

# Hillyard Subarea Plan

Dear Community Stakeholder,

The City of Spokane is beginning to work on the Hillyard Subarea Plan. The plan intends to leverage previous planning studies and create strategies for addressing future housing needs, infrastructure deficiencies, and increase economic opportunity to improve the quality of life. The subarea plan should include strategies for the redevelopment of brownfields and underutilized properties.

The subarea planning processes and final strategies will focus on the entire Hillyard neighborhood. The project area is bounded by Crestline Street to the west, East Wellesley Avenue/Garnet Avenue to the South, South Havana Street/North Fancher Beacon Lane to the east, and East Francis Avenue to the north.

Stakeholders, like you, are critical in planning for the future of where you live, work, and play. We will need your guidance and feedback on a variety of topics in your neighborhood. If you have not been contacted already, we will aim to involve you in future engagement efforts.

## Upcoming Opportunities in September

- **Discovery Walking Tour, Wednesday, Sept. 20 at 4 p.m.** - Come tell us about your favorite neighborhood places and discuss locations of interest and/or potential redevelopment. The tour will start and end at the Hillyard Heritage Museum, 5104 N. Market St.
- **Community Workshop, Wednesday, Sept. 20 from 6-8 p.m., Northeast Youth Center (3004 E. Queen Ave.)** - Tell us your neighborhood needs and ideas for the future and learn about the Subarea Plan process.

We want to hear from you!
