

Street Name Change Application

Rev.20180103

1. Describe the purpose or reason for the proposed street name change. In what way will the public's interest or public safety be served by the name change?

Rename E Parkwood Dr to S Parkwood Cir. This will bring the street name into consistency with existing addresses for improvement to dispatch systems and emergency response operations.

2. What uses are located on the adjacent property and in the vicinity? Describe the character of the street proposed for the name change.

Adjacent properties are residential in nature and the street is a local access roadway.

3. Is the proposed change consistent with the policy for naming streets found in Chapter 17.D.050 of the Spokane Municipal Code? If so, how is it consistent?

Yes. These roadways are designated with a street type of Circle (Cir) and reassigning the one segment will bring it into alignment with existing addresses and still meet the SMC definition of a Circle street type.

4. Does the proposed new street name duplicate a street name already in use within the Spokane Metropolitan Area?

Yes, but they are in alignment with those streets.

5. Is the proposed new street name consistent with the name of adjacent streets and streets with a common alignment?

Yes.

6. If the proposed name change is within a Planned Unit Development, will the proposed name of the private street be consistent with the names of surrounding public streets?

NA.

7. Will the proposed street name result in an intersection with the same name (e.g. First Avenue and 1st Avenue) or create more than one intersection with the same name?

Yes, but by definition Circles (and Loops) are allowed to do this.
