

# Street Name Change Application

Rev.20180103

1. Describe the purpose or reason for the proposed street name change. In what way will the public's interest or public safety be served by the name change?

Rename N Navaho Dr to an entirely new name altogether. There is an existing Navaho named street (in the same area of Indian Trail) and this roadway name is a duplicate. This will bring the street names into compliance with the current SMC for improvement to dispatch systems and emergency response operations.

2. What uses are located on the adjacent property and in the vicinity? Describe the character of the street proposed for the name change.

Adjacent properties are residential in nature and the street is a local access roadway.

3. Is the proposed change consistent with the policy for naming streets found in Chapter 17.D.050 of the Spokane Municipal Code? If so, how is it consistent?

Yes, It will bring the streets into confirmation with the SMC by removing the duplicate street name, which is problematic for emergency response especially since it is so close, but disconnected from the previously existing Navaho roadway.

4. Does the proposed new street name duplicate a street name already in use within the Spokane Metropolitan Area?

No proposed new name. Will accept anything that meets the standards and is not a duplicate of an existing street name.

5. Is the proposed new street name consistent with the name of adjacent streets and streets with a common alignment?

No proposed name yet.

6. If the proposed name change is within a Planned Unit Development, will the proposed name of the private street be consistent with the names of surrounding public streets?

NA.

7. Will the proposed street name result in an intersection with the same name (e.g. First Avenue and 1<sup>st</sup> Avenue) or create more than one intersection with the same name?

No.
