TRIPLEXES AND FOURPLEXES

Definition: A residential building that contains three or four dwelling units on one lot. The units share a common wall or common floor/ceiling.

Through the Building Opportunities and Choices for All pilot program, triplexes and fourplexes are permitted on all residential lots in Spokane, excluding the Residential Agricultural (RA) zone. Building height, setbacks, and lot coverage are applied uniformly regardless of the number of units in the building.

Key zoning code changes include:
• Increased height
• No floor area ratio (FAR)
• Increased building coverage.

Notes:
[1] Base zone height may be modified according to SMC 17C.110.215, Height.
Additional Standards:
- Porches may extend up to six feet into the front setback.
- All development approved under the Building Opportunity and Choices for All pilot program must meet the design standards outlined in Section 17C.400.030 Pilot Low-Intensity Residential Design Standards.
- Front setback capped at 15 feet.

*Standards not listed in the ordinance remain as currently stated in the permanent code.*

Additional requirements may apply:
- Commercial Building Review
- Stormwater Review
- Landscaping
- Solid Waste Management
- Fire suppression*
- Curb cuts/Streets
- Water
- Upsized utility connections
- Street trees

Predevelopment meetings are available upon request.

* NFPA 13D fire sprinklers are required but in some cases can be installed by a licensed plumber.
