

37th Ave – Regal to Custer & Hazel's Creek Stormwater Improvements

FINAL DESIGN

- *Project Update* -

Rich Proszek, P.E. - Senior Design Engineer

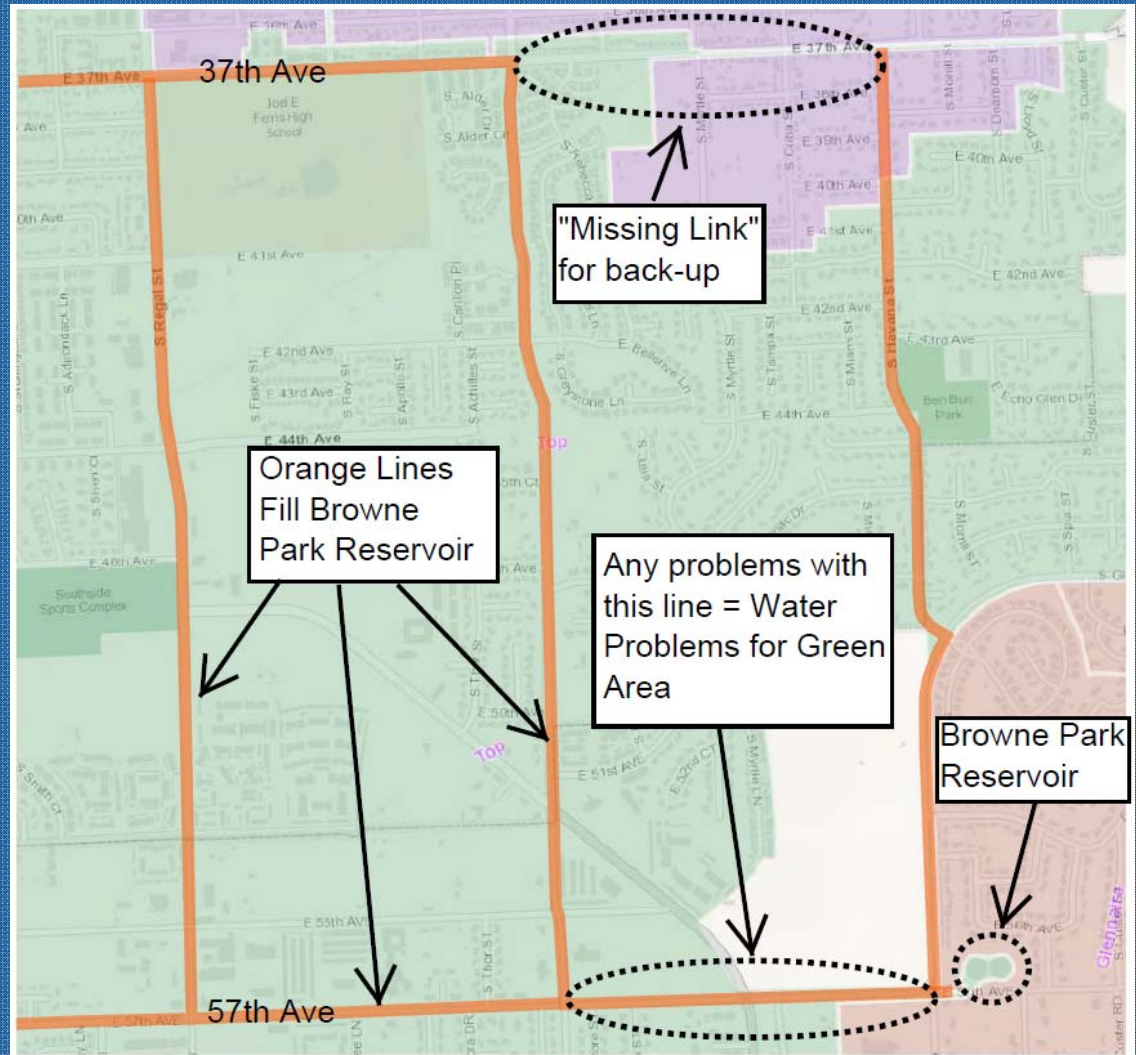

Combined Project Goals

- Install key water main
- Replace old water main
- Replace failing stormwater system
- Improve stormwater treatment
- Complete sidewalk network along school corridor
- Complete a gap in the bicycle network
- Pavement replacement

Key Utility Improvements

Water Mains

- Replaces aging water lines
- Creates important back-up connection at Havana to Browne Park Reservoir

Key Utility Improvements

Storm Sewer

- Eliminates street flooding and washouts
- Treats/Cleans stormwater prior to injecting to the aquifer.
- Create open neighborhood space at 37th & Rebecca

Combined Project Funding

(Construction)

Key Street Improvement Features

-(Original Plan Prior to September 7th Meeting)-

- Full removal and replacement of street pavement
- New sidewalks (where missing)
- New curb and gutter (Ray to Custer)
- Paving Cuba Btwn 36th & 37th (New Curbs, Swales & Sidewalk)
- New planter strips
- New bike lanes
- Remove On street parking

What's New

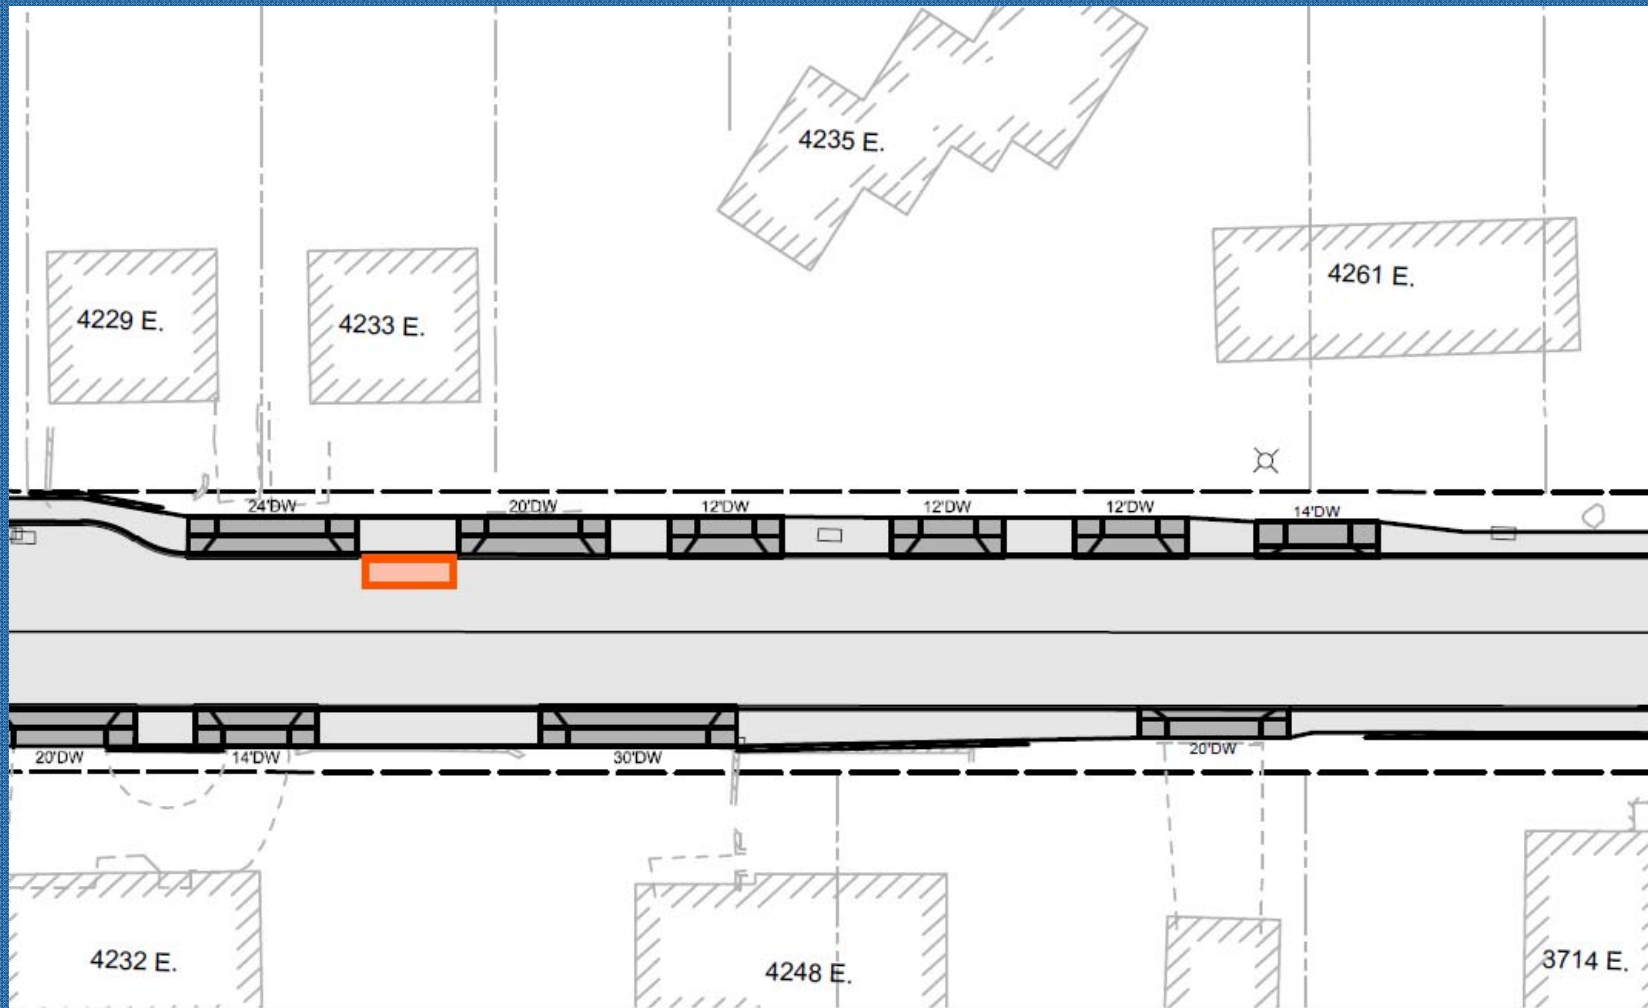

- Parking Revisited – Pocket Parking Added.
- No Planting strip, now 8' adjacent walk
- Back-of-walk is now 5.5' away from property line instead of 2.5'. (Reduced section footprint by 6 ft)
- Removal of trees along frontage, more than anticipated.
 - *We need your help to replant more trees!!!*
- Havana Street Construction Finishing in 2016
 - 2 season construction timeline

Additional On-Street Parking

Conflicts with On-Street Parking

- Driveways !
