinkholes, flooding, or sudden unanticipated bridge failure.
2. Where a reasonable and equivalent project with a high degree of multimodal level of service that provides transit or active transportation access to the most significant trip generators on the street, along the same corridor, is already programmed to provide Complete Streets elements.
3. When future development has been permitted or is in the process of permitting within the next six years will be required to build frontage improvements with Complete Streets elements.
4. Grind and overlays, chip seals, crack sealing, and similar maintenance projects may not be required to install new curb, gutter or sidewalk for the length of the project, provided new and replacement ADA ramps must be installed with grind and overlays. City staff shall look for opportunities to install smaller improvements, including but not limited to bus boarding pads and crosswalk elements that best fit within the scope and budget of the project.

- B. Requested exceptions to the Complete Streets program shall be reviewed by the Transportation Commission, and recommendations regarding exceptions shall be made to the City Council. The City Council must approve exceptions in conjunction with the annual adoption of the 6-Year Street Plan or through a separate Council approval and action on specific project(s). Exceptions requested for major catastrophic repairs may be reviewed by the City Council on an emergency basis without prior review by the Transportation Commission.

**Section 9.** That Section 17H.020.060 of the Spokane Municipal Code is amended to read as follows:

**Section 17H.020.060 Performance Measures**

- A. Performance measures monitoring the progress of Complete Streets implementation will be ((established and an annual progress report which will be submitted)) included with the Transportation Commission's annual report to the ((city council)) City Council.
- B. Performance measures established through the Complete Streets program shall utilize existing reporting done for concurrency certification and state and federal grant programs.
- C. Performance measures shall include but are not limited to annual fatalities and serious injuries of all modes of travel, measurements of vehicle miles travelled in the city of Spokane, transit boardings in the city of Spokane, annual micromobility trips with a provider under contract with the City of Spokane, and new transit and active transportation facilities built in the city of Spokane.

**Section 10.** That there is adopted a new Section 17H.020.070 of the Spokane Municipal Code to read as follows:

**Section 17H.020.070 Land Use Integration**

- A. The City's Design Standards shall include context-sensitive elements determined by the adjacent land use.
- B. All new or revised land use policies, plans, zoning ordinances, or other relevant documents shall specify how they will support and complement the Complete Streets Program.

**Section 11.** That there is adopted a new Section 17H.020.080 of the Spokane Municipal Code to read as follows:

**Section 17H.020.080 Multijurisdictional Coordination**

The City recognizes that multi-jurisdictional contributions are necessary for an effective Complete Streets program and will work cooperatively with the Washington State Department of Transportation, the Spokane Regional Transportation Council, the Spokane Regional Health District, the Spokane Transit Authority, Spokane County Accessible Communities Advisory Committee and surrounding counties, cities, school districts, neighborhood councils, citizens, businesses and other interest groups to implement this chapter.

**Section 12. Severability.** If any section, subsection, sentence, clause, phrase or word of this ordinance should be held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality thereof shall not affect the validity or constitutionality of any other section, subsection, sentence, clause, phrase or word of this ordinance.

- C. Contractors who submit work bids on public works construction projects requiring the utilization of priority hire under this chapter shall evidence good faith efforts that the contractor can reasonably make to meet the requirements of this chapter, including the percentage labor hour requirements, that are consistent with the terms and conditions set forth in the applicable community workforce agreement.

Metrics should also include the economic impact and the return on investment resulting from implementing the Community Workforce Agreement.
