The illustration above is a representation of the proposed project based on information provided to the client. Actual construction may vary dependent on approved tower and antenna manufacturer PEP. The Tower Services is not responsible for any post construction design changes. Moreover, disclaimer: On the event that the proposed installation includes a structure, tower, pole, or other structure, the proposed installation is not to be construed as a representation of the actual tower. The final installation will have exact, scale, and color. The final installation will be made to match the color of the existing structure. The final installation will be subject to the tower manufacturer's specifications.

Proposed

The rendering above is a representation of the proposed project based on information provided by the client. Actual construction may vary depending on approved permits and therefore PPS, Pacific Telecom Services is not responsible for any and all product, design, or construction changes. Moreover, the rendering is not intended to be an exact reproduction of an actual site. Views, field and other information may have been used to create this rendering. While every effort will be made to depict the proposed project as accurately as possible, the rendering is not intended to be an exact reproduction of an actual site. However, when there is a discrepancy between the rendering and the actual site, the actual site shall prevail.
