Design Open House Comment Summary

Project: Hutton Elementary School Modernization and Addition
Date/Time: November 5, 2013, 5:30 p.m. to 6:30 p.m.
Location: Hutton Elementary School Gymnasium

The Design Open House complying with CUP requirements for Hutton was held on the first Tuesday evening in November, prior to the Rockwood Neighborhood Council meeting. This timing gave more neighbors an opportunity to review the plans and submit comments and suggestions. Previously, there had been two well-attended open houses coinciding with school events, one on May 23, 2013 which showed conceptual design information, and one on September 17, 2013, which presented virtually the same information as this CUP open house.

Everyone in attendance at each meeting was given the opportunity to provide comments in writing. Comments heard about the design were overwhelmingly positive, and several people expressed appreciation for the way the school district involved the committee from the Rockwood Neighborhood Council.

- People were glad to see that the design had evolved to be more in keeping with the existing building style, and appeared “less modern” than what they perceived from the early design ideas.
- Both neighbors and parents were concerned about the existing congestion issues and appreciated the addition of parent pull-out areas along 24th, which will allow two-way traffic even during pick up and drop off times.
- School staff and parents were pleased with the change in the parking area to the south of the school, which now places parking along the street and puts the drop off area along the building. Everyone was in agreement that this would be safer for the students and would further help to ease congestion.
- A couple of neighbors were concerned about the proposed change of the bus route, which would have the buses travel down Ivory Street. These concerns mainly related to the condition of the existing street. The school district is working with the city on this issue and is continuing to study the possibilities for how the street may be improved. A traffic study has been conducted as well as a test run with the bussing company, in order to make sure that the buses could actually maneuver the proposed route.

Session:	Design Open House
Date:	November 5, 2013

Design Open House

Project: Hutton Elementary School Modernization and Addition
Date/Time: November 5, 2013, 5:30 p.m. to 6:30 p.m.
Location: Hutton Elementary School Gymnasium

Please take a moment to share your thoughts regarding the Hutton Elementary School Modernization and Addition and return this form to a School District representative:

What do you like about the current designs?

I like it.

What suggestions do you have to improve the current designs?

I would like to see the gymnasium side have a nice esthetic appearance - blending old and new like we see on the plateau side.

Date/Time: November 5, 2013, 5:30 p.m. to 6:30 p.m.
Location: Hutton Elementary School Gymnasium

Please take a moment to share your thoughts regarding the Hutton Elementary School Modernization and Addition and return this form to a School District representative:

What do you like about the current designs?

I live at 1004 E Rockwood Blvd and own the lot directly to the south. My address is 1107 E Christmas Tree Lane (parcel # 35294, 0229 Rockwood Pines 2nd L5). The only ~~access~~ access I have to that lot is going north on Arthur St starting at 24th. With the re-do of Hutton School the end of 24th is to be re-worked. Please take care in my re-grading so I still can drive down the street.

What suggestions do you have to improve the current designs?

The re-grade will also impact by neighbors who live at 1104 E Christmas Tree Lane (parcel # 35294, 0233)

Thank you for your concern

What suggestions do you have to improve the current designs?

*I still recommend a meter be added at 24th + Arthur
for a possible future community garden.*
