

Shadle Area Plan Studio

The Audubon-Downriver and Northwest neighborhood councils are collaborating on their neighborhood planning to develop a long-rang plan for the Shadle Area. The process will review land uses; identify pedestrian and multimodal improvements; examine traffic-calming measures; and explore opportunities related to existing parks and recreational features. The outcome will help improve walkability, public safety, access to services, and overall neighborhood character.

The Shadle Area Plan Studio offers the community an opportunity to participate in the plan’s creation, observing the City’s project team in action, attending project workshops, and influencing plan direction. It is open to the public for spontaneous drop-in visits, inviting conversation about how this part of Spokane can best evolve. The Studio features a range of exercises, too, suitable for a quick chat or a deeper dialogue.

Take part. Watch your ideas fold into the plan. Meet others. Make a difference in your community.

Tuesday, June 11

Time	Activity
------	----------

10:00 am	5:00 pm – Studio– Shadle Library
----------	----------------------------------

This Studio is part of the City of Spokane’s effort to involve the community in creating the Shadle Area Neighborhood Center Plan, setting direction for the area’s development and transformation. Please help Shadle envision and plan for its progress by:

- Speaking with us directly - we’re here to **listen and learn**, so tell us what you think!
- Checking out the various displays and maps
- Sharing your ideas by jotting down notes on any of the maps or materials
- Filling out one of our “Mini-Poll” questionnaires
- Taking part in the workshops that will occur here in the evening

6:00	8:00 pm – Workshop – Glover Middle School, Cafeteria
------	--

6:00	Presentation (City Staff, Consultant)
------	---------------------------------------

Slides and materials covering plan background, project scope, review of pressing issues, activity introduction

6:20 pm	Activity – Vision Assessment (Participant groups)
---------	---

Vision gap exercise; facilitated summary

7:15 pm	Presentations (Participant groups/Consultant)
---------	---

Slides and materials summarizing activity findings, possible direction

7:50 pm	Wrap up/Adjourn (Consultant)
---------	------------------------------

- Q/A
- Next steps
