Project Summary

The new streetscape design aims to promote this vibrancy through flexible streetscape elements that are both functional and provide creative community gathering opportunities. Over $160,000 will be invested on W Main Ave. The project calls for the restriping of W Main Ave between Washington St and Pine St.

In addition to restriping the following amenities are proposed on Main Ave between Browne and Division Streets:

- Planted entry feature
- Creation of a flexible multi-purpose space in the center of the street that can be used for different purposes during different times. During the weekday it will be a space for diagonal car parking. During special events, it can serve as a gathering area for people as well as parking.
- Mid-block crossing with curb extensions and planting
- Mid-block planters and benches
- Pay-by-Plate parking system with four kiosks
