

Significant progress has been made toward meeting the needs of homeless persons in Spokane. Partnerships at all levels have improved coordination and resources, increased the number of beds available to stabilize homeless persons, increased our ability to prevent homelessness and greatly improved our systems for outreach and placement of homeless persons entering our system of care. Homelessness remains persistent in our community, and much remains to be accomplished in meeting our goal of ultimately ending homelessness.

Singles, Families, Veterans and Youth enter the system

There is a need to create a housing system for youth and young adults which includes a coordinated entry, resource centers, age appropriate housing options, and a focus on prevention for those exiting institutions
