

Construction Update

Project: Post Street Bridge

8.25.2020

Two week look-ahead:

- Access to the Post Street Bridge is closed to the public.
- Crews will be working on encapsulating lead paint found in the sewer supports. Lead baseline testing will begin the week of August 30th.
- Arch brace fabrication will continue through the end of August.
- Abutment rock excavation will continue through September.
- Arch foundation core drilling will begin the week of August 24th and continue through September.
