Re: Design for Sister Cities Garden Project/Riverfront Park

Dear Scott:

The Sister Cities Association of Spokane presented the attached design to City of Spokane Parks and Recreation for a garden to be located in Riverfront Park in the site of the Japanese Pavilion during Expo '74. Sister Cities has worked closely with Parks and Recreation and with the Spokane Arts Commission to come up with a design that fits well into the Park, is low maintenance, will draw people into a currently underutilized area, and will educate our citizens about our sister cities program.

I recommend approval of the Sister Cities Garden design.

Sincerely,

A handwritten signature in blue ink, appearing to read "Leroy Eadie".
