CITY ADMINISTRATION REPORT
Report on Trolley Trail in Grandview/Thorpe Neighborhood
Council Member Snyder noted the Grandview/Thorpe Neighborhood put together a resolution in favor of the Trolley Trail, and he invited Inga Note forward to the podium to provide a presentation about this somewhat little known asset that we have here in the City of Spokane. Ms. Note provided an overview of the history of the Trolley Trail. She also provided a summary of the Neighborhood’s next steps regarding the trail. Ms. Note stated she has been asking the Parks Department to put some new signs up at the Assembly Road Trailhead so people know it’s there. She noted the resolution passed by the Neighborhood is to use the neighborhood’s planning dollars to do a Trails Plan, and the Neighborhood is hoping to get that going sometime this year. In addition, the Neighborhood is hoping to see the trail included in the City’s Bicycle Plan or the update of the Comprehensive Plan that is being worked on and also in the Park’s Plan the next time it gets updated. The Neighborhood is trying to continue to monitor the land actions on the alignment and continue talking to the landowners about easements and trying to find some ways to pay for acquisition of the property (to extend the trail).

Ombudsman Monthly Report
Police Ombudsman Tim Burns provided highlights of the Office of Police Ombudsman (OPO) work for February. He noted the report is available at the www.spdombudsmans.org website under “Reports and Documents.” During February, the Office was contacted 87 times. Since January 1 of this year, the Office has been contacted 187 times. In February, the Office received 10 complaints; 9 were for inadequate response and 1 was for excessive force. Since January 1, the Office has received 18 complaints. In February, the Office certified two completed Internal Affairs investigations. There were none appealed and there were no declined certifications. Mr. Burns noted he participated with the Internal Affairs staff in the interviewing of two officers during the reporting period, and he independently interviewed seven complainants that came to the Office of Police Ombudsman. He noted he responded to one critical incident involving an officer involved shooting that occurred on February 5 in the area of the Huckleberry’s Market. After meeting later in the month with a representative from Occupy Spokane, he noted he made a request to the City Attorney’s Office to provide the OPO with a legal opinion with regards to the projection of images or messages on to structures, and he is waiting for their research work to be completed. In this month’s report, he noted there are a few attachments that hopefully the Council and the community find interesting.

Mr. Burns stated that the Office of Police Ombudsman, at the request of Council Members Salvatori and Snyder in conjunction with Mayor Condon, has provided the City Council with a template for a proposed OPO Commission ordinance for review and consideration. He noted it is important also for the community to recognize that the OPO is moving forward with the next steps in the implementation of Proposition 1 relating to the OPO.

SPOKANE FIRE DEPARTMENT

Contract for CAD Interface – Chief Schaeffer
Chief Schaeffer reviewed the information provided in the attached Briefing on Fire Department Items.

Council Member Fagan asked if there has been discussion of sharing a system. Chief Schaeffer reported Delta Works is currently conducting a feasibility study to determine if Fire’s CAD will fit Law Enforcement’s needs and capabilities.

When asked about the timeline for making the decision on integrating or not, Chief Stephens replied Bob Lincoln has that information but he thought it would be in the first quarter of next year.

Additional questions and discussion followed.

SPOKANE POLICE DEPARTMENT

Thinking Cap Contract – Angela Golden
Angela Golden reported that SPD is seeking Council approval to accept this contract with Thinking Cap for the red light running media campaign. The contract amount is $10,000.00. The contract will begin as soon as it is signed and will run for a year. At Council request, SPD sent out an RFP on September 19, 2012 for red light/distracted driving campaign to 57 different companies. On October 1 2012, the proposal due date; only one proposal had been submitted by Thinking Cap, (Spokane, WA). Ms. Golden advised that the message will be placed on STA bus side panels and a video will be made. Funding will come from the Traffic Calming Fund. Council Member Fagan advised that he would like the video to be distributed to area colleges and District 81 high schools. Council questions and discussion followed.

Contract Renewal with Xpediter Technologies – Richard Cain
Richard Cain advised that the Spokane Police Department is seeking Council approval to accept the renewal contract with Xpediter Technologies. In 2003, Xpediter developed an in-car reporting interface for SPD that was required for the implementation of the Xpediter In-Car reporting project. The project allowed for automatic creation and storage of electronic police reports. Since then, SRECS and Xpediter Technologies have negotiated a software maintenance agreement that is mutually acceptable to both parties. The total annual cost is $56,687.81. The contract will be renewed for two years and the contract term is January 1, 2013 to December 31, 2014. Funding will be from the Law Enforcement Information Systems fund. Council questions and discussion followed.

On-Base Automated Redaction Software – Major Meidl
Major Meidl reported that SPD is seeking Council approval for the purchase of OnBase Automated Redaction software from Integra Information Technologies. The Police Department has a current contract with Integra Information Technologies for the City’s Enterprise Document Imaging and Management System. This purchase utilizes OCR character and pattern analysis or configured templates to evaluate document contents for information or areas on the document that need to be obscured and made unreadable. Documents are placed for review before being permanently redacted so that private or confidential information cannot be viewed on the image document. This purchase will reduce time and effort to provide copies of records. Staff will use current software; no additional training will be needed. There is more functionality with OnBase and redactions are permanent and secure, with a reduced risk of redaction error. Funding will come from the Spokane Regional Emergency Communication System (SRECS). Council questions and discussion followed.

STA Interlocal – Major Scalise
Major Scalise is seeking approval for the interlocal agreement with Spokane Transit Authority for a police officer based out of the STA Plaza from January 1, 2013 through December 31, 2013. The revenue will be $86,900. The Police Department has contracts with Spokane Transit Authority to provide the public with police services in the STA Plaza facility and a surrounding service area from the Spokane River, inclusive of Riverfront Park, to Interstate 90, and Division Street to Madison Street; or at other locations as mutually agreed to by both parties. These funds will allow us to have a significant impact upon perceived safety in the area surrounding the STA Plaza. This revenue will reimburse SPD for the salary and benefits of a commissioned police officer. Council questions and discussion followed.

SPD Overtime Budget-2013 – A/C Stephens
A/Chief Stephens reported that the Spokane Police Department typically spends more on overtime than the budgeted amount; this is often dependent on the unknown factors of police work, such as SWAT call-outs for barricaded subjects and major crimes incidents which are not predictable. In recent years, the overtime budget has been adjusted to better reflect these changing needs; for 2013, it was increased by an additional $100,000. For 2012, in no small part due to vacancies that created staffing shortages and required backfilling for patrol positions, we went over our overtime budget. However, this overage will be covered by salary savings from the vacancies; for the year, we are projecting a total of $1.2 million in salary savings, which will cover the overtime overage. Based on past history, we project that we will go
over our overtime budget by approximately $117,000 in 2013. As the vacancies are being cut from our budget, we will not have the high level of salary savings that we experienced in 2012 to cover this. However, we still expect to be able to cover any overtime overages through salary savings due to normal levels of attrition in both our civilian and commissioned ranks. There is a higher rate of turnover in our civilian departments on average; and although there is no contra account to draw on in 2013 we anticipate $400,000 in salary savings. Therefore, SPD anticipates that we will be able to cover any overtime overages through this salary savings. Council questions and discussion followed. Chief Straub suggested that Gavin Cooley should be invited to the next PSC meeting to discuss this issue.

Intersection Safety Program – Briefing Paper submitted by Officer Fuller
1401 violations were issued in October, 2012. A total of 44,312 citations have been issued since the beginning of the program, November 1, 2008 through today (November 13, 2012). 178 tickets were issued for the first five days in November. Through July of this year payment statistics are 69.1%. The program has collected over $3,919,938 from November, 1, 2008 through November 13, 2012. Out of 9,856 citations that have gone to hearing in front of a commissioner, 1540 have been found not committed. Council members will be receiving a separate brief about the bid acceptance for the distracted driving campaign.

ADMINISTRATION REQUESTS

Ombudsman City Charter Amendment – Steve Salvatori & Mike Allen
Council Member Salvatori advised that he and Council Member Allen have spoken to all city council members, the Mayor’s office, the city attorney, the council attorney, and the community, and have come up with an ordinance proposal to amend the city charter to define and enshrine permanently the office of police ombudsman and the police ombudsman commission. There are limitations and the wording specifically says it has to stay within the bounds of state law, PERC findings, with public employee relations council and within the bounds of any other Washington State labor law. It does say that the city should strive to have independent police oversight. The charter does not change very often; it takes a vote of the people to change something in the charter and a vote of the people to get something out of the charter. Although the council does not have the power to make it so, it does say very clearly this is what the Council wants. This would be the first time the citizens would be able to vote on this issue. It will lead to very good outcomes; it gives the citizens their voice and the city clear instructions on future negotiations. Once accomplished, it should be permanent and apply to this city administration and council and to future administrations and councils. If this amendment is passed, it says several times, that it is not designed to bypass anything; it is just designed to define those things. It doesn’t differentiate; it doesn’t say what falls under collective bargaining agreement, or what falls under state or case law, it just says Council recognizes those things are out there and ultimately civilian oversight of the police force.

Council Member Allen advised that the ombudsman needs to have an independent voice and be a voice for citizens. This will be the first step; the citizens will be able to voice their opinions. The amendment does not create anything other than a greater voice for the citizens to be heard. It depoliticizes the issue by making an autonomous body: a five person citizen commission; two appointed by the mayor and three appointed council. It is a thoughtful ordinance; it doesn’t solve all issues but is an important first step.

Council Member Salvatori advised that one of the whereas clauses has changed from what was distributed.

Whereas: Over 120 other midsize cities have successfully introduced independent civilian police oversight models.

Whereas: It is widely believed that independent civilian police oversight leads to increased community trust in its police force and improved relationships between citizens and police communities which result in increased public and officer safety.

Council Member Salvatori advised that it is designed to achieve a very positive outcome. This will be a special election in February. It will probably be the only thing on the ballot, with a $200,000 estimated cost. He advised that citizens have been waiting for six plus years for this to move forward.

Council President Stuckart asked if this would be coming out of the budget and advised that he would like to see it in the budget if it is approved. Council questions and discussion followed.

Effects of I-502 on City of Spokane – Council Member Jon Snyder
Council Member Snyder advised the first part of the initiative becomes effective in December 2012, and the second part becomes effective December 2013. The main rule making body on this initiative is the Liquor Control Board as the legislature can’t do anything without a 2/3 vote to the initiative in the first two years. That means the Liquor Control Board is the primary body that will be making rules regarding details that aren’t addressed in the initiative. He advised that he wants to make sure that the Spokane’s voice is heard in that process and the Council has the opportunity to make our own specific ordinances and policies that will be the best for the City of Spokane. For example, do we want specific zoning laws; a limit on the amount of outlets; our own policies on marketing restrictions? There are many issues that aren’t addressed yet. The document Council Member Snyder presented at this meeting asks questions that Council has
come up with so far and he anticipates more. Council agreed they would like a study session with Representative Marr, who is on the Liquor Control Board.

Chief Straub advised that the problem with the 502 initiative is what the federal government will do or not do. Regardless of what the state says; marijuana is still a schedule 2 drug. It will be very difficult for the state and the city to act contrary to what the federal government says. The police department will have to be careful so that SPD is not sued by the federal government nor have other federal issues. Right now, SPD does very minimal enforcement relative to user possession of marijuana. It tends to be an ancillary charge, rather than a focus of law enforcement. That won’t change, but until we get very clear direction from the state and the federal government in terms of how they are going to define, we are looking for a series of definitions; it will be hard for SPD to enforce things. One governor may sign it; another governor may come in and decide not to sign and veto the initiative. SPD is having conversations with Mary Muramatsu and Nancy Isserlis, to get information in terms of what collectively city and county prosecutors are doing, and what is expected from the U.S. Attorney’s office. We don’t have answers but SPD is trying to go slow because we don’t want to be the test case.

Questions: Council Member Snyder asked if we will see Spokane Police Officers be used for federal enforcement actions. Chief Straub advised that he can’t give a definitive response to that, SPD can’t commit to unknowns. Chief Straub advised that he applauds the Council for asking these questions, and asking for the Liquor Control board to meet and answer questions. Council Member Snyder asked if the Chief would consider other questions for ex: What kinds of new resources might we need in order to adjust to the new reality; when we proceed to a retail model, will there be regulations on THC blood levels or DUI situations and will more officers be required. Chief Straub advised that regulations of grow facilities may be a code enforcement issue and not law enforcement. He also advised that there could be more of a demand for officers while they wait for blood tests after transporting them to the hospital and they are off the street for that amount of time. The Chief advised that there are many questions that will need to be answered.

Council PSC Chair McLaughlin advised that if the state starts collecting tax money, the federal government could conceivably take proceeds from the state as gains from illegal activities. Council discussion followed.

COPS – Christy Hamilton and Mike Yates
Christy Hamilton advised that one of their concerns about this transition is that it makes Spokane COPS a program under neighborhood services. COPS are a 501(3)(c) non-profit business that has operated under contract with the police department and City of Spokane for 20 years. They have provided a cost effective professional program that has a historical base in the community. They are vetted in the community and COPS volunteers are from the community. There is concern from volunteers that they are affiliated with the Spokane Police Department which is why they volunteer; they feel they are supporting SPD, not a COPS program under ONS. Many of these volunteers put in 30 or more hours per week. There are several programs that are crime prevention focused. There are discussions about moving COPS shops to save money, numerous discussions have occurred but there are many questions that have not been discussed.

Jonathan Mallahan advised that ONS doesn’t want to inhibit COPS ability to recruit and retain volunteers; that is not the intent of the move. They want citizens to access services at COPS Shops. The mini city halls locations in neighborhoods might cause reticence at this point but the primary function of government is to provide public safety; they wouldn’t detract but enhance as mini community centers. There will be a lot more conversation moving forward. The city has a budget that can’t grow and we need to cut costs without having a huge impact on what we are trying to do in our community. They are committed to working with COPS and the COPS board to insure the program is not negatively impacted. He advised that they have also just found $17,000 for COPS without increasing the city budget.

Mike Yates, COPS Vice President of COPS Board gave a history of the COPS Stations. The program started in 1987 at 1800 E. Sprague. The community helped us do that, they donated buildings, or leases for $1. Evolution has occurred; the original COPS Shops were manned by police officers, not civilians. A grass roots movement started after the west central murders in 1991 and the west central neighborhood partnered with the police department. The citizens said they needed more vigilance in the community, so they talked about mini police stations, where people could interact with police officers. Volunteers were vetted by police and they started the original COPS Shops before community policing started in the country in 1994. Federal funds were also donated for this program throughout the country. Our Spokane citizens started COPS; the mission statement is to assist the police in crime prevention. Officers are assigned to the COPS Shops and have a great relationship with the NRO’s. Due to the budget crises, the NRO’s are now working at two or three COPS Shops. Volunteers are dedicated to those police officers. There are a number of programs that bring people into the COPS Shops and they raise money for their COPS Shops to help offset city funding. These volunteers see themselves as part of the police department; they work in partnership with SPD.

A/Chief Stephens advised the intent was to not change the COPS relationship and mission; SPD was looking for ways to enhance COPS mission and services. There are CEPTED issues in the neighborhoods and other issues that are better addressed by ONS. He advised that the COPS budget is a pass through in the police budget. However, the police department doesn’t have any control in how the budget is spent; they have a board of directors for that. It seems to make more sense for COPS and ONS to be linked to enhance services to the public. The goal was to provide even more services than we do now. Council questions and discussion followed.
Office of Police Ombudsman – Melissa Nystrom
Due to time constraints, the OPO monthly report will be presented at the Council meeting tonight at 6:00 p.m., in the Council Chambers.

Council Member Snyder asked Melissa if Mr. Burns has issues with moving into City Hall. She advised that there were some concerns and hopefully they will be moved to the first floor due to issues of getting people in past security without having to sign in. Council Member Snyder advised that he has some issues as well with the move.

ADJOURNMENT
PSC Chair McLaughlin adjourned the meeting at 3:05 p.m.
