

The Division Street Transit-Oriented Development Plan is evaluating ways to create more walkable, mixed-use neighborhoods that are served by transit and where people can live, work, and shop within easy walking distance.

We want to hear from you! Help shape a corridor that meets the needs of today's and tomorrow's community members.

Envision Transit-Oriented Development Node Concepts Survey

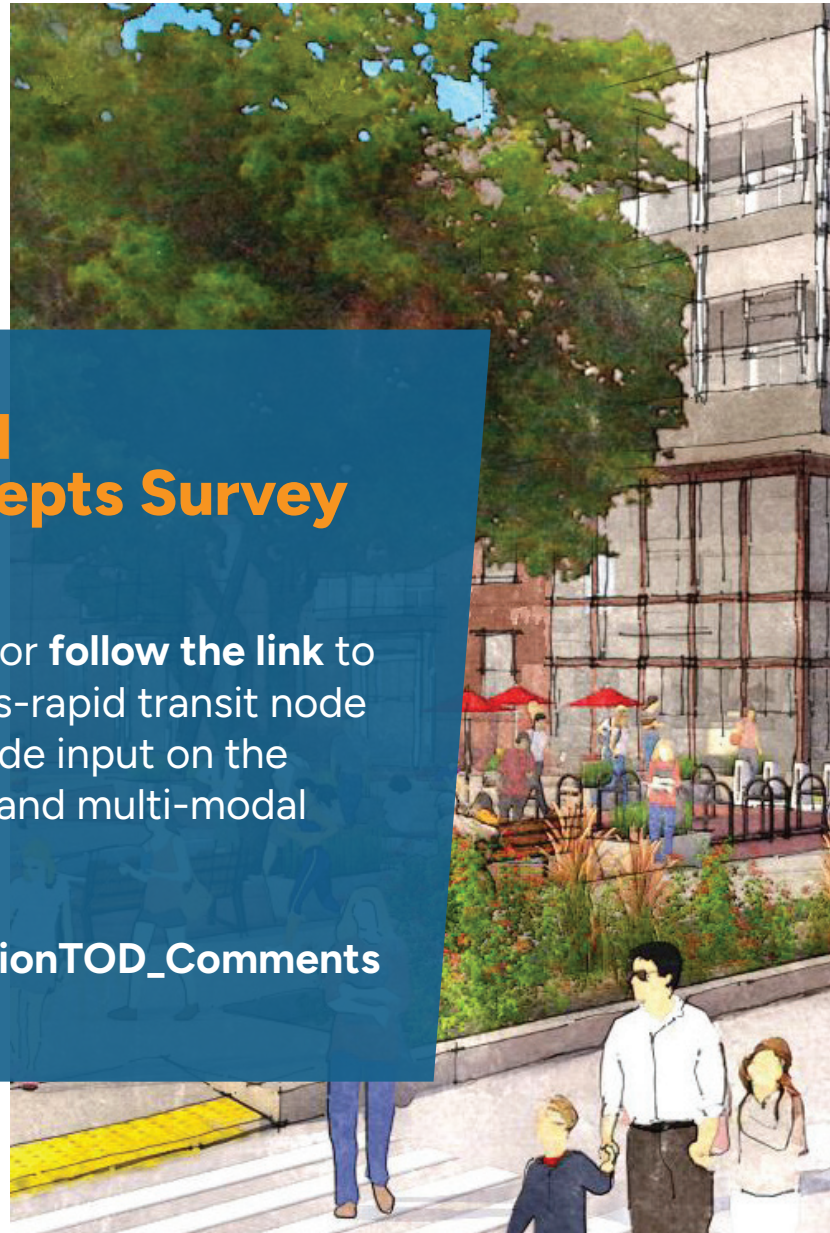

Scan the QR Code or follow the link to review the draft bus-rapid transit node concepts and provide input on the preferred land-use and multi-modal improvements.
