

Handed out at 3-23-16 mtg

OPEN HOUSE
Combined Sewer Overflow (CSO) 41 Control Facility
Upriver Drive from E. of Rebecca St. to W. of Freya St.
(COS # 2010102)

I. PROJECT SCHEDULE:

Construction is scheduled to start in Late Summer and Fall of 2016 and will continue through the remainder of the year. There is a possibility that some construction could carry over into spring of 2017.

II. PROJECT FEATURES:

Funded by WDOE Clean Water State Revolving Fund, the Public Works Trust Fund and the City Utility fund

- New 500 to 600' long by 72" pipe to store excess combined sewage.
- Construction of concrete vaults to provide flow control at Upriver Drive and Rebecca.
- Construct a new 18" sewer main in Upriver Drive from east of Rebecca St. to west of the Freya Street intersection.
- Stormwater treatment and/or infiltration at Upriver and Rebecca and Upriver and Freya Street.
- Replace the existing pavement in Upriver between Rebecca Street and Freya Street.

III. CONSTRUCTION TRAFFIC

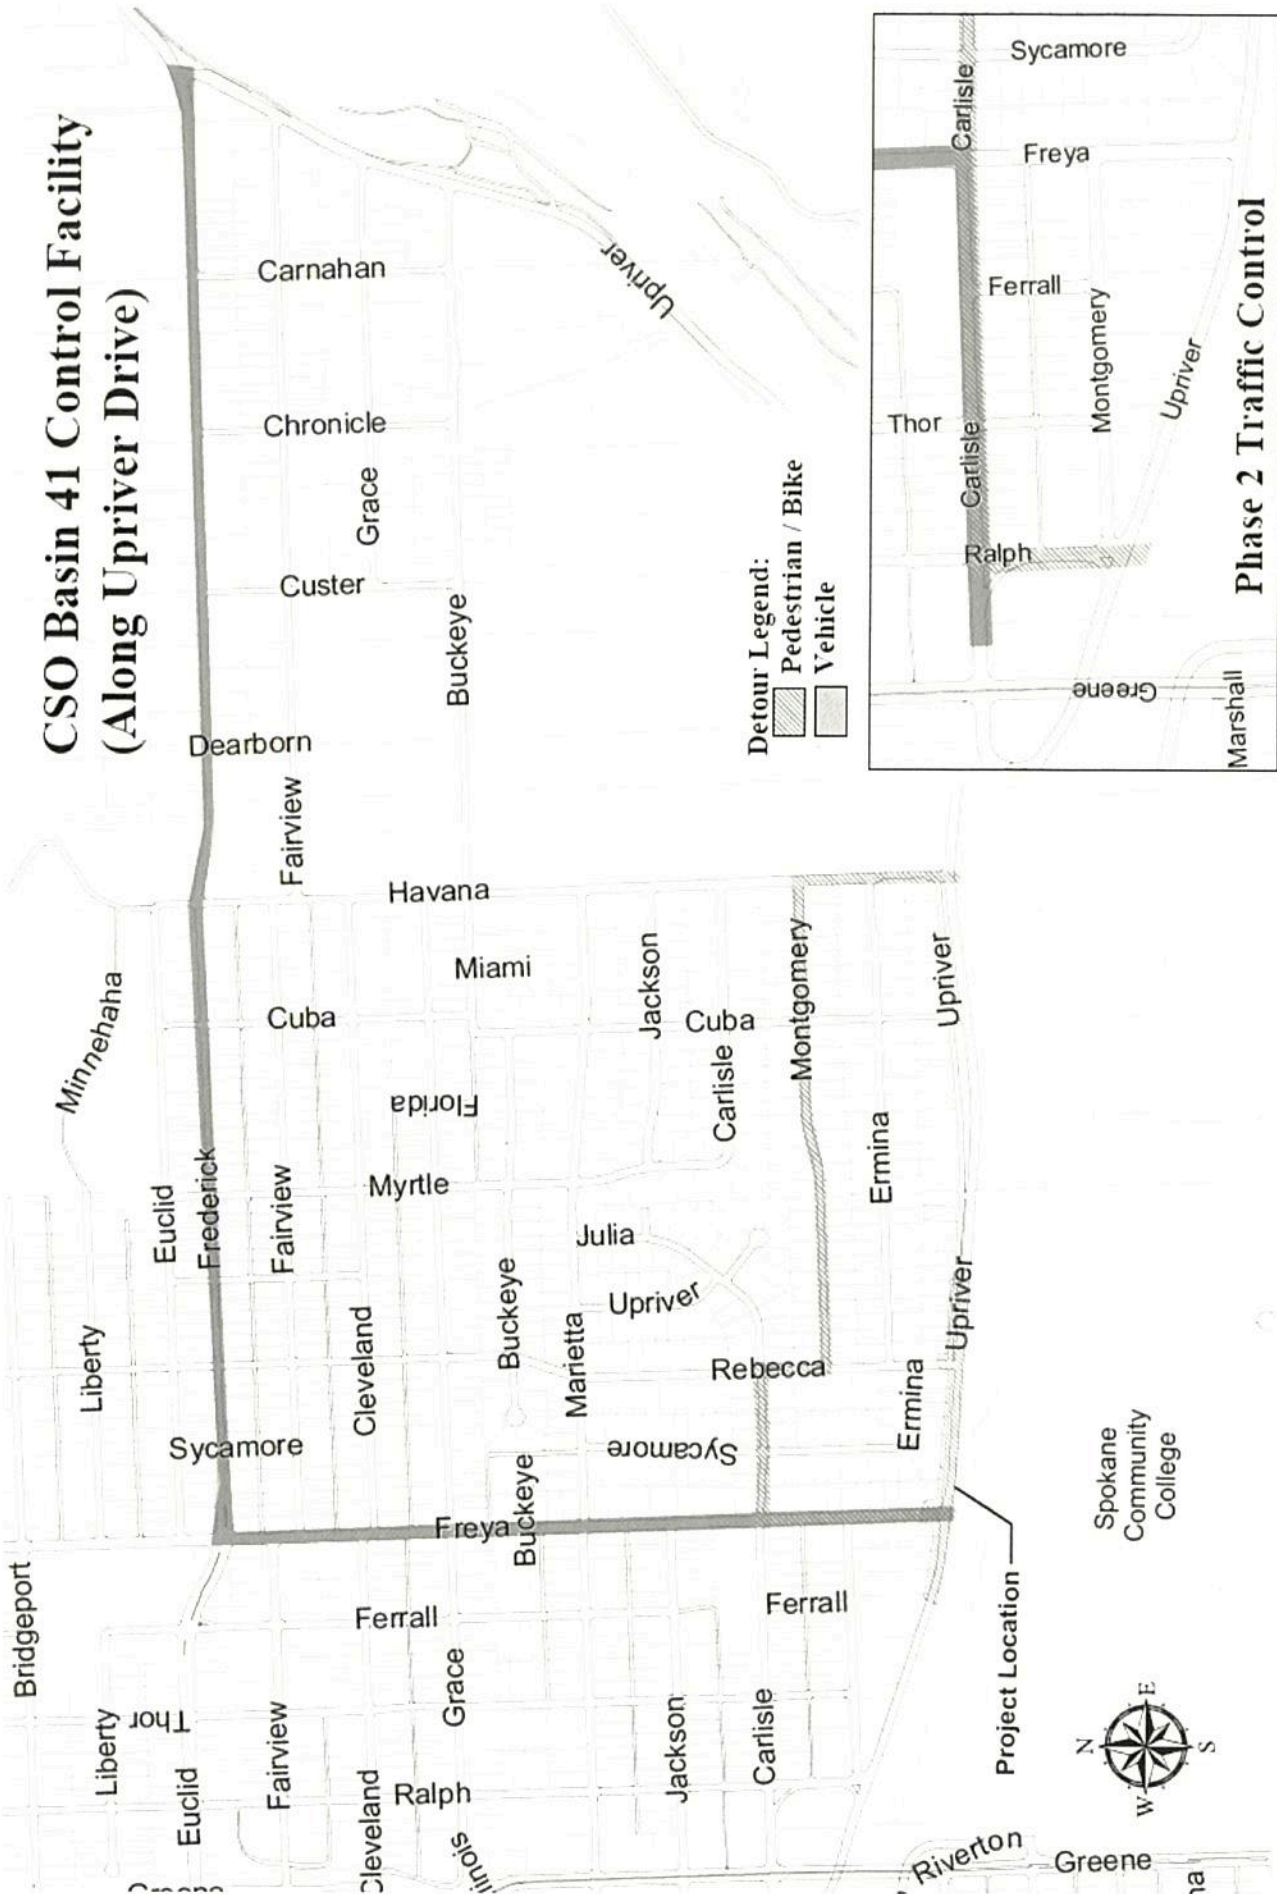

- Construction is anticipated to start in August of 2016 in Upriver Drive.
- Upriver vehicle traffic will be detoured from Freya to Fredrick
- Temporary detour on Ralph to Carlisle then to Freya and Fredrick during construction in Upriver at Freya.
- The Centennial Trail traffic will be detoured from Freya to residential streets
- Construction work on the Access Road north of Upriver Drive, located east of Rebecca St. Local access only closure is anticipated.
- There may be times when access is restricted such as when a trench is open or they are paving directly in front of your property. Notification is provided for these situations.

IV. Questions? Comments?

Comment cards are available tonight or you can send emails to:
