

Construction Update

Project: Post Street Bridge

8.20.2020

Two week look-ahead:

- Access to the Post Street Bridge is closed to the public.
- Crews will be working on encapsulating lead paint found in the sewer supports. This work was pushed out a week due to extreme heat.
- Arch brace fabrication started this week and will continue through the end of August.
- Abutment rock excavation began this week and will continue through the end of August.
- Arch foundation core drilling will begin the week of August 24th.
