

**OPEN HOUSE**  
**Combined Sewer Overflow Control Facility (CSO) 6**  
**Northwest Boulevard at Providence Avenue**

I. PROJECT SCHEDULE:

Construction is scheduled to start in spring 2015 and will continue through the remainder of the year.

II. PROJECT FEATURES:

Funded by Public Works Trust Fund and the City Utility fund

- New 250' long by 50' wide underground tank to store excess combined sewage
- Construct a new sewer main from the tank in NW Boulevard, down H Street and Columbia Circle to Downriver Drive. Utility work also includes some improvements to the water and stormwater mains
- Replace existing pavement with new within the project and add new sidewalk in some areas
- Replace existing CSO 7 facility, located west of the Golf Course with with 14' box.
- Landscaping in the median island at NW Boulevard and Providence and landscaping on the west side of

III. CONSTRUCTION TRAFFIC

- Northwest Boulevard will be closed between H Street to Garland Street.
- Local traffic only on NW Boulevard between H Street to Kiernan Avenue and full closure to traffic between Kiernan Avenue to Garland Avenue.
- Traffic detour route is NW Boulevard to G Street to Garland Avenue and back to NW Boulevard
- H Street, Glass, Ave., Columbia Cir., and Downriver Drive will be closed with local access allowed.
- There may be times when access is restricted such as when a trench is open or they are paving directly in front of your property. Notification is provided for these situations
