Various planting palettes will be used throughout Riverfront Park Redevelopment depending upon the site specific conditions and the design program goals. Each planting area and planting palette will have high efficiency, fully automatic irrigation. Each planting palette will be developed from a selection of the species from the plant list (see below) and/or from similar species/cultivars; preference will be given to drought tolerant and native species except at “Seasonal Color Planting” areas. Planting palette types will include, but are not limited to, the following: “Native Mitigation Planting”, “River’s Edge Planting”, “Stormwater Treatment Planting”, “Ornamental Planting”, “Lawn”, and “Seasonal Color Planting”.
