

Long-Term (30 Days or More) Rental Property Business License and Property Registration: How-To Guide

Step 1: Obtain your business license for operating a long-term rental property business in the City of Spokane.

This process is managed by the Washington State Department of Revenue, but each business license will need an endorsement to do business in the City of Spokane. If you only operate a rental property, “Real Estate Rental – Long Term Residential” would be an appropriate business type to select during the business license application process.

Already have a business license? Great! You’ll just need to ensure that you have a City of Spokane endorsement on the license, and if your current business license does not include real estate rental, you will need to add that license. You will need your UBI (Unified Business Identifier) for step 2.
