

| ~~Section 17C.240.120~~ [Section 17C.240.090](#) Measurements

The standards contained in [SMC 17C.240.100](#) through [SMC 17C.240.130](#) address how the signs allowed in the various zoning categories are measured including sign area, height, and other parameters. These standards work in combination with the standards of [SMC 17C.240.190-140](#) through [SMC 17C.240.300](#) regarding allowed sign size, number, type, and other provisions.
