The 2019 Everybody Counts Point-in-Time Count effort is one way that the City of Spokane strives to utilize data and knowledge for action, in order to improve the lives of our most vulnerable citizens throughout the region.

## HELLO!

This presentation is designed to share data collected during the 2019 Everybody Counts

campaign's Point-in-Time Count. This data provides a snapshot that captures the circumstances and situations of people experiencing homelessness in our region.

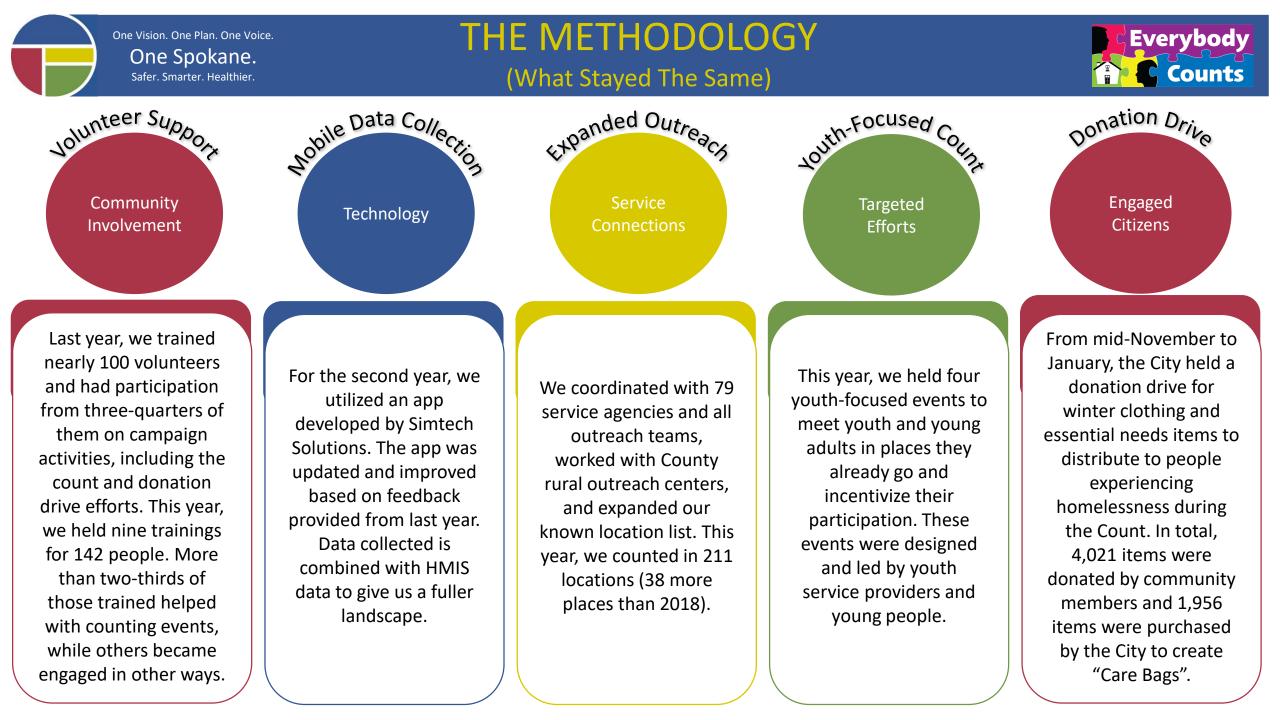

- The Methodology
- The Data
- The Knowledge
- The Action

### THE COUNT

- The count date was January 24<sup>th</sup>
- This date aligns with the rest of the state
- The count of unsheltered homeless lasted for seven days from
  January 24<sup>th</sup>, however the surveys reflected where people stayed on
  the night of the count
- The count is focused on two main categories for persons experiencing homelessness:
  - Sheltered during the night of the count (emergency shelter, transitional housing)
  - Unsheltered, or out-of-doors during the night of the count

#### THE METHODOLOGY

(What Changed)

Ouestions Revise Improved Connection

Questions were added this year to learn more about reasons for homelessness and to better align with questions being asked in the HMIS work flow. We added additional counting locations for critical services serving people experiencing homelessness, such as The Needle Exchange, meal sites, and clothing banks.

Aditional Locat

More

Opportunity

For the first time, we held a Magnet Event to ensure effective counting veterans. This event partnered with veteran service agencies, offering targeted resources and services, as well as provided a hot meal to incentivize participation.

Jeteran-Focused FL

While we overlapped with the Homeless Connect last year, this year we finished the Count with the Connect (rather than starting with it). This allowed us to better count people living in certain unsheltered locations, such as vehicles, etc.

# THE KNOWLEDGE

Point-in-Time Count data provides snapshot estimates used to inform collaborative solutions. The following slides include early impressions of successes and challenges.

For the second year in a row, Spokane County has seen a reduction in chronically homeless (21% decrease from 2017 to 2019). Of those, fewer people are unsheltered and more are coming inside and utilizing the shelter system.

8% fewer families are experiencing homelessness than in 2018.

Despite a slight increase in youth homelessness in 2019, 100% more young people are in transitional housing than in the previous year. Transitional housing, while not a permanent housing solution, is a safe and stable place for young people to stay for up to 2 years.

Spokane County continues to see a decrease in Veteran homelessness (28% since 2017), as we employ new best practice methodologies to end Veteran homelessness.

### CHALLENGES

Over the last decade, Spokane County has seen a 46% increase in homelessness among single adults. Nearly one-third of single adults experience unsheltered homelessness, compared to only 6% of families and 5% of youth.

30% of those surveyed were experiencing homelessness for the first time.

Racial minorities (specifically Black or African American, American Indian and Alaskan Natives, and Multi-Racial) make up a disproportionate share of the homeless population when compared to U.S. Census Data for the County.

While Veteran homelessness has decreased in Spokane County, homelessness among female Veterans has increased. This mimics a national trend.

**21 young adults reported being survivors of domestic violence**. That equates to 17% of all those surveyed.

# THE ACTION

What is next given what we have learned this year.

#### Improved access and coordination:

One Vision. One Plan. One Voice.

One Spokane.

- Revisiting and redesigning the Coordinated Entry System
- Moving to a Diversion-First Model
- Spokane Resource Center: A HUD EnVision Center
- Outreach as a tool to prevent homelessness

Training and support for the entire Continuum of Care on racial equity, bias, and sensitivity

Engaging people with lived homeless experience to enhance the system and ensure it meets needs and is accessible to those who utilize it

Offering more targeted services to meet individualized needs

## **POVERTY REDUCTION**

One Vision. One Plan. One Voice.

One Spokane. Safer. Smarter. Healthier.

The Homeless Crisis Response System is exiting more people into permanent housing each year over the last three years. The challenge is new people entering homelessness for the first time. Focused attention on poverty reduction and homelessness prevention is critical.
