Selected Excerpts of Officer Commendation Letters

I wanted to take a moment to say thank you to the Spokane Police Department for your presence this morning at both schools in Spokane where I was dropping off my children. The Spokane Police Department's presence was not only noticed but appreciated by myself and I'm sure all other parents/guardians/family members/friends and child care centers who were trying to get their students to school safely. My children are students in the Spokane School District and I truly appreciate SPD staff being present following an event such as yesterday in Freeman High School. Please continue to be present during school hours to keep our children safe and again thank you very much. Your hard work is noticed and respected by our community.

-Anna O'Connor

I would like to highlight the superb service and treatment supplied by one of your officers, **David Eckersley**. Both my husband and I are disabled and were involved in an accident in the parking lot of the Shadle Center. To sum it up, we were hit hard by an elderly gentleman and my husband required extrication by the fire department. The event was traumatic and left us sore, hurt, and stunned. The officer was pleasant, kind, patient, and supportive. He arranged for the towing of the car and later came to the hospital to return our IDs and check up on our status. He took the time to inform us on his findings and to ease our concerns. Later my husband called him because he had some additional questions. He promptly returned his call and made us feel as if our issues were foremost on his mind. Officer Eckersley made what could have been a more unpleasant experience much easier to handle.

-F. W.

[In response to SPD going to the area schools the day after the school shooting]

This gentleman [unknown officer] explained what the Chief was doing and why. And I think he saw the sorrow in me. I'm a graduate of Freeman. He was so kind and his smile was unhurried. He wasn't just there as a precaution, he was there for the community.

-T. E.

I had the distinct pleasure of a citizen ride-along with the Spokane Police Department. Officers **Caleb Martin** and **Kelsey Scott** are wonderful representatives of the department and the city. They handled themselves with professionalism, discretion, and demonstrated true care of the individuals that needed their assistance that evening. As Chairperson of the City of Spokane Civil Service Commission, my involvement with Officer Martin and the entire South Spokane Patrol on this night has provided me an insight to police operations that will only enhance my understanding and application of Civil Service Rules.

Crime Prevention Project of the Month for September- Division and Wellesley

Neighborhood Resource Officer Wells responded to complaints of several issues on the NW and SW corners of Division and Wellesley. The owners of both properties contacted the precinct regarding multiple issues voiced by several of their businesses. Officer Wells contacted each individual business on the properties and gathered what each of their individual problems were. He then formulated a multifaceted response to the problem. Problems included aggressive panhandling, urban campers in doors and alleyways, theft, malicious mischief, and large groups of disorderly car groups at night. One of the businesses hired off-duty officers to work periodically through the Spokane Police Departments Extra-duty Program to enhance the safety for their customers and employees. They also installed signs to give a trespass warning that the parking lots were off limits after business hours. Each business and property owners signed a trespass notice. SPD entered a prowler check to request assistance from regular patrol units make checks of the parking lots at night with the intent to warn and if necessary cite people violating the trespassing signs after hours. The prowler check also requested officers contact businesses during the day to see how things were going and make a police presence known. Officer Wells worked to identify specific individual problem makers and communicated the rules and consequences of breaking the rules. SPD officers are already applying some of the lessons learned from this situation in new spots along the Division corridor and other Northside business locations.
