Council Member Stratton requested to comment on Consent Agenda Item No. 6, which is a Contract with Integrus Architecture (OPR 2022-0731) to study sites for Spokane Fire Department facilities. She stated she wanted to go on the public record to make sure that when we say we will be looking at the entire district and region to figure out where best to site our long and short-term facilities that the consultants truly solicit the perspectives and expertise of the citizens within and along our city borders and the leadership of our regional fire service partners. She noted we share borders with multiple fire districts, and we already utilize automatic aid agreements to provide the fastest and most efficient fire and medical service for all City and County residents. Because one of the things these consultants will be determining is where we may choose to site future fire stations in underserved areas of our city, let's be sure that the chief, staff, and other stakeholders along the borders are at the table. Council Member Stratton further stated there may be mutual benefits to collaborate with other fire agencies who already have some infrastructure and staffing in the area.

There was an opportunity for public testimony on Consent Agenda items, with no individuals requesting to speak. Following Council commentary, the following action was taken:
