**Q5. Three intersection have been identified for safety enhancements including Montgomery, Grace, and Dalton. Are there other locations you feel enhanced crossings are needed?**

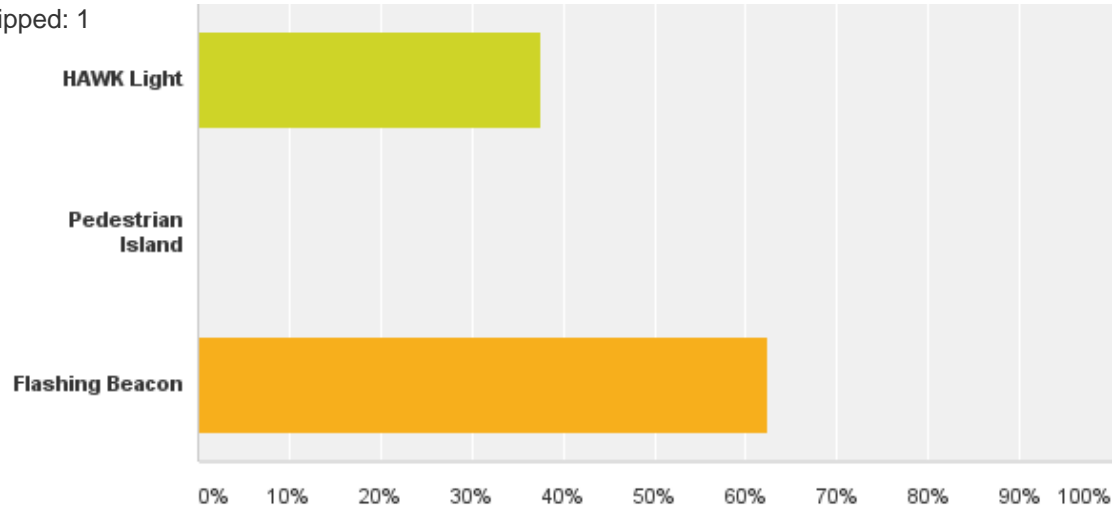

---

Monroe/Cora - not a fully "enhanced crossing" here, but something that makes pedestrians crossing Monroe at Cora more visible to southbound drivers coming down the Monroe St. Hill. I've come down the hill several evenings recently and noticed people crossing at Cora. It's dark and difficult to see them, it feels dangerous.

I would like to ensure that the "five corners" intersection (Indiana, NW Blvd, Monroe) is not neglected as it will function as a gateway and will attract ped activity.
