GENERAL PLANTING NOTES

1. Site plans, plans considered complete in project. The Associate Architect or Engineer, as applicable, is responsible for the construction and any discrepancies between plans and specifications or differences in the site conditions from the plans.
2. Project plant list. The contractor shall verify the conditions on the project site plan and verify the landscape architect’s landscape plan. Verify that the landscape architect stages the plant plan and any site conditions from the plans.
3. Site visitors shall be identified on project site plan. Verify that the landscape architect stages the plant plan and any site conditions from the plans.
4. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
5. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
6. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
7. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
8. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
9. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
10. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
11. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
12. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
13. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
14. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
15. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
16. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
17. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
18. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
19. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
20. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
21. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
22. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
23. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
24. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
25. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
26. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
27. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
28. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
29. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
30. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
31. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
32. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
33. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
34. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
35. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
36. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
37. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
38. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
39. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
40. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
41. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
42. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
43. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
44. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
45. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
46. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
47. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
48. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
49. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
50. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
51. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
52. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
53. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
54. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
55. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
56. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
57. Verify all plant materials quantities prior to installation. Any plant material that is ordered and delivered for the contractor shall be installed according to the approved landscape plan. The contractor shall be responsible for ensuring the landscape plan is complete and installation.
