

# Neighborhood Retail Parking Standards

# WHAT'S NEXT?

Thank you for attending today and taking the time to review the code revisions and submitting your comments and suggestions on the draft

code changes. Please sign in and provide an email address so we can keep you informed of further actions as this project progresses.

This project will continue to be reviewed by the Plan Commission. Public comment received during this meeting will be summarized. The next draft will be updated on the

project webpage. The next Plan Commission is tentatively scheduled to take place in April. Public testimony will be taken. Check back on the project website for updates.

Following the Plan Commission Public Hearing and recommendation, the City Council will hear the proposed changes and hold a Public Hearing. At the Public Hearing there is an opportunity for written and oral testimony. After City Council makes a decision and after the Mayor signs there is a 30 day period before the changes go into effect.
