Updating the Arterial Street Map

Feedback is needed as the City considers upgrading some residential streets to arterials.

Updating the Arterial Street Map

Timeline: Public feedback needed by October 11th, 2019

Plan Commission Hearing set for Oct. 23, 2019

Information:

From time to time, the City of Spokane reviews its inventory of arterial streets to ensure that streets are designated appropriately based on the volume and type of traffic that are using them. The official Arterial Street Map is part of the Spokane Municipal Code, and it hasn't been updated since 2008.

City staff have completed a review of the arterial system and have recommended eight locations to be upgraded from a residential (or local) street to a collector arterial (the lowest arterial designation in the system). A change from a local street to a collector arterial would result in noticeable changes to signage or striping. Below is the list of streets recommended to be changed. They are mapped on the back.

Providing Feedback

Citizens are asked to provide feedback on the proposed changes prior to a City Plan Commission hearing on this issue that is scheduled for Oct. 23. Please email comments to Inga Note inote@spokanecity.org. Or visit the project webpage for more information. https://my.spokanecity.org/projects/official-arterial-street-map-update-smc-12-08-040/
